SOUTHERN BELL TELEPHONE AND TELEGRAPH COMPANY

YOU SAVE TIME ON LONG DISTANCE CALLS

When You CALL BY NUMBER

Ask for Booklet for Recording Out-of-Town Numbers

When you give the Long Distance operator the out-of-town number, she doesn't have to consult "Information" in the distant city and your call goes through faster.

To help you call by number we offer:

TO ALL TELEPHONE USERS—A handy, pocket-size booklet for recording numbers you call frequently.

TO EXTENSIVE USERS OF LONG DISTANCE—A special Long Distance directory listing the names and telephone numbers of out-of-town people or firms you call frequently.

Just call or write the Business Office.

Save Time On Local Calls—Refer to the Directory

Calling from memory often results in wrong numbers. To save time and avoid inconvenience to you and the person called in error, be sure you have the right number. Please call "Information" only for numbers not listed in the directory or your personal list of numbers called frequently. If you call "Information" without first looking up the number, chances are you'll be making two calls when one would do. When a new directory is issued, please correct your list of frequently called numbers.

Long Distance rates and information concerning initial period and overtime rates may be obtained by calling Long Distance. Night and Sunday rates apply from 6 P. M. to 4:30 A. M. and all day Sunday.

Southern Bell Telephone and Telegraph Company

Business Transactions With the Company

Our aim is to render a service that will be satisfactory to our customers, though difficulties will sometimes occur despite all of our efforts to avoid them. On page one information is shown regarding placing long distance calls, securing numbers not listed in the directory, reporting telephones out of order and making emergency calls. Other matters, including business transactions, should be taken up with the business office either by telephone, personal visit or letter.

BUSINESS OFFICE . . .

366 Delmar St., Fairhope, Ala.

Telephone: Fairhope—8200. Business Hours 8:30 A. M. to 5:00 P. M.—Mondays through Fridays. Closed on Saturdays.

W. F. YANDELL, *District Manager*
Mobile, Alabama.

Service Applications, Changes and Discontinuances

Applications for new service, changes, additions and discontinuance of service should be handled with our business office. A telephone call will enable you, in almost every case, to transact business promptly and satisfactorily.

Telephone Calls to the Business Office

Call Fairhope-8200 and the representative who answers will gladly handle your business transactions.

Bills and Payments

Bills are rendered on the 6th of each month for local service charges in advance for a one month period from date of bill and long distance service for a month period preceding the date of the bill. Bills may be paid by mail or in person at our business office shown above.

Long Distance Calls

Rates and information concerning initial period, overtime and Federal taxes on long distance calls may be obtained by calling "Long Distance". Night and Sunday rates apply from 6 P. M. to 4:30 A. M. and all day Sunday.

Overseas Telephone Service

Information on the availability of telephone service to overseas points and rates applicable thereto may be obtained by calling "Long Distance".

Reduced rates apply on calls to many countries during night hours and on Sunday.

How to Place Out-of-Town Calls

There are two general classes of Out-of-Town Calls, Station-to-Station and Person-to-Person, explained below.

Station-to-Station Calls

(From One Telephone to Another)

A station-to-station call is one where you ask to be connected with a certain telephone in a distant place. However, if you ask for a particular person or for an extension telephone reached through a private branch exchange, as in a particular department or hotel room, the call is a person-to-person call. A station-to-station call usually is completed more quickly and the rate is less than for a person-to-person call.

The time at the originating point when the conversation starts determines whether the day or night rate applies. Charges begin when the called telephone is answered, provided the calling party is holding the line.

To Place a Station-to-Station Call

First—Give the operator the name of the place you are calling.

Second—Give the telephone number you are calling (if known), otherwise, the name and the address (if known) of the party whose telephone you are calling. For example: J. W. Brown's Residence—425 Main Street.

Third—Give your telephone number when the operator asks for it.

Person-to-Person Calls

(From One Person to Another)

A person-to-person call is one where you ask for a particular person or extension telephone reached through a private branch exchange, as one in some department or hotel room. The rate for a person-to-person call is higher than the rate for a station-to-station call.

The time at the originating point when the conversation starts determines whether the day or night rate applies. The initial period is three minutes, after which charges for additional time apply. Charges begin when the called person or extension telephone reached through a private branch exchange is obtained, provided the calling party is holding the line. Charges may be reversed without any change in rate.

To Place a Person-to-Person Call

First—Give the operator the name of the place you are calling.

Second—Give the name and telephone number (if known) of the person you are calling, otherwise, the name and the address (if known) of the called party. For example: Mr. J. W. Brown, at telephone 2470, or Mr. J. W. Brown, at J. W. Brown's residence—425 Main Street.

Third—Give your telephone number when the operator asks for it.

Collect Calls

If the charges on the call are to be paid at the distant telephone, you should tell the operator when filing the call that it is a "collect" call. The charges, if accepted at the distant telephone, will be billed to that telephone.

General Information

Tariffs

Tariffs which show rates, rules and regulations for telephone service and facilities are on file with the Regulatory Commissions having jurisdiction over such matters, and are available for public inspection at our business office.

Transmitting Messages

Employees of the Telephone Company are forbidden to accept oral or written messages to be transmitted by an employee over the lines of the Telephone Company.

Attachments to Telephones

To render satisfactory service, it is important that the Telephone Company furnish and maintain all apparatus and equipment connected with its lines. Except as provided in the Tariffs, no line, instrument, appliance or apparatus not furnished by the Telephone Company shall be connected with, attached to or in any way used in connection with facilities of the Telephone Company.

Recording of Telephone Conversations

A short "beep" tone heard over the telephone about every 15 seconds indicates that the person with whom you are talking is recording your conversation by means of his electrical recording machine connected to the line. The "beep" signal is produced automatically by a device which connects the recorder to the telephone line and which is provided by the Telephone Company for your protection.

Use of a recorder without this signal is unlawful. If you do not want a record made of what you are saying, ask the person with whom you are talking to disconnect his recording machine. When he disconnects his recorder, the signal is no longer heard.

Advertising Telephone Numbers

The advantages of showing telephone numbers on stationery, signs, cards, etc., are recognized, though the growth and changes in the city and the corresponding growth and arrangement of telephone facilities may require the changing of telephone numbers. For this reason, stationery, signs, cards, etc., showing telephone numbers should not be printed in large quantities.

Telegrams by Telephone

You may telephone telegrams, cablegrams or radiograms to the Western Union Telegraph Co., and have the charges billed to your telephone account if you are a telephone subscriber.

Architects' and Builders' Service

When building or remodeling, you may arrange with your architect or builder to provide telephone outlets while construction is in progress. The Telephone Company will gladly advise with you, your architect or builder. Just call the Telephone Company and ask for "Architects' and Builders' Service."

Telephone Directories

Loss of time and inconvenience by calling wrong numbers can be avoided if you consult the current directory before placing a call and avoid the use of obsolete directories.

Between directory issues certain numbers do not appear in the current directory due to changes and new installations. These numbers may be secured by calling "Information."

The use, in connection with telephone directories, of any auxiliary covers, tabs, stickers, inserts or other matter, except such as are provided by, or with the consent of, the Telephone Company is prohibited.

Telephone directories of other cities in this and certain foreign countries can be obtained for our customers who need them. Prices, etc., may be secured by calling the business office.

How to Use the Dial Telephone In Bay Minette and Fairhope

The Dial

The dial has ten openings and ten figures, 1, 2, 3, 4, 5, 6, 7, 8, 9 and 0. One figure is associated with each dial opening. Some of the openings may also have letters on the dial. The letters will always be found in groups of three, for example, the letters "ABC" are found associated with the second opening and "DEF" with the third opening, etc. You will not have occasion to use the letters at this time, however, it is most important not to confuse the letter "O" and the figure "Zero". The letter "O" is found with the three letters "MNO", while the figure "Zero" is associated with the last dial opening and the word "Operator".

Wait For Dial Tone

Remove the receiver from the hook and listen for the dial tone which is a steady humming sound indicating that the line is ready for you to dial. If you do not hear the dial tone within a reasonable length of time, hang up, wait a few seconds and try again.

How to Dial a Number

When you hear the dial tone, dial each figure in the telephone number you wish to call as follows—Place your finger in the opening associated with the first figure of the number, turn the dial around until your finger strikes the finger stop, then remove your finger and, without touching the dial, allow it to return to its normal position. Proceed in the same way to dial the other figures in the number. If your finger slips, or you make a mistake, hang up the receiver, wait a few seconds for the dial tone and dial again.

Before dialing a second call, always hang up the receiver for a few seconds to clear the previous connection.

Ringing and Busy Signals

A few seconds after you have completed dialing, you should hear either the ringing signal, an intermittent burr-rr-ing sound, indicating that the bell of the called telephone is ringing, or you should hear the busy signal, a rapid, buzz-buzz-buzz, indicating that the called line is busy.

If the called telephone is busy, you should hang up your receiver and try the call again later.

If you do not hear either the ringing signal or the busy signal within half a minute, hang up your receiver for a few seconds and then try the call again.

Dial "Operator" for Assistance

If at any time you wish further information regarding the procedure to follow in making calls of any kind, dial "Operator" and ask her for the information desired.

If you fail to hear the ringing signal or busy signal after repeated attempts to reach a number, or if you have any other difficulty in completing a call, dial "Operator" and report the condition to her.

Coin Box Telephones

Instructions for operating coin box telephones are mounted on each coin box station.

Calls from a Party Line or from a Line With an Extension Telephone

Listen to make sure that the line is not in use. If you do not hear the dial tone, ask if the line is being used. If no response is received, hang up the receiver and then try again.

(Continued next page)

However, if you hear successive clicks, indicating that someone is dialing, wait until the dialing stops and then say that you have interfered with the call, that it will be necessary to hang up and dial the complete number again. Then replace your receiver on the hook.

If you hear another party on your line during or after dialing, say that the line is in use and request him to hang up his receiver. If the other party comes in on the line while you are dialing, after he hangs up, you should also hang up for a few seconds and then dial the complete number again.

To Dial Another Party on Your Line

GENERAL INSTRUCTIONS:

If you are a party line subscriber and wish to call another party on your line, it will be necessary to follow the instructions given below.

After you have finished dialing the code number as shown below, hang up your receiver. Your bell, as well as the bell of the party you are calling, will ring at brief intervals. In some cases your bell will ring with the called party's code on certain calls and with a very short ring, recurring at brief intervals, on other calls. This ring will also be sounded at other telephones on your line and four-party or rural subscribers whose call code is one long ring should not answer their telephones when the short recurring ring is heard since the short ring is only to let the calling party know that the number dialed is being rung.

If your bell does not stop ringing in from one to two minutes, it indicates that there is no one within hearing distance to answer the called telephone. You should then stop your bell from ringing and free your line from the connection by removing your receiver from the hook for a few seconds.

BAY MINETTE SUBSCRIBERS

Two-Party Subscribers—To call the other party on your line, dial the code "812" and proceed as described above under "General Instructions."

Four-Party or Rural Subscribers—To call another party on your line, the code to be dialed is the figure "8" followed by the last figure in your telephone number and then the last figure in the number you are calling. For example, if your telephone number is "2214" and you are calling the party whose number is "2213," you should dial "843" and proceed as described above under "General Instructions."

You may recognize other parties on your line by the similarity of the telephone numbers, since the first three figures in the numbers of all parties on the same line are alike.

FAIRHOPE SUBSCRIBERS

Two-Party Subscribers—To call the other party on your line, dial the code "8912" and proceed as described above under "General Instructions."

Four-Party Subscribers—You may obtain the code for calling another party on your line by dialing "Operator" and asking for "Repair Service". Give her your telephone number and also the number of the party you wish to call. You will be given the proper code number to dial. You should then dial this code using the method above under "General Instructions". If you wish to know the names of the other parties on your line, you may obtain this information by dialing "Operator", and asking for "Repair Service".

Rural Subscribers—The code to use when calling another party on your line are the figures "89" followed by the last figure in your telephone number and then the last figure in the number you are calling. Example, if your telephone number is "2214" and you are calling the party whose number is "2213", you should dial "8943" and proceed as described above under "General Instructions". You may recognize other parties on your line by the similarity of the telephone numbers, since the first three figures in the numbers of all parties on the same line are alike.

shop the easy way...

in the 'YELLOW PAGES'

THEY ARE HELPING OTHERS TO
SOLVE BUYING PROBLEMS . . .

THEY WILL HELP YOU . . WHEN YOU WANT . .

- to find the nearest dealer
- to find a business or professional name or address
- to obtain a list of dealers
- to find a well-known brand of products or authorized service
- to get prices or estimates
- to find a particular article or service in an emergency or in a hurry
- to find an infrequently used product or service
- to find a business telephone number more easily
- to get information about—products and services—business hours—deliveries—credit terms—special services, etc.

THE 'YELLOW PAGES' TELL WHO BUYS, SELLS, RENTS AND REPAIRS

CLASSIFIED TELEPHONE DIRECTORY

BAY MINETTE-FAIRHOPE, ALA.

The Classified Telephone Directory is published for the benefit and convenience of our subscribers. Each business subscriber is listed under one general classification without cost. The Telephone Company

assumes no responsibility or liability for errors or omissions occurring in the Classified Telephone Directory. Errors or omissions will be corrected if reported by letter to the Company.

Corrected through APRIL 17, 1952

When you read an advertise-
ment do you know where to buy
the product or service advertised?
Look in these Classified (Yellow)
Pages. Many nationally advertised
products and services are listed
here, together with a list of the
local stores. Find where to buy
with the help of the classified tele-
phone directory.

STATE FARM INSURANCE

All types of automobile insurance,
 including the famous 80-20 colli-
 sion pioneered by State Farm Mu-
 tual. All at low cost because State
 Farm aims to insure only careful,
 selected drivers — who have fewer
 accidents! Also residence liability, life and fire insurance.
