

PEVERLY HILL

PJ 18 Jan 1879 -- "Hon. Frank Jones will store about 700 tons of ice this season, all of which is cut from his pond at Peverly Hill."

The ~~pond~~ ^{on} Peverly Hill ponds are what is known as Elwyn brook, and the water flows into Sagamore Creeks. The ponds are presently owned by Iafolla Industries, and play a part in their stone-crushing process.
