

"Life Work" Topic of Y. W. Session

Miss Frieda Price—Leader

A very interesting and helpful meeting of the Y. W. was held under the leadership of Miss Frieda Price last Tuesday evening. The topic of the evening was, "How To Choose a Life Work." Misses Crofford and Lichty sang the opening number of the program.

The meeting proceeded as a topic meeting, each girl taking one phase of the topic and expostulating fully upon it. Miss Hostetler told what a surrendered life means. "Surrendered life means Voluntary Sacrifice of ourselves unto God to do His will" she said. She went farther to show the necessity of full surrender and the importance of knowing that we have surrendered ourselves.

Miss Bond explained why we should surrender our lives. She went on to show that we should not close our ears to the words of the Lord. She showed that the Lord had need of every one in his work.

Miss Haun told how a surrendered life will effect every individual. "After we have surrendered our lives a definite change takes place, we become hopeful and steadfast if we have placed our whole trust in the Lord."

The last discussion was led by Miss Owens. She spoke of the reward of a surrendered life. "We should be willing to give up the evil things of life for we have the promise of eternal life" she said.

The next meeting will be a joint session with the Y. M. next Tuesday evening.

PHILOMATHEAN

Installation services will take place at Philomathean Hall this Friday night. The newly elected officers for the next six weeks will be installed. A regular program will be given.

All members are requested to attend and visitors are extended a cordial welcome.

HESPERIAN

Hesperian activities have entered a new epoch. A new corps of officers have entered office with very liberal ideas of literary work. Mr. Black, with a superfluous amount of energy has entered upon the work of the vice president with plenty of pep and push. As the constitution provides for a special program committee, Mr. Black was very careful in this selection. With liberal ideas predominating, the Freshmen are to begin to share the opportunities of the society. The next program will be given:

Saxophone Solo Roland Thudium

At the retreat of the Ohio Northern Student Volunteer Union, held at Ashland College November 10, 11, and 12, Don Webster and Mary Cushman of Oberlin College were elected to represent the Northern Ohio Union at the National Council meeting at New York.

Arthur—I know a man, married for 30 years, who stays at home every evening.
Amy (with feeling)—That is love.
Arthur—No. It's rheumatism.

DR. MACKEY PREACHES AT SUNDAY CHAPEL

"Wisdom of God"--Theme

Dr. Mackey a former member of the Faculty of Ashland College, preached the sermon in the Chapel last Sunday morning. His topic was "The Wisdom of God."

He began his sermon by saying that all wise people are not good. The Greeks wise people are not good. The Greeks wisdom is with God so is God's wisdom foolishness with men," he said in explaining. He said that God passed the wise people by and chose the common intellects of life to work out his manifestations.

In speaking of the relation of God to man, he said, "Just as a failing business man takes a partner to keep from bankruptcy, so should we take Christ as our partner when we face the rough places of life." "The guilty man wants God for he is continually seeking something which will make him clean and pure and true in God's sight. He wants a mind greater than his own which will tell him when to do right and how to do it." He went on to show how the mighty minds of the world have been built up by a mere sensual intellectual process have forgotten God and fallen.

He concluded by explaining the philosophy of Christ's gospels. "Just as the Greek Philosophy had three elements, so did the Philosophy of Christ have three elements, Righteousness, Sanctification and Redemption." "These three are by far greater than any other philosophy ever was," he said in closing.

The room had the true appearance of a fair ground. The chance wheel, the nigger baby booth and the machinery exhibit, as well as the various sideshows helped materially in obtaining the desired effect.
