FAIRHOPE, ALA., FRIDAY, JANUARY 6, 1911.

WEEKLY, \$1.00 A YEAR

# UNIQUE WEDDING

Celebrated Under the Magnolia, on Fairhope Beach. Witnessed by Large Audience.

Last week was an exciting one for Fairhope. One of its chief events was a very dramatic, original and charming wedding. It took place under our magnific int old magnolia tree, which has for years been the theatre of varied functions, from the children's picnics to Fourth of July celebrations but never before has it been honored by a marriage ceremony. We refer to the marriage of our friend and neighbor, Miss Anna Dickinson Pope of Great Barrington, Mass., and Fairhope, and Mr. John Randolph of Tarrytown, New Yo.k, which took place on the aiternoon of December thirty-first.

The Euclid school house is beplace under the supervision of Contractor Brann to a spot one-quar-

For years the building has stood on land owned by N. J. Nielson in Sec. 28. The land had never been deeded to the county and to this the latter claiming it had no jurisdiction because the land which had been donated for school purposes by Mr. Nielson, contained but one acre, while the law called for two acres. Efforts made by the local school board to purchase an additional acre and then deed it to the board of education were not received in the spirit intended and the subject was dropped.

. In the interest of harmony, however a proposition to buy two acres of land from Mr. A. J. Greg-Why don't the Town Council give son on Sec. 33 was made and adopted. Gardens Discouraged. Satsuma Oranges not Believed to be Bauly Injured.

Monday started out beautiful and warm as a spring morning, but before nine o'clock a "blue norther" -one with rain as well as windbroke over us and the mercury in the thermomoter went tumbling. It didn't stop until it reached on Wednesday morning 14 degrees according to the Courier's "official thermometer" though the Mobile weather bureau only reported a minimum of 18, which was what was reported by several others here. During all of Wednesday the mercury remained below freezing in the shade and Thursday morning stood at 22 degrees at six o'clock.

This is very cold weather for this country. The mark of 14 is the coldest in many years.

It is not believed that serious damage has been done the Satsuma orange trees, though many of damage can be accurately told.

Many water pipes were frozen about town and Mr. Paton was kept busy for a couple of days shutting off the water from prem-

Method for Bringing Orchard Into Better Fertility.

Sowing Burr Clover is Excellent Plan -Wornout Lands Can Best Be Restored by Planting Cowpeas and Turning Under.

(By H. H. HARRINGTON, Texas Experiment Station.)

One of the best methods for bringing an orchard into better fertility is to clover will grow and soon cover the long; 2 timbers of medium size 16 ground during the winter and early spring. The burr clover will ripen its seed during the early part of the month of May, and should be then turned under and the land kept in clean cultivation until the next fall, when the clover seed left in the ground will germinate and give you another covering for the entire winter and early spring. The burr clover seed will not germinate during the summer, no matter how favorable the conditions may appear. It does not grow before cool weather of the fall, and it is not necessary in the spring to wait until the clover is all dead before plowing it under, only be sure that a goodly part of its pods have ripened sufficiently to reseed the land.

As a general thing, the Keiffer pear does not need much fertility. The same is true of the LeConte, since if well fertilized and well cultivated, their growth is liable to become strong and mature for fruit, and at the same time become much more liable to the blight. Apples should be pruned and fertilized with burr clover, as in the case of the peach.

One of the best crops that can be raised for forage is peanuts, as this Home-Made Implement Will Be crop comprises both grain and roughvery severe on the land, and the value The wearing of heron, by the way, of the crops upon poor land is deis prohibited by law in several states, cidedly less than the damage they do

Fertilizers can be obtained in nearly all small towns from the local cotton seed oil company, and a great many merchants deal in fertilizers for the accommodation of their customers. Worn out sandy land can best be restored by planting it to cowpeas and turning them under, as soon as they woman of taste to make another have reached their full size and commence flowering, for green manure. By waiting longer to turn them under, there is a loss in the fertilizing value of the peavines, inasmuch as the materials of plant food become concentrated in the ripening of the peas. In improving poor land, crops of varicrops of cowpeas, which will soon viphysical condition of the land, forming | time of it and grow very little. tion with which women, or rather more loose, and a loose soil more compact. The humus formed will be a which in less sandy soil are readily

"Oh, it's very short."
"I thought it would be short," said Mr. Woppington, grimly.

Decidedly Not. "Does this train stop at Willow Grove?"

"No, boss," replied the porter; "it won't even hesitate."

Directions for Erecting Very Handy Machine to Be Operated by Three Men and Horse.

To construct the stacker shown in the illustration take two large timbers 10 feet long. Set one of them in the ground and make solid with guys. The other is fixed on a block 18x36x8 in. Fasten the pulley and rope at top. Tie rope at middle pulley, put through pulley at top of pole in ground, then through a pulley on ground. Pull the load up with a good horse. Three men and a horse are needed for operating the stacker. The materials resow burr clover in the early fall. This clover will grow and soon cover the

SYNOPSIS.

At the expense of a soiled hat Herbert Orme saves from arrest a girl in a black touring car who has caused a traffic jam on State street. He buys a new hat and is given a five dollar bill with: "Remember person you pay this to," written on it. A second time he helps the girl in the black car and learns that in Tom and Bessie Wallingham they have mutual friends, but gets no further hint of her identity. In his rooms at the Pere Marquette he telephones Bessie Wallingham and agrees to golf at Arradale on the morrow. He discovers another inscription on the marked bill, which, in a futile attempt to decipher, he copies and places the copy in a drawer.

Was wondering whether this was some new counterneiting dodge. How exsily most persons could be induced to make the transfer!

A counterfeiter, however, would hardly work by so picturesque and noticeable a method, unless he were carefully disguised—hardly even then. Was Senor Poritol disguised? Orme looked at him more closely. No, he could see where the roots of the coarse black hair joined the scalp. And there was not the least evidence of make up on the face Nevertheless

CHAPTER II.

Senor Poritol.

When Orme answered the knock at the door a singular young man stood at the threshold. He was short, wiry, thing. and very dark. His nose was long and complacently tilted at the end. His eyes were small and very black. His ety," pleaded the visitor. mouth was a wide, uncertain slit. In his hand he carried a light cane and a are a stranger, Senor Poritol. I don't actness.

Drme, motioning toward a chair.

his face into a smile and extending his out through his nostrils. hand, which Orme took rather dubiously-it was supple and moist.

"Oh, this is Mr. Orme, is it not?" "Yes," said Orme, freeing himself from the unpleasant handshake. 'Mr. Robert Orme?"

"Yes, that is my name. What can I do for you?"

For a moment Senor Poritol appeared to hover like a timid bird; then he seated himself on the edge of he began, "that I come from a country gave it to." brightly.

"And in the second place," he continin your dear country, I regard myseif as in spirit one of your natives. I Princeton."

'You are a Portuguese-I infer from your name," said Orme.

Mr. Orme—one of the poor relations of your great country." Again the business trip.

| Consequent again that to do—?" | Orme pushed a sheet of paper of the poor relations tacked by death while he was on a but what has that to do—?" widened smile. Then he suddenly bethe business of our meeting, Mr. made all haste to his bedside."

Orme." "No?" inquired Orme.

"No, my dear sir. I have come to ask of you about the five-dollar bill this afternoon." He peered anxiously. "You still have it? You have not spent it?"

"A marked bill, was it not?"

sir, where is it?"

"Written across the face of it were this to." "Oh, yes, yes."

"And on the back of it-"

"On the back of it!" gasped the lit- me, his old friend. "Was a curious cryptogram."

Senor Poritol. "Have you got it?" His fingers worked nervously.

"Yes," said Orme slowly, "I have it."

Senor Poritol hastily took a fresh waved his other hand rhetorically. Even as I finished it, dear Lopez "That, and that alone, is my business breathed his last breath." with you, dear sir."

Orme's hand went to his pocket. The visitor watched the motion eag- rich deposit in the Urinaba mounerly, and a grimace of disappointment | tains?" contracted his features when the hand came forth, holding a cigar case.

"Have one," Orme urged. In his anxiety the little man almost danced. "But, sir," he broke forth, "I am in desperate hurry. I must meet mines." a friend. I must catch a train.'

"One moment," interrupted Ormo. "I can't very well give up that bill back the one I yearn for." until I know a little better what it Orme hesitated. "A moment more, that you are entitled to it-and"-he possession of the marked bill?" smiled-"meantime you'd better

smoke." Senor Poritol sighed. "I can asas good as the other one."

"Very likely," said Orme dryly. He was wondering whether this was some

of make-up on the face. Nevertheless, Orme did not feel warranted in giving up the marked bill without a definite explanation. The little man was a comic figure, but his bizarre exterior might conceal a dangerous plot. He might be a thief, an anarchist, any-

The oblivious couple came under street lamp and again turned toward each other. Their profiles were distinct. Orme had already suspected their identity, for both had high hats and carried canes, and one of them was in a sack suit, while the other Alcatrante, on the other hand, was files verified the surmise. There was no mistaking the long, tip-tilted nose of the shorter man and the glinting spectacles of the other. The two were

much-overworked Monroe doctrine A friendly guard? Or a menacing en emy? Orme decided to shadow the shadow.

At a corner not far from the trance to Lincoln park Poritol and Al catrante became so apparently excited that they stood, chattering volubly for several minutes. The shadow stopped altogether. He folded his arms and looked out over the lake like any cas ual wanderer, but now and then he turned his head toward the others. He seemed to be indifferent to what they were saying, though he was near enough to them to catch fragments of their conversation, if he so desired. The South Americans were probably talking in that dialect of Portuguese which their nation has developed.

Meantime Orme also stopped, taking up a position like that of the shadow. He saw Poritol with outstretched questioning hands, his eyes fixed on the face of Alcatrante, who seemed to be delivering his orders. The flashing reflections of light from the minister's spectacles indicated his authoritative nods of the head.

After a time Alcatrante evidently completed his instructions. He rewith ridiculously rapid movements of

Congress, therefore, should carefully guard the enactment of legislation

As a man is neither a fish nor a bird but only a land animal it from the land that he must from the land that he must produce his subsistence. All of the things that he produces, (brings forth) we call wealth. He brings them forth from the storehouse the earth, air sea. In political science everything, outside of man himself, upon which he puts forth effort to produce wealth is termed land. The effort to bring forth wealth is called labor.

### Mrs. Herring-Christopher's Letter Appreciated.

Al'ce Herring Christopher's article about Fairhope in the Boston Globe has been the means of arous-ing a great deal of interest in Fairhope and has caused the receipt of many inquiries by the secretary.
Mrs. Christopher writes that she also has received many inquiries and that one prominent Boston Single Taxer was so pleased with it that he ordered a thousand copies of it printed for distribution.

## The Cost of Living.

of living did you ever stop to think that today it takes less en-

Shingle machine could make from forty to forty-five thousand shingles in a day, and as wages received \$2.50 a day with board. But at present, a sawyer with the same machine which has been slightly improved by sawyers and filers (working men) a sawyer will make sixty to sixty-five or seventy thousand shingles a day and gets as wages \$2.50 per day with board or less of anything else than his \$2.30 would have purchased 20 years ago.

The Baldwin Times published the ordinance passed by the Bay Minette Town Council fixing the licenses to be charged for the year of the first of the year of the traveling public. The proprietors are always in personal attendance and their genial personal traveling public. The proprietors are always in personal attendance and their genial personal atten

ings. The lowest rate per 1000 ft. given is 35 cents and the highest 70 cents.

In a statement given with the assessment, it is stated that a lease-holder may terminate his lease by giving sixty days notice prior to January 25th; that rentals are pay-

At the Oregon Development League in Salem we were told by Bromley to Bay Minette, completleague in Salem we were told by the railroads to allow them to run their own business or they would visit hard times on the heads of the people, and thus give his communication space in our columns.

Secretary Gaston thought to be relieved of the writing of the usual annual Colony history, because of the substitution of a simple recepception on New Year's day for the customary banquet and program. So many, however, have expressed the feeling that the history should at least be given for the benefit of the railroads to allow them to run ed their work for the present, and

would have purchased 20 years

ago.

Eureka. Cal., Labor News.

News of Arden.

Number two of Arden Leaves is at hand. In it is published the assessment of land rentals for the year ending March 25, 1911. This list gives irst the feaseholders name, then location, of the land in square feet, rate per 1000 sq. it, and rent. One untamilar with the locations, is of course, unable to tell the character of the holdings. The lowest rate per 1000 ft. given is 35 cants and the highest of the Courier pob office has put out for the Fairhope Sanitarium some very poet little.

The Courier job office has put out for the Fairhope Sanitarium some very neat little pamphlets advertising it. They are so attractive that many are being sent out by residents and visitors to distant friends on their own init-

# BRING SUNLIGHT INTO YOUR HOME! The Patented JENNE PIT ACETYLENE GENFRATOR

We have received the initial number of life and Labor, a monthly magazine published by the National Women's Trade Union League, at Chicago. Much space is given in the first issue to the ground like a cistern. Takes up no room and is out of the way.

BECAUSE:— It is SAFER for the reason that it is installed in the ground like a cistern. Takes up no room and is out of the way.

It is the MOST DURABLE for the reason that its generating chamber is made of concrete and cannot rust out. Hence no leaking gas and no explosions. Will last a life time.

It is the MOST CONVENIENT for the reason.

It is the MOST CONVENIENT, for the reason that it is out in the the coolest gas and consequently the clearest light.

Commissioner Dennett of the General Land office in his annual parts than any other generator and can be sold for less money. It is the MOST SIMPLE for the reason that it contains fewer

J. G. WHITE, Southern General Manager FAIRHOPE. ALABAMA.

The editor's family is indebted to COLONY COUNCIL gress, therefore, should can guard the enactment of legislation and see to it that the requisite control is retained in the United States, so that a combination for the purposes of unjustly advancing prices can be checked through government supervision."

Traising, Brown, as we man one or our biggest farmers, and as running his sawmill, brickyard etc. We understand the live stock on this place has been increased during the last few days by about 40 p.gs and a can or two These are what the country needs.

Bellingham Washington has some taxes to raise and it was proposed to get the money by taxing honest maustries. A meeting of pusiness men called to decide what class or workingmen should be taxed was captured by some wicked working oring the taxing of professional men and banks. It is dollars to doughnuts that a lot of vacant and the south side of blk. 31, div. 2, making inside lots \$5 and corner lots \$6.

That in no case shall corner lots snack-covered lots in that city are in div. 2. he valued at less than \$1 assessed at one-fifth the figures more than inside lots in same blk. placed on them whenever some-body wants to use them. —Labor

The Mobile Commercial Club was so pleased with the success of its first county fair that it has decided to make it a regular annual leature. Though no admission was charged the margin of receipts over expenditures was over \$1000.

It is with genuine pleasure—not more for the financial consideration than for the information arorded its friends having to pass through Mobile, of the very best moderate-priced accommodations to be had in the city—that the Cour-When you talk of the high cost of living did you ever stop to think that today it takes less energy and less labor time to produce a given result or a given article that at any other period of human history?

This is the real test of the "cost" of an article. Take the industries of this country. Twenty years ago a single sawyer with a Hanson as a dining place for Mobilians and single sawyer with a single sawyer with a dining place for Mobilians and single sawyer with a Hanson cation is especially convenient, being within 3 blocks of the L. and N. depot, and on a direct street. Wharf Company met with Council to consider the rebuilding of pierhead and warehouse destroyed by fire, Dec. 13.

Agreement with Wharf Company read.

It was moved and carried that Wharf Company be authorized to cation is especially convenient, be-

PROCEEDINGS

Mistletoe Is Dangerous.

Few people who know mistletoe only as a desirable feature of Christmas decorations understand that the plant is a parasite dangerous to the life of trees in the regions in which it grows. It is only a question of time, after mistletoe once begins to grow upon a tree before the tree itself will be killed. The parasite saps the life of the infected branches. Fortunately, it is of slow growth, taking years to develop to large proportions, but when neglected, it invariably ruins all trees it reaches.

English Women Smoke Pipes. The latest fancy of the womansmoker is a pipe—not the tiny affair that suffices for the Japanese, but a good-sized brier or a neat meerschaum. The pipe is boldly carried along with a gold card case and chainpurse. For some time now the cigarette has given place to a cigar, small in size and mild in quality. Women said they were tired of the cigarette, and wanted a bigger smoke. -London Mail.

Cripple Rides Bicycle. George Anstey, aged 12, a cripple, of Leicester, England, is one of the most remarkable cyclists in the country. Both his legs are withered and useless, but the Leicester Cripples' Guild has provided him with a twowheeled pedalless machine, with a padded tube covering the axle bar. Across this he lies face foremost, and with wooden clogs strapped to his hands he propels himself along the streets and roads in a marvelously rapid manner. He has complete control of the machine, his hands acting as pedals, steering gear, and brake combined.

Pretty Good Definition. We hear some funny things in Fleet street sometimes, and the following definition of the height of aggravation, by a gentleman in rather shaky boots, whom we encountered in a well-known hostelry the other day, struck us as. being particularly choice.

"The 'eight of haggravation, gentlemen," said this pothouse humorist, setting his pewter on the counter and looking round proudly, with the air of one about to let off a good thing, "the eight of haggravation—why, trying

An Alaskan Luncheon.

Runners of woven Indian basketry, with white drawnwork doilies at each of the 12 covers, were used on an oval mahogany table. The doilies were made at Sitka. In the middle of the table a mirror held a tall central vase of frosted glass, surrounded by four smaller vases, all filled with white in a recent address: spring blossoms. The edge of the flowers. Four totem poles were placed on doilies in the angles made by the

Acknowledgment.

"You will admit that you owe a great deal to your wife?" "I should say so," replied Mr. Cumrox. "I wouldn't be invited to any of her receptions or musicales if I wasn't married to her."

Disqualified.

Her-My brother won first prize in that amateur guessing contest, but they ruled him out as a professional. Him-A professional? Her-Yes. He's employed in the

government bureau, you know. Lightning Change. The Manager-Can you make quick

changes and double in a few parts? The Actor-Can I? Say, you know the scene in "Love and Lobsters," where the hero and the villain are fighting, and a friend rushes in and separates 'em? Well, I played all three parts one night when the other two fellows were ill.

Not Altogether Dead.

Mr. Robert Butler of Marlborough. England, has had the peculiar experience of hearing his death announced. He was attending the poor law conference at Exeter when one of the delegates moved that, in consequence of the death of Mr. Butler, which they all regretted, another gentleman, whom he named, should be appointed to fill his place as one of the representatives of Wiltshire on the central committee. Mr. Butler rose from his place on the platform and announced to the conference, amid much amusement, that, so far as he was aware, he was still alive and in good health, and would be pleased to continue in the office if the conference desired.

Bankers and Bank Notes.

Four men, three of whom were connected with brokerage concerns in the Wall street district, were discussing United States paper currency and the disappearance of counterfeits. "We are so sure nowadays," said one of the party, "as to the genuineness of bills that little attention is paid to them in handling, except as to denomination." To prove his assertion he took a \$10 yellowback from his pocket, and, holding it up, asked who could tell whose portrait it bore. No one knew, and by way of coaching the broker said it was the first treasurer of the United States. Again no one knew the name. "Why, It's Michael Hillegas," said the man proudly. "But in confidence, I'll tell you, I didn't know it five minutes ago."-New York Tribune.

Vivid at Least. Dr. Hiram C. Cortlandt, the wellknown theologian of Des Moines, said

"Thomas A. Edison tells us that he mirror was banked with the same thinks the soul is not immortal; but, know about souls? His forte is electricity and machinery, and when he Place cards were water colors of talks of souls he reminds me irresistibly of the young lady who visited the

# That Suit for Libel

# Against the Postum Cereal Co., Ltd., Gave a Splendid Chance to Bring Out Facts

with a "weekly" Journal.

Following it, an attack on us appeared in their editorial columns; sneering at the claims

we made particularly regarding Appendicitis. We replied through the regular papers and the "weekly" thought we hit back rather too hard and thereupon sued for libel.

The advertisement the "weekly" attacked us about claimed that in many cases of appendicitis an operation could be avoided by discontinuing indigestible food, washing out the bowels and taking a predigested food Grape-

Observe we said MANY cases not all. Wouldn't that knowledge be a comfort to those who fear a surgeon's knife as they fear

death? The "weekly" writer said that was a lie.

We replied that he was ignorant of the facts. He was put on the stand and compelled to admit he was not a Dr. and had no medical knowledge of appendicitis and never investigated to find out if the testimonal letters to our Co. were genuine.

A famous surgeon testified that when an operation was required Grape-Nuts would not obviate it. True.

We never claimed that when an operation was required Grape-Nuts would prevent it. The surgeon testified bacteria [germs] helped to bring on an attack and bacteria was

grown by undigested food frequently. We claimed and proved by other famous experts that undigested food was largely responsible for appendicitis.

We showed by expert testimony that many cases are healed without a knife, but by stopping the use of food which did not digest, and when food was required again it was helpful to use a predigested food which did not overtax the weakened organs of digestion.

When a pain in the right side appears it is not always necessary to be rushed off to a

A disagreement about advertising arose hospital and at the risk of death be cut. Plain common sense shows the better way is to stop food that evidently has not been

> Then, when food is required, use an easily digested food. Grape-Nuts or any other if you know it to be predigested (partly digested before taking).

We brought to Court analytical chemists from New York, Chicago and Mishawaka, Ind., who swore to the analysis of Grape-Nuts and that part of the starchy part of the wheat and barley had been transformed into sugar, the kind of sugar produced in the human body by digesting starch (the large part of food).

Some of the State chemists brought on by the "weekly" said Grape-Nuts could not be called a "predigested" food because not all of it was digested outside the body. The other chemists said any food which had

been partly or half digested outside the body was commonly known as "predigested." Splitting hairs about the meaning of a word.

It is sufficient that if only one-half of the food is "predigested," it is easier on weakened stomach and bowels than food in which no part is predigested. To show the facts we introduce Dr. Thos.

Darlington, former chief of the N. Y. Board of Health, Dr. Ralph W. Webster, chief of the Chicago Laboratories, and Dr. B. Sachs, N. Y. If we were a little severe in our denunciation of a writer, self-confessed ignorant about appendicitis and its cause, it is possible the public will excuse us, in view of the fact that our head, Mr. C. W. Post, has made a lifetime study of food, food digestion and effects, and the conclusions are indorsed by many of the best medical authorities of the day.

Is it possible that we are at fault for suggesting, as a Father and Mother might, to one of the family who announced a pain in the side: "Stop using the food, greasy meats, gravies, mince pie, cheese, too much starchy

food, etc., etc., which has not been digested, then when again ready for food use Grape-Nuts because it is easy of digestion?" Or should the child be at once carted off to a hospital and cut?

We have known of many cases wherein the approaching signs of appendicitis have disappeared by the suggestion being followed.

No one better appreciates the value of a skilful physician when a person is in the awful throes of acute appendicitis, but "an ounce of prevention is worth a pound of cure." Just plain old common sense is helpful even nowadays.

This trial demonstrated Grape-Nuts food is pure beyond question.

It is partly predigested. Appendicitis generally has rise from undigested food.

It is not always necessary to operate. It is best to stop all food. When ready to begin feeding use a predi-

It is palatable and strong in Nourishment. It will pay fine returns in health to quit the heavy breakfasts and lunches and use less food but select food certainly known to contain the elements nature requires to sustain

the body. May we be permitted to suggest a breakfast of fruit, Grape-Nuts and cream, two soft boiled eggs, and some hot toast and cocoa, milk or Postum?

The question of whether Grape-Nuts does or does not contain the elements which nature requires for the nourishment of the brain, also of its purity, will be treated in later newspaper articles.

Good food is important and its effect on the body is also important.

"There's a Reason" Postum Cereal Co.. Ltd., Battle Creek, Mich.

Would Avoid Him. Slopay-Here comes a man I don't care to meet. Let's cross over.

DeLong-Why don't you care to meet him? Slopay—He has a mania for collect-

ing bills.

## The Modern Way.

A couple of young men on the Mar-ket street viaduct the other evening offered a new version of an old saw. After they had passed a couple of auburn-haired damsels one of the young men took his stand at the curb and gazed up and down the bridge.

"What are you looking for?" in-

quired his companion. Pointing to the red-headed girls, the see a white automobile."-Youngstown Telegram.

Of Course She Must. "What time does the dance begin?"

"Nine o'clock." "Then we must be there at 8:30."

"What for?"

"I must have at least an hour in the dressing room to rearrange my hair."

WONDERED WHY. Found the Answer Was "Coffee."

Many pale, sickly persons wonder for years why they have to suffer so, and eventually discover that the drug-caffeine-in coffee is the main cause of the trouble.

"I was always very fond of coffee and drank it every day. I never had much flesh and often wondered why I was always so pale, thin and weak.

"About five years ago my health completely broke down and I was confined to my bed. My stomach was in such condition that I could hardly take sufficient nourishment to sustain life. "During this time I was drinking cof-

fee, didn't think I could do without it. "After awhile I came to the conclusion that coffee was hurting me, and decided to give it up and try Postum. I didn't like the taste of it at first, but when it was made right-boiled until dark and rich-I soon became fond of

"In one week I began to feel better. I could eat more and sleep better. My sick headaches were less frequent, and within five months I looked and felt like a new being, headache spells en-

tirely gone. "My health continued to improve and today I am well and strong, weigh 148 size of a walnut, one-half cup of choppounds. I attribute my present health ped walnut meats and figs, one teato the life-giving qualities of Postum."

pkgs. "There's a Reason."

# BUYING FAMILY MEAT

MARKET CONDITIONS SHOULD BE CAREFULLY STUDIED.

No Matter What Cut Is Selected It Can Not Be Utilized to Best Advantage Unless It Is Well Cooked.

The choice of meat cuts should correspond to the needs of the family and the preferences of its members. Careful consideration of market conditions is always useful not only to make sure that the meat is handled and marketed in a sanitary way but also to take advantage of any favorable change in price which may be due, for instance, to a large local supply of some particular kind or cut of all the family trade to one butcher; buying the housekeeper is in a better position to hear of variations in prices | Star. and so be in a position to get the best values. Ordering by telephone or from the butcher's boy at the door market in person as the range of infants and children, and see that it choice and prices is of course more obvious when the purchaser sees the goods and has a chance to observe market conditions. Each housekeeper must decide for herself whether or not the greater convenience compensates for the smaller range of choice which such ordering from description entails. No matter what the cut, whether expensive or cheap, it can not be utilized to the best advantage unless it is well cooked. Poorly prepared meat dishes are almost inevitably wasted at the table. As an illustration of the losses arising through unwise selection and poor cooking may be mentioned facts observed in dietary studies carried on by the experiment stations. In many families where the income was fairly good the table and other conditions were far from satisfactory. In such cases the marketing was quite commonly done by a child or someone without knowledge or experience. In a particular instance the selection was expensive steak, which later was so badly cooked that it was hardly possible to eat it. A cheaper cut well cooked would

well as more economical. There is sometimes an advantage in using canned meat and meat products, and, if they are of good quality, such products are wholesome and palatable.

have been much more satisfactory as

### Old-fashioned Dumpling.

Chop into a quart of flour that has been sifted with a teaspoonful of salt and a teaspoonful cream of tartar onequarter pound suet. Add one-half teaspoonful soda dissolved in a little hot water and enough cold water or milk to make the flour into a rather stiff paste. Roll out, handling as lightly as possible, cut into squares and put in the middle of each a fine juicy apple, peeled and cored. Fill the core cavity with sugar wet with lemon juice and a clove or a little marmalade, pinch the edges of the dumpling er seen any of them leave it.—Comic together and tie up in a small square cloth dipped in hot water wrung out and floured on the inside before the apple is put in. For this purpose many old-fashioned housekeepers have crochetted dumpling bags made from stout cotton. In them tie up the dumpling fast, leaving room for it to swell. Boil one hour. The water must be boiling when the dumplings go in and not stop boiling an instant until the time is up. Turn the bags several times during the boiling but keep them under water, as they must young man answered: "I'm trying to be covered all the time. Serve as soon as done, as they get heavy standing.

# Sweet Potatoes au Gratin.

Boil sweet potatoes and cut in slices after peeling. Butter a baking dish and fill with alternate layers of the potato, a little chopped green pepper and some cream sauce. Cover the bottom of the dish with the sauce, then alternate with the potato and chopped pepper, and every now and then a bit of butter. Have the upper layer very smooth and bake till brown. Take an egg and separate the yolk from the white. Beat the latter to a cream and place in a drift-like arrangement on top of the potato. Allow a place in the center and lay the yolk of the egg in this depression. Return to the oven, and leave there for seven minutes. The egg will be cooked through and the white ambush a delicate golden color.

## Pomona Rice.

Core, pare and bake six tart apples. Steam one cup of rice in two cups of salted water, three-fourths of an hour. With a fork stir in one large tablespoon of butter, a little cayenne and more salt if needed. Make a molasses sauce with one cup of molasses, one tablespoon each of vinegar and butter and a pinch of salt. Simmer ten min- satisfied if they merely get it. utes. Put the rice into a dish, lay the apples upon it and pour the sauce over them. Serve either hot or cold. We are very fond of this, especially used as an entree with roast pork.

Maple Cream Candy.

Two cups of maple syrup, butter the spoonful of orange extract. Cook the Read "The Road to Wellville." in syrup until it "hairs." Remove from the stove, add the butter and beat Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest. Mark into squares and cut when cool.

### Stepmother of Mint Julep. Romance and poetry have delighted to weave garlands with which to celebrate and perpetuate the glory of the blue grass in old Kentucky, famed for

its fine horses, beautiful women and

mint. Kentucky has been designated as the home of the mint julep, and its colonels have become famous all over the world for the easy and graceful

way in which they drink whisky with a little dash of sugar and a sprig or two of mint in order, chiefly, to overcome the necessity for a large amount of water in the beverage. The true Kentuckian doesn't want his whisky drowned.

It transpires, however, that the real home of the mint and the mint julep is right here in Missouri, whose crop of mint last year amounted to 7,653 pounds, or enough to make 1,224,320 juleps. This amount includes the marmeat. In towns where there is opportunity for choice, it may sometimes be ing been taken of the countless thou found more satisfactory not to give sands of juleps which were compounded during the year with a base of the by going to various markets before undiluted moonshine whisky that never paid a cent of tax.-St. Louis

In winter, it is hard to get fresh air in certain rooms. Some rooms in a house are usually colder than others, and if you open the windows it is hard again to heat the room properly.

If you keep the windows closed you don't get fresh air; if you keep them open you cannot quickly reheat the room. The

# SMOKELESS Absolutely smokeless and odorless

solves the difficulty. You can leave the windows in a room open all day in winter, and when yeu close them apply a match to a Perfection Oil Heater and heat the room to any temperature you desire in a few minutes.

The Perfection Oil Heater is finished in japan or nickel. It burns for nine hours. It has a cool handle and a damper top. It has an automatic-locking flame spreader, which prevents the wick from being turned high enough to smoke, and is easy to remove and drop back so that the wick can be quickly clenaed. An indicator always shows amount of oil in the font.

The filler-cap does not need to be screwed down. It is put in like a cork in a bottle, and is attached to the font by a chain.

The burner body or gallery cannot become wedged, because of a new device in construction, and consequently, it can always be easily unscrewed in an instant for rewicking. The Perfection Oil Heater is strong, durable, well made, built for service, yet light and ornamental.

# FAIRHOPE SINGLE TAX COLONY

Fairhope, to outward appearance, is like other towns, save for evidences of exceptional prosperity usually noted by the casual observer; but it is unique among the towns of this or any land.

It is a town "with a purpose." That purpose is to make a practical application of the teachings of Henry George upon the land question—as fully as possible under

Henry George re-asserted the proposition that "all men are equally entitled to the use of the earth," and proposed to secure that right to all by equiring those who desire the exclusive use of any portion of the earth, to pay, for the benefit of all, the value which the common estimation attached to such portion. He proposed to take this as a tax for public purposes, in lieu of all other taxes—hence the name "Single Tax."

Those who founded Farrhope advocated, and still advocate, this as a reform in taxation; but they realize that its essential feature is the taking of land values for public use, and that the right to collect land values attaches to LAND OWNERSHIP under our present laws. So they hit apon the slever plan of securing by purchase, the right to collect tand values, not as a tax but as rent, and administering these values not for their benefit as owners in the rent law to the part of the part in the usual way, but for the benefit of ALL who might by locating upon such lands contribute to their value.

Under this plan the title to the land is neld by the Fairhope Single Tax Corporation, a corpora ion chartered under an Alabama statute, having a perpetual existence, and conducted by its members under its constitution and

Lands are leased to individuals in quantities to suit, on unnety-nine year leases, subject to an annualty appraised

rental, collected and disbursed for the public benefit.

To make this really a "Single Tax," and to free its lessees from the blighting injustice of taxes upon improvements and personal property, the Corporation pays out of the rent not only the taxes upon the land, but upon the improvements and personal property of lessees.

All the rent fund remaining is expended locally for the public benefit a roads, schools, library, telephones, parks, bath-houses, etc., etc.

Absolutely no portion of this rent goes as interest, dividends, or profits, to the founders or members of the Colony, or any other persons.

The constitution forbids the granting of franchises to individuals or corporations for performing any public service, but requires that the Corporation shall, as fast as may be, provide the same and operate them in the common

The Corporation thus owned and operated the wharf, at which land the steamers, by means of which communication is maintained with the outside world, and which yield ed annually a very substantial addition to the public reven ue, until that wharf was practically destroyed by the great storm of September 27, 1906. It has been rebuilt by acompany of citizens under contract by which they will manage it until the obligations incurred by them in the rebuilding are satisfied, when it will be turned back to the

It owns a water-works system, (the only one in Baldwin county) with steam pumping plant and mains supplying the principal part of the town with water for domestic use and fire protection; and a local telephone system, with long distance connection. The Fairhope policy eliminates the land speculator

entirely; and for those who WANT LAND FOR USE, whether for residence, business, manufacturing or farming, it is easily shown to be far better and cheaper than owning.

Fairhope is delightfully located on the shore of Mobile bay, has excellent hotels, restaurants, stores schools ice-plant and creamery, blacksmith and butcher shops doctors, churches, fine bathing and fishing, and exception ally intelligent and sociable people.

Beautiful lots in the town and farm lands adjacent to it are open to settle s without purchase price, to the colony's favorable te ms.

For full particulars, copy of constitution lease, ec., Address E.B. GASTON,

Secretary

Booker T. Washington Which Seem Good.

A variety of opinions have been, expressed regarding the causes for the decrease in population of the "black belt" counties of this state as disclosed by the last census.

Booker T. Washington of Tuskevery plausible. That is that the loss of population is at least considerably due to the lack of edcational facilities for negro children and to prevalence of mob law impassible in bad weather and methods for dealing with alleged very rough in good. It cost the Negro law breakers.

Prof. Washington cites as proof of his theory that Macon county, in which his school is located, and where better protection of the law is afforded Negros charged with crime, is the one county of the black belt" to show an increase in population instead of a decrease.

If Professor Washington is correct in his reasoning (and his arguments and c'tation of facts, seem to bear him out) the reasons for their leaving the black belt, are wholly to the credit of the Negroes.

Concluding an interesting interview reported in the Montgomery Advertiser, Prof. Washington said:

"I believe that the 'black belt' counties of Alabama will continue to lose in population unless some attention is given to building up good public schools in rural districts. It is just as easy to have laid in what Henry George taught. a negro population that is contented and prosperous as to have one that is restless and dissatisfied because of poor schools and all such the two races can cooperate and nopoly. To control the planet is in this way add to the programity. in this way add to the prosperity and happiness of both."

# VALUE OF PROTECTION

Any one taking the trouble to glance over the editor's front fence at his cabbage patch can get a worth while lesson on the importance of a little protection for gardens from the cold snaps which are occasional visitors throughout the winter. A portion of these cabbage were lightly covered with pine straw during the last week's freeze and others were not. Those which were unprotected were all badly affected, some nearly if not quite killed, but those which were covered came through unscathed and are growing as finely as if there had been no freeze.

Others have found the bay boat business unprofitable beside the Fairhope Improvement Company. The steamer Baldwin was sold at Mobile one day this week, being bid in by D. R. Dunlap, representing creditors, for \$4,050.

## -PAY YOUR POLL TAX

Get in shape to participate in political affairs during 1911, by paying your poll tax. No one knows what important measures may come before the people of this state or country during 1911. In all probability important amendments to the State Constitution will be submitted during the year. To be able to vote your poll tax must be paid before February first.

Country" again.

ADDRESS OF THE PARTY OF THE PAR

The Kansas Farmer tells of a road running west from Topeka Gives Some Reasons for many miles as an almost ideal dirt road that has been made and kept in condition by the use of the road drag. When a rain or snow falls on this road it becom, es a little muddy on top but the mud is never deep and there are never any ruts or chuck holes in it.

This road is well crowned up and kept smooth by the use of the road cator, has a theory which seems immediately runs off, and it dries with us again the coming summer. off almost immediately. Says the Farmer:

"This splendid road has taken the place of one that was almost labor and expense of one dragging per month and was' made possible by the activity of one man who interested his neighbors. Now, the neighbors would not willingly do sible in most neighborhoods in Kansas.

As the great underlying law and method of democracy, the policy outlined by Henry George is the Public's policy. We ask no one to we say to them all, whether Democrat, Republican, Socialist or Prohibitionist, or religionst, those of to our settlers. them who are fundamental democrats, that they cannot realize their object, until the foundations are No ideal can flourish practically, except that of organized charity, so long as the earth with its natural resources and physical envirplanet. With land monopoly abolished, all else is practicaly possible-even practical Christianity; with land monopoly permitted nothing else is possible but those at one social extreme and at the other the "needful.' But the publie is not a Single Tax organ. It stands for the rights of man even in a day when academic putterers say that man has no rights, and plutocratic plunde ers respond with "Hear, hear!" or "Three cheers and a tiger!' Against the twaddle of the academic and the crimes of the plutocrat, The Public preaches in its fulness, the law of the rights of man. It makes no distinction of race, nation, religion sex or previous condition. -The Public.

# "SINGLE TAX COLLEGE"

Miss Frances H. Lyon, of Brooklyn, the charming little lady who spent a winter at Fairhope and taught arts and crafts, in a recent letter says:

"I am always interested in Single Tax and in Fairhope, as the largest Single Tax college in the world. I think that one learns more about Single Tax there than in any other place, for it is the their home until her death with life of the town. I am thinking of her parents. spending next winter with you but have not made any plans so far."

Senator Thomas P. Gore, the famous blind senator from Oklahoma, writing recently and thanking the editor of the Courier for copy of the paper containing an article about the application of the

# SUCCESSFUL PRO-DUCER'S ORGANIZATION

The annual meeting of the Baldwin County Producers Corporation which has its headquarters at Foley was held last Saturday at that place, at which time the work the past year was reviewed and officers elected, and plans perfected for the coming year. The corporation is the largest in the county and has been built up by mere handful. The past year has markets for the crops of the farmembers of the corporation.

Frank Fesler, editor of the Onlooker who has been one of the moving spirits in the organization was reelected president.

Mayor Taylor of Vancouver, B. C., through whose efforts largely, the tax on improvements was abandoned, is in the midst of a hot campaign for re-election. In a recent issue of the World, reference in one of his campaign speeches to the subject was reported as follows:

"The mayor emphasized in passing, the world-wide advertising which the exemption of taxation on improvements had given Vancouver. Before this measure was passed the man on the vacant lot was getting the unearned increitt Diamond Medal was held. From ment-now it was different. ### CONCERNING USE OF PLUMES CHECKED SILK WAIST.

The newest trimming in millinery emphasizes the use of plumes. Such plumes! The word conjures up an infinite variety of styles of which our mothers or grandmothers knew nothing, and fair women of today can be doubly grateful for the efforts of milli-

Garlands of plumes are used on broad, low hats. They are spotted and flecked with color, and some are made of layers of different shades, giving a wonderfully irridescent effect.

On velvet turbans the use of a sinextending toward the back in a slanting line, is quite evident. This line for the plume is used on large hats as well. And speaking of the wide, flat shapes leads us to the introduction of ostrich feathers to edge the brim. Two successful Paris milliners have done this with great effect.

Feather rosettes are made of ostrich plumes. Concentric circles of cut feathers are placed around a jeweled center. At the side of a turban or on the upturned brim of a large velvet hat this new type of ornament is ex-

tremely chic. The guimpe, undersleeves, and frills

A feather band is being used on many large hats. Black and white plumes are favored for these ornaments. They are detachable, hooking at one side. This idea is attractive, and the skin on. Put three cloves in THE NEW SHOE BUCKLES

Cut Steel and Rhinestone Predominate change of hat. Cretonne Lampshades.

The very newest and prettiest thing in home decoration is the lampshade of shirred cretonne or flowered silk. For these, heavy wire frames are purchased, the round shape being the best. The cretonne or silk is then shirred tightly under this frame, and clamped or glued to it. A narrow border of furniture gimp conceals the

HINTS ON COOKING GAME ONE REDEEMING FEATURE

Success Is Sure if the Cook Will Follow These Simple Directions.

Never wash game inside or out; merely wipe it with a cloth wrung out in hot water.

Badly shot birds should not hung long. The length of time a bird is hung

must depend on the weather, the state of the bird and individual taste. Snipe, woodcock and plover should

never be "drawn." Tie the birds, if possible, with string,

instead of using skewers, for the latter make holes through which the juices escape. Tie a slice of fat bacon over the

breast of each bird to keep it from dry-Baste all game very thoroughly; oth-

erwise it will become dry and shriveled. Game, except partridges and pheasants, is usually liked slightly under-

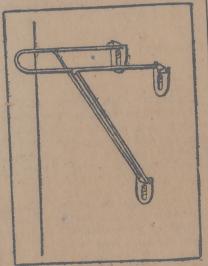

done. This is especially the case with teal and wild duck. Never pour gravy over game, but he did.

serve it separately in a hot tureen. The correct accompaniments to all game are bread sauce, fried crumbs, good gravy and potatoes fried in any fashion.

# NOVEL AND USEFUL BRACKET

Can Be Put Up Anywhere in the House or Folded Into Small Space.

To those who have to make the most of every inch of space in home or office the bracket devised by a New York man will appeal strongly. The bracket consists of two heavy wire arms, shaped like a letter "U" and having lateral extensions at the ends which fasten in two plates that are screwed into wall or door. Below and between these plates is a third, which

holds a pair of supporting arms, the ends of which fasten in circular loops in the longitudinal arms and hold them upright. The whole apparatus can be put up anywhere in a few minutes and taken down as easily. When not in use the supporting arms can be slipped out of place and the bracked folded against wall or door. A board can be placed across the top of

Mother's Fried Cakes.

Stir to a cream two cups of sugar and four tablespoonfuls of softened happiness without producing it than butter or drippings. Add one cup to consume wealth without producing gle plume attached at the front, and each of milk and water, two well beaten eggs, four teaspoonfuls of powder sifted in four cups of flour, a teaspoonful of salt and cinnamon or nutmeg to flavor. Add enough more flour to make a soft dough, cut in rings or twists and drop into a kettle of boiling fat. When the cakes rise and brown on one side turn deftly on the other without piercing the cruller, then as soon as browned lift out on brown paper. When nearly cool roll in powdered sugar if desired.

Sweet Pickled Apples.

A delicious pickle is thus, made from sweet apples. Cut in halves through the stem, leaving the core in for a change of trimming means a each half as in pickling peaches, then make a sirup, allowing for every pound of apples three pounds of sugar and a pint of vinegar. Add a few cassia buds or pieces of stick cinnamon, put the fruit in and cook it until it can be pierced with a splint. Pack the apples in jars, cook the sirup a little longer until thickened and pour over the fruit.

### Molded Snow.

Mix three tablespoons cornstarch with cold water to pour, add to one pint of water, and cook ten mintues; add two tablespoons sugar, juice of lemon and the whites of two eggs beaten stiff.

Custard Sauce for Same.—Scald one pint of milk; mix four tablespoons sugar, two teaspoons cornstarch, add the yolks of the two eggs, quarter cup of cold milk. Stir in scalded milk, and cook five minutes.

Good, Soft Gingerbread.

SYNOPSIS.

At the expense of a soiled hat Herbert Orme saves from arrest a girl in a black touring car who has caused a traffic jam on State street. He buys a new hat and is given a five dollar bill with: "Remember the person you pay this to," written on it. A second time he helps the girl in the black car and learns that in Tom and Bessie Wallingham they have mutual friends, but gets no further hint of her identity. He discovers another inscription on the marked bill, which in a futile attempt to decipher it, he copies and places the copy in a drawer in his apartment. Senor Poritol, South American, calls and claims the marked bill. Orme refuses, and a fight ensues in which Poritol is overcome. He calls in Senor Alcatrante, minister from his country, to youch for him. Orme still refuses to give up the bill. He learns that a Jap has balled for him. Orme goes for a walk and sees two Japs attack Alcatrante.

### CHAPTER III.—Continued.

cane. The stick was tough and the blow was hard enough to send a man again to rival foreign companies. to earth, but the robber had heard his victim just in time. With a motion indescribably swift, he caught far as your hotel?" with one hand the descending cane and wrenched it from Orme's grasp. rather need the walk." Then he crouched to spring.

At this instant Orme he ard footsteps that procession through the park!

There was a period of Orme found himself looking into the silence. Then Alcatrante spoke meditatively.

"You see how it happened, I supthing the hold-up men desired, for pose," he said. "Those Japanese were waiting outside your hotel. When Poritol and I came out, one of them Orme, dazed and breathing hard, at followed us, while the other remained tempted no immediate pursuit. He on guard. Then you started on your stepped quickly to Alcatrante and stroll, and the man who remained on guard set out after you."

"Yes," said Orme, "but I don't see how the fellow could have known who

Alcatrante laughed. "Oh, he could have placed you in a number of differthat he did know you."

"Well," said Orme, "this is beyond me. That five-dollar bill seems to be very much desired by different groups of persons."

Alcatrante nodded. "I am not sure," he said slowly, "but that it "Bah!" replied Alcatrante. "What is would ease young Poritol's mind if you would place the bill in my hands for safekeeping. Not that he mistrusts you, Mr. Orme, but he imagines that you may not realize how important it is to him, and you might not guard it carefully."

"I agreed to keep it until tomorter drop. As for me, I shall return to thieves, my apartment is on the tenth my hotel. Perhaps you will walk along floor, pretty well out of their reach. The only danger of robbery lies be-Orme hesitated. "I don't like those tween the cab and the hotel office."

"I know, I know," chuckled Alcatrante. "It is, of course, as you will. I was merely thinking of my young friend's peace of mind. I am his fellow countryman, you see, and his conforget that there was one after me as fidence in me-" he stopped, with another chuckle. "Singular, is it not, "No, I don't forget that. But don't how impressionable are the young?" Orme said nothing. He did not en-

joy this fencing. "Look at the lake," Alcatrante suddenly exclaimed. "How beautiful an with any hope of rescue. expanse of water. It has so much more color than the sea. But you should see our wonderful harbor of nearer Japanese. Rio, Mr. Orme. Perhaps some day I shall be permitted to show you its was caught in a grip like an iron magnificences."

"Who knows?" said Orme. would be very pleasant."

trante quickly, "do you care to give it to me?"

Alcatrante laughed shortly. "See, astride him and smiling down into his help. Isn't it queer?" here is your hotel. Your company has face. tle of fish," muttered Orme. He was been a pleasure to me, Mr. Orme. You Orme jumped to the curb and, turnoily smoothness, and he wondered ing, shook the hand that was extended whether it would not have been better to him. "Thank you for the lift, Se- Orme's elbow. A moderate use of the changed her manner to grave earnest-

But through the opening before him he could see the fountain playing in the dollar bill in its place and leave pocket center of the court. The central figure of the group, a naiad, beckoned with a hand from which the water fell in a shower. The effect was not so unpleasing. If one wished to be rococo, why not be altogether so? Like the South Americans? Was their elaborate ornamentation plastered on to an inner steel construction? Orme wondered.

Midway of the tunnel, and at the right as one entered, was a door leading into the porter's office. This door was shut, but as Orme approached it, it noiselessly opened out. He expected to see a porter appear, and when no person stepped over the sill, he inferred that the door had been blown open by an interior draft.

Just as he was turning out to go by your press, Mr. Orme," he said. around the door-which shut off all "That is natural. I have the interests view of him from the inner court—a

He thrust the selected bill into his pocket, put the fresh bill in the pocket book, and laid the pocket book

on the table. "See here," said Orme, still prone, "what's the meaning of all this?"

"Don't say." The Japanese smiled. He went over to the door. "Come," he said. The man astride Orme released his hold and sprang to his feet. Like a flash, both the Japanese disappeared.

Orme jumped up. Seizing his pocket book and his hat, he darted after his assailants. At the street encrance to the tunnel, he looked quickly in both directions, but his men were not in sight.

Pursuit was futile. Slowly he turned back. He thought of notifying the adventures of the evening. She lispolice, but, after all, he was none the Poritol and Alcatrante, now involuntarily broken. ### CHAPTER IV.

The Girl of the Car. "Oh," she said, with a little gasp of recognition, "are you Mr. Orme?" Her cheeks flushed softly.

He bowed; his heart was beating "Then we do meet again," she ex-

"Any service that I-" Orme began

can do-" sound; then caught herself and ence.

that was paid to you today."

Orme started. "What? You, too?" "I, too? Has—has anybody else—?" | couldn't hear us talk. Her gravity was more intense. "Why, yes," said Orme— "a little

man from South America.' "Oh-Mr. Poritol?" Her brews were

"Yes-and two Japanese."

hensive. "The Japanese got it," added Orme, this information it never occurred to him to question.

The girl stood rigidly. "Whatever shall I do now?" she whispered. "My poor father!'

She looked helplessly at Orme. His self-possession had returned, and as he urged her to a chair, he condemned himself for not guessing how serious the loss of the bill must be to her. "Sit down," he said. "Perhaps I can help. But you see, I know so little of what it all means. Tell me everything you can."

With a sigh, she sank into the chair. Orme stood before her, waiting,

"That bill tells, if I am not mistaken," she said, wearily, "where certain papers have been hidden. My father is ill at our place in the country. He must have those papers before midnight tomorrow, or—" Tears came into her eyes. Orme would have given much for the right to comfort her. "So much depends upon finding them," she added-"more even than I can begin to tell you.'

"Let me help," said Orme, eager to follow those papers all over Chicago, if only it would serve her. "Hear my story first." Rapidly he recounted the tened, eyes intent, nodding in recogworse off-except for his promise to nition of his description of Poritol and Alcatrante. When he came to the account of the fight in the porter's office and spoke of the Japanese with bill had been of no consequence to the scar on his forehead, she interrupted.

"Oh! That was Maku," she exclaimed. "Maku?"

"Our butler. He must have overheard my father and me.'

"Then he knew the value of the papers?"

"He must have. I am sorry, Mr. Orme, that you have been so roughly

used." "That doesn't matter," he said. "They didn't hurt me in the least. And now, what is your story? How did you get on the trail of the bill?"

"We came back from the east a few days ago," she began. "My father had to undergo a slight operation, and he wished to have it performed by his friend, Dr. Allison, who lives here, so we went to our home in-one of the northern suburbs.

"Father could not go back east as soon as he had expected to, and he had the papers sent to him, by special arrangement with the-with the other parties to the contract. Mr. Poritol followed us from the east. Iwe had known him there. He was always amusing company; we never took him seriously. He had business here, he said; but on the first day of his arrival he came out to call on us. The next night our house was entered by a burglar. Besides the papers, only a few things were taken."

"Poritol?" exclaimed Orme, incredu-

"It happened that a Chicago detectness during the day," she went. had recognized on the streets a wellknown thief, named Walsh. When we ing to me, and in his room the other a-foot to the hotel wherestolen articles were found-everything

"Oh!" Her exclamation was appre- ment declined the offer, again maist ing that he didn't understand what I was talking about. 'I took the other ruefully. That she had the right to things, miss,' he said, 'and I suppose I'll get time for it. But so help me, I didn't set no papers.' "

The giri paused and looked at Orme. "This seems like wasting minutes when we might be searching."

Orme was pleased to hear the "we." "Well," she went on, "I knew that the man was not telling the truth. He was too hesitant to be convincing. So I began to promise him money. At every offer he looked past my shoulder and then repeated his denials. The last time he raised his eyes I had an intuition that something was going on behind me. I turned quickly. There stood Mr. Poritol, extending his fingers in the air and forming his mouth silently into words. He was

raising my bids! "It flashed upon me that the papers would be of immense value to Mr. Poritol-for certain reasons. If only had thought of it before! I spoke to him sharply and told him to go outside. It always seemed natural to order him about, like a little dog."

"However, little dogs have the sharpest teeth," remarked Orme.

"That is true. He replied that he couldn't think of leaving me alone in such a place. So there was nothing for me to do except to go. I would have to return later without Mr. Poritol. 'Come along,' I said. 'My errand is done.'

"Mr. Poritol smiled at me in a way I didn't like. The burglar, meantime, had gone to a little table at the back of his cell. There was an ink bottle there and he seemed to be writing. Looking into the cell, Mr. Poritol said: 'The poor fellow has very unpleasant quarters.' Then he said to Walsh: 'Can't we do something to make your enforced stay here more comfortable, my dear sir?"

Orme smiled at the unconscious

mimicry of her accent. "Walsh came back to the grating. He held in his hand a five-dollar bill -the one that has made so much trouble. It had been smuggled in to him in some way. 'You might get me some "baccy," 'he said, thrusting the bill through the bars and grinning

"Now I understood what was going on. I reached for the bill, as though it were intended for me, but Mr. Poritol was quicker. He snatched the bill and put it in his pocket.

"I didn't know what to do. But suddenly Mr. Poritol seemed to be frightened. Perhaps he thought that I would have him arrested, though he might have known that there were reasons why I couldn't. He gave me a panicky look and rushed out of the corridor. Afterward I learned that he told the guard I had sent him on an errand. "Well"-she sighed-"of course,

followed, after a last glance at Walsh, who was peering through the grating with a look of evil amusement. He must have been well paid, that burglar. But then," she mused, "they ive had been in our village on busi- could afford it—yes, they could well "He afford it.

# Fairhope Courier Bonds Voted But

RNEST B. GASTON, EDITOR AND PUB MARIE HOWLAND, ASSOCIATE EDITOR

Published at Fairhope, Ala., on Friday of Each week.

Entered as second-class matter.

There are 13 blocks of land in Portland assessed on the land alone more than all the farm lands are assessed for in counties of this state. Labor Press.

Pay your poll tax! It is an outrage, in our opinion, to impose any such qualifications to the right to vote but we have poor opinion of the man who will let a measly \$1.00 stand between him and the exercise of this important right.

The Jenne Pit Acetylene Gas Generator, for which our Mr. J. G. White is general Southern agent, seems to be far and away the best apparatus for furnishing this excellent light—the nearest approach to sunlight of any light which science yet knows.

A. J. Wolf read a carefully pre-papred paper before the Progres-atte League last Sunday on "The Spirit of Christmas." It was so much appreciated that a desire for its publication was expressed and it will be given in the Courier next

Lessees of Fairhope Single Tax Corporation are reminded that the Corporation accepts from its lessees receipts for poll taxes, on rent the same as receipts for taxes on in provements and personal property. So they have less excuse than any others for failing to pay

One of the Colony's neighbors, Mr. Gould, an excellent gentleman, has had the Single Tax presented to him recently in a light which appealed greatly to him. That was as a system avoiding the temptation to dishonest returns of property inherent in the system of taxing personal property where the word of the taxpayer must be relied upon. This is one of the strong points of the Single Tax.

That commission form of gov-jernment for cities is going to oc-cupy much of the attention of the coming legislature is evident from the number of bills providing for the same reported in prepara-tion by members of both houses. The greatest benefits of this form of municipal government are found in the initiative, referender and recall features and there is no reason why these should not be made applicable to even the smallest towns.

The last issue of Farm and Fireside contains the second of a series of articles by "H.F.R." who is none other than our H. F. Ring. farms in America."

The letter is very entertainingly

By their labors and improvements the farmers of Oregon have added values to their fields of over a hundred millions of dollars. This

### Much Expected of Representative Jenkins

In the coming session of the Alabama Legislature we hope to see Baldwin County's representative Baldwin County's representative the Hon. S. C. Jenkins take a prominent part in progressive legislation. No member of the house will represent a county in which public sentiment is more progressive and we have reason to believe that Mr. Jenkins is himself personthat Mr. Jenkins is himself personally in sympathy with many of the progressive ideas held by his constituents. We shall watch his course with much interest and we hope to be able to applaud him for many advanced positions taken.

# Local Taxation For

Kansas is famous for its splendid public school system and heads the list of states or did recently, for low illiteracy, yet it is the one state in the Union which does not give any state aid to its common schools. These are supported entirely by local toyriting the local toy tirely by local taxation save for about 80 cents per pupil per year from interest on the school fund a donation from the federal gov-ernment and which is not enough to buy the coal necessary to heat

the ordinary school room.
Yet the Rockford Chronicle opposes Congressman Hobson's advocacy of local option in school tax-ation and inexts that school taxa-tion be a state prerogative.

# How to Pay Them

The proposition to issue bonds in Mobile County for good roads earned at the November election, but

According to County Commissioner Hagan in a letter to the Register, county receipts fell short Register, county receipts fell short of disbursements in 1909, over \$9000 while during 1910 the banks were called upon to pay bills to the amount of \$100,000, on which the county paid interest at the rate of \$0,000 yearly and the 1910 deficit will amount to fully \$40,000.

The sun of Christmas morning. It tells the weary heart, and sad The old immortal story.

Will amount to

Here is where the plan proposed at a meeting of good roads advocates at Fairhope and approved by the Courier and Onlooker and by Representative Jenkins, of asby Representativ

The county would issue bonds but instead of relying upon present insufficient revenues or imposing additional taxes, which, if within the legal power of the county would probably be opposed by the taxpayers, for getting the money to take care of bonds and interest.

The wild revolt of human wrong Is stilled, beneath its blessing; And loving hearts beat full and strong For comfort and redressing.

Oh Babe of Hope! We dare not voice Our sin and strife between the payers. take care of bonds and interest, would get it from special assessments upon the property immediately benefitted.

Our sin and strife before thee; And if we grieve, or if rejoice, In silence we adore Thee.

### A Seeming Benefit Only

The increase in value of the The increase in value of the farms of this country from 20 billions to 50 billions in the last decade sounds big and to some it may sound comforting, but is it more than a seeming benefit to the average farmer? To the man who owns and operates his farm this increase represents no homestical. increase represents no benefits and if he be a renter the case is worse. If the farmer desires to sell his If the farmer desires to sell his land or moves to town and rents it of course he benefits largely, but if he continues to live upon and operate his farm he simply suffers from increase in taxation. His farm is probably not more valuable as a producer of wealth than it was ten years ago. Indeed it may be much less valuable in fertility, and yet the increased value of the land not only compels higher taxes but more intense cultivation in order to make it pay a fair interest on the investment.

# Is Life Imprisonment Worse man Death?

HERE are times when a hush. a stillness that is awful in its intensity, falls over a court-room. The trial has dragged out its painful length, the evidence is in, the pleas have been made and the jury has returned a verdict expressed in that one short Anglo-Saxon word, "Guilty." The convicted murderer rises to his feet at the command of the judge. He stands up to receive the measured sentence of the law. Every eye in the courtroom is turned upon him and every ear is strained to catch the words that will mean life or death to the unfortunate who stands upright to meet the blow. If you stood in his place would you for those ominous words, "Hanged by the neck until dead," or would you welcome a sentence of "life imprisonment?" If you knew that "life imprisonment" meant just what it is supposed to mean and that there was no hope of escape, no hope of pardon, nothing but the long months reaching into drab monotonous, loathsome years of loneliness, would you still choose to cling to the life that was in you?

The legal world was shocked and the public was horrified by the plea of Albert A. Patrick, convicted murderer of the millionaire, William Marsh Rice, who demanded death rather than life imprisonment. In a remarkable document he tried to rethe electric chair, giving him life imprisonment in the place of death. His by riflemen on forbidding walls, the petition recited this, as his principal petition recited this, as his principal great state prison at Joliet. It is pos-reason: "Life imprisonment is a far sible that he has already glimpsed severer punishment than death in any something of the punishment that is This action of his has no form." parallel in the court records of the United States. It was a remarkable assertion made by a remarkable criminal. It caused many jurists to wonder if, after all, the deprivation of liberty ought to be allowed to take the place of the death penalty.

Judge Kavanaugh's Opinion. A Chicago courtroom listened re-

cently to a strange address made by Judge Marcus Kavanaugh, Joseph Welcome, the prisoner at the bar, had pleaded "guilty" to the charge of murder. It was a crime of peculiarly aggravating circumstances. Welcome had driven his wife from home. He followed her to the boarding house of Mrs. Mary McLean and a quarrel ensued. Enraged by her avowed intention of quitting him forever, he drew a revolver and shot her down. In attempting to save the life of the unfortunate woman Mrs. McLean was killed by a bullet from the degenerate's weapon. Moved by the plea of guilty and his appeal for the mercy of the court, the jury fixed Welcome's punishment at life imprisonment.

When the prisoner rose to receive the sentence, Judge Kavanaugh said: 'Welcome, you committed a terrible crime. Your punishment is to be more terrible still. When your wife sought to escape you shot her. It was no fault of yours that she lived and that you, in fact, then killed another never swung open to release a murwoman who was making useful way derer. In America there is always in the world. You could hardly get hope so long as there is life.

twelve men in the box who would not inflict the death penalty upon you, yet it is the policy of the law to regard a plea of guilty in some measure of itself a mitigation.

"The instinctive, unreasoning hor ror of mankind regards death as the most severe punishment. This idea is not correct. You are now to receive a sterner punishment. Your victim died but once. You will die a hundred times. You will suffer more the day you put on your prison clothes than she did in her death.

"After that there will be only the hopeless, painful years, from day to day, from month to month, stretching out forever and in agony. In four or five years the eternal solitude and silence will begin to crush in upon you like an iron weight.

"You are so elated now at the thought of saving your life that you don't realize all this. I want you and the others here in this courtroom to understand it. You are not sorry yet for your crime. You have only a great self-pity.

"There will be few worse men than you in that big prison, but I may say the law has taken its full and ample revenge upon you."

Welcome has now entered upon the monotonous round of the "Living Death" that Judge Kavanaugh described. He is now a "thing" in striped clothes, a number that has its ject clemency that saved him from | home in the heart of a great mass of stone and steel and concrete, watched to be his, so long as breath and reason remain within his body.

Was Judge Kavanaugh right? Is it true that life imprisonment is a more terrible punishment than the extinction of the criminal? Do men die a hundred deaths where their victims died but one? His pronouncement is new, so far as the bench is concerned. It has been debated, however, for generations by philosophers and students. Cold reason tells the human mind that death would be preferable to a life lived in the narrow confines of steel cages and stony corridors, but every criminal wel-comes the alternative of imprisonment all his days when actually confronted by the gallows or the electric chair. Judge Kavanaugh's speech to the condemned man serves to awaken interest in that last and greatest of the powers of the state, the right to take human life.

In all civilized countries in the world, with one exception, the death penalty is exacted of the murderer and the traitor. Italy is the single exception, but there is rarely an attempt to secure the commutation of a murder's sentence in that country. When he is finally sentenced, it is the end, for there is no hope of pardon except in the most undoubted cases of innocence, and thus far the prison gates of that country have

PRONOLINCING THE LIFE SENTENCE

harmless customer across the cigar counter and smiled engagingly at the new cashier. As he handed across the amount his dinner check called for he ventured a bit of aimless converse, for he was of that

"Funny," said he, "how easy it is to spend money."

"Well," snapped the cashier as she fed his fare to the register, "if money was intended for you to hold on to the mint would be turning out coins with handles on 'em.".

Had Money in Lumps.

Charles H. Rosenberg of Bavaria had lumps on his shoulders, elbows, and hips when he arrived here from Hamburg on the Kaiserin Auguste Victoria. In fact, there was a series of smaller lumps along his spine, much like a mountain range, as it is presented on a bas-relief map.

The lumps were about the size of good Oregon apples, and as Rosenberg passed before the immigration doctor for observation, the doctor said softly to himself, "See that lump." Then he asked Mr. Rosenberg to step

"You seem like a healthy man," said the doctor, "but I cannot pass you until I know the origin of those lumps on your body." "Ah, it is not a sickness," laughed the man from Bavaria. "Those swellings is money."

Taking off his coat he broke open a sample lump and showed that it contained \$500 in American bank notes. He informed the doctor that he had \$11,000 in all, with which he was going to purchase an apple orchard in

He was admitted to the country .-New York Tribune.

Why He Laughed. Miss Mattle belonged to the old south, and she was entertaining a guest of distinction.

On the morning following his arrival she told Tillie, the little colored maid, to take a pitcher of fresh water to Mr. Firman's room, and to say that Miss Mattie sent him her compliments, and that if he wanted a bath, the bathroom was at his service.

When Tillie returned she said: "I tol' him, Miss Mattie, en' he laughed fit to bus' hisself."

"Why did he laugh, Tillie?" "I dunno."

"What did you tell him?" "Jus' what you tol' me to."

"Tillie, tell me exactly what you

"I banged de doah, and I said, 'Mr. Firman, Miss Mattie sends you her lub, and she says, 'Now you can get up and wash yo'self!"—Lippincott's Magazine.

Where He Was Queer.

The negro, on occasions, displays a fine discrimination in the choice of words.

'Who's the best white-washer in town?" inquired the new resident. "Ale Hall am a bo'nd a'tist with a whitewash brush, sah," answered the colored patriarch eloquently.

'Well, tell him to come and whitewash my chicken house tomorrow." Uncle Jacob shook his head dubi-

"Ah don' believe, sah, ah'd engage Ale Hall to whitewash a chicken house, sah." 'Why, didn't you say he was a good

whitewasher?" Yes, sah, a powe'ful good whitewasher, sah; but mighty queer about a chicken house, sah, mighty queer!"

MAKE UP YOUR MIND.

If you'll make up your mind to be Contented with your lot And with the optimists agree That trouble's soon forgot,

-Mack's National Monthly.

You'll be surprised to find, I guess, Despite misfortune's darts, What constant springs of happiness Lie hid in human hearts;

What sunny gleams and golden dreams The passing years unfold, How soft and warm the lovelight beams When you are growing old.

Acted Like the Genuine. "The landlady says that new boarder is a foreign nobleman."

"Bogus, I'll bet." "Oh, I don't know. He may be the real thing. He hasn't paid her a cent

More Human Nature. Grouchly-By denying myself three

ten-cent cigars daily for the past 20

years I figure that I have saved \$2,190. Moxley-Is that so?" Grouchly-Yes. Say, let me have a chew of your tobacco, will you?

Thanks to Burnt Cork.

"Gosh! But the colored race is acomin' to the front fast!" whispered innocent Uncle Hiram, at the vaudeville show, as the black-face comedian was boisterously applauded.

"Yes, indeed," smiled the city man; 'anyone can see that that fellow is a self-made negro."

Lo, the Rich Indian.

The per capita wealth of the Indian is approximately \$2,130, that for other Americans is only a little more than \$1,300. The lands owned by the Indians are rich in oil, timber and other natural resources of all kinds. Some of the best timber land in the United States is owned by Indians.

The value of their agricultural lands runs up in the millions. The ranges which they possess support about 500,-000 sheep and cattle, owned by lessees, bringing in a revenue of more than \$272,000 to the various tribes besides providing feed for more than 1,500,000 head of horses, cattle, sheep and goats belonging to the Indians themselves. Practically the only asphalt deposits in the United States are on Indian lands.-Red Man.

No Slang for Her.

"Slip me a brace of cackles!" ordered the chesty-looking man with a bored air, as he perched on the first stool in the lunchroom.

"A what?" asked the waitress, as she placed a glass of water before

him. "Adam and Eve flat-on their backs! A pair of sunnysiders!" said the young

man in an exasperated tone. "You got me, kid," returned the

waitress. "Watcha want?" "Eggs up," said the young man.
"E-g-g-s,' the kind that come before

the hen or after, I never knew which." "Why didn't you say so in the first place?" asked the waitress. "You'd a had 'em by this time."

"Well, of all things-" said the young man. "I knew what he was drivin' at all the time," began the waitress as the

young man departed. "But he's one of them fellers that thinks they can get by with anything. He don't know that they're using plain English now in restaurants."

The League of Politeness. The League of Politeness has been formed in Berlin. It aims at inculcating better manners among the people of Berlin. It was founded upon the initiative of Fraulein Cecelie Meyer, who was inspired by an existing organization in Rome. In deference to the parent organization the Berlin league has chosen the Italian motto, Pro gentilezza." This will be emblazoned upon an attractive little medal worn where Germans are accustomed to wear the insignia of orders. The idea is that a glaance at the "talisman" will annihilate any inclination to indulge in bad temper or discourteous language. "Any polite person" is eligible for membership.

The "Country Churchyard."
Those who recall Gray's "Elegy in

a Country Churchyard" will remember that the peaceful spot where "the rude forefathers of the hamlet sleep" is identified with St. Giles'. Stoke Poges, Buckinghamshire. In the prosaic pages of a recent issue of the Gazette there appears an order in council providing that ordinary interments are henceforth forbidden in the

How She Learned.

The mother of a family of three small children was discussing their comparative precocity with a friend. "John was very slow at everything," she said, referring to her oldest. "Tom was a little better, and Edith, the baby, is the smartest of all. She picks up everything quick as can be."

Master John, who had been listening, now contributed his share of the conversation.
"Humph!" he exclaimed. "I know

why her learns so quick. It's 'cause her has us and we didn't have us."

Economy.

The late former Governor Allen D. Candler of Georgia was famous in the south for his quaint humor.

"Governor Candler," said a Gainesville man, "once abandoned cigars for a pipe at the beginning of the year. He stuck to his resolve till the year's end. Then he was heard to say:

"'By actual calculation, I have saved by smoking a pipe instead of cigars this year \$208. But where is

Moslem Traditions.

Ramadan is the month exalted by Moslems above all others. In that month the Koran-according to Moslem tradition—was brought down by Gabriel from heaven and delivered to men in small sections. In that month Mohammed was accustomed to retire from Mecca to the cave of Hira, for prayer and meditation. In that month Abraham, Moses and other prophets received their divine revelations. In that month the "doors of heaven are always open, the passages to hell are shut, and the devils are chained." So run the traditions.-The Christian

A Medical Compromise. "You had two doctors in consultation last night, didn't you?"

"Yes." "What did they say?"

"Well, one recommended one thing and the other recommended something else."

"A deadlock, eh?" "No, they finally told me to mix

Hard on the Mare.

Twice, as the bus slowly wended its way up the steep Cumberland Gap, the door at the rear opened and slammed. At first those inside paid little heed; but the third time demanded to know why they should be disturbed in this fashion.

"Whist," cautioned the driver, doan't spake so loud; she'll overhear

"The mare. Spake low! Shure, Oi'm desavin th' crayture. Everry toime she 'ears th' door close, she thinks won o' yez is gettin' down ter walk up th' hill, an' that sort o' raises her sperrits."-Success Magazine.

Exaggeration.

On her arrival in New York Mme. Sara Bernhardt, replying to a compliment on her youthful appearance, said: "The secret of my youth? It is the good God-and then, you know, I work all the time. But I am a great-grandmother," she continued. thoughtfully, "so how can these many compliments be true? I am afraid my friends are exaggerating."

Mme. Bernhardt's laugh, spontaneous as a girl's, prompted a chorus of 'No, no!"

"Yes," said the actress, "unconscious exaggeration, like the French nurse on the boulevard. Our boulevards are much more crowded than your streets, you know, and, although we have numerous accidents, things aren't quite as bad as the nurse sug-

"Her little charge, a boy of six, begged her to stop a while in a crowd, surrounding an automobile accident. 'Please wait,' the little boy said. 'Want to see the man who was run over.' 'No; hurry,' his nurse answered. 'There will be plenty more to see in my life that frightened me by their

A Retraction.

"You shouldn't have called that man a pig," said the conciliatory man. "That's right," replied the vindictive person. "There is no sense in implying that he's worth 40 cents a pound

to anybody."

Blissful Ignorance. "Were you nervous when you pro-posed to your wife?" asked the senti-

nental person. "No," replied Mr. Meekton; "but if I could have foreseen the next ten years I would have been."

Economy in Art.

"Of course," said Mr. Sirius Barker, 'I want my daughter to have some sort of an artistic education. I think I'll have her study singing."

'Why not art or literature?" "Art spoils canvas and paint and literature wastes reams of paper. Singing merely produces a temporary disturbance of the atmosphere.

Home Thought.

"It must have been frightful," said Mrs. Bossim to her husband, who was in the earthquake. "Tell me what was your first thought when you awakened in your room at the hotel and heard the alarm."

"My first thought was of you," answered Mr. Bossim. "How noble!"

"Yes. First thing I knew, a vase off the mantel caught me on the ear; then a chair whirled in my direction, and when I jumped to the middle of the room four or five books and a

framed picture struck me all at once. Even after saying that, he affected to wonder what made her so angry for the remainder of the evening.-Mack's National Monthly.

New Process of Staining Glass.

The art of coloring glass has been lost and refound, jealously guarded and maliciously stolen so many times in the history of civilization that it seems almost impossible to say anything new on glass staining. Yet a process has been discovered for making the stained glass used in windows which is a departure from anything known at the present time. What the Venetians and the Phoenicians knew of it we cannot tell.

The glass first receives its design in mineral colors and the whole is then fired in a heat so intense that the coloring matter and the glass are indissolubly fused. The most attractive feature of this method is that the surface acquires a peculiar pebbled character in the heat, so that when the glass is in place the lights are delightfully soft and mellow.

In making a large window in many shades each panel is separately moulded and bent and the sections are assembled in a metal frame.

Our Voices.

I think our conversational soprano, as sometimes overheard in the cars. arising from a group of young persons who have taken the train at one of our great industrial centers, for instance, young persons of the female sex, we will say, who have bustled in full dressed, engaged in loud, strident speech, and who, after free discussion, have fixed on two or more double seats, which having secured, they proceed to eat apples and hand round daguerreotypes-I say, I think the conversational soprano, heard under these circumstances, would not be among the allurements the old enemy would put in requisition were he getting up a new temptation of St. Anthony.

There are sweet voices among us, we all know, and voices not musical. it may be, to those who hear them for the first time, yet sweeter to us than any we shall hear until we listen to some warbling angel in the overture to that eternity of blissful harmonies we hope to enjoy. But why should I tell lies? If my friends love me, it is because I try to tell the truth. I never heard but two voices sweetness.-Holmes.

# What About Brain Food?

# This Question Came Up in the Recent Trial for Libel.

A "Weekly" printed some criticisms of the claims made for our foods. It evidently did not fancy our reply printed in various news-papers, and brought suit for libel. At the trial some interesting facts came out.

differed widely. The following facts, however, were quite clearly established:

Some of the chemical and medical experts

Analysis of brain by an unquestionable authority, Geoghegan, shows of Mineral Salts, Phosphoric Acid and Potash combined (Phosphate of Potash), 2.91 per cent of the total, 5.33 of all Mineral Salts.

This is over one-half. Beaunis, another authority, shows "Phosphoric Acid combined" and Potash 73.44 per cent from a total of 101.07.

Considerable more than one-half of Phosphate of Potash. Analysis of Grape-Nuts shows: Potassium

and Phosphorus, (which join and make Phosphate of Potash), is considerable more than one-half of all the mineral salts in the food. Dr. Geo. W. Carey, an authority on the constituent elements of the body, says: "The gray matter of the brain is controlled entirely by the inorganic cell-salt, Potassium Phosphate (Phosphate of Potash). This salt unites with albumen and by the addition of oxygen creates nerve fluid or the gray matter of the brain. Of course, there is a trace of other salts and other organic matter in nerve fluid, but Potassium Phosphate is the chief factor, and has the power within itself to attract, by its own law of affinity, all things needed to manufacture the elixir of life." Further on he says: "The beginning and end

of the matter is to supply the lacking princi-ple, and in molecular form, exactly as nature furnishes it in vegetables, fruits and grain. To supply deficiencies—this is the only law of

The natural conclusion is that if Phosphate of Potash is the needed mineral element in brain and you use food which does not contain it, you have brain fag because its daily loss is not supplied.

On the contrary, if you eat food known to be rich in this element, you place before the life forces that which nature demands for brain-building.

In the trial a sneer was uttered because Mr. Post announced that he had made years of research in this country and some clinics of Europe, regarding the effect of the mind on

digestion of food.

But we must be patient with those who sneer at facts they know nothing about.

Mind does not work well on a brain that is broken down by lack of nourishment.

A peaceful and evenly poised mind is necesto good digestion. Worry, anxiety, fear, hate, &c., &c., directly interfere with or stop the flow of Ptyalin, the digestive juice of the mouth, and also interfere with the flow of the digestive juices of

stomach and pancreas.

Therefore, the mental state of the individual has much to do (more than suspected) with

This trial has demonstrated:

That Brain is made of Phosphate of Potash as the principal Mineral Salt, added to albumen and water.

That Grape-Nuts contains that element as more than one-half of all its mineral salts.

A healthy brain is important, if one would "do things" in this world.

A man who sneers at "Mind" sneers at the

best and least understood part of himself. That part which some folks believe links us to Mind asks for a healthy brain upon which to act, and Nature has defined a way to make a healthy brain and renew it day by day as it

is used up from work of the previous day. Nature's way to rebuild is by the use of food which supplies the things required.

"There's a Reason"

Postum Cereal Co., Ltd., Battle Creek, Mich.

(By M. C. CLINTON) early in July, just when the winter says the Homestead. Set them wide layers are going off the job.

Pullets that commence laying about this time are not likely to moult very heavily the first year, and if they are well cared for they will lay right along through the summer months and well into the winter.

Of course, the demand for eggs is much heavier in the winter than the summer, but then, too, the supply is greater. The farmer's wife who will have part of her flocks laying during the summer months, will find she can arrange with customers in town to supply them with eggs all the year around at a fixed price.

This is the kind of egg business which pays best. The greatest profits are made by selling direct to the customer always, but to do this one must have a supply all the year around, and chicks hatched in April and May do not begin to lay until late in the fall, and then usually stop laying early in the summer.

Of course, in the northern climate it is not as easy to raise young chicks in the late winter months, but if a warm brooder house is provided and special attention is given them, the youngsters will grow about as well as though hatched in late spring.

In the south the chickens may easily be raised earlier.

An abundance of litter should be provided, and a large box filled with dry earth and sand should always be available for the youngsters to exercise their scratching propensities.

A good plan for winter hatched chicks is the deep feeding method. This method consists of strewing a litter of fine chaff on the floor or in a comparatively thick layer, and scattering a layer of chopped corn and wheat, then another layer of chaff, and alternating until the mass is five or six inches deep.

Placed in a warm, sunny corner of the brooder house, the young chicks will find plenty of exercise in digging for this feed, and experiments have shown that results obtained from this method are excellent.

When spring comes along, the young chicks can be turned on the range until they have acquired full strength and plumage, and by the middle of June will be in excellent laying condition.

For this method of producing summer eggs, the best laying breed should be selected.

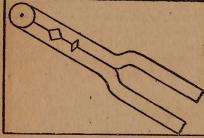

Within our knowledge a young woman in Illinois adopted this plan with three settings of white Plymouth Rock eggs which hatched February 10th. The pullets began laying June 25th, and produced the regular supply of eggs all through the summer months. They wintered in very good condition and laid regularly up to May 1st, the next spring, when they began to fall off.

The next winter, however, they began laying the early part of October, and made as good records as any other birds on the place.

# HANDY FOR SPLICING WIRE

Convenient Little Tool May Be Made From Side Arm of an Old Buggy Top as Shown.

A handy wire splicer may be made from the side arm of an old buggy top, as shown in the accompanying illustration, by cutting the ends of the arm of about ten inches from the elbow. Then bend the ends of the handles out so as to allow free use

Handy Wire Splicer,

of the splicer without pinching the hand. Then with a three-cornered file make several notches of differ- before bed keeps the work team from ent sized wire. This is equally handy running down. for holding smooth or barbed wire while being spliced.

## Feed and Breed.

Feed is a great point in sheep growing, but breed capabilities is a greater. Some breeders are capable of producing a high quality of wool at a profit. but cannot be considered profitable mutton producers. The American merino is one of these breeds, but with all their many excellencies one would no more think of keeping merino no way detrimental to health. The fasheep to produce mutton at a profit than one would to keep Jersey cattle to produce beef at a profit.

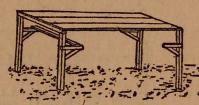

## Fattening Animals.

Fattening animals will make the greatest gains on pasture with a liberal allowance of grain. Steers and hogs will make good net profits from | brooders as competitors. grain on pasture. Keep them growing

### BREEDING FOR SUMMER EGGS SHED FOR MANURE SPREADER

Useful Contrivance to Be Used for Storage When Wagon Trucks Are Needed Elsewhere on Farm.

A contrivance to unload the "wagon Nearly everybody wants winter box manure spreader" when the trucks eggs, but why not have our hens lay are wanted for other purposes, and through the summer months as well? which makes a very good shed for Chickens of a good many breeds the spreader box when not in use, is hatch in February, and ought to be- made as follows: Set four good posts, gin laying the latter part of June or or 4x4's, in the ground as illustrated,

Manure Spreader Shed.

enough apart so as to drive between neatly. Make the contrivance about a foot longer than the wagon box spreader, and high enough to allow the box to be raised clear of the standards when unloading. The top should be boarded over tight, and can be covered with roofing. The sides can be boarded up tight, or they can be boarded down from the top just far enough to protect the box from the sun. To unload, drive under the shed and use a patent hoister, or a block and tackle, and swing the box to the top, raise the front end first and place a 2x4 across under it on the brackets provided. Raise the rear end in the same way, placing the 2x4 in position, and the box is safe till you want to load it on the wagon again, when the trucks are run under and the box let scales. For the last three years I have down on them.

### GUINEAS DEVOUR MANY BUGS

Enjoy Better Reputation as Insect Destroyers Than Thieving Crow-Good Egg-Layers.

Some people object to the noise which guineas make and their wild nature, but as summer egg-layers, guinea hens are hard to beat.

We have three guinea hens and a we have three guinea hens and a cock that have the range of the fields, and they are the best invest destroy. Mich., where I had a sister livand they are the best insect destroyers that we can have on the farm. They have a better reputation with us as insect destroyers than the thieving crow which some writers commend so highly for the bugs and worms they eat, and they also pay a handsome profit in eggs for any grain they may eat.

The guinea hens lay an egg each day for several months at a time. We have a brood of young guineas

that are growing nicely—they are a cross between the pearl and the white guinea, and are growing better than we ever got either full blood to do. I never liked the Idea of crossing

breeds, but a cross seems to increase the vitality of the guinea. Some have trouble finding the

guinea nests, but our guineas have never gone far from the house to make their nests. Sometimes they lay in the hen nests in the poultry house.

They range long distances from the house during the day in search of food, but come near the house to lay.

### Yearling Beef.

High-grade, blocky, early maturing beef calves showing both breeding and quality are necessary in making yearling beef.

Orange boxes make good nests for pigeons.

Sheep and lambs require a good shelter in the pasture.

A good average grade cow will produce about 250 pounds a year. Never buy pigeons unless the dealer

guarantees that they are mated. It pays to test a cow's milk before you buy her if you have the chance.

Hogs, especially brood sows, should have salt where they can get to it at any time.

The fruit of careful feeding and housing is young stock ready for market while prices are good. Cleaning the team after work and

Study the nature and disposition

of your animals. They are like men in this respect—generally differ. If you persist in allowing your horses to stand in manure all the time

you can never expect them to have

good feet. The percentage of fat in the milk of a cow is evidently fixed by two things, viz., breed and individuality.

Roots and vegetables or clover hay generally have a beneficial effect upon the digestive organs of the hog.

Ropy milk is, so far as known, in mous Edam cheeses are nearly all made from milk which has undergone this fermentation.

Don't allow rubbish to accumulate about the poultry yards or runs, to become the breeding place for lice or disease germs.

The old setting hen is gradually going out of business, with several hundred manufacturers of incubators and

Don't allow your chickens to roost and developing at their heighest anywhere outside these cool nights, or speed, for therein lies the secret of | you'll be wondering why there are "topnotchers" to bring highest market no eggs in the basket and be making a reply similar to the above.

AND GO AHEAD SLOWLY.

eviewed all philosophy with you, there is only one law that I can lay lown for your guidance. Student-What is that?

Philosopher—When you are sure you are right, you should suspect that you are wrong.

### HIRAM CARPENTER'S WONDER-FUL CURE OF PSORIASIS.

feet badly swollen; toe-nails came off; finger-nails dead and hard as a bone;

plied to one hand and arm. Eureka! there was relief; stopped the terrible burning sensation from the word go. They immediately got Cuticura Resolvent, Ointment and Soap. I commenced by taking Cuticura Resolvent three time a day after meals; had a bath once a day, water about blood heat; used Cuticura Soap freely; applied Cuticura Ointment morning and evening. Result: returned to my home in just six weeks from the time I left, and my skin as smooth as this sheet of paper. Hiram E. Carpenter, Henderson, N. Y."

The above remarkable testimonial was written January 19, 1880, and is republished because of the permanency of the cure. Under date of April | told him, there was none. With in-22, 1910, Mr. Carpenter wrote from his present home, 610 Walnut St. So., Lansing, Mich.: "I have never suffered a return of the psoriasis and although many years have passed I have not forgotten the terrible suffering I endured before using the Cuticura Remedies."

He Won.

the prevailing dialect in stories of southern negroes. He thought it overdrawn. To disprove the contention, Mr. Taylor laughingly made a wager with his guest that the northerner would be unable to interpret the language of the first negro they met. Accordingly, they set out and presently came upon a black man basking indolently in the sun. Telling his friend to pay close heed, Mr. Taylor stepped up to the negro and demanded suddenly: "Weh he?"

The negro blinked his eyes stolidly, and then answered in a guttural

A Shiver Figure. "Now, Arthur," said his father, 'you've been going to school long enough to write decently. Don't you know how to make a figure three?"

"Sure," said the boy. "You put your pencil on the paper and then you shiver.'

Stop guessing! Try the best and most certain remedy for all painful ailments—Hamlins Wizard Oil. The way it relieves all soreness from sprains, cuts, wounds, burns, scalds, etc., is wonderful.

It is often a shorter way, and more useful, to fashion ourselves to others than for them to adjust themselves to us.-La Fontaine.

No Man is Stronger Than His Stomach

A strong man is strong all over. No man can be strong who is suffering from weak stomach with its consequent indigestion, or from some other disease of the stomach and its associated organs, which impairs digestion and nutrition. For when the stomach is weak or diseased there is a loss of the nutrition

is weak or diseased there is a loss of the nutrition contained in food, which is the source of all physical strength. When a man "doesn't feel just right," when he doesn't sleep well, has an uncomfortable feeling in the stomach after eating, is languid, nervous, irritable and despondent, he is losing the nutrition needed to make strength.

Such a man should use Dr. Pierce's Golden Medical Discovery. It cures diseases of the stomach and other organs of digestion and nutrition. It enriches the blood, invigorates the liver, strengthens the kidneys, nourishes the nerves, and so GIVES HEALTH AND STRENGTH TO THE WHOLE BODY.

### MAJORITY FAVORS RECALL OF JUDGES

Phoenix, Ariz., Jan. 6.—The drafters of the constitution for Arizona believe they discovered the weak spot in the make-up of Privileged Plunder.

In their effort to form an instrument which would keep the law, its enactment, its enforcement and its meaning in the hands of the governed, they propose that the courts of the state shall be led not into temptation.

To accomplish this they placed

into temptation.

To accomplish this they placed judges on the same level with the governor, the legislators, and the sheriff. They have provided that the people may recall a judge if he orfends the moral sense of the accommunity.

On this point the "conservative" office holders who were named at Washington have joined hands with the attorneys for the railroads and the great mining interests in an effort to defeat the document. They are horrified beyond measure. They are calling upon all traditions of reverence for courts of inherited complacency with things "as they are" with a cry that the masses—to whom, with unconscious humor, their zeal is directed—would coerce judges to acts of injustice.

Lefter to Council from R. F. Powell read, suggesting prepartion of short statement setting forth the plans and purposes of the Colony to accompany the final rent appraisement and printing several thousand copies of same, read but no action taken.

Moved and carried that superintendent lands and highways get bids on moving old Arts and Crafts building from its position in street on to lot in the rear of the. Mrs. Bemis lot.

traditions of reversnce for courts of inherited complacency with things "as they are" with a cry that the masses—to whom, with unconscious humor, their zeal is directed—would coerce judges to acts of injustice.

Listen, then, to the answer of George W. P. Hunt, the president of the constitutional convention. Hunt might be expected to be leading the hue and cry. He has money. He is accounted one of the leading merchants of Arizona. He is no "red-shirted anarchist." He say:

"We yield to no men in our reverence for courts. But whatever dignity may rest in courts as inskitutions, does not extend to judges. They are human.

When the recall was made a part

# **FAIRHOPE** SINGLE TAX COLONY

Fairhope, to outward appearance, is like other towns, save for evidences of exceptional prosperity usually noted by the casual observer; but it is unique among the towns of this or any land.

It is a town "with a purpose." That purpose is to make a practical application of the teachings of Henry George upon the land question—as fully as possible under existing laws.

Henry George re-asserted the proposition that "all men are equally entitled to the use of the earth," and proare equally entitled to the use of the earth," and proposed to secure that right to all by requiring those who desire the exclusive use of any portion of the earth, to pay, for the benefit of all, the value which the common estimation attached to such portion. He proposed to take this as a tax for public purposes, in lieu of all other taxes—hence the name "Single Tax."

Those who founded Fairhope advocated, and still advocate, this as a reform in taxation; but they realize that its essential feature is the taking of land values for public use, and that the right to collect land values attaches to LAND OWNERSHIP under our present laws. So they hit upon the clever plan of securing by purchase, the right to collect land values, not as a tax but as rent, and administrating these relies not for their hear frent. ministering these values not for their benefit as OWNERS in the usual way, but for the benefit of ALL who might by locating upon such lands contribute to their value.

Under this plan the title to the land is neld by the Fairhope Single Tax Corporation, a corporation chartered under an Alabama statute, having a perpetual existence, and conducted by its members under its constitution and

Lands are leased to individuals in quantities to suit, on

Lands are leased to individuals in quantities to suit, on ninety-nine year leases, subject to an annually appraised rental, collected and disbursed for the public benefit.

To make this really a "Single Tax," and to free its lessees from the blighting injustice of taxes upon improvements and personal property, the Corporation pays out of the rent not only the taxes upon the land, but upon the improvements and personal property of lessees.

All the rent fund remaining is expended locally for the public benefit a roads, schools, library, telephones, parks, bath-houses, etc., etc.

Absolutely no portion of this rent goes as interest, dividends, or profits, to the founders or members of the Colony, or any other persons.

The constitution forbids the granting of franchises to individuals or corporations for performing any public service, but requires that the Corporation shall, as fast as may be, provide the same and operate them in the common The Corporation thus owned and operated the wharf, at

which land the steamers, by means of which communica-tion is maintained with the outside world, and which yield ed annually a very substantial addition to the public reven ue, until that wharf was practically destroyed by the great storm of September 27, 1906. It has been rebuilt by acompany of citizens under contract by which they will manage it until the obligations incurred by them in the rebuilding are satisfied, when it will be turned back to the It owns a water-works system, (the only one in Baldwin

county) with steam pumping plant and mains supplying the principal part of the town with water for domestic use and fire protection; and a local telephone system, with long distance connection.

The Fairhope policy eliminates the land speculator entirely; and for those who WANT LAND FOR USE, whether for residence, business, manufacturing or farming, it is easily shown to be far better and cheaper than owning. Fairhope is delightfully located on the shore of Mobile

bay, has excellent hotels, restaurants, stores schools ice-plant and creamery, blacksmith and butcher shops doctors, churches, fine bathing and fishing, and exception ally intelligent and sociable people.

Beautiful lots in the town and farm lands adjacent to it are open to settle s without purchase price, to the colony's favorable terms.

# ATTEMPT.

To Wreck Louisville and Will Kennedy Fatally Nashville Train Near Bay Minette Discovered in Time.

Bay Minette, Ala., Jan 18.—An attempt was made by some unknown parties to wreck some of the trains of the Louisville and Nashville Railroad near this town shortly before daylight yesterday morning. The persons with the evil intent broke the lock on the switch about a quarter of a mile north of town and threw the switch out and clogged the space between the rails with slag. The parties who did the work between the hours of 5 and 6 as the switch tampered with was discovered by Ned Dolive in coming to town yesterday morning and the special conveying the soldiers from Montgomery to Mobile had passed over the switch shortly after 5 o'clock.

Investigations have been made and a number of officials oj the road are looking into the matter. The lock to the switch was found about fifty feet rom the switch badly battered and broken. The switch was then moved over to the left leaving the track open only to one of the side tracks, where a sudden turn of the engine on a fast moving train would probably have wrecked the entire train. It is thought that some one was desirous of derailing and wrecking one of the specials from Montgom-

# WHY NOT INDEED?

If commission government is economical for cities, why should it not be just as economical if applied to county government?

If Senator Screws wishes to be fair to the electors of the state as he says he does, why does he not draw his commission government bill broad enough so that it can be applied either in county or city government?

ing the bill to certain sized cities? shown by the Lorimer case had Does he wish to imply only cities | that state poss of a certain size need such a form of Oregon. He says: of government or does he wish to insinuate that only cities of a certain size are qualified for such a

As we understand it, the commission form is supposed to be not only more efficient but more economical than the present form, if that is a fact or even a plausible theory, why not give all divisions of the electorate a chance to try it if they see fit?

# DEATH OF MRS. A. B: GASTON

A marked copy of the Cochranton, Pa., Times brings news of the derth of Mrs. A. B. Gaston of that place. Mr. and Mrs. Gaston visited Fairhope winter before last and made many friends here, both being exceedingly pleasant people. The cause of death was apoplexy. Mr. Gaston was in Florida at the

An interesting account was given in the Register of Wednesday, about "Gonda" cheese a special cheese, very popular in Holland, and which Mr. W. F. Meder, the Hollander who recently established an extensive dairy plant at Foley is preparing to put upon the market. Mr. Meder is reported to be very much pleased with results obtained at his dairy so far.

---0-The Concert on Thursday evening next, promises to be a rare treat for music lovers. Mrs. Morehead is a singer of National reputation and Miss Slosson's playing always pleases.

The V. I. C. meets with Mrs, Comings at Cottage Content next Thursday afternoon at 3 o'clock.

# FATAL SHOOT-

Shoots Joe Campbell. Is Himself Badly Cut.

Last Saturday night at about 11 o'clock Joe Campbell, a young Point Clear negro, was shot thro the abdomen by Will Kennedy also colored, and died from his wounds on Monday afternoon about 5 o'clock. Doctors Schowalter, Mershon and Sheldon, all assisted in giving surgical attention to the wounded man, but his intestines were perforated in eight places and the case was a hopeless one.

The shooting occurred at the home of Sylvester Henry about a mile south of Fairhope where Henry lives and runs a small store. It is alleged that he keeps a blind tiger" there but whether this is true or not the presence of liquor was in part at least responsible for the shooting.

Kennedy was himself badly beaten and cut up, sûstaining a big razor or knife cut on the head, just missing a large artery and several body wounds, which Dr. Sheldon dressed on Tuesday. He claims to have acted in self de-

The following from the Register of Tuesday is good for its endorsement from three such sources, of the principle of popular rule.

While many Easterners are disposed to make light of constitutional innovations in Oregon, believing that the last word in the evolution of the forms of government was spoken when our representative system was brought into being, Governor Woodrow Wilson, whose scholarly attainments are very great, is disposed to befieve that Illinois would not have Why the necessity of restrict- obtained its unenviable repute as sed laws like those

> "I believe the Oregon system of popular government laws has brought a fundamental reform of previous corruption and has brought to the people of that state truly representative government in the place of fragrantly misrepresentative government. I believe the system which has been evolved there contains the essentials of a body of laws and constitutional amendments which the people of other states should study carefully with a view to procuring for the people the manifest benefits which have been derived for the people

of that State." The Washington Herald, commenting upon this farseeing man's opinion says: "If the late campaign, so free from partisan significance, and in which party lines were ruthlessly broken, made one thing clear it is that the country is insistent upon insistent upon popular government—a government representative of and responsive to the people's will. Oregon pointed the way. Her system is not an unproved theory—it is a demonstrated fact, potent for public good,"

# ENTERTINMENT AT BATTLES A SUCCESS

The entertainment at Battles on Saturday night for the benefit of St. Luke's Episcopal Church was very much of a success. The program was as follows: A, M. Dealy, rick to lift it. In recovering the song; Irene Bell, recitation; Wm. Dealy, song; Grace Hutchings, recitation; Frances Gaston, song; Mrs. teare, recitation, and a black face sketch by Dealy Brothers.

After the program the ladies of the church served , refreshments and dancing was indulged in.

Fairhope people were very much in evidence two parties going down numerous fish were brought to the on hay-rides besides other convey-

# LESPEDEZA POPULAR

Lespedeza or Japanese clover is being grown to such an extent that a state Lespedeza Growers' Association as been organized in Louisiana. It is rapidly becoming an important hay crop in that state and no other plant it is said is so suitable for hay production.

The Methodist conference at Toronto, Canada, have adopted .the report of the General Committee on Sociological questions of which the following was a part: "Your Committee have considered the memorials on the land question submitted to it. Believing that the The earth is the Lord's and the fullness thereof, and that under the providence of God the state is the trustee whose duty it is to enact the conditions under which these divine gifts should be used for the benefit of all, we thereore condemn the handing over of large tracts of land to individuals and corporations without attaching conditions which would prevent any being held for speculative purposes only. Whenever vested rights are not interfered with, we recommend legislation which will prevent any individual or corporation from profiting hereafter rom the unearned increment in the value of land. We note with pleasure the experiments which are now being made in Great Britain, and by the city of Vancouver and other western towns, in organising finances on the basis of a ( Single' Tax on land values. We shall have a chance to determine experimentally how far this method of taxation may prove to be a panacea for economic ills."

W. W. Kile closed a deal early this week for the transfer of all his property interests here; the purchaser being Mr. A. N. Whittier. Mr. and Mrs. Kile will return to Dayton, Ohio. their former home,

probably about April first. The latter will be very unappreciated news to the many friends of story has been related in a charm-Mr. and Mrs. Kile here. They have been very helpful citizens and appreciated members of the Fairhope Single Tax Corporation.

While we are sorry that Mr. Kile has closed out his investments here we are glad that another of our citizens, Mr. Whittier, after a residence of a year, is ready to take up what Mr. Kile lays down. It means the "fixing" of the Whittiers and their son-in-law Mr. Jack Galbraith, the latter of whom has been in charge of the Fairhope Pharmacy during the last six months and we doubt very much iff Mr. and Mrs. Kile having lived for several years in Fairhope's climate can tolerate again that of served and a collection taken.

# SALVAGING LEE'S MACHINERY

Engineer Harry Locke, in charge of the work of salvaging the machinery of the General Lee succeed in getting the boiler out on Saturday last, but had to secure the aid of another barge with derengines he had to call an experienced dynamiter to his assistance and numerous charges were exploded on Tuesday and Wednesday to tear the hull to pieces. The work was witnessed by a large crowd of interested spectators.

The water would be thrown high in the air by the explosions, and surface killed or stunned and picked up by boys with skiffs.

From Register of Jan. 17th. Commissioner Patterson from Baldwin County reported a violation of the dredging law on the Eastern Shore Monday. The commissioner advises that he will have the guilty party arrested and bound over to await the action of the next grand jury. This violation occurred on what is known as Shell Bank reef, in the interest of which the commission has exerted itself on several occasions. This reef was closed during a good portion of last season, but at the solicitation of several oystermen on the Eastern Shore it was opened, and an inspector appointed that it might not be entirely skinned as had been done heretofore. The condition on the reef was made the not we know the hard conditions subject of a special report by the bureau of fisheries several years ago, and the condition was clearly set forth by the party who made who ask about the chances here for the survey. The literal language was, "This reef has been skinned,

# VELVET BEAN ENTHUSIASTS

Two velvet bean enthusiasts the editor encountered going to Mooile on the Irma the other day were Mr. Robinson of Belforestand Mr. J. A. Folmar of Bromley. Mr. Robinson does not think much of them for hay. He don't deny their value in that respect but he prefers to get his hay from crops easer cured and handled for the puroose. He prefers to let his stock harvest the velvet bean crop for themselves and this is undoubtedly the line of least resistance; and he is very enthusiastic over their values as soil enrichers. Mr. Folmar, however, cuts and cures quantities of velvet bean hay and finds it very satisfactory for all kinds of

# PUBLIC SCHOOL NOTES

Visitors during the past week G. White, Mrs. Heuston, Mrs. Kelly of all dire Mrs. G. W. Wood and Mr. Adolphus Wilson.

Those who were sick have been missed. Among the absent are Gertie Creamer, Harry Stradling, and Pearl Bishop.

George Harvey has returned to school after a visit to Chicago.

During the past week Mrs. Sweet has related the story of Ben Hur at the morning exercises. ing manner and has been enjoyed by all who heard it. She will next tell a story of the Eskimos. The snow is not here but the story will

be interesting. George and Harry Fellowes are among the new pupils this week.

# HENRY GEORGE CLUB TO MEET

The Henry George Club, will give its first evening social of 1911 at the home of Mrs. L. A. Powell, on Friday evening of next week, the 27th. A large attendance is hoped for at this spacious and pleasant home. Light refreshments will be

# TOWN TO GET HALF OF ROAD AND BRIDGE TAX

The law providing that half the road and bridge tax collected by the county from the property with in municipalities, shall be paid to the municipal authorities has been declared constitutional by the Supreme Court of the state.

This should bring quite a little sum to Fairhope to assist in bridge building and no doubt the town government will call for it prompt-Payment has been refused on account of validity of the law being questioned.

Do not fail to attend the Concert on Tuesday evening next.

# MRS. CHRISTOPHER STILL WORKING FOR FAIRHDPE

Mrs. Herring-Christopher's article in the Boston Globe led to, an invitation from the president of the Eclectic Club of Boston to address the regular meeting of the club last Sunday. She writes that there was great interest shown, even to the extent of asking definite information about railway fare and routes and one of Boston's most enthusiastic Single Taxers, Mr. C. S. Mitton asked her to order him one hundred copies of the Courier to give out.

# HOW MANY MEN

WITHOUT MONEY

It is astonishing—or would be did which prevail-the number of inquiries for information about Fairhope from well educated men "men without money." One just receiveds is from a man who was not only of oysters but of clutch "brought up on a farm, received a college education and master's degree at Harvard University," with a good position in an Indiana academy, but who wants to know if "a man without money can do anything at Fairhope." It is very difficult to answer such inquiries.

The right man, even without money could get along at Fairhope, and in time get a home and be his own employer, but it would unquestionably require lots of grit industry and self denial to do so, Still, we know of no place where the conditions are more favorable all things considered.

# THE LEASE FOR "FREE ACRES"

We are indebted to Bolton Hall for a copy of the form oj lease adopted for "Free Acres" the new Single Tax colony in New Jersey near New York City. The form is very simple.

We were interested to note the provision that "all rentals so colwere Mrs. A. H. Mershon, Mrs. J. be expended first in the payment ect taxes, so far as said rentals will suffice so that all the leaseholders shall be exempt from all direct taxation to that ex-

> This is following the line of Mr. Ring's argument made here some time ago. At that time Mr. Hall wrote that the proosition seemed to him bad business. Probably the majority of his associates in Free Acres did not agree with hisview, The question of course only arises because of the effort through a colony to apply the Single Tax under multiple tax laws, which the colony cannot control. There is never any difference of opinion

among no Single let axeus anywhere that taxes on improvements should not be levied.

# BLANGHARO PURCHASES PLACE

Mr. C. J. Blanchard while here last week concluded a purchase of the Herman Stemerdink improvement on ten acres of Colony land beyond Homecroft Gardens. He expects to be down with his family ko occupy it about April first Mr. Blanchard is an inspector for a boiler insurance company, and is on the road most of the timebut wants to get a home of his own and looks forward to giving up the

The Colonial Inn has been unable to accommodate all the guests drawn by its superior attractions, but has now secured the large two story house of Mrs. Crawford, across the park and will be able to take care of the overflow there, for the present at any rate.

David Holt, the well known newspaper man, is in Montgomery writing up the news of the legis ature for a group of Alabama papers.

Subscribe for the Courier.

# OF CHRISTMAS

Address of A. J. Wolf Before Progressive League, Sunday, Jan. 8.

I am going to speak to you today simply as a man to his fellow men, without regard to individual beliefs on any subject, but simply in the interest of the truth as it appears to me. In the words of Wm. Lloyd Garrison in the first number of the Liberator, "I shall be as harsh as truth and as uncompromising as justice."

The memory of a man who has powerfully stirred the minds and consciences of his fellows by appeals to their highest conceptions o' justice and righteousness and who, by his utterances has drawn to himself a following of earnest admirers, tends, with the lapse of time and with the swelling of a handful of anxious souls to a multitude, to become idealized. With the march of time, as his teachings spread among the nations and a great cult arises, this idealistic conception becomes amplified and refined until a picture remains of a being whom men worship as one who has possessed intellectual and spiritual perfections beyond the reach of other mortals and almost beyond their capacity to fully comprehend. All that seems possible to his disciples is to try to adapt their lives to the standards which he has set. In this manner has evolved the conventional Christian conception of Jesus. Much of his teachings, as they have come down to us, frequently through doubtful means of transmission, were based upon an intuitive recognition by the average man of their innate soundness. This is evidenced, after the passage of nearly twenty centuries, by their acceptance by a large proportion of the inhabitants of our planet.

If we are correctly informed, Jesus taught humility in the presence of that awful and unknown power which is the life and motive of the universe, and which men commonly call God. He insisted upon a recognition of the absolute equality of every human being before this supreme and all pervading force. Over and above all, he taught the supreme desirability of peace and good will among men. That his message has been distorted by hierarchies and subordinated to the ambitions of rulers and priviliged classes is a matter of recorded history. That the story of his life, actions and sayings has been altered and exaggerated by forgeries interpellations, and important omissions, is proved by modern historical criticism and by the half hearted attempts at revision by conclaves of his followers. Superstition has become so entwined in the minds of a host with their belief that to them it has become their very warp and woof. This, indeed, was to be expected when we consider the scil of ignorance and self interest through which the narrow streamlet of iruth has been compelled to mean der its slow and deviousway.

Now however, when, at last, we have begun to know with accuracy and certainty some of the more palpable facts of nature and, to a slight degree, to understand the close correlation of all natural phenomena we perceive that the cause and possibility of our own existence on this whirling sphere, the earth, so comparatively insignificant in size, is the reign of natural law everywhere throughout the illimitable and immeasurable universe. Laws which are as the very breath from the nostrils of God and the only reliable manifestations which we possess of His being. The sole method by which these laws can be discovered and classified is that pursued in scientific investigation. This method precludes the mere gratification of personal vanity, and ignorance is its deadly foe. Before it is begun, doubt must have full sway and liberty of action; doubt of every statement and of every theory until it is proved beyond question. When its results are proclaimed they are subject to the doubt and

SUMMER ATMOSPHERE WITHOUT THE SUN

uriant garden flourishing in the bowels of the eartha subterranean paradise, where beautiful, sweetscented flowers bloom and tasty vegetables for the dinner table mature while icy winds and jack frost reign with despotic power on the surface

Whoever imagined that the soil of dark, damp coal mine-after its black treasures of carbon had been exhausted to keep factory wheels in motion and houses warm-could be utilized for flower raising and truck gardening?

It has remained for an enterprising Indianian-a Hoosier-to at least experiment, with a measure of success, along floricultural and horticultural lines in the bowels of the earth, at a depth where sunshine and rain never penetrate. Frank B. Posey of Poseyville, Posey county, Indiana, is the man who rivals Burbank the wizard. and who has triumphantly realized a life-long dream. These names of city and county in the extreme southwestern corner of the rich and fertile Hoosier state, along the north bank of the Ohio river, stand as the immortal tributes paid to the Posey family by the hardy pioneers who braved the scalping "redskins" to cultivate the Indiana wilderness more than a century ago.

Mr. Posey is a worthy descendant ced a counterfeit. The public, of that sire of mysterious lineage for whom Posey county and Poseyville were named. He has won renown on his own account and accumulated ten talents by judicious use of the one his progenitors bequeathed him-fore-

The location of the Posey innovation in floriculture and gardening is between Poseyville and Boonville. It is an abandoned coal mine that had been given up as serviceable only for the habitation of green lizards and other slimy denizens of dark, damp recesses. During the winter of 1909-1910 the Posey plants thrived in the old colliery. Did Mr. Posey desire a tulip or a carnation with which to add a touch of nature to the decorations of his drawing-room, he merely went to the lift of his mine, decended and picked the blossom. If his appetite needed a stimulant he brought up a radish, a green onion or a dainty bunch of lettuce, endive or celery, crips, juicy and sweeter than any ever grown in a hothouse. Does this seem like an improbability?

Origin of the Mine Garden. And how did the mine garden come

about? It is an interesting little story. Several years ago Posey, having arrived at the conclusion that "Asia is for the Asiatics and China a sprinkling device. Acetylene gas for the Chinese," began to wonder if Indiana should not be to the Hoosiers. It took him only a short time to decide that question for himself. Then Posey got busy and soon was

hard at work with some laborers. He cleared away the ruins on the surface, erected a frame building over the shaft and installed heating apparatus. He put in simple ventilating machinery, constructed a small elevator and descended to complete his exploration of the mine and begin the laying out of his "garden." Far below the surface lay the base of the shaft, enlarged to the size of perhaps a fourth of a city double lot. Giant oak and maple timbers, rough hewn, stood upright, formed a solid wall of wood around this big room, except and fragrant decorative blossoms as where the tunnels, whence the coal had been extracted, branched off in several directions. The natural rock of the "room" was supported with his dream. Meanwhile he planned to huge wooden beams to prevent the having lived for ninety years without fall of slate. Away from the shaft vegetable growing to undertake marever having had his face shaved or ran the caverns, dark as pitch, for keting in the future. miles, perhaps. Cross sections, dug

HOEVER heard of a lux- where thousands of tons of coal had been mined.

"Fine!" cried the subterranean gardener when he observed how the miners had left the "rooms" intact with supporting columns and walls reenforced by heavy timbers. If he had dug into the buried treasure house of a grandee of Pompeii or Herculaneum he could not have been more delightel. In those "rooms" stretching side by side, he knew not how far, he believed he could ultimately cultivate enough flowers and vegetables to make it-so far as concerned vegetation-eternal spring and summer in the homes in the big western and northern cities.

But he planned only to experiment on a small scale at first. He would attempt to raise just a few things for his own use. Posey selected one of the smaller chambers and transformed it into flower and vegetable beds, laboring in the atmosphere of summer, but without having a blistering sun beating down on his back. Over his head was an eternal cloudthousands of tons of earth and rock.

All that Posey needed was artificial light, water and something to stir the

It was easy enough to get the water through a hose and make it fall like cient Gaul, is divided into three tute for the sun was not so easy a task. But the experimenter got the substitute. Acetylene gas provided the beneficent rays that made the seeds swell up till they burst and design is printed after weaving. the sprouts shoot out. The underranged it in such a way that the beams of light would fall evenly on every portion of the garden. For his experiment in growing he selected such varieties of flowers and vegetables as he knew grew best by artificiallight-some of these having already been named. He planted his crop and adjusted the gas plant so as to produce "days" in the mine of a length equal to the natural days above ground in the sprouting season of spring, although it was in reality winter on the surface.

Not to his surprise, but to his infinite delight, Posey soon saw little green shoots thrusting their tiny way up through the soil of his underfertile. Besides that, the plants drank in every bit of the fertility of the soil, for there were no foul weeds in that garden. Cultivation the plants needed, and they got it. Rain they needed, and they got that, too, through gave the nearest artificial approach to sunlight that is known to modern science. It seemed to fulfill all the requirements of the growing plants. In fact, it almost outdid the sun in developing the plants to maturity.

A Great Success. Within little more than half the time usually needed, Posey's tulips and other flowers were blooming. His vegetable crop grew with like rapidity, and before his friends discovered that he was a midwinter farmer he was giving a few preferred ones some of the choicest, most toothsome vegethe subterranean garden. His own table was often supplied, not only with the edibles, but with beautiful

STYLE IN SANDWICHES

JUST NOW THE ROLL SEEMS TO BE IN VOGUE.

Triangles and Narrow Oblongs Also Are Much Favored-Nice Discrimination Called for on Part of the Hostess.

The modern sandwich is small and shapely. The favorite form just now is round, though triangles and narrow oblongs are also good.. A rather novel form is the roll. The thin slice is spread as for a sandwich, then rolled in on itself until about the thickness of two fingers. Sharp biscuit cutters are used for round shapes after the slices of bread are put together with the filling.

Too great care cannot be eaken in shaping, as sandwiches of uneven size are not appetizing and reflect upon the social knowledge of the hostess.

If made several hours before they are used, sandwiches are packed closely together and wrapped in a linen cloth wrung from ice water, then in a dry cloth.

Pass on silver sandwich plates, with lace doily underneath, or neatly heaped on a flat china or glass plate covered with a doily. Where many sandwiches are served a small chop plate is often utilized. Where there is a muffin stand the sandwich plate is set on one of the shelves, with a plate of crackers and a basket of small cakes on the other two.

Sandwich fillings are of three orders-meat, in which is included fish and egg sandwiches; cheese mixtures, and sweet sandwiches.

There are also various greens, though lettuce is so much used with all forms that it can scarcely be classed by itself. In this class may be put celery or endive run through a fine meat chopper and mixed with mayonnaise; cress and nasturtium tendrils and pods mixed with French dressing, and parsley chopped fine and mixed with shredded peppers or shredded onion.

For tea purposes decided onion mixtures are better omitted, though finely chopped white onion is relished with capers and anchovy fillings.

For ordinary purposes cold meat or poultry run through a fine chopper and mixed to a paste, with rich cream and seasoning of salt and paprica, are delicious and not so rich as the mayonnaise fillings. Chicken and tongue mixed in equal parts are a pleasing novelty; so is shredded bacon and ground chicken, with strips of pimen-

Most of the meat and fish salad leftovers can be used as sandwich filling. Hot lobster Newburg makes a delicious sandwich; so does creamed crab with red peppers, and finely chopped shrimps with capers masked in mayonnaise.

Green or red peppers chopped fine and mixed with mayonnaise make a favorite filling, the latter being especially artistic.

Some Carpet Notes.

Do you know that carpet, like anrain on the planted beds. It was also classeses? First there is the jacquard easy to keep the air in any kind of -carpet with cut or uncut pile and a circulation he desired. An electric mechanical repeat from pattern. In fan, capable of whirling in 1,000 or this class are included brussels, wil-3,000 revolutions a minute, solved that ton and ingrain. Then there is the enlightening title of non-jacquard. Axminster and chenille carpets are in this group.

Finally, there is the printed class, which includes fabrics on which the

Favor is awarded to carpets in the ground farmer put in a small ace following order: Brussels comes first, tylene gas plant in the "room" and ar followed by wilton, axminster, ingrain, tapestry and, last of all, velvet.

> Coffee Custard Minus Eggs. Make a strong cup of coffee, or that left from breakfast will do; strain through cheesecloth into a pint of milk; put milk into double boiler with one-half cup sugar, three tablespoons corn starch dissolved in cold milk, pinch of salt and small piece of butter; cook 20 minutes. Remove from fire, flavor with vanilla and pour into molds; chill and serve with whipped cream. Delicious-just like coffee ice-cream. Cocoa or chocolate can be used in place of coffee.

> > Pate a Choux.

One tablespoon butter, one-half cup water, five tablespoons flour, oneeighth teaspoon salt, one egg. Heat butter and water to boiling point, add flour, all at once, and stir vigorously until mixture leaves sides of pan; remove from fire, cool, add egg unbeaten, and stir until well mixed. Let paste stand for one-half hour, then drop small pieces from tip of teaspoon into hot, deep fat, fry until crisp and brown. Drain on brown paper. Serve in clear soups.

Thunder Cake.

cup milk, yolk of one egg. Mix and set on back of stove until it thickens. Meanwhile mix one cup sugar, one tablespoon melted butter, one-half cup tables they had ever tasted, all from milk, pinch of salt, one and threequarters cups flour, teaspoon vanilla. Combine mixtures and add one teaspoon soda dissolved in one table spoon hot water.

Chutney Relish.

Four pounds of chopped apples, four pounds brown sugar, one pound seedless raisins, level dessertspoon cayenne pepper, same of ground garlic, two tablespoons green ginger root, one and a half cups vinegar. Cook in oven until done. Stir frequently.

Ended the Controversy. Are You Sick On the steeple of an old Universalst church in Bath, Me., there is a or Ailing? Hood's Sarsaparilla has genuine

wooden figure of an angel. It is not a remarkably fine specimen of art, and nas always been somewhat laughed about, especially because of its highneeled shoes. The Bath Enquirer recalls the story that a former pastor of the North Congregational church once accosted a devoted Universalist with the question: "Mr. Raymond, did you ever see an angel with high-heeled shoes on its feet?" "Why, no," answered Mr. Raymond, "I can't say that I ever did; but did you ever see one

### SYNOPSIS.

At the expense of a soiled hat Herbert Orme saves from arrest a girl in a black touring car who has caused a traffic jam on State street. He buys a new hat and is given a five dollar bill with: "Remember the person you pay this to?" written on A second time he helps the girl in the black car and learns that in Tom and I see Wallingham they have mutual friends, but gets no further hint of her id mitty. He discovers another inscription on the marked bill, which in a futile a tempt to decipher it, he copies and places the copy in a drawer in his apartaent. Senor Poritol, South American, calls and claims the marked bill. Orme refuses, and a fight ensues in which Poritol is overcome. He calls in Senor Alcatrante, minister from his country, to vouch for him. Orme still refuses to give up the bill. He learns that a Jap has celled for him. Orme goes for a walk that sees two Japs attack Alcatrante. He pescues him. The minister tries diplonacy, but falls to get the marked bill. Returning to his rooms Orme is attacked by two Japs who effect a forcible exchange of the marked bill for another. Orme finds the girl of the black car waiting for him. She also wants the bill. Orme falls his story. She recognizes one of the Japs as her father's butler, Maku.

### CHAPTER IV .- Continued.

The girl laughed. "It was really ridiculous. He over-speeded and was eaught by one of those roadside motor car traps, 10 or 12 miles out in the country. They timed him, and stopped him by a bar across the road. From what the detective says, I judge he was frightened almost to speechlessness. He may have thought that he was being arrested for stealing the car. When they dragged him before the country justice, who was sitting under a tree near by, he was white and trembling.

"They fined him \$10. He had in his ocket only \$11.63, and the marked pill was nearly half the sum. He begged them to let him go-offered them his watch, his ring, his scarf pin-but the justice insisted on cash. Then he told them that the bill had a formula on it that was valuable to him and no one else.

"The justice was obdurate, and Mr. Poritol finally hit on the device which you have seen. It fitted in well with his sense of the theatrical; and the detective says that there was not a scrap of paper at hand. The point was that Mr. Poritol was more afraid of delay than anything else. He knew that I would put some one on his track."

"When did all this happen?" asked Orme.

came back to Chicago by trolley and tingling through him. got some money. He went back to persons to you, just as Maku did, and as I have done. But I heard nothing of the Japanese."

"You shouldn't have attempted this alone," said Orme, solicitously.

She smiled faintly. "I dared not let that a detective might learn too much." She sighed wearily. "I have been on the trail since morning."

"And how did you finally get my address?"

"The man who paid the bill in at the hat shop lives in Hyde Park. I while he was at dinner. He directed me to the hat shop, which, of course. was closed. I found the address of the owner of the shop in the directory and went to his house. He remempered the bill, and gave me the addresses of his two clerks. The second clerk I saw proved to be the one who and paid the bill to you. Luckily he remembered your address.

Orme stirred himself. "Then the Japanese have the directions for finding the papers."

'My predicament," said the girl. "is the bill does actually carry definite directions."

"It carries something—a set of abbreviations," said Orme. "But I could not make them out. Let us hope that the Japanese can't. The best course for us to take is to go at once to see Walsh, the burglar."

He assumed that she would accept his aid.

'That is good of you," she said. But it seems a little hopeless, doesn't

"Why? What else can we do? suppose you saw to it that no one else should have access to Walsh."

"Yes, father arranged that by telephone. The man is in solitary confinement. Several persons tried to see him today, on the plea of being relatives. None of them was admitted."

What money king was this girl's father, that he could thus regulate the treatment of prisoners?

"So there were abbreviations on the bill?" she asked.

"Yes. They weren't very elaborate, and I puzzled over them for some time. The curious fact is that, for all my study of them, I can't remember much of anything about them. What I have since been through, apparently, has driven the letters out of

"Oh, do try to remember," she im-"Even if you recall only one or two bits of it, they may help me." There was something about a man named Evans," he began. "S. R.

Evans, it was." Evans? That is strange. I can't think how any one of that name could

"Then S. R. Evans is not your father?" he ventured.

"Oh, no." She laughed a light little laugh. "My father is—but are you sure that the name was Evans?"

"Quite sure. Then there was the abbreviation 'Chi.'-which I took to mean 'Chicago.'"

"Yes?" she breathed.

"And there were numerals—a number, then the letter 'N.;' another number, followed by the letter 'E..' So far north, so far east, I read itthough I couldn't make out whether the numbers stood for feet or paces or miles."

"Yes, yes," she whispered. Her eyes were intent on his. They seemed to will him to remember. "What else was there?"

"Odd letters, which meant nothing to me. It's annoying, but I simply can't recall them. Believe me, I should like to."

"Perhaps you will a little tater," she said. "I'm sorry to be such a bother to you." "Bother!"

"But it does mean so muck, the tracing of this bill."

"Shall we go to see Walsh?" he asked.

"I suppose so." She sighed. Apparently she was discouraged. "But even if he gives the information, it may be too late. The Japanese have the directions."

"But perhaps they will not be able to make them out," he suggested. She smiled. "You don't know the Japanese," she said. "They are abominably clever at such things, I

will venture that they are already on their way to the hiding-place." "But even if the papers are in the pocket of one of them, it may be possible to steal them back."

"Hardly." She arose. "I fear that the one chance is the mere possibility that Maku couldn't read the directions. Then, if Walsh will speak out-"

"Now, let me say something," he said. "My name is Robert Orme. Apparently we have common friends in the Wallinghams. When I first saw you this afternoon, I felt that I might have a right to your acquaintance-a social right, if you like; a sympathetic right, I trust."

He held out his hand. She took it "Yesterday afternoon. Mr. Poritol her fine, firm palm sent the blood frankly, and the friendly pressure of not forego the excitement of the

"I am sorry," she said, "that I can't the country justice and discovered that give you my name. It would be unthe marked bill had been paid out. fair just now—unfair to others; for He has followed it through several if you knew who I am, it might give you a clue to the secret I guard."

"Some day, I hope, I may know," he said gravely. "But your present might be here, a wish is my law. It is good of you to to recognize it." let me try to help you."

At the same instant they became anyone into the secret. I was afraid conscious that their hands were still tling for her father's interests. What me as a friend," he thought, warmly. Orme asked himself. The girl blushed, and gently drew hers away.

"I shall call you Girl," Orme added. "A name I like," she said. "My fathat burglar wrote on the bill!"

Orme started. What a fool he had did not get to him until this evening, been! Here he was, trying to help the girl, forcing her to the long, tired | risks? recital of her story, when all the time he held her secret in the table in his sitting-room. For there was still the paper on which he had copied the abbreviated directions.

"Wait here," he said sharply, and without answering the look of surprise on her face, hurried from the room and to the elevator. A few moments later he was back, the sheet of paper in his hand.

"I can't forgive my own stupidity." he said. "While I was puzzling over complicated by the question whether the bill this evening I copied the secret on a sheet of paper. When Poritol came I put it away in a drawer and forgot all about it. But here it is." He laid the paper on the little, useless onyx table that stood beside her chair.

She snatched it quickly and began to examine it closely.

"Perhaps you can imagine how those letters puzzled me," he volunteered.

"Hush!" she exclaimed; and then: "Oh, this is plain. You wouldn't know, of course, but I see it clearly. There is no time to lose." "You are going to follow this clue now-tonight?"

"Maku will read it on the bill, and -oh, these Japanese! If you have one in your kitchen, you never know whether he's a jinriksha man, a college student, or a vice-admiral'

"You will let me go with you?" Orme was trembling for the answer. He was still in the dark, and did not know how far she would feel that she could accept his aid. "I may need you, Mr. Orme," she

said simply. It pleased him that she brought up no question of possible inconvenience to him. With her, he realized, only

direct relations were possible. "How much of a journey is it?" he ventured to ask. "Not very long. I intend to be

> The girl led the way around the corner into a side street. There stood the car. He helped her in and without a word saw that she was restfully and comfortably placed in the seat next to the chauffeur's. She did not resist the implication of his mastery. He cranked up, leaped to the seat beside her, and took the levers.

> "Which way, Girl?" he asked. 'North," she answered. The big car swung out in the Lake Shore Drive and turned in the direc-

> > CHAPTER V.

tion of Lincoln park.

"Evans, S. R." The car ran silently through the

park and out on the broad Sheridan road. Orme put on as much speed as was safe in a district where there were so many police. From time to north." time the girl indicated the direction with a word or two. She seemed to be using the opportunity to rest, for her attitude was relaxed. The hour was about eleven, and the

streets were as yet by no means deserted. As they swung along Orme was pleased by the transition from the ugliness of central Chicago to the beauty of suburbs-doubly beautiful by night. The great highway followed the lake, and occasionally, above the muffled hum of the motor, Orme could hear the lapping of the wavelets on the beach.

The girl roused herself. Her bearing was again confident and untired. 'Have you been up this way before?" she asked. "No, Girl."

"This is Buena park we are passing now. We shall soon reach the city

Clouds had been gathering, and suddenly raindrops began to strike their faces. The girl drew her cloak most closely about her. Orme looked tired; so he said: "Can't you send me she smiled back with a brave attempt ular evening.

about me," she said. "I'm quite dry." With that she leaned back and drew from the tonneau a light robe, which she threw about his shoulders. The act was an act of partnership

merely, but Orme let himself imagine an evidence of solicitude in her thoughtfulness. And then he demanded of himself almost angrily: "What right have I to think such thoughts? She has known me only an hour.' But to him that hour was as a

year, so rich was its experience. He found himself recalling her every change of expression, her every char-But the joy of the thought was modified by the unwelcome reflection that the girl had had no choice. Still, he knew that, at least, she trusted him, or she would never have let him accompany her, even though she seriously needed protection.

They were passing a great cemetery. The shower had quickly ended. The white stones and monuments fled by the car like dim and frightened ghosts. And now the car swung along He hugged the side of the building, with fine houses, set back in roomy grounds, at the left, the lake at the right.

"Do you know this city?" the girl asked. "I think not. Have we passed the

Chicago limits?" "Yes. We are in Evanston." "Evanston!" Orme had a glimmer.

The girl turned and smiled at him. "Evanston-Sheridan Road." "Evans-S. R.!" exclaimed Orme.

She laughed a low laugh. "Ah, Monsieur Dupin!" she said.

Speeding along the lake front, the west, skirting a large grove of trees which hugged the shore. Just at the turn was a low brick building on the plained the girl; "and these are the goes around the campus, and strikes the lake again a mile or more farther

Large buildings were at their right -some near the street, some at a distance back. Then the road again turned to the north, at a point where less imposing streets broke in from expect. the west and south.

"Stop at this corner," said the girl. Orme threw on the brakes.

"We are in Evanston, on the Sheridan road," she said, "and this street cutting in from the south is Chicago avenue.

"'Chi. A.!" exclaimed Orme. She had taken the paper from the pocket of her coat, and was scan-

ning it closely. "One hundred paces north and two hundred and ten east. T.' must mean 'tree.' Orme jumped to the ground. He noticed that the university grounds

were cut off from the street by an iron fence. There was a gate at the corner by which they had stopped. The gate was not closed. If it were customary to shut it at night, there But he knew that she must be to see that she was protected, and had been some neglect on this partic-

# IJIER MERWIN LIUSTRATIONS BY WALTER F THATHOO E CASH GOOD W, 6061 THOUSTON

"You'd better go in through the gate," said the girl, "and follow the west fence northward for 100 paces. Then turn east, at right angles and go 210 paces-I suppose it must be paces, not feet."

"Yes, ' said Orme. "That would be the natural way for a burglar in a hurry to measure."

"I will move the car north on Sheridan road a little way," she went on, "so as not to be in the glare of this street light." This was the first evidence she had

shown of nervousness, and Orme suddenly realized that enemies might be lurking among the trees. "It might be well for you to take the electric hand-lamp," she added.

He looked in the kit-box, but the lamp was not there. He told

"It's in the kit-box, I think."

"Maku may have stolen it," she said.

Orme slipped a heavy wrench into his pocket and closed the kit-box. With the girl, he avoided any reference to the possible presence of the Japanese among the trees, but knowing that he was no match for them unarmed, with their skill in jiu-jitsu, he resolved to be in some measure prepared.

He walked through the gate and began to pace northward, keeping close to the fence and counting his steps. Meantime the car followed his course, moving along the side of the road just west of the fence. Orme counted his hundred paces north, then turned east.

He saw that the 210 paces which he now had to take would carry him well over toward the lake. The girl evidently had not realized how great the distance would be. She would be nearer him, if she turned back to the corner and followed the Sheridan road eastward toward the life-saving station, but Orme did not suggest this to her, though the car was within twenty feet of him, the other side of the fence. If there should be a struggle, it would please him just as well that she should be out of hearing, for her anxiety, he knew, was already great, though she kept it closely under control.

Eastward he went through the trees. When he had covered about half the distance he found himself approaching the side of a large building. There must be some mistake. Had he deviated so widely from the course? In leaving the fence he had taken sights as carefully as he could.

Then the explanation struck him. Walsh, the burglar, had probably paced in eastward from the fence and come to the building just as he had. There was no good hiding-place apparent near at hand, and Walsh would hardly have retraced his steps. What, then, would he have done? have turned north or south.

Orme looked in both directions. North and south of the building were open driveways. Walsh must have gone around the building, then con- the envelope. tinued eastward. This is what Orme now proceeded to do.

Remembering the number of paces to the side of the building, he chose forehead. It was Maku. the northward course, because there was less light north of the building. counting his steps, and, after reaching the corner, turned eastward. He now side of the building.

paced as far southward on the eastern side as he had gone northward on he had originally come to the build- signs of returning consciousnes. ing, he added the number of paces the northern side of the building, and not seen his approach, though he road turned suddenly to the left and continued eastward toward the lake.

At the two hundredth pace he stopped to reconnoiter. Not more than two hundred feet ahead of him of the two matches had attracted his beach. "The life-saving station," ex- he could see dimly, through the tree attention. trunks, the expanse of the lake. grounds of the university. The road There was no sound, no evidence that any other person was near.

He proceeded cautiously for ten paces. Many trees were near him. He would have to examine all of after they turned. Orme noted that them, for it was hardly possible that they were scattered among the trees he had followed Walsh's course with unerring exactness. If the tree was within twenty feet of him north or south, that was as much as he could

One thing was clear to him. Walsh had probably chosen a tree that could easily be distinguished from the others, either by its size or by some peculiarity of form. Also, the tree must have a hollow place in which the envelope could be concealed. Orme now decided that Walsh must have found his tree first The even number, 100 paces north dence.

a trunk much larger than its neighbors. It ran up smoothly about eight feet to the first limb. An agile man could easily get up to this limb and pull himself into the branches. A cavity such as are so common in oaks, would furnish a good place for hiding the envelope away.

He looked up. Suddenly a light appeared among the branches. It was a short ray, striking against the trunk. Before Orme could realize what was happening a hand appeared in the little bar of radiance and was inserted apparently into the trunk of the tree. A moment later it was withdrawn. It held an ablong of

Involuntarily Orme took a step forward. A twig cracked under his foot. Instantly the light went out.

Orme drew the wrench from his pocket and stood tense. There was no other tree quite close enough for the man above him to spring to its branches. He would have to drop near Orme.

Standing there, the wrench in his hand, Orme felt that the advantage was his. He heard rustlings in the branches above his head and kept himself alert to guard against the man dropping on his shoulders.

To strike the Japanese down as he dropped from the tree, that was his plan. But meantime, where was the other Japanese? Was he among the near shadows? If so, he might even now be creeping stealthily toward Orme. The likelihood of such an attack was disconcerting to think of. But as Orme was wondering about it, it occurred to him that the man in the tree would not have gone on guard so quickly, if his confederate were near at hand. It was natural that he should have put the light out, but would he not immediately afterward have given some signal to the friend below? And would he not take it for granted that, were a stranger near, his watcher would have managed to give warning? No, the other Japanese could not be on guard.

Perhaps, thought Orme, only one of them had come on this quest. He hoped that this might be the case. He could deal with one.

The man in the tree was taking his own time to descend. Doubtless he would await a favorable moment, then alighting on the ground as far from Orme as possible, make off at top speed.

But now, to Orme's surprise, a figure swung from the lower branch apparently without haste. Once on the ground, however, the stranger leaped toward Orme.

An intuition led Orme to thrust out his left arm. It was quickly seized, but before the assailant could twist it, Orme struck out with the wrench, which was in his right hand. Swift though the motion was, his opponent threw up his free arm and partly broke the force of the blow. But the wrench reached his forehead never theless, and with a little moan, he dropped to the ground in a heap.

As Orme knelt to search the man, another figure swung from the tree and darted no disappearing in the darkness. Orme did not pursue -it was useless-but a sickening intuition told him that the man who had escaped was the man who had

He struck a match. The man on the ground was moving uneasily and moaning. There was a scar on his

He went through the unconscious man's pockets. There was no envelope such as he was looking for, but he did find a folded slip of paper which he thrust into his own pocket. counted his paces along the northern A discovery that interested him, though it was not now important, he When he reached the corner of the made by the light of a second match. eastern side of the building, he It was the marked five-dollar bill. He would have liked to take it as a souvenir, if for no other reason, but the western side, and on reaching a time was short and Maku, who evipoint due east of the place at which dently was not seriously hurt, showed

Another occurrence also hastened from the fence to the building to the him. A man was strolling along the number of paces he had taken along lake short, not far away. Orme had was distinctly outlined against the open background of lake and sky. The stranger stopped. The striking

"Have you lost something?" he called.

"No," Orme replied.

The man started toward Orme, as if to investigate, and then Orme noticed that outlined on his head was a policeman's helmet.

To be found going through the pockets of an unconscious man was not to Orme's liking. It might be possible to explain the situation well enough to satisfy the local authorities, but that would involve delays fatal to any further effort to catch the man with the envelope.

Published at Fairhope, Ala., on Friday of Each week.

Entered as second-class matter.

The records of imports and exports of the port of Mobile, show a fine growth during 1910 over the figures of 1909.

Manatee, Fla., is reported to have 20,000 oil stoves ready to protect its citrus orchards against freez-

Do not forget the concert on Thursday evening next, for the benefit of the schools. The price has been placed at 25 cts. and 15 cts. that no one need be debarred.

Pay your poll tax! It is an outrage, in our opinion, to impose any such qualifications to the right to vote but we have poor opinion of the man who will let a measly \$1.00 stand between him and the exercise of this important right.

"One who does not like Fairhope and does not want to like it had better make his escape early, for if he stays any time he is very apt to like it in spite of himself" remarked a lady the oter day who had just such an experience. had just such an experience,

We see no reason why Governor O'Neal's salary should be raised 50 per cent above his predecessor's. The governor applied for the position at \$5,000 a year and Alabama is not so flush that it can afford to present him with \$10,000 more during his ferm during his term.

Tuscaloosa has just granted a 30 year franchise to the "People's Natural Gas Company" for supplying gas within its limits, which contains the peculiar feature that a higher maximum rate for gas is allowed after the first ten years of a higher maximum rate for gas is allowed after the first ten years of the franchise, than during that period. No right is reserved by the city to regulate rates. One year is given the company to begin operation and three years to complete a pipe line into the city. In the light of experience of other cities it is a bad franchise.

## The Retiring Governor

Not within the writer's experience in this state has a retiring governor gone out of office amid so much bitter criticism from the leading newspapers of his party in the state as B. B. Comer. And lit-tle indeed, has been the suport or encouragement they have given to him during his term of office.

Yet, while there have been several things done, or positions taken by Mr. Comer which have been quite unsatisfactory to us, we believe that he has sincerely striven to do his duty by the people as he saw it

The cry of "demagogue" raised against him, is the old, old cry raised everywhere against those those who against the right of the reason that it c who assert the rights of the peo-ple and dare to assail the citidels of privilege. That Mr. Comer was not a demagogue seeking without sincerity to ride a popular wave in his fight against the railroad ol-igarchy which has long dominated politics of this state is proven by the bitter hostility during his term and now of the politicians and newspapers which get their inspiration from railroad sources. They know that he was in dead

Mr. Comer was everlastingly right in his fight for better treatment of the people by the railroads and those who think that the result of the last election was a rebuke to him by the people because of that fight, will wake up in a few years to find that they were badly mistaken.

The liquor and railroad interests are in high glee just at the present moment and especially merry at Mr. Comer's expense, but they will find that he can and will "come back" all right, unless, indeed the people of the state move so much more rapidly than he that he will oon be unsatisfactory as a leader of the radicals.

# A Persistent Error

A misconception of the Fairhope policy which it seems impossible always to prevent, is shown in a recent communication to the writer. The party writing is an owner of Fairhope property which he would like to sell, but though no additions have been made to the property and he had objected that property and he had objected that he paid a big price for it (which he did) he wanted to ask considerably more than he paid. When asked why he thought we might be able to find him a buyer at an advance he wrote, "I was under the impression, having been told by others, that your town was progressive and that values had advanced,"

Land values have advanced, but under the Fairhope plan that advance goes to the community which is responsible for it, not to the holder of the lot who, being a non-resident and having made no new improvements has added no value to the property.

The one thing that Fairhope stands for is that he who sows shall reap, but he who does not sow shall not reap.

# Enough for Mr. Kile

residents and visitors and more conveniences for business.

Unlike Mr. Kile, however, the Courier is not at all discouraged. Its editor has many years the advantage of Mr. Kile in age, and can better afford to wait.

### Did the Owner?

Recently a lease changed hands on an inside 50x100 lot facing on Fourth between Stark and Washington that indicates at value of \$300,000. The owners and original lessees together obtain \$15,000 a year for the use of that lot and a building falls into the hands of the owners in a few years in ada building falls into the hands of the owners in a few years in addition. One of these inside lots is assessed at \$65,000 and another at \$58,000. The owners pay no taxes. They draw the money clear. In the last five years it has doubled in value. Who created that value? Did the owners.

### The Spirit of Christmas Continued from 1st page

In arguing for a progressive policy with regard to public improvements here, Mr. W. W. Kile (whose discounts of the entire scientific world. All possibility of error must be guarded against and ments here, Mr. W. W. Kile (whose disposal or all property interests here is noted in this issue) has often said it would be the greatest force possible to attract enterprising people to locate in Fairhope. It is beyond doubt, we think, due to the lack of a sufficiently pro-Not until this ordeal has been endured is the new discovery accepted and recorded in the accepted growth of his former city and county, under an aggressive policy of public improvement—turn-pikes throughout the country paved streets, cement sidewalks, sewers, tree planting, parks etc. in the city—and we have proven quite "too slow" for him.

Not until this ordeal has been endured is the new discovery accepted and recorded in the archives of settled knowledge. Such labor must be pursued for the love of truth for its own sake, and the student must disregard his own predilections and whatever ultimate deductions and consequences to which his conclusions may lead. No dictum of any authority, however venerable and available and accepted and recorded in the archives of settled knowledge. Such labor must be pursued for the love of truth for its own sake, and the student must disregard his own predilections and consequences to which his conclusions may lead. No dictum of any authority, however The Courier has appreciated deeply the enterprise of Mr. Kile, and while not ready to go at once quite so far, perhaps, as he would has stood, as its readers know, for a progressive policy and it regrets greatly to lose so strong a worker for a greater and more beautiful Fairhope, with more attractions for residents and visitors and more and, above all, total abnegation o self and selfish desires. This, then is the spirit of science and the mere statement of its method of research shows that it is the very antitnesis of religious dogma and the means of proselytism.

From the confidence established by such rigid requirements, particularly the insistence upon such proof as will overwhelm the most extreme skepticism, and from the certainty of the conclusions which are thus reached, has arisen among intelligent people a well grounded belief in the universal reign of natural law, not alone in the physi. cal world, but in the domain of psychology and in our social relations; law that is ever the same constant factor in the most distant and invisible realms of space; law that is absolute, inexorable, unalterable and all pervasive.

But there are certain truths, some of which were promulgated by Jesus, that require no scientific Our friend C. B. Hoffman of Enterprise, Kan., is now editor, of the Daily Socialist at Chicago. Throhim we are receiving regularly the

# THE SPIRIT OF CH3ISTMAS

Continued from 2nd page

The Kurrs have moved back from the Fred Sweet home next to Rathje's to their own cottage opposite the Organic School. Mr. and Mrs. E. J. M. Stevens have the lower part of the Sweet house and Mrs. Wilson of the Wilson House will use the second floor rooms to accommodate her guests. lies in the declaration that all men are equal before God and are rightfully entitled to enjoy equal rights and natural opportunity. This alone can be the true interpretation of the "fatherhood of God and the brotherhood of man," If the utterances of the man of Galilee are worthy to command the respect of men who believe that God is just they cannot mean that he intended hat the many shall suffer the stings of involuntary poverty, while a fortunate few revel in wealth and luxury. Such injustice can have no els and hens, baled hay, shallu seed baled hay, Celeste fig trees 4 to 5 ft. preserved figs in glass or tin cans, one or two mules. Two improved farms.

J. S. GAYLORD place in that kingdom of God which Jesus saw. That kingdom must be inhabited by those who enjoy a life of happiness. who have enough to satisfy every reasonable want. It contemplates the destruction of yrrany in all its forms, the preservation of equality of oppoytunity in the making of a living, and the permanent establishmeet of justiceto its income and will help sooner economic, social and political. If the constantly increasing number of intelligent, honest and capable men who have been driven away from the churches are to return to the Christian faith, and the vast number who have never recognized its authority are to be attracted to its support, the Church must indicate in its thought and action its earnest desire to establish the universal reign of peace and good will, demanded by Jesus. That such has not been the out-

come of the centuries of preaching the many varieties of theological doctrine is plainly shown by the present condition of human society. Consider the unspeakable medieval horrors of the life of the common people in Christian Russia. Behold christian Europe, an armed camp always awaiting war. Dwell upon the millions of the flower of her youth withdrawn from useful industry and the annual expenditure and absolute waste of billions of treasure wrung from the necessities of the masses, including even the poorest. Turn your gaze upon our own favored land, and reflect that over one-third of its total income is expended for war purposes, or as the result of past wars. Look upon its trusts and combines which have fattened upon the protection which they enjoy under a tariff of their own making. Call to mind the few thousand millionaires, some with incomes almost too great to squander and with wealth as inconceivable as the depths of space. Look with equanamity if you can, upon the hopeless, man-destroying poverty of our city slums, the deliberte selling of votes by well todo men, the corruption of legislatures and their servility to the great corporations. Will any honest man hold that these are the legitimate results of the teachings of Jesus? "Verily! By their fruits ye shall know them!" Under such social conditions prating of the love of nen as an incentive to religious belief is a shameful misuse of words and an invitation to hypoc-

# For the Opera

IS at the opera that women may indulge the love for finery (which Mother Nature has made so strong

an instinct in them) without let or hindrance. No one is accused of overdressing there, so long as she arrives at good effect. Each one may interpret the mode to her own fancy or depart from it if she will, to exploit that of another age. But the beauties of today do not need to excursion into the past in their adorning. Gowns of today are modeled on lovely lines and colors, and details are beautiful. The best fabrics are so good in color that a gathering of many hues will hardly show one that clashes with the others. Like the many-colored oriental embroideries, each color is the note in a har-

Green has proven its strength as a means of making a noticeable and elegant costume. Two gowns of this, one in emerald satin and the other a lighter green chiffon, were worn on the evening of the production of "Thais" at Chicago, when all the boxes at the opera were brilliant with gay attire. They were not to be overlooked, such was their strength and distinction. The satin was trimmed with splendid gold embroidery and bore off the laurels for that evening, as the handsomest cos-

Everyone wears a scarf. Much glit ter and much soft and exquisite color mark these lovely accessories. They are in the highest favor and are likely name? to remain so for some time to come. They are long and are often thrown over the head in the transit to and from the play. Where one chooses to wear a quiet gown, the gay scarf or the bespangled one does wonders in the way of brightening up the costume. A pretty gown of gold-brown velvet

with chiffon combined in the waist, a cream net collar and small round guimpe, and with a little gold lace in can get the better." roduced, was a simple affair by comparison with the many gorgeous costumes about it. It was cut round ength (as so many are) and was a smart visiting gown. The brilliant yellow and gold spangled scarf and the lovely coiffure, with its wide band of with tags of Latin and French, the folgold and mass of smooth puffs, made lowing authentic composition is prethe ensemble one of the successes of sented as an "awful warning," says the evening. But perhaps the raven the University Correspondent. It is hair and smooth, creamy skin of the the letter of an Indian subpostmaster wearer, and, more than all, the pair of who is anxious to be promoted: "Sir: dark and brilliant eyes she possessed, I have the honor to request you that he's at the office. lent a splendor to her apparel. Certainly no one was more admired and no one so unconscious of it apparently, than she of the gold scarf.

### Pretty Table Decorations.

Smilax is a pretty and effective Decoration for the dinner table. It is not expensive, as it can be used three or four times, provided it is between, and then gently shaken and of these materials to candle shades dried before use.

## FOR HEALTH AND HYGIENE

Recipe for Softening and Whitening the Hands-Cure and Prevention of Headache.

A recipe used by a Frenchwoman for softening and whitening her hands is made by boiling two or three floury potatoes in their skin, peeling them, mashing them and making them into a paste with equal parts of rosewater and milk. Apply this preparation at bedtime while the hands are moist after they have been washed.

Many women suffer from headache after a day of busy shopping. To bathe the forehead with a sponge wrung out of water as hot as can be borne will in many cases bring relief. Repeat this as often as the sponge cools. When the head feels tired it is refreshing to dash some cold water on the forehead, then to wipe it off and lie down for a time. Closing the eyes for a few moments at odd times during the day has a wonderfully beneficial effect and will ward off many a headache.

### Cretonne Shades.

The newest and prettiest thing in home decorations is the lamp shade of shirred cretonne or flowered silk. For these heavy wire frames are purchased, the round shape being the best. The cretonne or silk is then shirred tightly under this frame, and clamped or glued to it. A narrow border of furniture gimp conceals the joining place.

In tapestry this variety of lamp shade becomes really gorgeous. The completely submerged in cold water idea, of course, can be applied in any

# Housework Tiresome?

# Genuine Relief

"For five years," writes Mrs. L. Fulenchek, Houston, Texas, "I suffered with pains all over, especially in my back and side, and was so weak I could hardly do my housework. A friend told me of Cardui. Since taking it, I feel so much better! Now I can do all my housework, and am not bothered with pains at all. Cardui has been a wonderful help to me."

Cardui, the woman's tonic, has proven especially beneficial, in cases of womanly ailments with pain as a principal symptom, whether the pains come from too much walking, standing,

stooping, or just as a symptom of general female weakness.

Cardui is a strength-building medicine. You need it if your system is out of order, or if you suffer from any of the pains, to which women are peculiarly liable.

Women who need strength, should find it

Fifty years of success have produced a confidence in Cardui, that cannot be ignored. During this time, Cardui has benefited a million women. Why not you, now?

All druggists keep Cardui in stock, all the

Get a bottle and try it, to-day.

# Take CARDUI

A Mennonite Custom.

When a young man reaches the marriageable age and shows those well-known symptoms the elders of the church hold a meeting. They decide if he is honest and reliable to buy him a farm, usually an eighty. Into the farm he puts his savings, and then members or the congregation raise the rest of the funds to pay for the land.

This amount the young man must pay back with a small rate of interest. Thus by example and material assistance they bind him by the strongest bonds, that of debtor to the church. They know full well that nothing can be lost, for the land is always worth what it will cost. After the young people are located on their farm the elders assist with advice and help. Do you wonder that this thrifty people are gradually buying the best of all Kansas land and the best part of the nicest little city within the borders of that great state?-Seneca Tribune.

When Publicity Is Desired.

"X Y. Z, this office," was the way the woman usually wound up the numerous lost article advertisements necessitated by her absent-mindedness. The other day she tired of anonymity and returned in about ten minutes with the request that her name be substituted for the initials.

"I attended to that in the first place, madame," said the clerk.

"You did?" she exclaimed. "How did you know I wanted to use my own

He pointed to the words "Metropolitan opera house" in her advertisement. "Because that is where you lost your bracelet," he said. "I never yet met a person who wished to keep his identity secret when advertising for anything lost at the opera house. People who lose things any place else in New York often resort to initials when advertising, but if it happened at the opera house the more publicity they

An Awful Warning.

To those students of English literature who like to write of le dernier cri when they mean the latest craze, and generally to pepper their pages

I did not receive any answer to my petition as yet. Though I am flagrante delicto, flat justitia aut ruat soelum. My younger Fra has gone articula mortis. Ipso facto O! tempora O! mores. Does the life of a man go out like a candle? Sic transit gloria mundi that veni, vidi, vici. It is a outrance affaire d'honneur which is agenda for your pertinently consider."

A Shame to Spend the Money. "Pianissimo, pianissimo," said the vocal teacher to the student, "your voice is too loud. Learn to shade your tones."

And the student worked hard to carry out instructions.

When she went to her next lesson the teacher said: "Better-but still too loud. Try again-you will get it

after a while." Again the student returned to her room and tried for a softer tone. Again the teacher told her it was still too

Now William, the colored butler, without whom the house would never have gone on properly, had heard and wondered at this gradual diminishing of tone. It did seem a shame to spend the money. He would interview the lady who occupied the room below that of the vocal pupil.

"What does you think about de voice above?" he asked, pointing to the ceiling. "Hit strikes me hit's growin' weakah ev'y day."

Her First Vote.

It was the evening of election day, and Higgleby had just returned home. "Well, my dear Jane," said he, as he kissed his wife, "did you vote to-

"Yes," replied the lady.
"Straight ticket, I suppose?" smiled her husband.

'Well, no," said Mrs. Higgleby. "After thinking it all over and reading the platforms of both parties, I felt that one was about as good as the other, so I split my ticket;"

"Split it?" roared Higgleby. "Why, tiser.

"Why, instead of putting an X over the name of one candidate," said Mrs. Higgleby, "I divided it in half and put a V over both."—Harper's Weekly.

Their Happy Time. Caroline-Are Emily and her hus-

band happy? Carl-Well, part of the time. Caroline-Part of the time? Carl-Yes, when she's at home and First Owners of Furs.

"Women who expect to buy furs this winter show a lively interest in the Zoo animals," said a Philadelphia animal keeper. "They want to find out what the animal looked like that were their fur coats and muffs before the furs were made over for them.

"The recent warnings against imitation furs have made them particularly curious. Somehow they imagine that by comparing the fur of a live lynx with a cat or a rabbit they will be able to detect the difference in dyed furs. Of course they won't, but anyhow this little excursion into natural history will do them no harm.

"Women with caracul coats are the most persistent investigators. Very few people except furriers know what kind of an animal caracul grows on, and the specimens of the Russian sheep that produce real caracul and the Chinese sheep that cheap wool that is sold for caracul grows on have been trotted out for inspection so often that they have become as blase as a New York show girl."

London's Standards of Length.

Londoners have access to authoritative standards for comparison purposes. These are fixed on the outside of the wall of Greenwich observatory, and the various lengths are decided by passing the measure to be tested between raised points inserted in metal plates. At the Royal observatory also is a pound balance, by which any pound weight may be verified. Standards of 100 feet and one chain (66 feet), with subdivisions accurately engraved on them, marked on brass plates, are available for public purposes in Trafalgar square, being let into the granite steps on the north side of the square. Where rigid accuracy is desired recourse must be had to the Standards office in Old Palace Yard, where the tests are carried out under the scientific conditions as regards temperature, etc., prescribed by act of parliament.-Dundee Adver-

St. Erkenwald.

A church at Southend, England, has been dedicated to St. Erkenwald-the only one of its kind in existence. Erkenwald, who was bishop of London from 675 to 693 A. D., was at one time a very popular saint in his country. It was he who built the first stone cathedral of St. Paul's. He, too, it was who erected in the eastern portion of the city the gate which gave the name to ment below. The "dagger wound" Bishopsgate. This prelate suffered from was a bruise caused by the fall.

and had to be carried about on a litter. After his death this litter was carefully preserved in Old St. Paul's, where he was buried, and in course of time miraculous virtues were attributed to it. It was held to be a sovereign cure for fever, and fever-stricken pilgrims from all parts of the country would flock to the shrine of St. Erkenwald.

Mixed on His Melody.

A well-known newspaper that boasts the authority and the excellence of its dramatic and musical criticism published recently a criticism of a certain charming light opera. The dramatic editor was lavish in his praise of songs and singers, remarking, with a dignified reminder to his readers that it was his business to pass judgment, not unmixed with censure, that the plot was slightly unconvincing.

Of the music, however, he wrote in terms of highest commendation. And he closed his article with praise for the charming entr'actes.

The typesetter got free with the copy, however, or there was a mistake made by the printer's "devil." At any rate, this is what appeared as the closing sentence of a really masterly piece of criticism:

"Last night's music between the acts was unusually melodious."

Abolish Bear Traps.

Williamsport sportsmen intend to circulate petitions to the legislature looking toward the abolition of bear traps. The only persons using traps are those who hunt bears for market, and sportsmen are anxious that the bear be more fully protected than under the present laws. It is pointed out by those back of the movement that the catching of bears in traps not only tends to exterminate the species of game but is a cruel practice, as the animals frequently free themselves by leaving parts of their legs in the trap.-Philadelphia Record.

"Expert" Testimony.

just distinguished himself by declaring that a young woman found dying on the pavement of one of the streets had been assassinated. His expert knowledge enabled him to state that the causes of death was a dagger stab in the back. It has been proved that death was really due to a fall from the

# Now About Clean Food

# Another Splendid Opportunity to Bring Out Facts

When the "Weekly" which sued us for libel (because we publicly denounced them for an editorial attack on our claims) was searching for some "weak spot," they thought best to send a N. Y. Atty. to Battle Creek, summoned 25 of our workmen and took their sworn statements before a Commissioner.

Did we object? No. On the contrary, we

helped all we could, for the opportunity was too good to be lost.

Geo. Haines testified he inspected the wheat and barley, also floors and every part of the factories to know things were kept clean. That every 30 minutes a sample of the products was taken and inspected to keep the food up to standard and keep out any impurities, also that it is the duty of every man in the factories to see that anything not right is immediately reported. Has been with the

Co. 10 years. Edward Young testified had been with Co. 15 years. Inspector, he and his men examined every sack and car of wheat and barley to see they were up to standard and rejected

H. E. Burt, Supt., testified has been with Co. over 13 years. Bought only the best grain obtainable. That the Co. kept a corps of men who do nothing but keep things clean, bright and polished.

Testified that no ingredient went into Grape-Nuts and Postum except those printed in the advertising. No possibility of any foreign things getting into the foods as most of the machinery is kept closed. Asked if the factory is open to the public, said "yes" and "it took from two to the public, said constantly to took from two to three guides constantly to show visitors through the works." Said none of the processes were carried on behind closed

At this point attys, for the "Weekly" tried to show the water used was from some outside source. Testified the water came from Co.'s own artesian wells and was pure.

He testified the workmen were first-class, high-grade and inspected by the Co.'s physician to be sure they were all in proper physical condition; also testified that state reports showed that Co. pays better wages than the average and he thought higher than any in

F. B. Martin, Asst. Supt., testified Grape-Nuts made of wheat, barley, yeast and water. Anything else? "No, sir." Postum water. Anything else? "No, sir." Postum made of Wheat, Wheat Bran and New Orleans Molasses. Statements made on his experience of about 10 years with Co. Testified bakers are required to wear fresh

white suits, changed every other day. Said had never known any of the products being sent out that were below the high standard of inspection. Asked if any one connected with the Postum Co. had instructed him how to testify. Said, "No, sir."

Horace Brown testified has been with Co. 9

years. Worked in Grape-Nuts bake shop. Testified the whole of the flour is composed of Wheat and Barley. Attys. tried to confuse him, but he insisted that any casual visitor could see that nothing else went into the flour. Said machinery and floors always kept clean. So these men were examined by the "Week-

ly" lawyers hoping to find at least one who would say that some under-grade grain was put in or some unclean condition was found But it was no use.

Each and every man testified to the purity and cleanliness.

As a sample, take the testimony of Luther

Testified been with Company about 10 years. Now working in the bakery department making Grape-Nuts. Testified that the ovens and floors are kept clean and the raw products as they go in are kept clean. Also that the wearing apparel of the employes has to be changed three times a week.

Q. Do you use Postum or Grape-Nuts your-self at all?

A. Yes, I use them at home.
Q. If from your knowledge of the factory which you have gained in your ten years at the factory you believed that they were dirty or impure in any way, would you use them?

A. I do not think I would. No.

Asked if any one on behalf of the Company had asked him to testify in any particular manner. Stated "No." All these sworn depositions were carefully

excluded from the testimony at the trial, for they wouldn't sound well for the "Weekly." Think of the fact that every man swore to

the purity and cleanliness so that the Atty. for the "Weekly" was forced to say in open court that the food was pure and good. What a disappointment for the "Weekly!" But the testimony showed:

All of the grain used in Grape-Nuts, Postum and Post Toastles is the highest standard possible to obtain.

All parts of the factory are kept scrupulous-

None of the workmen had been told how to Most of them have been from 10 to 15 years

with the Co. and use the products on their

Why do their families use the products, Grape-Nuts, Postum and Post Toasties, that they, themselves, make?

"There's a Reason"

Postum Cereal Co., Ltd.,

Battle Creek, Mich.

Soils of Country Are Greatest Asset Nation Has and Progress in All Directions Depends Largely on Their Condition.

James Wilson, secretary of agriculture, in a recent address delivered in Chicago, told of the necessity of better farming throughout the entire country. In the course of his remarks he said

To stop a growing decrease in the yield of the average acre, the government has made provision for the establishment of agricultural colleges and experimental stations. Within the last few years the acre has been responding better and the yield is increasing. Conservation of natural resources has had a great deal of at tention lately. I think broad-minded men will have no difficulty in reaching the conclusion that the soils of the country are the greatest asset the nation has, that progress in all directions depends upon the condition of the soil, and that there is no material inquiry of such great value as what pertains to the soils of the United States. The notion is not worth being entertained that any of our soils are beyond redemption.

The people of the older nations of the world took care of fertility of the soil as a matter of prime necessity, and long ago ascertained the proper succession of crops and their relation to the soil, the food of man, and the food of animals.

They knew the soil must be fed, that proper physical conditions must be maintained, and they learned from experience how to do it. They learned that the decaying plant returned to the soil is the best food the growing plant can have. They became aware that the removal of the crops from the farm resulted in soil deterioration unless the equivalent was returned from some source. They had discovcred the value of the legume in farm management long before Hellriegel discovered its office in fixing nitrogen

The southern states are making great progress in agriculture, and instances of production, indicating what the soil can be made to do, might be cited. Boys under sixteen years of age in South Carolina grew 228 bushels of corn to an acre. Even in the great corn belt nothing of that kind has ever been done. The average in the corn belt is quite low; that average in the corn belt is quite low;

age might be greatly increased.

Each of 46,400 boys under sixteen years of age has grown corn or potatoes or tobacco or some other crop during the season just passed. Whatever the boy is doing interests the mature man. The southern states are offering prizes to boys who have organized themselves into clubs for the purpose of bringing up to full activity the productive powers of the southern

That might be done in other sec tions of the country with great profit. The boy of 16 who has grown two or three times the average amount of corn grown on an acre in his state, begets an interest in the farm. He sees the profit resulting from good management. He learns his first les son with regard to fertilizing and with regard to cultivation, the proper selec tion of seed, and all that; and he also learns the most valuable lessons he will ever get in his life.

Work similar to this need not be confined to corn, tobacco and potatoes, but might also be done with re gard to all other farm interests.

### PLOW FOR RECLAIMED SWAMP

Peculiar Character of Louisiana Soil Causes Development of Unusual Mechanical Device.

The peculiar character of the soil in the reclaimed swamps of Louisiana has caused the development of an unusual mechanical device, known techmically as the "caterpillar."

When the water is drained away from the swamp lands the soil at first is so soggy that a horse cannot walk on it. For some time this sponginess makes it impossible to do anything toward development.

The necessity of plowing the land, and also rolling it, caused makers traction engines to put broad wheels on light machines. These wheels are connected by a belt of heavy wood that forms a roadway wherever the machine goes. The movable sidewalk under the machine is broad enough so that the engine does not become mired. When the soil has been rolled and plowed in this manner it quickly becomes firm enough for ordinary farming.

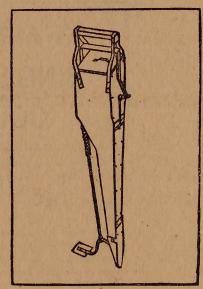

# Strong Demand for Horses.

There have been more three and four year old horses sold on the Chicago market during the past few years than ever before. This means that there are not enough horses on the market to supply the normal city demand; otherwise these good young horses would not be bought for use upon the streets. Notwithstanding the inroads that automobile trucks and drays have made in the street transportation, there is still a greater demand for horses than there has ever been before. There never was a time that promised better returns to the breeder of sound, heavy draft horses of good type.

# DEVICE FOR CORN PLANTING \$3.50 RECIPE CURES

Drops Kernels Neatly Into Rows and Spade-Like Apparatus Covers Them Over-Works Easy.

Among the many implements invented from time to time to make the life of the farmer easier is the corn-planter shown here and designed by an Oklahoma man. It will save the farmer from many an aching back, for where he formerly had to stoor innumerable times in sowing corn and covering up the trenches, this device will enable him to walk along the rows with head and shoulders erect The general shape of this apparatus is shown in the cut. Below the handle

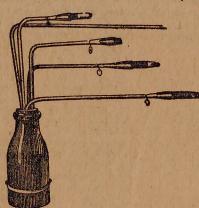

A Corn-Planting Device.

is a lever, which can easily be operated by the same hand that carries the implement. This lever controls a ninged lip at the tapering bottom of the receptacle, which, of course, holds the corn kernels, and when it is pressed the lip opens a crack and lets the ed the lip opens a crack and lets the kernels filter through. When the pressure on the lever is removed the lip closes by means of a spring. The little speadulity are associated and lets the with little bumps. They would dry up and leave a scale. Then it would break out again and it spread all over lip closes by means of a spring. The lis head. All the hair came out and lets very thankful that she folded remedy, with such wonderful merit. We give you absolute permission to publish this in any way you wish. Yours very truly, ittle spadelike arrangement at the his head was scaly all over. Then his bottom, also controlled by the lever, face broke out all over in red bumps is used to scrape the dirt into the trench as the corn is sowed.

### MACHINE FOR CIGAR SMOKING

Curious Apparatus Used by Department of Agriculture to Test Quality of Tobacco.

The curious apparatus here illustrated is a cigar-smoking device used at the Department of Agriculture at Washington to test the burning qualities of cigars. The smoking is accomplished by allowing the water in the glass vessel at the left to escape gradually through tubes. This movement of water creates a vacuum, and

Cigar-Smoking Machine.

as the air is sucked into the vacant part of the vessel the suction causes a pull on the cigars, four of which are smoked at a time. The action is exactly the same as when a smoker draws air through a cigar by puffing.

leads to desirable results.

If you have alfalfa hay give the brood sows a feed of .. daily.

If you have colts to break, do not try to teach them too much at once. Exercise will help make the streak of lean and streak of fat that is de-

sired. Bright oat straw makes very good roughage for horses not working hard during the winter months.

Do the pigs squeal because they are hungry or cold? Find out; there is no profit in either condition. Cold pressed cottonseed cake should be fed at the rate of about one

pound to nine pounds of corn. There is a growing demand for good bacon. Rangy breeds, with tender, lean, juicy meat are the ones to

bring profit. The large Pekin ducks are profitable to raise. The small common ducks do not weigh enough to make them profitable.

Farm manure always has been and probably always will be the most important and most abundant material for soil improvement.

Do not always be fussing with the setting hens. Feed and water them regularly and dust twice a week with insect powder, but otherwise let them

alone. The proper time to begin milking a heifer or any other cow) is when the udder becomes painfully distended with milk, and no ill effects should

follow from such milking. Some men have cleared 100 per cent. on their money in sheep for years; but these are the real shepherds. Not every man has the shepherd instinct; but we may all do bet ter than we do.

RELIEVES URINARY AND KIDNEY TROUBLES, BACKACHE, STRAIN-ING, SWELLING, ETC.

Stops Pain In the Bladder, Kidneys and Back.

Wouldn't it be nice within a week or so to begin to say goodbye forever to the scalding, dribbling, straining, or too fre-quent passage of urine; the forehead and the back-of-the-head aches; the stitches and pains in the back; the growing mus-cle weakness; spots before the eyes; yellow skin; sluggish bowels; swollen eyelids or ankles; leg cramps; unnatural short breath; sleeplessness and the de-

I have a recipe for these troubles that you can depend on, and if you want to make a QUICK RECOVERY, you ought to write and get a copy of it. Many a doctor would charge you \$3.50 just for writing this prescription, but I have it and will be glad to send it to you entirely free. Just drop me a line like this:

Dr A E Bobinson K-281 Luck Building I want to tell you what Dr. Kilmer's Swamp-Root did for my wife. She was troubled with terrible pains in her back and they were such that it deprived her of many night's sleep. There was a thick red sediment in her urine like brick dust. The passage of the urine was very annoying, being of a burning sensation and the complication was making her very thin and weak. The medicine which the doctor gave her did not seem to help her and she was finally persuaded to try Dr. Kilmer's Swamp-Root. I purchased one bottle of the large size for her and it helped her greatly. After she had taken three bottles she did not have any more trouble with her kidneys. It has been seven years since she took Swamp-Root and she is now well and healthy At the time of Dr. A. E. Robinson, K-261 Luck Building, Detroit, Mich., and I will send it by re-turn mail in a plain envelope. As you will see when you get it, this recipe contains only pure, harmless remedies, but it has great healing and pain-conquering power. It will quickly show its power once you use it, so I think you had better see what it is without delay. I will send you a copy free—you can use it and cure your-self at home.

The Kind.

"I think that chauffeur had great nerve to make love to his employer's daughter.

"So he had-motor nerve."

### BABY'S HAIR ALL CAME OUT

"When my first baby was six months old he broke out on his head with little bumps. They would dry and it kept spreading until it was on his hands and arms. I bought several boxes of ointment, gave him blood medicine, and had two doctors to treat him, but he got worse all the time. He had it about six months when a friend told me about Cuticura. I sent and got a bottle of Cuticura Resolvent, a cake of Cuticura Soap and a box of Cuticura Ointment. In three days

E. G. STEVENS, Cuticura Ointment. In three days after using them he began to improve. He began to take long naps and to stop scratching his head. After taking two bottles of Resolvent, two boxes of Ointment and three cakes of Soap he was sound and well, and never had any breaking out of any kind. His hair came out in little curls all over his head. I don't think anything else would have cured him except Cuticura.

"I have bought Cuticura Ointment and Soap several times since to use for cuts and sores and have never known them to fail to cure what I put them on. I think Cuticura is a great remedy and would advise any one to use it. Cuticura Soap is the best that I have ever used for toilet purposes.' (Signed) Mrs. F. E. Harmon, R. F. D. 2, Atoka, Tenn., Sept. 10, 1910.

WEARTESSES

Honored by Women

When a woman speaks of her silent secret suffering she trusts you. Millions have bestowed this mark of confidence on Dr. R. V. Pierce, of Buffalo, N. Y. Everywhere there are women who bear witness to the wonderworking, curing-power of Dr. Pierce's Favorite Prescription—which saves the suffering sex from pain, and successfully grapples with woman's weaknesses and stubborn ills.

IT MAKES WEAK WOMEN STRONG IT MAKES SICK WOMEN WELL.

No woman's appeal was ever misdirected or her confidence misplaced when she wrote for advice, to the World's Dispensary Medical Association, Dr. R. V. Pierce, President, Buffalo, N. Y.

Dr. Pierce's Pleasant Pellets induce mild natural bowel movement once a day.

# THE MALARIA MONSTER

If the mosquito were as big as it is bad, it would darken the air like a gigantic death-breathing dragon. Each sting of a mosquito sows the germs of malaria. These germs multiply with wonderful rapidity. Then come chills and fever with other forms of malaria that undermine the health and sap the strength.

# OXIDINE

It is the modern malaria medicine and the one sure antidote for malaria poisoning. It kills the chills. It quenches the fever fires. It stamps out the cause and consequences of the disease. That's only the beginning of helpful healing work of OXIDINE. It builds up the body, revitalizes the system, enriches the blood, tones up the stomach, bowels, liver and kidneys. OXIDINE puts the body on a fighting footing of superb health.

The tonic qualities of OXIDINE make it the best medicine for all weak, run down, thin, pale persons. It is the best body-building tonic money can buy.

New Year's **Fantasy** 

By PHILIP KEAN RECERCECCE

> stretched down the wind- and valley lilies. ing walk in front of the White House and through the gate and out into the street. On New Year's with the president, and it

seemed as if half the world had availed itself of the privilege. Marcia Marks felt almost overpowered by the

thought of the honor that was before her. Marcia had not yet learned to shrug her shoulders at high position and august officials. She had been in Washington only three weeks. That she was soon to have a peep at the wonders of which she had heard so much seemed like a part of the fairy lore which she had loved as a child. She wished that there you'd better let me take your wrap," was some one who might share her she laughed and confessed: pleasure. But she had made no friends, "It's your aunt's cloak, and I wish up at the other end of the line peo. And the prince said the cloak wasn't

was warm. For the first time in her ful lady came along and asked: "Have life she was earning money, and she you made friends with my boy, Marwas sending part of it home. Then, cia?" too, she had a new hat, which was a great cause of happines. It was the blushed prettily. first really lovely hat that she had ever possessed.

She did not dream that her exquisite too. And when Marcia took off the blonde beauty framed by the big hat cloak he said he liked her in her simwas attracting the attention not only ple little suit. "Only you must still of the pedestrians but of the occupants wear the violets, because they match of the autos and of the carriages that your eyes." drove slowly in line toward the other entrance, where a privileged few were admitted at once to the blue room. Marcia feasted her eyes on the pretty gowns, and for the first time as she stood there in the cold a little bit of Year's fairy tale, and that was all. envy entered her heart. Why shouldn't she ride in luxurious comfort? She day and took Marcia out with her, and had beauty and youth, and loved a often the prince was there, and at last, good time.

But even as the thought entered, she put it away. Wasn't she lucky enough with her \$60 a month and her new hat? And once more her face was bright, and she held her head high.

Then suddenly she gave a startled glance under the brim of her hat. as the door of a great motor car opened and a voice said: "Won't you get in here with me?"

The woman who spoke was beautiful with the beauty of old age. Under her wide hat her hair was white, but she held herself with grace and dig. lady said, quietly: "Get in, my dear, I will explain later."

So Marcia, followed by the eyes of the crowd, stepped into the wonderful upon sought Marcia in her shabby car, which went slowly up the drive-

Then the beautiful lady turned to her with sparkling eyes. "Was your grandmother Martha Witherspoon?" she demanded.

"Why-yes-" The beautiful lady clapped her hands

"I knew it the minute I laid my eyes on you," she said. "As you stood there with your head held high in that haughty little way, and with your blue cinderella," she said, "and I must come as often as I please. Then Marcia stood up very straight and tall. "I am only a shabby little cinderella," she said, "and I must come as often as I please." if my dear school friend had come "Grandmother is the dearest thing." Marcia said, "and as pretty as ever."

"I lost track of her," the beautiful lady told her, "when I went abroad years ago, and when I saw you I in, and made you lose your place in shall be gone six months."

"Oh, I don't mind that," said Marcia. "I can go back to the end and wait."

"Indeed, you won't," said the beautiful lady. "I am going to take you her lips were white and her voice she told him later, "but somehow I right along with me to the blue room. shook. I am to stand behind the receiving line, and you shall meet the president his arms. "You shall go with me, fantasy."

and go on to the east room, and wait from me there.'

"But I am not dressed for that," Marcia demurred.

"I am going to play fairy godmother, and put my wrap on you. Your gloves are all right, and your hat, and you shall have my violets, and presto!-

you will be a young lady of fashion." Marcia protested, but for just one moment the curtains of the closed car were drawn, as the wrap was slipped

from the fairy godmother's shoulders and transferred to Marcia's more siender ones, and then the crowd, looking on saw two exquisitely gowned women, side by side, the younger one blushing HE long line of people beautifully over her bouquet of violets The rest was a dream to little Mar-

cia-the entrance into the brilliantly lighted rooms, the music, the rustle of silken gowns, the presentation to the day all the world might come and shake hands delight, as she settled herself finally in a corner of the east room. But there was more to tollow, for in

a few moments the fairy godmother sent the prince. He was the nephew of the beautiful lady and he was to take care of Marcia.

And he did take care of her, most graciously, and he talked with her as if she were a princess instead of a very shabby little girl, with her shabbiness covered by a borrowed cloak.

"Aren't you warm?" he said to her once, and Marcia said, hurriedly: "Oh,

so she shifted from one foot to the vou could see what a very shabby lit-other, moving forward slightly as far the suit I am wearing under it."

ple were admitted through a magic any prettier than the hat, and that the hair under the hat was the pret-It was very cold, but Marcia's heart tiest of all, and just then the beauti-

"I think he is lovely," she said, and

She was carried off to dinner with the beautiful lady, and the prince went,

It was all very dear and delightful, but that night when Marcia went home to her poor little apartment she told herself that, of course, she must not expect anything more. It was a New

But the beautiful lady came every one day, Marcia said: "Dear beautiful lady, you must not, you are spoiling me for everyday things."

But she did not say that the real reason for her protest was because of the prince. He was such a charming prince, and she felt that for her own peace of mind she must not see too much of him.

And as Marcia withdrew more and more, the prince one day demanded of the fairy godmother: "Where's our Cinderella?'

"She insists," the old lady smiled, "on sitting in the ashes. She says we nity. "Oh," Marcia faltered, and the are too fine for her with our pumpkin

coaches and our palaces."
"Humph," said the prince, "I guess
we will see about that." He thereapartment.

Marcia's face was radiant as she welcomed him. "But you must not come again, "she said, when he was eaving.

"Why not?" "Because," said Marcia, which was

aot a real reason. "I shall come as often as I please."

eyes and your red-gold hair—it was as work, and I haven't the time to fritter away with fairy godmothers and princes who wear gardenias."

Then he looked very sober and asked: "Do you think I fritter away my time?"

"Yes," Marcia told him, "I do." years ago, and when I saw you I "Well, tomorrow I am going to wasn't going to run the chance of not work," he told her. "They have orfinding you again—so I made you get dered me to the Philippines. And I 'Six months?'

say sharply: "You care?"

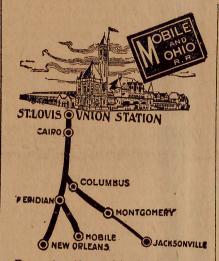

Marcia tried to say: "Oh, no," but

Then the prince gathered her into true—for it seemed only a New Year's

# FAIRHOPE SINGLE TAX COLONY

Fairhope, to outward appearance, is like other towns, save for evidences of exceptional prosperity usually noted by the casual observer; but it is unique among the towns of this or any land.

It is a town "with a purpose." That purpose is to make a practical application of the teachings of Henry George upon the land question—as fully as possible under

Henry George re-asserted the proposition that "all men are equally entitled to the use of the earth," and pro-posed to secure that right to all by requiring those who posed to secure that right to an by requiring those who desire the exclusive use of any portion of the earth, to pay, for the benefit of all, the value which the common estimation attached to such portion. He proposed to take this as a tax for public purposes, in lieu of all other taxes—hence the name "Single Tax."

Those who founded Fairhope advocated, and still ad-Those who founded Fairhope advocated, and still advocate, this as a reform in taxation; but they realize that its essential feature is the taking of land values for public use, and that the right to collect land values attaches to LAND OWNERSHIP under our present laws. So they hit apon the clever plan of securing by purchase, the right to collect land values, not as a tax but as rent, and administering these values not for their benefit as OWNERS in the usual way, but for the benefit of ALL who might by locating upon such lands contribute to their value.

Under this plan the title to the land is aeld by the Fairhope Single Tax Corporation, a corporation chartered under an Alabama statute, having a perpetual existence, and conducted by its members under its constitution and

Lands are leased to individuals in quantities to suit, on

Lands are leased to individuals in quantities to suit, on ninety-nine year leases, subject to an annually appraised rental, collected and disbursed for the public benefit.

To make this really a "Single Tax," and to free its lessees from the blighting injustice of taxes upon improvements and personal property, the Corporation pays out of the rent not only the taxes upon the land, but upon the improvements and personal property of lessees.

All the rent fund remaining is expended locally for the public benefit a roads, schools, library, telephones, parks, bath-houses, etc., etc.

Absolutely no portion of this rent goes as interest, dividends, or profits, to the founders or members of the Colony, or any other persons.

The constitution forbids the granting of franchises to individuals or corporations for performing any public service, but requires that the Corporation shall, as fast as may be, provide the same and operate them in the common

The Corporation thus owned and operated the wharf, at which land the steamers, by means of which communication is maintained with the outside world, and which yield ed annually a very substantial addition to the public reven ue, until that wharf was practically destroyed by the great storm of September 27, 1906. It has been rebuilt by acompany of citizens under contract by which they will manage it until the obligations incurred by them in the rebuilding are satisfied, when it will be turned back to the Corporation.

It owns a water-works system, (the only one in Baldwin county) with steam pumping plant and mains supplying the principal part of the town with water for domestic use and fire protection; and a local telephone system, with long distance connection.

The Fairhope policy eliminates the land speculator entirely; and for those who WANT LAND FOR USE, whether for residence, business, manufacturing or farming, it is easily shown to be far better and cheaper than awning.

Fairhope is delightfully located on the shore of Mobile bay, has excellent hotels, restaurants, stores schools ice plant and creamery, placksmith and butcher shops doctors, churches, fine pathing and fishing, and exception ally intelligent and sociable people.

Beautiful lots in the town and farm lands adjacent to it are open to settle s without purchase price, to the colony's favorable te ms.

For full particulars, copy of constitution lease, ec., Address E.B. GASTON,

A Progressive Paper for Progressive People

Vol. XVII, No. 22

FAIRHOPE, ALA., FRIDAY, JANUARY 27, 1911.

WEEKLY, \$1.00 A YEAR

Work has been progressing steadily upon this line in Baldwin county and it is understood that practically all of the grading has been completed. The information was given out some time ago that those in charge of the work expected to have trains running between Mobile and Pensacola by December, of 1911. —Mobile Register.

will have to make to you to qualify yourself to play a man's part in Alabama during 1911, by paying your poll tax. It must be paid before February first or you are out of it for this year. There is no knowing what important questions may arise during this year, to be voted upon. Attend to it now. You can remit by mail to G. B. Stapieton, Tax Collector, Bay Minette.

# THE SILVER-

The Silverhill road is now in first class shape to a point somewhere beyond the Daphne road, this side of North River Park and many are the expressions of made by people living out that way or having occasion to travel over the road. To travel over it is an inspiration to more road improve-ment. We hope the town will com-pass the putting of Morphy Avenue from Church street to the town limit where it connects with this road, in at least as good condition.

# WANT COMMIS-SION GOVERNMENT

Appleton, Oshkosh, Fond du Lac and Green Bay, our neighboring cities are all taking steps to adopt the commission form of government in place of the present outgrown method.

For years municipal government in America has been looked upon experts as a failure, as weak spot in American public affairs. The creation of that first commission at Galveston after the great flood, was an acknowledgement of the weakness of the old system, and the success of the Galveston experiment proved that weakness.

Commission government for cities is merely the applying of general business principles to municipal bubsiness. The commission, the board of directors as we would say for a commercial house simply runs the business of the city. By a system of fixed responsibility and authority to transact the business of the city without the logrolling in-separable from large assemblies of lawmakers, the business goes on in a businesslike way and brings re-sults that have so pleased the people trying the new plan that no amount of effort on the part oj believers in the old way has persuaded them to change back again.

—New London, Wis. Press.

# TEN PASSENGERS FOR FAIRHOPE ON ALAMO

The Mallory steamer Alamo from New York via Tampa reaching Mo-New York via Tampa reaching Mobile Sunday evening, had ten passengers for Fairhope, two of them from New York and the balance from Tampa. The New York passengers were Messrs. Chas. Randall and Lawrence Mead of New York City, From Tampa were: Mr. and Mrs. C. F. McLean, Mr. and Mrs. Patterson and Mr. Marshall, Wrs. Sagriste and daughter and son. Mrs. Sacriste and daughter and son.

# SCHOOL OF OR-GANIC EDUCAT'N

The Following Interesting Article Regarding Fairhope's Famous School of Organic Education Appeared in the Journal of Education of Dec. 15.

In the village of Fairhope, across the bay from Mobile, is a little school that is often called a reform school that is often called a reform school—not to reform the children but to reform the methods of teaching. It is called the School of Organic Education, because the aim is to make the school process minister to the perfecting of the entire organism as well as to give instruction instruction.

There is a kindergarten for chil-AT PROGRESSIVE LEAGUE and the usual kindergarten for children under seven years of age, doing the usual kindergarten work, but no dictation, nor close work, nor "finished" work for exhibition s permitted.

Children from seven to thirteen years of age constitute the life class where they simply live as happy and wholesome a life as possible.

sible.

In the first division of the life class, the children under ten use no books, except as they themselves desire to learn to read. Instead of the formal work of reading and writing and number, the children have music, that is, singing pretty songs, adapted to their years for the pleasure of singing, not to be able to read music or write music. They often act out or dramatize some song or poem. Many poems are committed by the children, not as a task, but by hearing the teacher recite the same poem a number of times. They have exercises in fundamental conceptions of number daily. ceptions of number daily.

Story-telling occupies an important place on the program, in which the children become acquainted with all the best fairy tales, legends, folk lore, and myths and great stories of history in the most natural, delightful way, without danger of impairing the eyesight by bending over a book.

Spoken language is cultivated in the story hour. German is also taught by the conversational method. One of the most delightful items of the daily program is

No definite order is followed but the direction of the walk is determined by the interest of the day. Sometimes a neighboring pond is visited to watch the development of the tadpoles into frogs. Sometimes the woods are scoured to discover the elusive pistils of the pines. The identification of trees winter occupies many walks. In the spring the appearance daily some new blossom occupies interest for many days.

Then there is the building of the birds' nests to watch and all of the interesting bird life to observe.

An outdoor gymnasium affords ample opportunity for acque many bodily accomplishments.

One period daily is given to handwork, and one also to the development of conceptions of color, form, Paper sloyd, cardboard construction, scissors and paste, clay water colors, and pencils are used.

Experience in growing plants is given every child. Plots of ground are laid out, in which every child may plant what he chooses and cultivate it in his own way with the assistance of the teacher, and the presence and activity of his fellows to stimulate his perseverence. A well-equipped manual training department affords employment both boys and girls as soon as they are old enough to use the tools.

The older division of the life class -from ten to thirteen years of age
-continue the activities and experiences of the younger group, but
come increasingly to books. Now
they learn to read, if the art has
not already been acquired incidentally and the history and groups. tally, and the history and geogra-phy stories are now read by the children themselves. The walks are now made more interesting by reference to books which explain and enlarge the child's experiences.

Fundamental conceptions of number are continued and regular work introduced. The manual training, gardening, domestic science, art work, music, German and gymnasium work are continued. Spoken anguage is continued, and written work begun in this division. No formal lessons, however, are signed, but the children use books with the teacher, thus learning their use, and avoiding the great waste of time when children of this age are required to "learn essons" by themselves. Coming into the use of books in this way, in the companionship of a sympathetic teacher, a love for books is acquired which will be enduring. In the thirteenth year regular form work is begun, and one or two years should give the child the same knowledge of the usual common school studies that is acquired n the regular eight grades of the

ommon school.

# The GIRL and the PIII

SYNOPSIS.

At the expense of a soiled hat Herbert Orme saves from arrest a girl in a black touring car who has caused a traffic jam on State street. He buys a new hat and is given a five dollar bill with: "Remember the person you pay this to," written on it. A second time he helps the girl in the black car and learns that in Tom and Bessie Wallingham they have mutual friends, but gets no further hint of her identity. He discovers another inscription on the marked bill, which in a futile attempt to decipher it, he copies and places the copy in a drawer in his apartment. Senor Poritol, South American, calls and claims the marked bill. Orme refuses, and a fight ensues in which Poritol is overcome. He calls in Senor Alcatrante, minister from his country, to vouch for him. Orme still refuses to give up the bill. He learns that a Jap has called for him. Orme goes for a walk and sees two Japs attack Alcatrante. He rescues him. The minister tries diplomacy, but fails to get the marked bill. Returning to his rooms Orme is attacked by two Japs who effect a forcible exchange of the marked bill for another. Orme finds the girl of the black car waiting for him. She also wants the bill. Orme tells his story. She recognizes one of the Japs as her father's butler, Maku. The second inscription on the bill is the key to the hiding place of important papers stolen from her father. Both Japs and Bouth Americans want the papers. Orme and the "Girl" start out in the black car in quest of the papers. In the university grounds in Evanston the hiding place is located. Maku and another Jap are there. Orme fells Maku and the other Jap escapes.

CHAPTER V .- Continued.

So he jumped to his feet and ran northward, then turned to the west. Circling about, he made for the gate at which he had entered. His pursuer either took the wrong lead in the darkness or stopped to examine Maku, for when Orme went through the gate and doubled back, outside the fence, to the car, there was no sound of steps behind him. He jumped to the chauffeur's seat. "Well?" inquired the girl, eagerly.

"Too late," said Orme. "I'm sorry. I caught Maku, but the man with the envelope got away."

She laid a hand on his arm. "Are you hurt?" There was unconcealed anxiety in her voice.

To say the things he yearned to same time throwing on the power and driving the car slowly northward.

"I only know that the fellow ran northward," he said. "He may have worked back or he may have gone on. He may have climbed another tree and waited."

By this time they had come to the northern limits of the grounds, but he had seen no one. Suddenly the girl exclaimed:

Orme stopped the car. Somewhere from the distance came a faint hum. "Another car!" he muttered.

'Yes," she said. "Oh, but I can do hold the man we want—and there is he would not try no way of being sure that it does." "If there is any place to leave you,

I will go after him alone." He had turned the car as he spoke and was sending it slowly southward.

"No," she said wearily. "We-you must do no more tonight. You have been so good, Mr. Orme-to help me in a matter of which I could tell you almost nothing. I won't even try to thank you-except by saying that you have understood."

He knew what she meant. He had met her need, because he had shown its greatness without her telling him. His recognition of her plight had been unaccompanied by any suggestion of ignored conventions. No gushing thanks would have pleased him half so much.

He smiled at her wistfully. "Does It all end here?"

'No," she said, "I will not let it end here. We are friends already; in fact, Mr. Orme, as soon as I can do so, I will see that we are friends in name. Can you accept as little a promise as that?"

"I can accept any promise from you," he said gravely. "And now shall I take you home?"

"Not home. It is too far. But I have some friends a few blocks away who will take me in. Turn here, please.'

Under her guidance he took the car through several streets, drawing up at last before a large, comfortablestreet, with a wide, shrub-dotted lawn before it. Several windows were still had broken down on the way could lighted. He descended to help her

She hesitated. "I hate to ask it. Mr. Orme," she finally said, "but you can catch the trolley back to Chicago. They will take care of the car

He nodded. "But one thing, Girl," he said. "I am going to find that other Japanese tomorrow. I shall get the envelope. Will you call me up at the apartment tomorrow noon? If I am not there, leave word where I can find vou."

"I will do that. But don't get vourself hurt." She let him help her to the ground.

"At noon," he said. "At noon. Good-night, my friend." She offered her hand. "Good-night, Girl," he said, and

then he bent over and kissed her fingers gently. He stood by the car until she had crossed the lawn and ascended the steps--until the door opened and adCHAPTER VI.

A Chance Lead.

To follow the girl's suggestion and return at once to Chicago was Orme's intention when he said good-night to her. The hour was close to midnight, and the evening had been crowded so full with bewildering adventure that he was tired. Moreover, he looked forward to a morning that might well test his endurance even more strenuously.

He had now committed himself definitely to continue in the field against the Japanese. Except for his desire to serve this wonderful girl who had come so suddenly into his life, he doubtless would have permitted the mystery of the marked bill to remain unsolved. But since the recovery of the stolen papers was so important to her, he was prepared to run any risk in the struggle.

Who was she? But no, that was a question she did not wish him to ask. She was simply "Girl"-beautiful, tender, comprehending-his ideal incarnate. As he stood there, hesitant, before the house into which she had disappeared, he pictured her againeven to the strand of rebellious hair which had blown across her cheek. He could discover no fault in her perfection.

A man came into view on the drive at the side of the house; a servant to care for the car, of course; and Orme, with the uneasy feeling of one who has been trespassing, moved away toward the corner of the block, He looked back, however, and saw the newcomer clamber into the car and send it slowly up the drive.

At the same time a light illumined one of the upper windows of the house. A shadow was thrown on the curtain. Perhaps it was the girl herself. What explanation had she given her friends for appearing so late at their door? Probably she had told them no more than that she was tired To be tender to her! But he and belated. She was not the kind controlled his feelings and explained of girl from whom an elaborate exbriefly what had happened, at the planation would be asked or expected.

this, perhaps, her home? No, she had spoken of the people who lived here as her friends, and she would not have tried to keep the truth from him by subterfuge. If this were her home and she had not wished him to know it, she would have requested him to leave her before they had come so far.

not be hard for him to learn who lived in this house, and possibly da. His suit of duck was dimly white through that knowledge to get a clue to her identity. His heart warmed lamps. no more. I am tired, Mr. Orme. We as he realized how completely she cannot catch that car, even if it does had trusted him. His assurance that was had satisfied her. And Orme knew that, if she had been so readily assured, it was because she had recognized the truth and devotion in

him. With a happy sigh, he turned his back once and for all and walked could ever swell into the roar of a rapidly away. But he did not go toward the electric-car line, which he knew must lie a few blocks to the west. Instead, he retraced the face. course they had come, for he had decided to visit the university campus man turned his head. "Are you on once more and try to discover what had become of Maku, and more especially of the other Japanese, who had secured the papers. That he would be recognized and connected with the attack on Maku, was unlikely.

When he came to the corner of hesitated for a moment. Should he go north through the campus and ant." seek a trace of the Japanese who had escaped? Nearly half an hour had gone since the adventure among the trees, and the man must have got completely away by this time. Having the papers, he surely would not linger to learn the fate of Maku.

Orme found himself wondering how the Japanese had got to Evanston. Granting that it had not taken them long to solve the abbreviated directions on the five-dollar bill, they could hardly have come by motor-car, for they had had a good half-hour start, and yet Orme had discovered them looking place, set back from the before their work was completed. Only on the assumption that their car Orme admit that they had used a motor-car. Moreover, how were two Japanese, whose appearance did not indicate the possesion of much ready money-how were they likely to have a car, or even to rent one? And had there after dark." they believed that they might be pursued? Would they not have come to Evanston by an obvious route of

train or trolley? These considerations led Orme to think that the car which he and the desired to hear explained. girl had heard in the distance could not have been occupied by the escaping Japanese.

The fellow, then, had probably made for the electric-car line, and in that event he would be well on his way to Chicago by this time. The car he had caught must have gone southward from Evanston about 10:45. The conductor would be likely to remember having had a Japanese on board; perhaps he would even remember where the Oriental had get off. The natural course for Orme, therefore, was to take a car himself and, if he did not the cop came up. He got away."

"There's a Rule Against Going in There After Dark."

meet the other car returning, to get off at the car-barns and make inquiries. The possibility that the Japanese had changed to the elevated road on the North side was great, but the conductor might remember if the change had been made.

But Orme did not turn at once toward the car-line. Though his logic pointed in that direction, he was irresistibly influenced by a desire to walk eastward along the drive where his surprise, the life-saver did not it skirted the southern end of the notice it. campus. A half-hour might go by, and still he would not be too late to meet, on its return, the car which the Then a thought startled him. Was Japanese would have taken. He started, therefore, eastward, toward the lake, throwing frequent glances through the iron fence at his left and

into the dark shadows of the oaks. He came to the lake without encountering anyone. The road here swept to the southward, and on the beach near the turn squatted the low brick bullding which the girl had told It dawned upon him that it would him was the life-saving station. The life-saver slowly stretched. 'Till 12," he answered.

"Not much longer, then?" "No, thank heaven!"

Orme laughed. "I suppose you do get more than you want of it," he Sheridan road and Chicago avenue, he said. "But on a fine night like this I should think it would be mighty pleas-

"Not if you have to put in several hours of study after you get through." "Study?"

"Yes. You see, I have a special examination tomorrow.' "A service examination?"

"Oh, no-college." "Are you a student?"

"All the crew are students. It helps a good deal, if you are working your way through college." "Oh, I see. But surely the univer-

sity hasn't opened for the fall?" "No, but there are preliminary

exams, for those who have conditions Orme nodded. "It's a fine campus you have-with the groves of oaks."

"Just the place for a quiet evening stroll. I thought I'd walk up the shore."

"There's a rule against going in "Is there? That's too bad."

"Something funny happened there just a little while ago." "So? What was it?" Orme was getting close to the subject he most

"Why, one of the cops was walking along the shore and he found a Japanese, stunned."

"A Japanese!" "He evidently had wandered in there and somebody had hit him over the head with a club." "After money?"

"Probably. There've been a good many hold-ups lately. But the slugger didn't have a chance to get anything this time."

"He was bending over the Jap when

"Didn't the cop chase him?" "No, the fellow had a good start, so the cop stayed by the Jap." "And what became of the Jap?"

The life-saver jerked his head toward the door beside him. "He's in there, getting over his headache." "Is he?" This was a contingency which Orme had not foreseen. Nor had he any desire to come face to face with Maku. But if he betrayed

"The cop is taking another look through the campus," he continued. "What does the Jap say about it?"

asked Orme. "He doesn't say anything. It looks as though he couldn't speak English.

The cop is going to get Asuki." "Asuki?" "A Jap student who lives in the

dormitory." "Oh," said Orme.

The fact that Maku would not talk was in a measure reassuring. His apparent inability to understand Engilsh was, of course, assumed, unless, indeed, he was still too completely dazed by the blow which Orme had given him, to use a tongue which was more or less strange to him. But hoping thus to delay the pursuit of his companion?

The danger was by no means slight. Orme decided quickly to get away from this neighborhood. But just as he was about to bid the life-saver a casual good-night, two men came around the corner of the building. One was a policeman, the other a young Japanese. Orme unobtrusivey seated himself on the edge of the little veranda.

"How is he?" asked the policeman. "All right, I guess," replied the lifesaver. "I looked in a few minutes ago, and he was sitting up. Hello, Asuki."

"Hello, there," responded the little Japanese.

"Come," said the policeman, after an unsuspicious glance at Orme, and, mounting the steps, he led his inter-

preter into the station.

Now, indeed, it was time for Orme to slip away. Maku might be brought out at any moment. But Orme lingered. He was nearer to the solution of the secret if he kept close to Maku, and he realized, for that matter, that by watching Maku closely and, perhaps, following him home, he might be led straight to the other man. If Maku accused him, it should not, after all, be hard to laugh the

A murmur of voices came from within the station, the policeman's words alone being distinguishable. "Ask him," the policeman said, "if

charge away.

he knows who hit him." The undertones of a foreign jargon

followed. "Well, then," continued the police man, "find out where he came from and what he was doing on the

campus." Again the undertones, and afterward an interval of silence. Then the policeman spoke in an undecided woice.

"If he don't know anything, I can't do anything. But we might as well get a few more facts. Something might turn up. Ask him whether he saw anybody following him when he went into the campus."

Orme had been straining his ears in a vain endeavor to catch the words of Asuki. But suddenly his attention was diverted by a sound from the lake. It was the "puh-puh-puh-puh of a motor-boat, apparently a little distance to the northward. The explosions followed one another in rapid succession.

He turned to the life-saver. "What boat is that?" he asked.

"I don't know. Some party from Bon soir, garcon; bon soir."

BANNISTER MERWIN ILLUSTRATIONS BY RAY WALTER F COPYRIGHT 1909 by DODD, MEAD & COMPANY

she's the same one."

The explosions were now so rapid as to make almost one continuous cleared up." "She's a fast one, all right," com-

mented the life-saver. "Hear her go!" "Are there many fast boats on the "Quite a number. They run out

from Chicago harbor now and then." Orme was meditating. "Exactly how long ago did this

boat pass?" "Oh, an hour or more. Why?"

"She seems to have been beached up north here a little way." 'She may have been. Or they've

been lying to out there." In Orme's mind arose a surmise that in this motor-boat Maku and his companion had come from Chicago. The surmise was so strong as to de velop quickly into a certainty. And if the Japanese had come by this boat, it stood to reason that the one who had the papers was escaping in it. He must have waited some time

to return alone. Were these Japanese acting for themselves? That did not seem possible. Then who was their employer?

for Maku and, at last, had pushed off

Orme did not puzzle long over these questions, for he had determined on a course of action. He spoke to the life-saver, who appeared to be listening to the droning conversation which continued within the station.

"The hold-up men may be in that boat," remarked Orme. "Hardly." A laugh accompanied the

answer. "Well, why not? She came north an hour or so ago and either was

beached or lay to until just now." "You may be right." Then, before Orme knew what was happening, the young man opened the door and called into the station: "Hey, there!

Your robber is escaping on that him." motor-boat out there." "What's that?" The policeman strode to the door.

"Don't you hear that boat out there?" asked the life-saver.

"Sure, I hear it." "Well, she came up from the south an hour or more ago and stopped a little north of here. Now she's going back. Mr. Holmes, here"-he grinned as he said it-"Mr. Holmes suggests that the hold-up man is aboard."

The reference to the famous detective of fiction was lost upon the policeman. "I guess that's about it, Mr. Holmes," he said excitedly; and Orme what would he say if he saw Orme? was much relieved to note that the Would he not accuse his assailant, life-saver's humorous reference had passed for an introduction. The policeman would have no suspicion of him now-unless Maku-

There was an exclamation from within the room. "What's the mat-

ter?" asked the policeman, turning in the doorway. The voice of Asuki replied: "He

say the robber came in a bicyclenot in a boat." "But I thought he didn't see the

fellow coming." "He remember now." The policeman started. "How did

he know what we were talking about out here?" he demanded. "He understand English, but not

speak it," replied Asuki readily. To the policeman this explanation

was satisfactory. Orme, of course. found in it a corroboration of his guess. Maku evidently did not wish suspicion directed against the motorboat.

The policeman reentered the station, eager to avail himself of the information which Maku was now disposed to give him.

Orme turned to the life-saver. "The Jap is lying," he said. "Think so?"

"Of course. If he understands English so well, he certainly knows how to make himself understood in it. His story of the bicyc's is preposter-

ous. "But what thea?"

"Doesn't it occur to you that perhaps the Jap himself is the robber? His intended victim may have got the

better of him." "Yes," said the young man doubtfully, "but the fellow ran."

Doubt-"That would be natural. less he didn't want any notoriety.

Chicago, probably. She came up an | It's possible that he thought he had hour or so ago-at least, I suppose killed his assailant, and had an unpleasant vision of being detained in the local jail until the affair could be

The life-saver looked at Orme searchingly. "That sounds pretty straight," he

said at last. "I guess you know what you are talking about." "Perhaps I do," said Orme quietly.

"In any event I'd like to see who's in that boat out there." "There isn't a boat nearer than Chicago that could catch her. They have run her several miles out into the

lake before turning south, or she

would have been pretty close to Chicago already. She's going fast." The roar of the motor was indeed becoming a far-off sound.

"Why not telephone the Chicago police to intercept her?" "There's no evidence against her," ceplied Orme; "only surmises."

"I know, but-" "And, as I suggested, whoever was attacked by that Jap in there may not

want notoriety." Suddenly the distant explosions stopped-began again-stopped. Several times they were renewed at short intervals-"puh-puh-puh" - "puh-puh" - "puh-puh-puh" - then they

ceased altogether. "Hello!" exclaimed the life-sayer. They've broken down."

He picked up a pair of binoculars which had been lying on the veranda near him, and scanned the surface

"Make her out?" queried Orme. "No, she's too small, and too far off." He handed the night-glass to Orme, who in turn searched the wa-

ter vainly.

"Whose boat is that moored to the breakwater?" asked Orme, lowering the glass.

"Belongs to a man here in town." "Would he rent it?" "No. But he lets us run it once in awhile. We keep an eye on it for

Orme took out his watch. "It's almost 12," he said. "You'll be relieved in a few moments. Do you suppose I could persuade you to take me out

to the other boat?" The live-safer hesitated. "I'd like

to," he said. "But my study-" "There'll be some sport, if we get within reach of the man out there," Orme put in.

"Well-I'll do it-though the chances are that they will make their repairs and be off again before we come within a mile."

"I'm much obliged to you," said Orme. "If you would let me make it right-"

"For taking you out in another an's boat? No. sir.

"I know. Well-my name is Orme, "And mine," grinned the life-saver,

'is Porter.' A man turned in from the drive, and sauntered toward them.

"There's my relief," said Porter. 'Hello, Kelmsley." "Hello," replied the newcomer.

"Just wait till I punch the clock." said Porter to Orme. "Punch the clock? Oh, I see; the government times you."

Porter went into the station for moment; then, returning, he exchanged a few words with the relief and led Orme down to the breakwater. The launch which was moored there proved to be a sturdy boat. built for strength rather than for speed.

Orme cast off while Porter removed the tarpaulin from the motor and made ready to turn the wheel over. "Is the policeman still busy with the Jap?" Orme questioned

"Yes." "He won't get anything out of him," said Orme-"except fair

stories." Porter started the motor and stepped forward to the steeringwheel. Slowly the lausch pushed out into the open lake, and the lights of the shore receded.

No sound had come from the disabled boat since its motor stopped. Doubtless it was too far off for the posse of repairs to be heard on the shore. Orme peered over the dark surface of the water, but he could see nothing except the lights of a distant steamer.

(TO BE CONTINUED.)

denly.

Getting Away.

"Haven't you forgotten something, sir?" asked the anxious waiter, as the thrifty guest prepared to depart without bestowing a tip.

"No, I think not. Here's my hat and here's my cane. I don't think I have forgotten anything." "But you've forgotten me," said the

waiter in exasperation. "Not at all," answered the other "I saw you standing ther all the time.

Penuchle Editor-What's the general effect of the new "hobble skirt?" Bridge Editor-Well, if it is the one

saw on one of the elevated loop platforms the other afternoon is a correct sample, the general effect is hard to describe, but the particular effect is to lower the waist line to a point just below the knees.

A good thing needs no puffing, but this truth does not apply to tobacco.

# CONSTIPATION

Paw Pills are unlike all other laxatives or cathartics. They coax the liver into activity by gentle meth-ods. They do not scour; they do not gripe; they do not weaken; but they do start all the secretions of the liver and stomach in a way that soon puts these organs in a healthy condition and cor-

rects constipation. rects constipation.

Munyon's Paw-Paw Pills are, a tonic
to the stomach, liver and nerves. They
invigorate instead of weaken; they enrich the blood instead of impoverish it;
they enable the stomach to get all the
nourishment from food that is put into
it.

These pills contain no calomel, no dope, they are soothing, healing and stimulating. They school the bowels to act without physic. Price 25 cents.

WAITING FOR TROUBLE.

### TO HIRE HAD THE WASHING

### Mrs. Daniels Tells How She Solved That Problem and Several Others As Well.

Slip, Ky.-"I was so sick for 3 or 4 years," says Mrs. J. F. Daniels, of this place, "that I had to hire my washing done most of the time. I had given up hoping for a cure, but my husband kept begging me to try Cardui, so at last I began to take it, and I hadn't taken half a bottle before I could tell it was helping me. Now I can do my washing, and tend my garden. I am fleshier than I ever was before in my life and Cardui made me so. I believe that I would have been in my grave, if I had not taken Cardui. Your medicine is all right. I can't praise it too much."

Cardui is purely vegetable and gentle-acting. Its ingredients are mild herbs, having a gentle tonic effect on the female constitution.

Cardui makes for increased strength, improves the appetite, tones up the nervous system, and helps to make pale, sallow cheeks, fresh and rosy. Cardui has helped over a million

weak, tired, worn-out women, and should certainly benefit you.

Try it today.

N. B.—Write to: Ladies' Advisory Dept., Chattanooga Medicine Co., Chattanooga, Tenn., for Special Instructions, and 64-page book. "Home Treatment for Wom-en," sent in plain wrapper, on request.

A Christmas Criticism. Orville Wright, discussing flying in

New York, said to a reporter: "The French claim to make the best machines, but our foreign order books tell a different story.

"Our foreign order books give the game away like the little Dayton boy at the Christmas treat. He got from the tree at this treat a pair of trousers, and, waving them around his head, he electrified the entire Sunday school by shouting in a loud and joy-

"'Oh, ma, these pants must be new Pa never had a suit like that."

A Poultry Problem.

"Which is correct," ask the summer boarder who wished to air his knowledge, "to speak of a sitting hen or a setting hen?"

"I don't know," replied the farmer's wife, "and what's more, I don't care. But there's one thing I would like to know: when a hen cackles, has she been laying, or is she lying?"

When a woman has an eye for the

beautiful she hunts up a mirror.

### SOME TIMELY RECIPES

NEW THINGS IT WILL PAY COOK TO TRY.

Lemon Rice and Russian Lemon Ple Formulas Make Mouth Water to Read Them-Butter Scotch and Pepper Sauce.

Lemon Pie.-There are many different rules for making lemon pies, two of which I will give. For the first beat to a cream a tablespoonful butter and one cupful sugar. Put into a saucepan with a scant cupful boiling water, then add the juice and grated yellow rind of two lemons. When it reaches the boiling point stir in a tablespoonful corn starch dissolved in a little cold water and stir and cook until clear and thickened. Have ready the well beaten yolks of two eggs, stir in, cook a moment longer, then take at once from the fire. Pour into a well baked crust and spread over it, heaping lightly, a meringue made from the whipped whites of two eggs and two tablespoonfuls powdered or fine granulated sugar. Set in the oven, which should be quite cool, and let the meringue gradually puff and color.

Russian Lemon Pie.—Beat together one cupful sugar and one egg. Put over the fire, in a double boiler, threefourths cup water and a teaspoonful lemon juice. When boiling add sugar and eggs, the grated yellow peel of two lemons and a soda cracker rolled fine. Wet two tablespoonfuls flour with a quarter cupful cold water and add to the other ingredients. Lastly, stir in a large cupful seeded and chopped raisins. Line two small pie tins or one large pie tin with pastry, pour in the lemon mixture, put on an upper crust and bake for about thirty-

Butter Scotch.-Boil together one half cupful butter, a tablespoonful vinegar and a quarter teaspoonful soda. Stir frequently to prevent burning and as soon as the sirup reaches the snap stage when dropped in cold water take from the fire and flavor to taste. Pour upon a buttered tin in a sheet one-quarter of an inch thick and when nearly cold check it off into squares, using a sharp knife. Separate when cold and wrap each square in paraffin paper.

Pepper Sauce.—Grind one dozen and a half green, red and yellow peppers and a small solid head of cabbage in a meat chopper. They should be very fine. Add 5 cents' worth each celery seed and ground mustard with vinegar to make the consistency of catsup. This goes well with meats.

# Che Home

If hooks for the bathroom, kitchen and pantry are dipped in enamel paint there will be no trouble from iron

Having several pairs of shoes and never wearing the same pair more than one or two days at a time will rest the leather and make it last better. Chamois leather should be washed, when necessary, in soapsuds, and rinsed in soapsuds-not in clear water. Treated thus it will keep its original softness.

Any dish that has held dough, milk, cream or eggs should be rinsed in cold water before being placed in hot water, as hot water tends to cook such things and make them more difficult to

Puree of Lima Bean Soup.

Soak one pint of lima beans over night in cold water and in the morning boil in water until soft. If the water boils away very much add a little milk or water. Sift closely and add salt, pepper and cayenne to taste. If you like add a little onion juice. Melt one tablespoon of butter and rub into it until it is perfectly smooth one tablespoon of flour. Pour on this one cup of boiling water and stir hard. Stir the two mixtures together. Slice two or three tomatoes very thin and put in the soup. It will be ready to serve as soon as it boils.

Tomato Puree.

One can tomatoes, two carrots, cut in slices; one-half bay leaf, one stalk celery, four sprigs parsley, two cloves, two onions, four tablespoons butter, four tablespoons flour, one tablespoon salt, one-eighth teaspoon pepper. Put tomatoes, spices, parsley and herbs into a small kettle and cook until the tomatoes are thick and rather dark. Melt the butter, add flour and seasonings, then the tomatoes gradually. strain and reheat. Serve on omelets or meats or fish.

Useful Tip.

For those who have to do much household work this hint will be useful. Before putting the hands into soda water rub the finger-tips and round the nails with vaseline. The water will not then touch them and make them crack.

# Acquainted With. ADVICE

Women suffering from any form of illness are invited to promptly communicate with Mrs. Pinkham at Lynn, Mass. All letters are received, opened, read and answered by women. A woner of the state o

TO WOMEN

man can freely talk of her private ill-ness to a woman; thus has been es-tablished this con-fidence between Mrs. Pinkham and the women of the women of America which has

never been broken. Never has she published a testimonial or used a letter without the written consent of the writer, and never has the Company allowed these confidential letters to get out of their possession, as the hundreds of thousands of them in their files will attest.

Out of the vast volume of experience Out of the vast volume of experience which Mrs. Pinkham has to draw from, it is more than possible that she has gained the very knowledge needed in your case. She asks nothing in return except your good will, and her advice has helped thousands. Surely any woman, rich or poor, should be glad to take advantage of this generous offer of assistance. Address Mrs. Pinkham, care of Lydia E. Pinkham Medicine Co., Lynn, Mass.

Every woman ought to have Lydia E. Pinkham's 80-page Text Book. It is not a book for general distribution, as it is too expensive. It is free and only cupful each sugar and molasses, one- obtainable by mail. Write for it today.

> Bo'sun and Sir John Fisher. Admiral Potter told a new one on Sir John Fisher. When Sir John was at the head of the British admiralty he was most inaccessible. One day an old boatswain appeared. He would not take "no" for an answer. Finally a secretary went into Sir John's office, leaving the door ajar. He told the admiral that a sailor demanded

> "Tell him to go to hell," roared Sir

"Aye, aye, sir," piped the boatswain, who stood in the doorway at a respectful salute; "I know I'l meet you there, sir, but I want to talk to you

Nothing amuses the average man more than to have some woman believe she is bossing him.

NEVER GOT TO KNOW HIM

Seemingly, This Husband Was Somewhat of a Hard Man to Get

"I met a queer old woman character on the train between here and Buffalo one morning," remarked Police Judge McGannon when talk had drifted around to queer people one meets. "She was traveling with her grown son, whom I had met in the smoking compartment, and later on I got talking with the old lady. She spoke of several people she knew here in Cleveland.

"Did you ever happen to know James H. Soandso?" I asked her casually, judging from something she had said that she did know him.

"She gave me a strange sort of a look. 'Well,' she replied, 'I don't know whether to say I know that man or not. He's a queer sort, you understand—the kind of a man that nobody really knows. Why, I was married to James Soandso, and lived with him for four years, but I never felt that I was really acquainted with

"And the funny part of it," added McGannon, "was the woman was in deadly earnest about it. She didn't make the remark by way of springing any comedy at all."—Cleveland Plain

PRECAUTIONS.

Due Precautions.

In a town in Georgia there was an old preacher whose knowledge of the world was not wide nor deep, but who conceived it to be a place where, if one should trust his fellow men, he should at the same time keep an eye

on his own interests. One hot day he pulled off his coat and preached a vigorous sermon, under the pines, in his shirt sleeves. At the close of the open-air service one of his admirers approached him and said, regretfully:

"I don't suppose that you knew that e editor of one of the big New York kidneys and Sunday papers was here when you pulled off your coat.'

"I reckon I knew it well, for I'd been told of it," said the preacher, calmly. "I don't believe he's as bad as he might be, and anyway, I put my coat on the chair close by and had it right under my eye all the time."-Youth's Companion.

DON'T TAKE HARSH PURGES

They Are Very Harmful, Bond's Pills Are Gentle, and They Cure!

Bond's Pills are in no way similar to the cheaply made, irritating purgatives that are scattered broadcast over the country with all sorts of "guarantees" by unknown and unknowable makers.

Bond's Pills are gentle and reliable liver stimulants. One small pill at bedtime is the proper dose. They are tonic to the bowels and leave them in a healthy and regular condition. All druggists, 25c. For a free sample write Bond's Pharmacy Co., Little Rock, Ark.

M. Keller came along a possible exception of the work is followed The Carrie of Fairhope, cleared Tuesday night for Mobile with cross ties.

See the stock of flooring and ceiling at Stimpson's mill which is being sold cheap while it lasts.

Miss Alice Sacriet.

We have several hundred copies yet of "Whose Land?' one of the most effective Single Tax tracts in print, which we can sell in small lots at 2 cents; 50 or more at 1 ct. each postpaid. Handy to pass out to friends or enclose in letters.

Full line of trunks, suit-cases and handbags with prices to suit the pocketbooks. Mershon Merch. Co.

Mrs. Sacriste having sold her place at San Antonio, Fla., as announced some time since in the ounced some time since in the our er, was a passenger on the last MERRY MARDI GRAS CARNIVAL FairhopePharmacy.

A camelia Japonica in N. Mershon's yard presents a very pretty appearance. There should be more of these beautiful flowering shrubs about Fairhope homes.

Coare, was a passenger on the last Mallory steamer, accompanied by her daughter, Miss Alice and son Paul, and will make her home at Fairhope. She has purchased the Mrs. Lossing cottage on Fels Ave. and will occupy it as soon as new furniture ordered for it is received.

Mr. Brown who with his wife spent last winter here in the Troup cottage by the Fairhope Hotel has written Mr. Troup from Denver for a house, and is expected here within about a week to occupy the cottage Mr Troup now has nearlycompleted.

February 26-27-28-1911

Three Days of FUN, FROLIC, AMUSEMENT A Good Time For Everybody

Mr. and Mrs. Otis Goddard arrived on Wednesday evening for a short visit. They are both looking very well and attribute much of their present good health to the benefit experienced by their former stays at Fairhope.

With the affliction of her hands before mentioned, and the care of Mrs. White who is ill at her home the associate editor is unable to write anything for the paper. She hopes to be able to resume her "letters" at an early date.

Mr. J. R. Edmiston, while working Get your horses ready for spring work. Give them Le Gear's stock food. Fairhope Pharmacy.

John Blomquist who lived on a Colony leasehold in section 25 for several years is in this vicinity for a short time. He has been living at Whistler, Mobile county.

Mr. J. R. Edmiston, while working on the rebuilding of the burned pier on Monday, stepped on a loose plank and was thrown backward into the water. He struck his back and head on timbers in falling and was painfully bruised. His hands were also scratched up pretty bad by barnacles on the piling to which he clung until rescued by his fellow workmen.

ty. They are laying well now and the local market for eggs is good.

One way of getting rid of mites and lice. Use Le Gear's Dip and Liquid lice killer.

Fairhope Pharmacy

Daphne Normal School, took advantage of her presence in Fairhope Monday on account of the Daphne-Fairhope ball game to circulate a subscription in behalf of the Normal School and collected \$10 or \$15 in a very short time.

BARGAINS IN BUILDING MATERIAL.
Arriving at Wharf No. 2, 25,000
ft. of building lumber, juniper and pine, which will be sold at attractive prices. A. O. Berglin,
Fairhope, Ala.

FOR FIRE WOOD—
Good, dry, promptly delivered.
All kinds. Call at Thomas's Wood
Yard or phone M. V. Mathews.

Mr. G. B. Lusk and wife of
Champlain III joined their other.

Mr. and Mrs. Charles Bromley, and son Jimmie, from Boulder, Col. arrived on last Friday evening to spend the remainder of the winter. They are enthusiastic friends of Fairhope and are sure nobody was ever gladder to get back to it than they.

We understand Mr. and Mrs. Whittier, who have had long experience in the restaurant business, and who have recently acquired among other properties of Mr. Kile, his beautiful home place on Magnolia avenue and Summit street, plan to run a small hotel or boarding house there next season.

Friends of Laurie Tilson to the number of about forty, old and young, surprised him on Wednesday evening, by gathering at the cafe and pavilion for an all around good time, which they proceeded to have time, which they proceeded to have by taking possession of the pavilion, which they lighted with danterns, the gasoline lighting plant being temporarily out of order. Dancing and card playing were indulged in and the ladies fired up the range made coffee, and spread out sandwiches, cake and eatables of all kinds in profusion. Laurie has a birthday coming soon and a substantial cash contribution was handed him with the direction to buy him a birthday present with it. Laurie is deservedly popular with the home people and visitors, and was made to feel this keenly. He had to make a little speech, which he did gracefully in spite of his embarassment, expressing his appreciation. appreciation.

# NEW CHURCH SERVICES.

In the New School Auditorium Rev. F. L. Higgins, Minister,

other big red-lish and eight drum.

Mrs. E. J. M. Stevens' brother
Mr. John Brown of Waukee, with
his wife is here for the balance of
the winter. They are in the Brea
Sweet cottage. Another brother,
Mr. Fred S. Brown, of Kansas City,
is with Mr. and Mrs. Stevens. Mr.
and Mrs. Stevens also had a pleasant wisit from their friend Ed. Conger, for many years treasurer of
their county.

With the coming of spring, the
gardens are again in high fayor.
Each pupil has a separate plot
which he has dug and raked and
planted in his favorite vegetables
with the greatest diligence. The
regular nature study periods are
work. The teachers training class
have chosen for their share the
beautifying of the front yard and
have already preared beds along
the path to be planted in flowers.

There is probably no other part

which they will plan twith appropriate ceremonies. The celebration riate ceremonies. The celebration of Bird Day which comes later in the year will be united with this, as the planting of trees is the first the planting of trees is the first step toward keeping the birds. The pupils are however in readiness to help the V. I. C. in any plans they

The basketball teams have been organized with Miss Caldwell as coach and Misses Leah Gaston and Celina Roberts, captains.

GENTLE READER,-Have you ever heard of the famous OAKS under which OLD HICKORY camped, or the biggest GRAPEVINE in

DON'T you remember reading in your HISTORY of the U.S., how BUCHANAN and FARRAGUT chased each other around MOBILE BAY, and the fighting above DAPHNE?

DO YOU ever hear of SHONTS or of BALDWIN COUNTY or of TOBACCO? THEN if you HAVE heard of the OAKS, the GRAPEVINE or of BALDWIN COUNTY, or REMEMBER your history, YOU are the ONE that I WANT to TALK to. 3400 feet of WATER FRONT on upper Mobile Bay, just above the

Shonts' Place on a bluff fifty feet and over high. And on the 350 acres of land that go with this water front the OAKS and the GRAPEVINE. Likewise a beautiful spring. This land is especially adapted to Satsuma oranges, pecans, grape fruit, and vegetables of all kinds.

FOR SALE, for a short time, ONLY, by C. C. MECHEM, Box 375,

67 St. Francis St. Mobile Ala. Price \$17,000.00.

FAIRHOPE : : : ALABAMA

There are unpleasanter things in this world than a surfeited coal bin.

This is a great little country, and we have the census figures to prove it.

It is said that a new United States gun is the most powerful. Surely; why not?

A Brazilian revolt has come to be about as serious as a hunting season in this country.

A Maryland man wants a divorce because he is afraid of his wife. But who of us isn't?

Under a new law it is a crime to treat in Tacoma. Tacoma must be the original tightwad town. A woman gets a place as a wire-

less operator because the C. Q. D. heroes are said to be lazy. They are planning to keep tab on

the people who have domestic troubles. Just as if that would stop An advertisement says that every home should have a talking machine.

Evidently the man who wrote it is not

A man in Michigan dislocated his jaw by laughing over his wife's joke. The reverse never would or could have happened.

A Philadelphia man committed suicide with a safety razor, but so far we haven't heard of a woman cutting her corns with one.

If last summer's gerantum pot were not so heavy it might be covered with velvet and thus become a very stylish hat for your daughter.

What did Woodrow Wilson mean when he told the governors assembled Alaskan revenue cutter service. Purin Louisville that they had come to suing criminals in a country wilder Kentucky for "stimulation?"

dertaker was about to embalm him. sat up and cried: "Hello, Bill!" Such tonduct is almost indecorous.

to fill up and go on a prolonged spree there is nothing to do but stand back and let the old thing have its way.

A St. Louis man has invented a soundless soup spoon. This notable ter Thetis, which ended in October, addition to the elegancies of society 1909. His trips took him thousands of may be followed in time by the knife-

Is it worth while to designate the exact status of the person who mor- Asiatic coast, to 81 degrees north latializes on the blessings of poverty and does nothing to relieve the curse of Barrow, on the northern coast of Alas-

public places.

A New Jersey girl advertises that she will not marry any of her acquaintances but wants a stranger for a husband. Doesn't she even want to be introduced to him first?

The man charged with cruelty by his wife on the ground that he made her shave him, is no doubt an innocent martyr, if the facts were known. Probably he was merely adopting this means of inflicting a penance upon himself. That he enjoyed the operation is inconceivable.

The otherwise safe and sane citizens of Massachusetts have just finished a three-year-old pool game. Poolomania, although not violent or dangerous to the innocent bystanders. is well nigh incurable. Its one redeeming feature is that the victims labor under the illusion that they are enjoying themselves.

The New Jersey mayor who was horsewhipped by an irritated lady appeared before the grand jury to have her indicted for "unladylike" behavior. If she had been content with a tongue lashing he would probably have conceded her the privilege of her sex, but her rudeness in using a horsewhip in addition hurt his feelings too much for meek endurance.

Dr. Lydston asserts that grafting is caused by a germ which makes its pri mary bite when you get very much oc cupied with your paper as the conductor comes along for the fare. On that theory the pay-as-you-enter car should act as a sterilizer for that particular microbe. At all events, if the bug can be suppressed the vital question is whether it will cure the more violent cases that take the form of getting on the inside of railroad contracts and reorganization schemes.

Somebody has invented a substitute for the hobble skirt, the new arrangement being alleged to be just as hideous, but less dangerous. However, the element of danger is what makes the hobble skirt interesting.

A gallant New York court holds that a girl cannot be made to give up engagement gifts after the engagement is broken. The cupidity of a man triumphs over even his self-conceit if it requires a court decision to convince him that it requires all the gifts she has to console the fair one for his loss

A TOILER ON A WHALER 198

there is one branch of the United | States naval service in which men ventures, see strange sights and even than the bailiwick of the Cana-A Minnesota man, just as the un arctic seas, capturing Japanese seal smugglers, studying ethnological and geographical conditions among unnamed races and unmapped countries, their lives are filled with the romance When the Ohio river takes a notion and the privations, the mystery and the revelations of the true pioneer.

Lieut. LeRoy Reinburg, who is in charge of the revenue cutter Patrol at Chicago, saw service in the polar seas in a three years' cruise aboard the cutmiles, from Cape Attu, the most westerly point of Uncle Sam's dominions. and one of a tiny island group tucked away almost within the sweep of the tude, up beyond Cape Hope and Cape going to publish the account of those in extent, in one of which the powerful dead on ice packs and starving natives herding together by the hundreds; of adventures comic and tragic and marsome of his wanderings.

### Saw Whaler Go Down.

"We started out of Frisco," he said. "to be gone three years. "We went up along the coast and struck ice in about 65 degrees north latitude. There was a fleet of whalers there at the time and we stood by to help them if we could. One of them did crush and go down without a moment's warning and the religiously inclined said it was a judgment of God because the vessel's captain had kicked in the head of one of the crew a few days before. We ourselves were caught in the ice later. but after two weeks the ice cracked during a fog and when the air cleared we saw a channel opening from us to clear water.

"There is no police or anything of that sort up in northern Alaska, you know, and part of our duty was to serve all of the warrants that had been issued by the federal authorities. We had a couple of marshals along, and we would send out firing parties along the coast whenever we would get trace of our man. The story of these trips would fill volumes. We also looked out for Japanese seal poachers, charted the seas we traversed, studied the Eskimo races we ran across, and did a thousand and one things in a land where there were mighty few other people to do them. Our captain, Capt. A. J. Henderson, was a mighty man, with a rule more absolute than that of many kings. We had a federal commissioner along, and could give the men we arrested a preliminary hearing right on the vessel. Then we sibly, through the Eskimo, as one would take them back to Nome or some other port for trial.

"Sealing laws are very strictly enforced now, as the government has ed, and Russian scientists are going prohibited the killing of seals entirely out with the next cutter to have a look for ten years, and the observance of at them. We send out a cutter there them is rigid. I really believe that it every year and it brings the only mail would be easier to kill a man here in that reaches there. Chicago and get away with it than to kill a seal away up in the north, a tell of all of the experiences we went thousand miles from civilization, and through and of the strange sights we escape punishment. The government saw. It certainly is a novel quarter

"The Japanese are the worst offend ers, and eight revenue cutters are and officers alike undergo wild ad- kept busy in those waters all the time, keeping watch on them. They are arsuffer great hardships it is the rested by the scores and the uniform sentence is 16 months' imprisonment, fines and confiscation of the vessels and all of their equipment, along with dian mounted police, sailing uncharted whatever hides may be on board. The vessels and the gear are sold by the government, but the odd part about the proceeding is that under the law the skins must be destroyed. Why, I know of one vessel which was taken with 1,600 pelts aboard, and under the law these should be destroyed, although they are worth \$40 each. The court is holding them, however, in the hope that some other arrangement can be made about them. The fights that the cutters used to have with the Japanese smugglers and poachers are now almost entirely a thing of the past, although whenever a suspected vessel is sighted it always takes a shot across her bows to stop her. Resistance is rare, however.

"During our travels we saw many sights that would rival any of the natka. Some day Lieutenant Reinburg is ural attractions of the world. There is a waterfall up there which is higher Now that the long hatpin is being three years, in which the Thetis and than Niagara, though of course not assailed by hostile legislators, out her crew represented the United nearly so large, and a natural bridge oper States and the sovereign law in places that is much finer than the one in idity I owe the happiest moments of my wearing machetes or snickersnees in where both are but shadowy tales. He Kentucky. It is 175 feet high within life, let me fall prostrate. will tell of ice packs miles and miles the arch and fully 600 outside. Up around Bogoslov there is an area cutter lay helpless for two weeks, and about 60 miles in each direction which of a whaler, which, less fortunate and is virtually 'in the making.' It is in less stanch, crushed like an egg and a state of volcanic evolution. Look went down with all hands. He will at these two pictures. They show the tell of cold and hunger-of men found same scene, and one was taken two weeks after the other. See the rocks are twice as high in the second as they were in the first. It's the same velous. To a reporter he recounted way with the channels along the coast -here one day and there another. There are no charts, no lights, nothing of the sort, anywhere along the coast, and navigation is dangerous in the extreme."

> Lieut. Reinburg had hundreds of views of sights all over the polar seas. One is the photograph of an Eskimo child, its face ravaged by cancer of the nose. The infant was operated on and its life saved by the ship's doctor, A. D. Foster, at 70 degrees north latitude. "Give any disease up there in that climate half a chance, and it will cure itself," declared Lieut, Reinburg, Another picture showed the whitened bones and grinning skulls, mounted upon a platform (burial is unknown in the frozen north), of an expedition, which, according to Eskimo tradition. embarked on a search for the north pole 50 years ago on a vessel known as the Genie. Whence it started, or rest, the work is planned ahead. The who formed it, none knows, but its end is known to all.

King and Queen of 74 People.

"Cape Attu, the westernmost point of Uncle Sam's dominions, contains just 74 people," Lieut. Reinburg went on, "but it has king and queen, just the same. King Philaretta and Queen Maude, that was the best we could make of their names. I bought one of the finest hand-woven baskets 1 ever saw for four dollars from Queen Maude, in her regal hut. We tried to determine to what race the Attuans belong, in an effort to get evidence to support the theory that the Mogolians and Indian races merge insenproceeds east from China. greater care than the chicken.

Dinner Making.

A knowledge of the composition of the common foods is essential for the woman who would plan her daily meals intelligently. There are no fixed laws regarding the choice of certain vegetables to serve with certain meats, though some have become associated by custom and because they harmonize.

When fish takes the place of meat, as it lacks in nutrition, the meal is balanced by a rich sauce for the fish and vegetable dessert that has considerable nutriment. On the other hand, when serving roast pork, a simple dessert and lighter vegetable is served. Soup generally begins the meal when it is well planned. Soup for dinner should be simply a stimulant to prepare the stomach for the heavier

Brown Onion Soup .- Fry .three onions brown in butter, add a tea spoonful of sugar and four cups of the beef broth, bring to a boil, strain and

Spiced Tongue.—Boil a fresh tongue until the skin will peel. Trim off the roots, rub the tongue all over with a mixture of one teaspoonful of allspice, half a teaspoonful each of pepper and ginger, then dredge with flour. Fry a minced onion in two tablespoonful of butter, then brown the tongue. Put it in a stew pan, add a tablespoonful of flour to the butter in the pan and a pint of water, or enough to make a thin gravy. Pour it over the tongue, add half a cup of raisins and half a cup of vinegar. Stew until tender and serve with the

Smothered Potatoes .- To two tablespoonfuls of suet add a fourth of a cup onion and celery mixed. When beginning to brown, add a pint of cold oiled potatoes cut in cubes. Sprinkle with salt and pepper and add a half cup of gravy or tomato sauce. Cover till well steamed and serve hot.

Marlborough Pie.-Mix together two cups of grated apples, one and a half cups of sugar, three eggs well beaten, two tablespoonfuls of melted butter, the grated rind and juice of one lemon and one cup of sweet cream. This is enough for two pies. Cover with strips of pastry or reserve the whites of the eggs for a meringue.

female

Up-to-Date Housekeeping.

The housekeeper of today has so many appliances to lighten labor that were unheard of fifty or a hundred years ago that the wonder is that there is anything left to do. Yet we find the women of today very much busier accomplishing greater results

than their grandmothers. With the washing machine run by motor or gasoline, the wringer by the same power, washing day has ceased to have its terror. The mangle and the electric iron makes ironing much

The vacuum cleaner, one of the greatest boons to the housewife, is robbing each season of that dreaded housecleaning.

The motor is being used to run the sewing machine, a wonderful relief and flour and a cup of milk. to a tired woman.

Of the smaller utensils, the meat chopper, bread mixer, coffee perculator, cream whips, egg beaters, wooden spoons, there is no end.

The majority of our housewives lack system in managing the household. We need to use the homely old phrase, "let our heads save our heels." Much of worry and hard work might be done away with if in a moment of

meals for a week may be written down

and then there is the opportunity to plan nice dishes with left-overs, by taking time to think out good dishes. So many meals are put on the table without any previous thought, such a meal is not likely to be well balanced. Generalities. Never let chicken or meat stand soaking in water. To clean a chicken

scrub it well with a small vegetable brush and use a teaspoonful of soda in a quart of water. The skin of the chicken is most appetizing when cooked, so it should be carefully cleansed.

A goose, having so much oil in the

A Novel for Tennyson. Tennyson would have scouted the idea of a limit of 150,000 words for novels, says the London Chronicle. William Allingham notes in his diary to Farringford, "Tennyson is a constant novel reader, and says, 'What I dislike is beginning a new novel. I should like to have a novel to read in a million volumes to last me my life."

Immune to Yellow Fever. That the natives in Bahia, Brazil, ere far more immune to yellow fever anvil.-Bolleau.

### OLD COMMON SENSE. Change Food When You Feel Out of Sorts.

"A great deal depends upon yourself and the kind of food you eat," the wise old doctor said to a man who came to him sick with stomach trouble and sick headache once or twice a week, and who had been taking pills and different medicines for three or four years.

He was induced to stop eating any sort of fried food or meat for breakfast, and was put on Grape-Nuts and cream, leaving off all medicines.

In a few days he began to get better, and now he has entirely recovered and writes that he is in better health than he has been before in twenty years. This man is 58 years old and says he feels "like a new man all the time."

Read "The Road to Wellville," in

Simple Model That Calls for Either Serge, Fine Cloth or Cashmere.

Serge, fine cloth or cashmere might be used for our simple model, which is made with a panel front laid on sides in a wrapped seam, and trimmed with buttons sewn on in sets of three. One tuck is made on each shoulder,

stitched to waist back and front; the skirt is gathered to waistband, which connects it to the bodice.

### New Winter Perfume.

inches wide, one dozen buttons.

During the winter season perfumes suggesting the oriental rather than the fragrance of the flowers are preferred and much time and skill is expended every year by the maker of perfumes before a new aroma is perfected.

A new and delightful odor is called Mi Nena, and those who like the oriental scents will certainly make this popular, for it is delicious. It is rather an expensive perfume, but then it is are easy ways of decorating the flat lasting and little is required.

"Here's an editorial in the paper on married calm," remarked Mrs. Woppington.

"How long is it?" asked Mr. Woppington. "Oh, it's very short."

"I thought it would be short," said Mr. Woppington, grimly.

Decidedly Not.

"Poes this train stop at Willow Grove?" "No, boss," replied the porter;

White or Cream Colored Voile, Embroidered Heavily, Approved Thing in Lingerie Dress.

The very latest news from Paris tells us that white or cream-colored voile, embroidered heavily, will be the approved thing in lingerie dresses for early spring. That seems to be looking a good ways ahead, but if you do your own embroidery you will want this time to get ready in.

Really the possibilities are endless and fascinating. Either heavy embroidery (wallachian, for instance) will be used, or beadwork with rubber beads, or a combination of the two. Can't you just see a wall-of-troy design, worked solid in white and outlined beads? Or, perhaps, the beads would be black, and a black hat would be worn with the dress, or Alice blue, or old rose, or some other becoming and striking shade.

How pretty this would be in a three-piece suit, with the embroidery consisting of a skirtband, side plaits on the waist and collars and revers on the coat! Then there are other ideas—a Persian design worked out in vari-colored beads, for instance, or a spray of heavy flowers, morningglories or passion flowers, with centers and veins accentuated by means of beads in the proper colors. In this case the embroidery itself would be equally attractive in life colors or in white, or even in black.

Then there are all the metal effects. How lovely bronze would be on cream voile, or silver on pure white! Voile head of crisp lettuce, one small spoonhas the advantage of raveling easily, ful of lemon juice, one tablespoonful and so it would be quite possible to and a half of vinegar, two of capers, draw a thread all the way along the one teaspoonful of salt, a seasoning of materials and work from that. Even drawnwork could be combined with these other effects.

right away? Do have a dress like this refrigerator for two or three hours. Materials required: Four yards 48 for next season. I'm going to!

### Velvet Bags.

When you gather up the scraps of your velvet afternoon dress, don't throw them away. Make them up into a soft bag that should be carried with the dress. It can be square or round, and whatever other material you wish can be combined with it. A long silk cord, or silver or gold if you wish the metallic note, must be attached. This is thrown over the arm.

Beads, embroidery, little patches of tapestry or brocades and braid or lace,

### Merely a Reverse.

"Say, I've just discovered the difference in the extreme of energy as illustrated by an opium smoke and utilizing an oil-strike."

"What is the difference?" "One is hitting the pipe and the other, piping the hit."

### Worth Trying. "If a man can't depend on his friends, whom can he depend on?" "He might try himself for change?"

DISHES THAT WILL APPEAL TO JADED APPETITES.

Corn Oysters Is New Dish That Makes an Agreeable Change-Chicken Souffle and Potato Croquettes in Latest Style.

Corn Oysters.-Half of a can of corn put through a chopper and mixed with two beaten eggs, two tablespoonfuls of milk, one tablespoonful of melted butter, a high seasoning of salt and pepper, one teaspoonful of baking powder, and sufficient flour to make a thick batter. This is dropped by small spoonfuls in a pan containing a little hot fat, and fried brown; from the flavor the little fritters are frequently called corn oysters.

Chicken Souffle.-One cup cold cooked chicken, three eggs, one tablespoon chopped parsley, three tablespoons each butter and flour, one and one-half cups stock or milk, salt, pepper, and grated lemon rind. Make foundation sauce by blending the butter and flour, then adding the stock or milk and stirring until the mixture boils. Cook two minutes, season and cool. Add yolks of eggs, meat, parsley, and lemon rind, and last of all the stiffly beaten whites of the eggs. Bake in a steady oven forty minutes, and serve with a mushroom sauce.

Potato Croquettes.—Two cups of cold mashed potatoes, two eggs beaten to a froth, two tablespoons of cream, one tablespoon of chopped parsley, one teaspoon of onion juice, two teaspoons of melted butter, one teaspoon of salt, a grating of nutmeg and a dash of cayenne. Beat the eggs lightly and add them to the potatoes, then add all the other ingredients, mix and turn into a small saucepan, stir over the fire until the mixture leaves the sides of the pan; take from the fire and when the mixture is cool form into croquettes shaped like cylinders. Roll in beaten egg and then in bread crumbs, fry in hot fat until of a light golden brown

### TO RETAIN FLAVOR IN MEAT

Escape of Extractives May Be Hindered by Searing Surface of Meat Quickly.

The amount of the extractives which will be brought out into the water when meat is boiled depends upon the size of the pieces into which the meat is cut and on the length of time they are soaked in cold water before being heated. A good way to hinder the escape of the flavoring matter is to sear the surface of the meat quickly by heating it in fat, or the same end may be attained by plunging it into boiling water. Such facts are known to all cooks and have recently been studied systematically at the Illinois experiment station in relation to the amounts removed and the losses which may be involved in different methods of cookery. Such solubility is taken advantage of in making beef tea at home and in the manufacture of meat material being finally concentrated by evaporating the

New Cook in the White House. There is a new cook in the White House. She is Flora Hamilton, a young woman of Scotch-Irish descent, who went to Washington from the kitchen of a wealthy New York fam-The New Yorkers gave her up unwillingly, but they were glad to see Miss Hamilton get such an excellent after a while to use Cuticura Soap for place. The new cook will have charge of all the cooking in the White House and will direct the serving of the big dinners there during the winter. Amelia Howard had the place, but she became ill and resigned. Martha Peterson, another recent White House cook resigned to be married to James from Cuticura Ointment, I thought it Mulvey, one of the policemen in the deserved a fair trial with a severe executive offices.

### Salmon Salad.

One pint of cooked salmon, one silver forks, add to it the salt, pepper, Doesn't it make you want to start vinegar and lemon juice; put in the Break the lettuce leaves apart and throw them into a pan of cold water. rinse; lay them in a salad bowl, the largest leaves first; put the next size upon them; then last the small white ones; on top heap the salmon; lightly cover with the capers.

### Baking Powder Bread.

Each family has its own especial favorite in breads, and this is one which has found favor in a neighborhood in the southwest. Four cups of flour, four teaspoons baking powder; one-half teaspoon salt, two tablespoons sugar, a little over a pint of sweet milk or enough to make the mixture a little thicker than biscuit dough. Mix, then smooth the loaf and bake in a moderate oven until well done as any bread and brown on

### Turkey Scramble.

One-half pound of the meat left after slicing; fry crisp; pour over this five well-beaten eggs to which has ben added one-half cup milk (scant) and one pinch of salt; scramble this in a hot skillet until firm. Serve of browned crackers.

# TRY THESE ON COOK DO YOU GET UP WITH A LAME BACK?

Have You Rheumatism, Kidney, Liver or **Bladder Trouble?** 

Pain or dull ache in the back is evidence of kidney trouble. It is Nature's timely warning to show you that the track of health is not clear.

Danger Signals.

If these danger signals are unheeded more serious results follow; Bright's disease, which is the worst form of kidney trouble, may steal upon you.

The mild and immediate effect of Swamp-Root the great kidney, liver and bladder remedy is soon realized. It stands the highest for its remarkable curative effect in the most distressing cases. If you need a medicine, you should have the best. Lame Back.

The professor had just sneezed for the thirtieth time, and it naturally attracted some attention.

"What's the matter with the professor?" asked the visitor. "He appears to have a bad cold."

"Oh, no," said Madame la Professoress. "It is only his fearful absentmindedness. I left him in charge of the baby for a few moments this morning, and when he cried he gave him the pepper-pot to play with in-stead of his rattle."—Harper's Week-

# STUBBORN ECZEMA ON HANDS

"Some nine years ago I noticed small pimples breaking out on the back of my hands. They became very irritating, and gradually became worse, so that I could not sleep at night. I consulted a physician who treated me a long time, but it got in water. I was treated at the hospital, and it was just the same. I was told that it was a very bad case of eczema. Well, I just kept on using everything that I could for nearly eight years until I was advised to try Cuticura Ointment. I did so, and I found after a few applications and by bandaging my hands well up that the burning sensations were disappearing, I could sleep well, and did not have any itching during the night. I began a wash for them, and I think by using the Soap and Ointment I was much benefited. I stuck to the Cuticura treatment, and thought if I could use other remedies for over seven years with no result, and after only having a few applications and finding ease and stubborn case. I used the Ointment and Soap for nearly six months, and I am glad to say that I have

hands as clear as anyone. "It is my wish that you publish this letter to all the world, and if anyone doubts it, let them write me and I will give them the name of my physician, also the hospital I was treated pepper, one cupful of French dress- at." (Signed) Miss Mary A. Bentley, ing. break up the salmon with two 93 University St., Montreal, Que., Sept. 14, 1910.

CANNING FACTORIES FOR SALE

Weak Heart Many people suffer from weak hearts. They may experience shortness of breath on exertion, pain over the heart, or dizzy feelings, oppressed breathing after meals or their eyes become blurred, their heart is not sufficiently strong to pump blood to the extremities, and they have cold hands and feet, or poor appetite because of weakened blood supply to the stomach. A heart tonic and alterative should be taken which has no bad after-effect. Such is Dr. Pierce's Golden Medical Discovery, which contains no dangerous narcotics nor alcohol.

The ingredients, as attested under oath, are Stone root (Collinsonia Canadensis), Bloodroot (Sangulnaria Canadensis), Golden Seal root (Hydrastis Canadensis), Queen's root (Stillingia Sylvatica), Black Cherrybark (Prunus Virginiana), Mandrake root (Podophyllum Pelitatum), with triple refined glycerine, prepared in a scientific laboratory in a way that no druggist could imitate.

This tonic contains no alcohol to shrink up the red blood corpuscles; but, on the other hand, it increases their number and they become round and healt It helps the human system in the constant manufacture of rich, red blood. helps the stomach to assimilate or take up the proper elements from the food, thereby helping digestion and curing dyspepsia, heart-burn and many uncomfortable symptoms, stops excessive tissue waste in convalescence from fevers; for the run-down, anæmic, thin-blooded people, the "Discovery" is refreshing and vitalizing. Stick to this safe and sane remedy, and refuse all "just as good" medicines offered by the druggist who is looking for a larger profit. Nothing but Dr. Pierce's Golden Medical Discovery will do you half as much good. By Courier's Regular Correspondent

# NOTES OF THE COLLEGE TOWN

By Courier's Regular Correspondent.

Rev. Walker, Episcopal minister from Mobile, preached Sunday af-ternoon in the Normal auditorium. This week ends the second term This week ends the second term of this session of Daphne Normal; the midyear examinations are now on. There will be five graduates this year: Isabelle Goldsby and William Randall, Daphne; Marion Hunt, Robertsdale; Eloise Nelson, Point Clear; and Wilbur Shriner, Park City

Mr. J. F. Riggs, ex-State Super-intendent of Iowa, together with his wife and two children was in

Many home-seekers from the North have been in Daphne looking over the farm lands being settled just east of town by a Pittsburg company. Many of these have purchased and it is said the work of clearing is being carried on rapidly preparatory to the company season.

on rapidly preparatory to the coming season.

The School Improvement Association will give a chicken pie supper in the Normal building Saturday evening in the interest of the school. The Washington and Lee Literary Societies have arranged a joint program for the occasion.

The revenue cutter Winona brotacrowd of pleasure seekers from Mobile last week, remaining a couple of days. One of the days being General Lee's birthday the sailors were ashore celebrating. A ball team off the ship played the Normal boys and was defeated 15 to 1.

The Lee Literary Society met on Saturday night, being in the form of a Robert E. Lee birthday celebration. At this meeting the semiannual election of officers was held. The officers are Hudson Tapia, president; Ruby White, Secretary, William Randall, treasurer; Marion Hunt, critic; Lorena Hodgson, chorister; Hazel Low, censor. With the exception of censor the above officers succeeded themselves.

After the excellently rendered program the society entertained the

After the excellently rendered After the excellently rendered program the society entertained the members of the Washington Society at a progressive needle party. It was that kind of an entertainment in which the members of the two Societies forget all existing rivalry and join heartly in making a pleasant time.

On Monday night Hudson Tapia, president of the Lee Society entertained the members of his society at his home showing his apprecia-tion for the recent honor of re-

# COUNCIL PROCEEDINGS.

Council meets on the second and fourth Mondays of every month. The public is invited.

January 9, 1911.
Present, Messrs. Coleman, Nichols and Sweet. The Mayor was instructed to send the Eureka Fire Hose Mfg. Co., New York, three promissory notes for \$65 each, payable in one, two, and three years from Oct. 25, 1911, in payment for 300 feet of 2 inch hose received, notes bear interest at the rate of 6 per cent per annum. The following bills were ordered paid.

Southern Hardw. & Supply Co. 48 sheets iron roofing Southern Roofing and Steel Wks. material and labor

Salary town clerk for Dec. 8,33 Sherman Sta. Co. blank book for assessments

W. B. Delchamps, bound tax receipt blanks C. J. Littlegreen, collecting road taxes and labor

3.80 Dan'l Shepherd, labor on school

Alfred Shepherd, same

Geo. Wilson, hauling roofing paper .25

M. V. Mathews was present and offered to move his fence back to new line of Morphy Ave. for \$4.00, the amount of his road tax. Accepted. Mr. Stimpson asked to have his bill for \$5 for shingles set off against his taxes. The Mayor informed him that he must first pay the costs in suit which he lost before his honor. The clerk was instructed to furnish reports of

council proceedings to the Fairhope papers. The clerk was instructed to write to Mrs. Anna B. Hail, asking her to move fence on Morphy Ave. back to street line. Adjourned. A. J. WOLF. Town Clerk.

January 23, 1911 Present Messrs. Berglin, Coleman Nichols, and Mershon. The follow-ing bills were ordered to be paid: E. D. Brann, services as clerk of election

Southern Roofing and Steel Wks, mat. for school house 21,60 Mr. and Mrs. Hans Schmidt are moving to Fairhope this week and will probably locate permanenty.

Wks, mat. for school house 21.00 Wk Mr. and Mrs. Hans Schmidt are moving to Fairhope this week and will probably locate permanenty.

Mr. Bergl'n and fani y of Fairhope spent Sunday with Mrs. Leiser.

The North River Park Farmers Assn., at their regular meeting held Saturday night ordered their fertilizer for the year through Mr. Streeter business agent of the Farmers' Union.

Mr. Jung has finished fencing, and clearing and breaking ten acres of land for Mr. Murray and is now setting this land out to Satsuma oranges and an extensive variety of fruit, nut and ornamental trees. Edwin Butgereit returned to the school this week for the first time since his sickness in December.

Rev. E. A. Wendland preached an interesting sermon at the Schoolhouse.

Wr. S. Mat. To School folded with School and the Wr. S. Mat. To H. On Ioan 11.01

The clerk was instructed to write the following letters: to Probate Judge Smith inquiring about the town's share in county road tax and what steps were necessary to collect it. To Mrs. Anna B. Hail that the town would pay for labor of moving fence, she to supply all materials needed. To H. F. Ring, Pres't of Fairhope Imp. Co. asking payment of taxes amounting to \$32.50. To parties owning or leasing land on Morphy Ave, directing them to move fences back to street line. A letter was read from Mrs. Hattie Robac demanding damages for injury alleged to have been sustained by falling into an old well at the corner of Fairhope Ave, and Church St. The clerk was instructed to write Mrs. Robad stating that the town was not responsible. Adjourned.

A. J. WOLF. Town Clerk sible. Adjourned. A. J. WOLF, Town Clerk

# TAX QUESTION NOW GOES TO INITIATIVE.

Portland, Oregon
The biggest question that the Oregon voters have had to deal with by their direct vote since the adoption of the initiative, will be an issue in each county in this state commencing with next Monday.

The question of exemptions and taxation is to go to the voters of each county of the state separateeach county of the state separate-ly by initiative petition a ths ear-ly date, and after an educational campaign will be disposed of at the general election in 1912.

The initiative is to be brought into use now on the tax question to satisfy the united demand of farmers, business men, manufacturers and wage earners.

The movement has already taken

The question will be presented at the eighth annual convention of the Oregon Federation of Labor which convenes in Salem next Monday.

its purpose the securing of the cooperation of the Labor Unions of the state with the farmers and business men in presenting a county tax law to be put on the local ballot of each county.

Th's movement is made possible by the labor tax amendment adopted by the voters of Oregon at the local ballot of the cooperation of the Labor Unions of the state with the farmers and business men in presenting a county tax law to be put on the local ballot of each county.

franchise values, water power, the values in land ownership and monopoly created by our ever growing population will be taxed.

It is pointed out by the many advocates of the proposed measure that the farmer, labor and legiti-mate business will greatly profit by the law, as it will remove unnatural barriers which now serve as a means of creating a large, idle, speculative class of men who live not by useful labor, but entirely off of the products of labor.

The lot and land speculator, the franchise holder, the water power monopolist are cited as examples. Take the first mentioned, the lot and land speculator, he comes into the community, gets hold of lots or land and sits idly by for years, during which time thousands of industrious people have moved into the community and are demanding the lots and land and thus the speculator is able to collect thousands and even millions of dollars worth of labor products without doing a tap of legitimate work. During all this time the farmer the merchant and the industrious home builder are building up the community and are Take the first mentioned, the lot

building up the community and are taxed each year higher and high-er for thus being industrious citi-zens and doing society's necessary

work.

# TO FAIRHOPE.

The Department of Superintenda.55 a.50 convention in Mobile February 23rd to 25th, just after Mardi Gras.

This will bring to Mobile prominent educators from all over the United States and will be one of the most important gatherings of the year in the Gulf City.

# FAIRHOPE SINGLE TAX COLONY

Fairhope, to outward appearance, is like other towns, save for evidences of exceptional prosperity usually noted by the casual observer; but it is unique among the towns of this or any land.

It is a town "with a purpose." That purpose is to make a practical application of the teachings of Henry George upon the land question—as fully as possible under

existing laws. Henry George re-asserted the proposition that "all men are equally entitled to the use of the earth," and proposed to secure that right to all by requiring those who desire the exclusive use of any portion of the earth, to pay, for the benefit of all, the value which the common estimation attached to such portion. He proposed to take this as a tax for public purposes, in lieu of all other taxes—hence the name "Single Tax."

Those who founded Fairhope advocated, and still advocate, this as a reform in taxation; but they realize that its essential feature is the taking of land values for public use, and that the right to collect land values attaches to LAND OWNERSHIP under our present laws. So they hit upon the clever plan of securing by purchase, the right to collect land values, not as a tax but as rent, and administering these values not for their heapft as ownerse. ministering these values not for their benefit as OWNERS in the usual way, but for the benefit of ALL who might by locating upon such lands contribute to their value.

Under this plan the title to the land is neld by the Fairhope Single Tax Corporation, a corporation chartered under an Alabama statute, having a perpetual existence, and conducted by its members under its constitution and

Lands are leased to individuals in quantities to suit, on ainety-nine year leases, subject to an annually appraised rental, collected and disbursed for the public benefit.

To make this really a "Single Tax," and to free its lessees from the blighting injustice of taxes upon improvements and personal properties.

ments and personal property, the Corporation pays out of the rent not only the taxes upon the land, but upon the improvements and personal property of lessees.

All the rent fund remaining is expended locally for the public benefit a roads, schools, library, telephones, parks, bath-houses, etc., etc.

Absolutely no portion of this rent goes as interest, dividends, or profits, to the founders or members of the Colony, or any other persons.

The constitution forbids the granting of franchises to individuals or corporations for performing any public service, but requires that the Corporation shall, as fast as may be, provide the same and operate them in the common interest.

The Corporation thus owned and operated the wharf, at which land the steamers, by means of which communication is maintained with the outside world, and which yield ed annually a very substantial addition to the public reven ue, until that wharf was practically destroyed by the great storm of September 27, 1906. It has been rebuilt by acompany of citizens under contract by which they will manage it until the obligations incurred by them in the re-building are satisfied, when it will be turned back to the

It owns a water-works system, (the only one in Baldwin county) with steam pumping plant and mains supplying the principal part of the town with water for domestic use and fire protection; and a local telephone system, with long distance connection.

The Fairhope policy eliminates the land speculator entirely; and for those who WANE LAND FOR USE, whether for residence, business, manufacturing or farming, it is easily shown to be far better and cheaper than awning.

Fairhope is delightfully located on the shore of Mobile bay, has excellent hotels, restaurants, stores schools ice-plant and creamery, blacksmith and butcher shops doctors, churches, fine bathing and fishing, and exception ally intelligent and sociable people.

Beautiful lots in the town and farm lands adjacent to it are open to settle s without purchase price, to the colony's favorable terms.
