TELEPHONE DIRECTORY

BAY MINETTE, ALA.—FAIRHOPE, ALA.

SEE PAGES 1 TO 4 FOR INDEX, TELEPHONE SERVICE CALLS,
EMERGENCY CALLS AND OTHER IMPORTANT INFORMATION

IMPORTANT! CHANGED NUMBERS

After this directory was printed it was found necessary to assign numbers different from those listed for the subscribers below. Please use these numbers instead of numbers listed in this directory.

BAY MINETTE

Davidson's Groc., Railroad.....	5262
Shiver, S. T., r, Hwy. 31.....	5197

FAIRHOPE

Hershberger, D. R., r, 108 Fels Av.....	8221
Hooker, Elise Miss, r, 157 Magnolia Av.....	8397
Hunter, Gavin, Jr., r, 415 Liberty.....	8261
Joyner, J. E. Mrs., r, 306 Equity.....	8293
Ward, C. M., r, Section.....	8367

OUT-OF-TOWN TELEPHONE RATES

Rates to points not listed below and information concerning initial period and overtime rates may be obtained by calling Long Distance. Night and Sunday rates apply from 6 P. M. to 4:30 A. M. and all day Sunday.

Rates quoted below do not

include Federal Tax.

On calls under 25 cents, the Federal Tax is 15% of the total charges; on calls of 25 cents or over, the tax is 25% of the total charges.

On calls from Coin Box Telephones, the tax is computed to the nearest multiple of 5 cents.

Southern Bell Telephone and Telegraph Company

Business Transactions With the Company

Our aim is to render a service that will be satisfactory to our customers, though difficulties will sometimes occur despite all of our efforts to avoid them. On page one information is shown regarding placing long distance calls, securing numbers not listed in the directory, reporting telephones out of order and making emergency calls. Other matters, including business transactions, should be taken up with the business office either by telephone, personal visit or letter.

BUSINESS OFFICES . . .

366 Delmar St., Fairhope, Ala.
2nd St., Bay Minette, Ala.

Telephones: Bay Minette 3931; Fairhope 8200. Business Hours 8:30 A. M. to 5:00 P. M.—Mondays, Tuesdays, Wednesdays and Fridays. 8:30 A. M. to 12:15 P. M. Thursdays and Saturdays.

C. P. MALONE, *District Manager*
Mobile, Alabama.

Service Applications, Changes and Discontinuances

Applications for new service, changes, additions and discontinuance of service should be handled with our business office. A telephone call will enable you, in almost every case, to transact business promptly and satisfactorily.

Telephone Calls to the Business Office

Dial Bay Minette-3931 and Fairhope-8200 and the representative who answers will gladly handle your business transactions.

Bills and Payments

Bills are rendered on the 6th of each month for local service charges in advance for a one month period from date of bill and long distance service for a month period preceding the date of the bill. Bills may be paid by mail or in person at our business offices shown above.

How to Place Out-of-Town Calls

There are two general classes of Out-of-Town Calls, namely Station-to-Station and Person-to-Person, as explained below.

Station-to-Station Calls

(From One Telephone to Another)

A station-to-station call is one when you ask to be connected with a certain telephone in a distant place. However, if you ask for a particular person or for an extension telephone reached through a private branch exchange, as one in some department or hotel room, the call is a person-to-person call. A station-to-station call is completed more quickly and the rate is less than for a person-to-person call.

The time at the originating point when the conversation starts determines whether the day or night rate applies. Charges begin when the called telephone is answered provided the calling party is holding the line.

To Place a Station-to-Station Call

First—Give the operator the name of the place you are calling.

Second—The telephone number you are calling (if known), otherwise, the name and the address (if known) of the party whose telephone you are calling. For example: J. W. Brown's Residence—425 Main Street.

Third—Your telephone number when the operator asks for it.

Person-to-Person Calls

(From One Person to Another)

A person-to-person call is one when you ask for a particular person or extension telephone reached through a private branch exchange, as one in some department or hotel room. The rate for a person-to-person call is higher than the rate for a station-to-station call.

The time at the originating point when the conversation starts determines whether the day or night rate applies. The initial period is three minutes, after which charges for additional time apply. Charges begin when the called person or extension telephone reached through a private branch exchange is obtained, provided the calling party is holding the line. Charges may be reversed without any change in rate.

To Place a Person-to-Person Call

First—Give the operator the name of the place you are calling.

Second—The name and telephone number (if known) of the person you are calling, otherwise, the name and the address (if known) of the called party. For example: Mr. J. W. Brown, at telephone 2470, or Mr. J. W. Brown, at J. W. Brown's residence—425 Main Street.

Third—Your telephone number when the operator asks for it.

Charges for Initial Period, Overtime and Federal Taxes

Further information concerning charges for initial period, overtime, and Federal taxes may be obtained by calling Long Distance.

Collect Calls

If the charges on the call are to be paid at the distant telephone, you should tell the operator when filing the call that it is a "collect" call. The charges, if accepted at the distant telephone, will be billed to that telephone.

General Information

Tariffs

Tariffs which show rates, rules and regulations for telephone service and facilities are on file with the Regulatory Commissions having jurisdiction over such matters, and are available for public inspection at our business office.

Transmitting Messages

Employees of the Telephone Company are forbidden to accept oral or written messages to be transmitted by an employee over the lines of the Telephone Company.

Attachments to Telephones

To render satisfactory service, it is important that the Telephone Company furnish and maintain all apparatus and equipment connected with its lines. Except as provided in the Tariffs, no line, instrument, appliance or apparatus not furnished by the Telephone Company shall be connected with, attached to or in any way used in connection with facilities of the Telephone Company.

Recording of Telephone Conversations

A short "beep" tone heard over the telephone about every 15 seconds indicates that the person with whom you are talking is recording your conversation by means of his electrical recording machine connected to the line. The "beep" signal is produced automatically by a device which connects the recorder to the telephone line and which is provided by the Telephone Company for your protection.

Use of a recorder without this signal is unlawful. If you do not want a record made of what you are saying, ask the person with whom you are talking to disconnect his recording machine. When he disconnects his recorder, the signal is no longer heard.

Advertising Telephone Numbers

The advantages of showing telephone numbers on stationery, signs, cards, etc., are recognized, though the growth and changes in the city and the corresponding growth and arrangement of Telephone facilities may require the changing of telephone numbers. For this reason, stationery, signs, cards, etc., showing telephone numbers should not be printed in large quantities.

Telegrams by Telephone

You may telephone telegrams, cablegrams or radiograms to the Western Union Telegraph Co., and have the charges billed to your telephone account if you are a telephone subscriber. Just follow the instructions shown under the listing of this company in the directory.

Architects' and Builders' Service

When building or remodeling, you may arrange with your architect or builder to provide telephone outlets while construction is in progress. The Telephone Company will gladly advise with you, your architect or builder. Just call the Telephone Company and ask for "Architects' and Builders' Service."

Calls from a Party Line Where a Crank Is Used to Ring the Operator

Before ringing the Operator, remove the receiver and listen to make sure the line is not in use. To get the Operator, replace the receiver and turn the crank. When through talking, promptly hang up the receiver and turn the crank again so the Operator will clear your line for further use.

Telephone Directories

Loss of time and inconvenience by calling wrong numbers can be avoided if you consult the current directory before placing a call and avoid the use of obsolete directories.

Between directory issues certain numbers do not appear in the current directory due to changes and new installations. These numbers may be secured by calling "Information."

No binder, holder or auxiliary cover, except those furnished by the Company, shall be used in connection with any telephone directory.

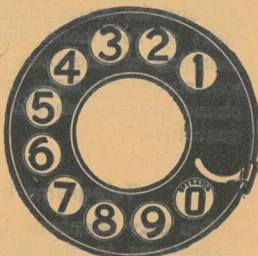

Telephone directories of other cities in this and certain foreign countries can be obtained for our customers who need them. Prices, etc., may be secured by calling the business office.

How to Use the Dial Telephone In Bay Minette and Fairhope

Remove the receiver carefully from the hook and listen for the dial tone which is a steady humming sound indicating that the line is ready for you to dial.

How to Dial a Number

When you hear the dial tone, dial each figure in the telephone number you wish to call as follows — Place your finger in the opening over the first figure of the number, turn the dial around until your finger strikes

the finger stop, then remove your finger and, without touching the dial, allow it to return to its normal position. Proceed in the same way to dial the other figures in the number.

If your finger slips, or you make a mistake, hang up the receiver, wait a few seconds for the dial tone and dial again.

Before dialing a second call, always hang up the receiver for a few seconds to clear the line.

Ringling and Busy Signals

A few seconds after you have completed dialing, you should hear either the ringing signal, an intermittent burr-rr-ing sound, indicating that the bell of the called telephone is ringing, or you should hear the busy signal, a rapid buzz-buzz-buzz, indicating that the called line is busy.

If the called telephone is busy, you should hang up your receiver and try the call again later.

If you do not hear either the ringing signal or the busy signal within half a minute, hang up your receiver for a few seconds and then try the call again.

Dial "Operator" for Assistance

If at any time you wish further information regarding the procedure to follow in making calls of any kind, dial "Operator" and ask her for the information desired.

If you fail to hear the ringing signal or busy signal after repeated attempts to reach a number, or if you have any other difficulty in completing a call, dial "Operator" and report the condition to her.

Coin Box Telephones

Instructions for operating coin box telephones are mounted on each coin box station.

Calls from a Party Line or from a Line With an Extension Telephone

Listen to make sure that the line is not in use. If you do not hear the dial tone, ask if the line is being used. If no response is received, hang up the receiver and then try again.

However, if you hear successive clicks, indicating that someone is dialing, wait until the dialing stops and then say that you have interfered with the call, that it will be necessary to hang up and dial the complete number again. Then replace your receiver on the hook.

If you hear another party on your line during or after dialing, say that the line is in use and request him to hang up his receiver. If the other party comes in on the line while you are dialing, after he hangs up, you should also hang up for a few seconds and then dial the complete number again.

To Dial Another Party on Your Line

If you are a party line subscriber and wish to dial another party on your line, it will be necessary to dial a special code number, as explained later, instead of the regular telephone number of the subscriber as listed in the directory.

After you have finished dialing the code number, hang up your receiver. Your bell, as well as the bell of the party you are calling, will ring at brief intervals. When the dialed party answers, your bell will stop ringing. You should then lift your receiver and talk to the party answering.

If your bell does not stop ringing in from one to two minutes it indicates that there is no one within hearing distance to answer the dialed telephone. You should then stop your bell from ringing and free the line from the connection by removing your receiver from the hook for a few seconds.

To dial another party on your line, proceed as outlined below:

BAY MINETTE SUBSCRIBERS—

If you are on a party line and wish to call another party on your line, the code number to be dialed is the figure "9" followed by the last figure in your telephone number and then the last figure in the number you are calling. For example, if your telephone number is 2214 and you are calling the party on your line whose number is 2213, you should dial the code "943". You may recognize other parties on your line by the similarity of the telephone numbers. The first three figures in the numbers of all parties on the same line are alike.

FAIRHOPE SUBSCRIBERS—

- Two-Party Subscribers** — To call the other party on your line dial the code "912"; if you wish to know the name of the other party you may obtain this information from the operator.
- Four-Party and Rural Subscribers** — To call another party on your line, the code to be dialed is the figure "9" followed by the last figure in your telephone number and then the last figure in the number you are calling. For example, if your telephone number is 2214 and you are calling the party on your line whose number is 2213, you should dial the code "943". You may recognize other parties on your line by the similarity of the telephone numbers. The first three figures in the numbers of all parties on the same line are alike.

DON'T MISS IMPORTANT CALLS

You can never tell
when someone will call
with an important
message. If your tele-
phone receiver has
been forgetfully left
off the hook, you'll
miss that call, because
the bell can't ring and
the caller will find the
line "busy."

When you want to find a firm whose advertising of a certain commodity or service has impressed you and you have forgotten its name, look in the Classified Telephone Directory—It will help you.

Give A Fellow TIME to ANSWER

A telephone ring is exciting! You never know what's waiting at the other end. That's why it's important to *answer calls promptly*. It's also important when you're doing the calling, to *allow time* for your party to reach the telephone. It's two-way telephone consideration that means better service all around.

Allow Time for Your Party to Answer

Every Day a Bigger Value...

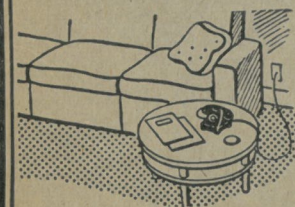

TODAY YOU CAN CALL MORE PEOPLE THAN EVER BEFORE, AND MORE PEOPLE CAN CALL YOU. AS TELEPHONE SERVICE GROWS, SO GROWS ITS USEFULNESS AND VALUE.

(TC-156)

Numbers Frequently Called

You will find it convenient to list below, Numbers Frequently Called, New, Changed
and Out-of-Town Numbers

Please verify all numbers before listing them

Building or Remodeling?

PLAN FOR CONCEALED TELEPHONE WIRING . . .

Telephone Outlets in every room where telephone service may later be desired add a world of convenience and extra value to a home.

It costs very little during construction to include conduit for future telephone service. This will avoid drilling and exposed wires.

For further information call the Telephone Company and ask for
"Architects' and Builders' Service"
