FACTS and FICTION

BEING

"Read not to contradict and confute, nor to find talk and discourse, but to weigh and consider."—Francis Bacon.

By Harry Williamson

Is this to become an age of Rackets? Is the individual citizen to disappear as a factor in our civilization, and the mass to rule?

How many independent free thinking human beings can you count—men who think straight, and hit point blank from the shoulder?

Little Orphan Annie's old friend in the comic strip has been forced to pay his twenty-five dollars per week for "protection," and all over this country of ours people are paying their prorata parts for "protection."

"I wouldn't dare oppose the State Department of Education," a rural county superintendent said a few weeks ago at the State Teachers Association. "They can come down there in my county and ruin me," he went on.

And for what? His job was at stake. Is it a racket? If not what can you name it?

With the underworld hi-jacker, it is an amount of money paid for "protection," or rather to prevent some rival from blowing you into kingdom come. With this rural county superintendent, it was unwilling support—it is all the same.

"God give us men; a time like this demands

Strong minds, great hearts, true faith and ready hands;

Men whom the lust of office cannot kill;

Men whom the spoils of office cannot buy;

Men who possess opinions and a will; Men who have honor; men who will not flie;

Men who can stand before a demagogue,

And brave his treacherous flatteries without winking;

Tall men, sun-crowned, who live above the fog,

In public duty and in private thinking;

For while the babble, with its thumb worn creeds,

Its large professions, and its little deeds,

Mingle in selfish strife, lo! Freedom weeps;

Wrong rules the land, and waiting Justice sleeps."

—J. G. Holland.

Goldology

Did You Know That—

Gold is almost twice as heavy as lead.

It can be hammered so thin that 300,000 sheets make a pile only an inch high.

It can be drawn into a wire so slender that 20,000 of them, side by side, only measure an inch.

A million dollars in gold occupies less than three cubic feet.

All the gold stock in the world would make a block less than thirty feet square.

Pure gold is precisely the same, no matter where found.

Pure gold is called 24 carat. Eighteen carat gold, for example, means 18 carats of gold and six carats of some alloy, like copper.

White gold is mixed with silver. Red gold is mixed with copper, and green gold is mixed with aluminum.

U. S. gold coins are nine parts gold and one part copper.

Gold is the most uniformly precious metal, is universally scarce and so has become the standard of value in almost every civilized country.

From 1850 to 1900 approximately \$7,000,000,000 worth of gold was produced, or more than twice the amount added during the preceding 400 years.

The principal gold strikes were: California, in 1848; Australia, in 1851; British Columbia, in 1858; New Zealand, in 1861; South Africa, in 1868; Japan, in 1880; Klondike, in 1896; Nome, in 1899; Porcupine, in 1910.

Was Byrd wrong? The intrepid conqueror of both the North and the

SCOUT NEWS

On Sunday morning, April 19th, Scoutmaster Ben B. Coffey, Mrs. Coffey, and four scouts of Mr. Coffey's troop in Memphis met Scoutmaster Houston and two local scouts Henry and Garner Rutledge, on Poplar Pike at the Bailey road and from there drove to Wolf River. The object of the trip was to find as many different kinds of birds as possible. Mr. and Mrs. Coffey, both are members of the Tennessee Ornithological Society and are well acquainted with birds in Tennessee.

The hike started about eight and lasted until noon. When a count was taken, Mr. Coffey found that about fifty-five different kind of birds had been identified. Among these were some uncommon birds and some summer migrants that arrived early. Of these were the Kentucky Warbler, Blue-gray Gnatcatcher, Red-shouldered Hawk, and a summer bird, a Tanager, the first seen this summer.

An interesting event occurred when Scoutmaster Houston caught a large snake—a Blue Racer. Mr. Coffey then pointed out the differences between poisonous and non-poisonous snakes. The Blue Racer is a specimen of the latter type, having a small oval head, a single pair of nostrils, a long keen tail and single scales. A poisonous snake has a flat broad, triangular head, two pairs of nostrils, broad stubby tail, and in some cases, double scales. The most common poisonous snakes in this section are copperheads and water moccasins.

The hikers returned to the cars about twelve-thirty and enjoyed a very welcome lunch provided by Mr. Houston.

At this time of year, hundreds of birds are migrating to various parts of the country where conditions for the raising of their broods are more suitable. The woods and fields are full of melody and flashing color. Fortunate indeed is the person who is intimate enough with birds to recognize them by song or plumage.

South Poles cancels his engagement with the Junior League in Memphis where tickets had already been sold for his appearance on Wednesday night to hurry to Boston where his faithful dog, Igloo, his mascot on both his polar trips, is sick.

"Igloo is sick, and I must hasten to Boston to see him," was his comment when pressed to keep his engagement in Memphis.

The reaction of the press will be interesting. At this writing—on the morning of the first announcement in the newspaper—it is our prophecy that this event will go down in the history of Admiral Byrd along with his great flights. The world loves such faithfulness, even if it is only a little fox trier dog. Unquestionably Byrd must be great.

Is an education worthwhile—such as you are able to get in our schools? A recent survey based on "Who's Who in America" brought forth the following facts:

DISTINGUISHED MEN OF AMERICA AND THEIR EDUCATION

—With no schooling

Of 1 million, only 6 attained distinction.

—With Elementary Schooling

Of 1 million, 25 attained distinction.

—With High School Education

Of 1 million, 623 attained distinction.

—With College Education

Of 1 million, 5,768 attained distinction.

The man with no schooling has one chance in 164,667 of performing distinguished service; with elementary education, he has four times the chance; with high school education, 104 times the chance; with college education, 962 times the chance.

Remain in school and increase your chances of attaining distinction.

As a warning to our local doctors to be careful about giving directions the following is quoted:

"Here lies the body of Susan Browder

Who burst while drinking a Seidlitz powder.

Called from this world to her heavenly rest,

She should have waited till it effervesced."

INTERESTING TALK WILL BE BROADCAST

Earl Musselman, sightless for 22 years and rescued from eternal darkness, will tell of his amazing sensations and experiences when sight was restored to him.

This is one of the most remarkable vision stories of the Twentieth Century. The scientific and professional worlds are deeply intrigued by it. Psychologists and educators are fascinated by the reactions of this fortunate youth, who is beginning a new life at the age of twenty-two years. To most people vision has always been taken for granted. They think too little of its preservation. Only when serious trouble develops do they become conscious of the great importance of good vision. Such an experience as Earl Musselman's takes place but once in a generation. To him the discovery of eyesight has been dramatic.

In very colorful style, Mr. John B. Kennedy, noted director of the Collier programs, will tell the story of Earl Musselman and his great adventure into the world of sight—of light—of color—of motion—of form and space. Earl Musselman himself will stir your interest and imagination with his own story.

The broadcast will come to listeners in this section from stations WLV, Cincinnati, KYW, Chicago, WREN, Kansas City, and KWK at St. Louis. It will be broadcast at 8:15 P. M. Central Standard Time on Sunday, April 26th. The program is sponsored by Collier's and the Bieler Vision Institute.

TO SERVE ICE CREAM AND CAKE

4-H CLUB HAS

INTERESTING PROGRAM

At the last regular meeting of the 4-H Club, a very interesting program consisting of poems, 4-H club reports from other places, and business discussions were given by several of the club girls. Miss Velma Strong presiding. Miss Agnes Donaldson, county club agent, was present and presented a number of excellent reasons why club boys and girls should keep records. She especially stressed the fact that the boy or girl who wins is the boy or girl who has kept the neatest and most accurate record of the year's work.

After the regular joint meeting adjourned, a special meeting of the girls was held, and plans were made to have Miss Donaldson hold a canning demonstration as soon as our beets and peas are ready for market. Miss Donaldson announced that Miss Guthrie would hold a demonstration on strawberry preserves and jams the first week in May, the exact date to be given later.

DON'T YOU NEED SOME HELP?

At a recent meeting of the 4-H Club, each member pledged himself to earn a quarter to help pay the expenses of the most worthy members to the state club camp in Knoxville this summer. It may be that some of these boys and girls have already earned their quarters, but there are many who have not. Now these club members are willing and happy to work, so if you have any windows to be washed, lawns to be mowed, garden to be plowed or hoed or any other odd jobs, just call on a 4-H club member and you'll no doubt be surprised at the good work. The members are: Willard Livingston, Albert Persons, Thomas Suggs, Karr Hinton, Jr., Paul Piper, Claud Salmon, Jr., Perry Hughes, John Kirk, Jr., B. McCandless, Maynard Wingo, Ewing Lee Hurdle, Howard Anderson, Cecil Yarber, James Kelsey, Claude Dunn, Fred Crawford, Herman Harper, William Looney, Laverne Scott, Aubrey Ballard, Milton McCandless, Herman Russell, Varraine Powell, Garner Rutledge, and J. R. Hirschmann.

HAS VERY FINE OAT CROP

A specimen of Fulghum oats, grown by W. L. Linderman, was brought into town Tuesday, and has attracted much attention. Mr. Linderman has about one acre of these extra fine oats, planted November 1st, and they will be ripe within the next ten days. He estimates a yield of 45 to 50 bushels per acre. The land was flat broke with a two-horse plow, followed with a sub-soller, then a disc was used twice over the land. The seed was broadcast and harrowed. The patch is a very pretty sight, the oats averaging 3 1/2 feet in height.

HEALTH COLUMN

By Dr. Wallace P. Moore Rabies

Rabies is more or less prevalent the year round in Memphis and Shelby County. As the dog is the principal reservoir of the rabies virus and chief transmitter of the disease, control of this problem depends upon the intelligent regulation of the dog population. Systematic anti-rabic vaccination of all dogs will materially reduce the incidence of Rabies exposure in the human. Immunity is established in about two weeks after the dog has been vaccinated and should protect from bites of rabid animals for about one year. Municipalities where compulsory anti-rabic vaccination is enforced, reports few if any cases of rabies in dogs vaccinated with the single dose method. Every dog owner in Memphis and Shelby County should take their dogs to a veterinarian and have them vaccinated. The price for vaccination will be \$1.50 to \$2.00 according to the size of the dog. —Shelby Co. Health Department.

PREPARING FOR SCHOOL

Purchasing clothing and books for your child does not complete preparations for the new school year. Make sure that a healthy body is part of your child's equipment this fall.

Give him: Strong white teeth! Your dentist will fill all decayed spots. Keen eyes! Don't let him grope in the dark for his share of knowledge. Normal Weight! A regular, well-planned diet will drive away malnutrition.

Germ-defying throat! Diseased tonsils must be removed if infections are to be resisted.

Good posture! A slouch never develops into a good physique. Sleep! School children demand long hours of rest in a well ventilated room.

Alertness! If your child is well-armed physically, he will hold his own mentally.

Pre-School Clinic

A Pre-School Clinic will be held at Collierville school on April 27th, 1931, at 9:00 A. M. At this time, pre-school children will be examined and given necessary immunizations. Infants and adults are also invited to the clinic. Toxin Antitoxin, Typhoid and Smallpox vaccination will be given.

LETTERS TO THE EDITOR

The following letter was written
to the Commercial Appeal by Mr. P.
W. Phinizy, and we reprint it for
the benefit of our readers.

To The Commercial Appeal:—

If it be true (quoting from a re-
cent publication of the Commercial
Appeal) that ninety-six percent of
the population of this government
possess and control only twenty per-
cent of its wealth, the remaining
four percent possess and control
eighty per cent of the entire wealth
of this government. No wonder that
that four percent of the population
of this government was able to con-
tribute in 1928 seven millions of
dollars to elect a president.

Seven millions of dollars was cheap
for the unprecedented tariff bill.
This tariff bill, the highest ever
passed by any civilized nation, lost
to this government thirty odd mil-
lion who had been for years the best
customers America ever had. These
nations not only resented this tariff
legislation but retaliated in raising
their own tariff on commodities here
tofore purchased by the United
States, and practically boycotted us.
Any political party accepting con-
tributions of millions contributed by
so small a minority actually incapac-
itates that party towards giving any
relief to the ninety six percent of
the people of this government who
do not own that much money, but
do need relief and employment.

I think that the time has come
for both political parties to pause,
hesitate and ponder how long such
conditions can possibly continue and
be awakened to the only natural con-
sequence. It has been aptly said,
"The idle man's brain is the devil's
workshop."

The greatest document ever penned
by mortal hand is the Constitution
of the United States of America. This
Constitution declares to each and
every citizen equal rights and special
privileges to none. The paramount
issue confronting the American peo-
ple this year and next year is relief
from their sufferings, and no relief
can be vouch-safe until some sane
and definite disposition of our sur-
plus wheat and cotton is made and
modification of that extraordinary
tariff bill. This should be done with-
out delay upon convening of next
Congress and there should be a bill
introduced authorizing the govern-
ment to construct suitable ware-
houses, and store the surplus wheat
and cotton under government seal,
not to be opened for a period of ten
or more years or in case of war,
drouth or failure in one or both of
these crops. In my opinion such
legislation would restore prosperity
happiness and contentment through-
out this land, and without such re-
lief no man can predict or guaran-
tee the stability of our government.

With a seven hundred million
treasury deficient and a budget of
two billion nine hundred and sixty
million dollars, where is the unem-
ployed to look for relief? I am no
calamity howler nor am I a socialist.
I cast my first vote for W. S. Han-
cock for President and have never
scratched a ballot. In fact only re-
cently at a banquet, Senator McKel-
lar me by calling am a "yellow dog
democrat" but I can see the hand-
writing on the wall, and it is up to
the Democrats, the representatives
of that ninety six percent possessing
no wealth to save the government.
—P. W. Phinizy.

THE SEVEN PRESIDENTS
THAT I HAVE KNOWN

(The following is an essay written
by Miss Ida Dawkins, a Junior of the
Collierville High School, on the
speech made by Sen. K. D. McKellar
at the Scholastic Banquet held re-
cently at the Gym.)

Senator McKellar has naturally a
characteristic that most people have
to labor to attain; that is the ability
to hold the audience's attention.
Not only is he a talented speaker,
but he used common sense in choos-
ing his subject. He chose a topic—
"The Seven Presidents That I Have
Known Personally"—to talk on that
would interest every one. According
to Senator McKellar, the character
of these presidents are sketched as
the following.

President McKinley, a big kind
man, was the first of the presidents
that he knew personally. Senator

McKellar was just a boy then, still
President McKinley treated him as
if he were his equal in age and im-
portance. It might be said that the
first president that our Senator knew
was: "Friendly as he went his way.
Generous-handed day by day. Keep-
ing though he rise or fall—The love
and good esteem of all".

Roosevelt, the second of the pre-
sidents, had a brilliant mind and was
a wonderful leader. Roosevelt, like
Emerson, realized that blame was
safer than praise as long as one did
not succumb to the blame. He was
criticized for building the Panama
Canal, but as he was self-reliant, he
finished his job. To-day that Canal
has over paid itself many times.

President Taft has held many im-
portant offices in the United States
government, and was very efficient
in all of them except one—the presi-
dency. He was very unsuited to be
the president of the United States;
still he did his duty as well as he
could. President Taft is the only man
who filled the two chief offices of the
United States: the presidency and
chief justice of the Supreme Court.

"Lives of great men all remind us.
We can make our lives sublime and
departing leave behind us footprints
on the sands of time". The footprints
of Woodrow Wilson seemed to have
made a deep impression on Senator
McKellar's mind. During the World
War, he met many great men, but
Wilson was the greatest man that he
ever knew. When just a boy, people
pointed him out as the future pre-
sident of our country because he
acted the part of a president. Be-
cause of political strife, his ambition
for America to enter the League of
Nations has never been realized. The
world may ring no bells, no trumpets
blow—but the books of Heaven will
his shining record show.

The handsomest man that he ever
knew was President Harding—the
golf player. Life to him, was a game
of following the leader. Just to show
how easily President Harding was to
influence Senator McKellar gave the
illustration of how Harding's doctor
was the underlying cause of the end
to a deadlock in the Senate.

The words calm and self-reliant
describe President Coolidge. He had
very little enthusiasm. Senator Mc-
Kellar made an effort to converse
with him on a very enthusiastic sub-
ject, but it was a fruitless effort as
all President Coolidge would say was
"Yesah".

President Hoover is the thirty-first
president of the United States; and to
McKellar's mind, he ranks thirty-first
President Hoover probably means
well, anyway, he will be a better pre-
sident during the next two years of
his rule than he has been in the past
two—he can't be worse.

Senator McKellar ended his talk
by thanking the people at the ban-
quet for listening to him so attentively.
In my opinion, he is one of the
few of the world's great men who
has learned the value of simplicity;
who has learned the secret of being
great.

LOEW'S STRAND, MEMPHIS

Monday, April 27th, Loew's Strand
offers the Harold Bell Wright story,
"The Eyes of the World" with
Una Merkel, John Holland and Nanc
O'Neil. The story is placed in the
mountain country of California and
unfolds the romance of a simple
maiden of the hills who meets and
falls in love with a young artist
from the cities. The picture is rich
in human experience, and aspartle
with romance and beauty.

The latter half of the week begin-
ning Thursday, April 30th, Gary
Cooper will be presented in "City
Streets" with Sylvia Sidney. Cooper
is cast as the operator of a shooting
gallery in a carnival troupe whose
love for the girl involves him in the
operations and feuds of the beer-run-
ning law-scoffers of the big city.
This is a terrific, modern-day action
drama that will awaken you to a
new understanding of the world in
which you live.

LOEW'S PALACE, MEMPHIS

Saturday, April 25th, Loew's Pal-
ace presents "The First Lady of the
Screen," Ruth Chatterton, in "Un-
faithful" with Paul Lukas. Miss
Chatterton's great talent is given un-
restricted play in her latest starring
dramatic hit, "Unfaithful." She is

beautiful, appealing, commanding
and superb. The story is one of
love and conflict and pride; of a hus-
band who reveals himself faithless
on his honeymoon; of a good woman
whose wounded pride whips her to
reckless actions which make her the
most slandered woman in Europe.
She matches her husband's spurious
good reputation with a bad reputa-
tion of her own, equally spurious.
And to save her from mad abandon,
Paul Lukas, who performed so su-
perbly with Chatterton in other
roles, comes to love her.

LOEW'S STATE, MEMPHIS

Friday, April 24th, Loew's State
presents William Haines in "A Tail-
or Made Man." Opposite Haines is
a little girl who claims Clarksville,
Tenn., as her birth place. She is
Dorothy Jordan. The story is one
of a youngster who becomes an ex-
ecutive of a big concern and high-
pressures business depression out of
it. He high-pressures himself into
the heart of the lady he loves as
well. The picture includes a remedy
for present business troubles in a
tautoid lesson wedged into a con-
nection of hilarious laughing situations.
It depicts a delicate love story and a
very dramatic adventure of a youth
who applies the good old American
grit to a bad situation. Haines a-
bandons smart cracking to a consid-
erable extent to give a very earnest
and serious performance—though he
manages to get in as many laughs
as he usually does.

Loew's "Ace" Vaudeville offers an
entirely new idea of stage shows for
this week. The revue is known as
"Doll Follies."

gowned in a handsome spring suit
of dark blue, with hat of blue and
with shoes and gloves of beige.

which amounted to \$16.75. Mrs. L.
P. Pearce reported that \$6.90 was
cleared from the sale of old maga-
zines and papers. It was voted that
\$20.00 be taken from these funds
and be applied on the note made for
the church improvement.

During the social hour, Mrs. Mc-
Ferrin, assisted by Miss Frances
Price and Mrs. Fleming, served a
salad course to seventeen members
and ten visitors. Mrs. B. P. Wilson,
president, graciously expressed the
gratitude of the Society for the ex-
cellent program, especially thanking
the children for their numbers. She
also expressed the happiness of the
Society for the presence of so many
visitors. The meeting closed with
the League Benediction.

Eighth Grade Entertains Mothers

On last Thursday afternoon, April
16th, the Eighth Grade of the Col-
lierville School, under the direction
of Miss Doscia Hinton entertained
the mothers of the class members.

The Home Economics room was
artistically decorated with purple
iris, white narcissi and bridal wreath.

Several exciting games of hearts
were played, Mrs. Claud Salmon re-
ceiving the high score and was pre-
sented a lovely vase. Mrs. Maude
Jones and Mrs. T. E. Watkins cut
for consolation with Mrs. Watkins
proving to be the lucky one, and re-
ceived a box of handkerchiefs. Fol-
lowing the games, the young girls
of the class served a most delightful
salad plate and iced tea. Each one
present expressed herself as having
enjoyed the afternoon. Much credit
is due the teacher and each member
of the class for this pleasant occa-
sion.

Thursday Night Club

Mr. and Mrs. Cecil Cox honored
the Thursday Night Club last week
at a delightful spring bridge social
at their home on Southern Avenue.
A graceful arrangement of tulips,
flags, spirea, wistaria, and wild vi-
olets—gifts from Mrs. J. S. Fleming
—adorned the rooms opened for the
games.

Mrs. Cox received the guests wear-
ing a new spring frock of blue chif-
fon. In the late evening she, assist-
ed by Miss Marylee Cox, served a
salad course. The guest list includ-
ed other than the club members, Mrs.
Cox's sister, Mrs. A. B. Tipton, and
Mr. Tipton, her brother, Mr. J. M.
Blake, and Mrs. Blake, from Mem-
phis, and Miss Marylee Cox.

Mrs. Jenkins Entertains R. L. B. C.

The R. L. B. C. met with Mrs.
Julian Jenkins on Tuesday afternoon.
The room was lovely with spring
flowers of green and orchid shades.

Mrs. Neil Moore, the president,
presided over the meeting which was
opened with prayer. Mrs. Jenkins
had charge of the social part of the
program, during which we had a
very unusual contest. One of the
questions being "What Bible Char-
acter act a book?"

Mrs. Edgar Morton had charge of
the Bible study, the character study
being Esther. Mrs. Morton proved
herself a good teacher and a most
interesting and profitable study was
held. All the ladies are showing a
very keen interest in the study.

Mrs. Jenkins served delicious ice
cream and cake, after which her
daughter, Norma Louise, gave a read-
ing, "My Shadow." Little James Earl
and Dorothy Jean Clayton also did
short readings which were enjoyed
by all.

It was decided to meet next week
with Mrs. Coyle, and the character
study will be Elizabeth, mother of
John the Baptist.
