Dr. Cornelius A. Gaston
Fairhope, Alabama

Dear Dr. Gaston:

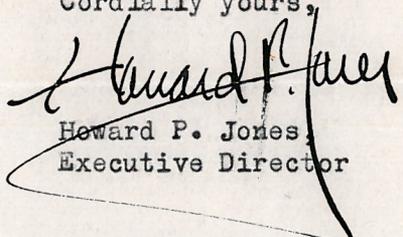

At the request of Mr. Edwin Bluthardt of Winnetka, Illinois, we sent you last week a copy of our Model City Charter.

The Model City Charter, which has been widely used during the past thirty years as the basis for the preparation of specific charters, has been revised at intervals and now is in the process of revision in order to take advantage of the depression experience of American cities. The revised edition should be available in about two months.

I am enclosing a list of our current publications in which you may find other material which will be of interest to you.

Is there a movement in Fairhope for governmental improvement? If so, we may be able to be of some assistance. For many years we have been privileged to work with local organizations in efforts of this kind.

Cordially yours,

Howard P. Jones
Executive Director

CONSULTANT SERVICE

A department established by the National Municipal League to aid municipalities and civic groups in solving financial and administrative problems of their local, county and state governments. The following reports are available:

Asbury Park, N. J.: Complete financial and administrative survey and refunding plan; 1935; \$2.00.

Atlanta, Ga.: Complete administrative and financial survey of the several departments and activities of the City of Atlanta and Fulton County (published by the Atlanta Chamber of Commerce); 1938; \$5.00.

Bar Harbor, Me.: Complete financial and administrative survey, with reorganization plan for Town of Bar Harbor; 1939; \$1.00.

Brookline, Mass.: Survey of park and recreation activities; 1937; (published by Brookline Taxpayers Ass'n.).

Coral Gables, Fla.: Financial and administrative survey of the city; 1934; obtainable from City Clerk of Coral Gables, free.

Cortlandt, N. Y.: Financial and administrative survey; 1934; \$1.00.

Dumont, N. J.: A brief financial survey; 1935; \$1.00.

Essex County, N. J.: A history of twenty years (1916-1936) of government in the county; 1937; \$2.00.

Greenburgh, N. Y.: A brief financial and administrative survey; 1934; \$1.00.

Harrison, N. Y.: A brief financial and administrative survey; 1934; \$1.00.

Kearny, N. J.: A brief financial and administrative survey; 1934; \$1.00.

Lyndhurst, N. J.: A brief financial and administrative survey with a plan of refunding; 1935; \$1.00.

Mt. Pleasant, N. Y.: A brief financial and administrative survey; 1934; \$1.00.

Mt. Vernon, N. Y.: A survey of the financial condition of the city, including the board of education; 1934; \$2.00.

Nassau County, N. Y.: A complete administrative and financial study of every county office and institution; 1934; \$1.00.

The Consultant Service later drafted the Nassau County Charter in effect since January 1, 1938.

New Bedford, Mass.: A charter study; 1938; published by the STANDARD-TIMES of New Bedford.

North Bergen, N. J.: A brief financial and administrative survey; 1934; \$2.00.

St. Petersburg, Fla.: Complete financial and administrative survey; 1936; \$3.00.

Savannah, Ga.: A brief financial and administrative survey and refunding plan; 1937; newspaper copy; 10c.

Teaneck, N. J.: A brief financial survey; 1935; \$1.00.

Winter Park, Fla.: A brief financial and administrative survey; 1934; \$1.00.

Yonkers, N. Y.: 1. A brief financial and administrative survey; 1933; \$2.00.

Yonkers, N. Y.: 2. A report on the city's financial condition; 1934; \$2.00.

PUBLICATIONS

NATIONAL MUNICIPAL LEAGUE

709 EAST 34TH STREET, NEW YORK, N. Y.
299 Broadway, New York

The National Municipal League was founded in 1894. It seeks more workable forms of democratic government in states, counties and cities, and furnishes technical strategy and fact-ammunition. It approves: (a) the "short ballot" so that the citizen can easily be master of his task without the aid of politicians; (b) unification of powers as in the city manager plan instead of loose-jointed ramshackle forms of government; (c) non-partisan local elections under conditions which assure results in conformance with popular will. Many of the difficulties of American democracy are mechanistic. They are capable of solution by mechanistic corrections instituted and upheld by an informed, active citizenry.

NATIONAL COLLEGE OF CHIROPRACTIC

20 NORTH ASHLAND BOULEVARD

CHICAGO

March 20, 1939

NEW TECHNIC BOOK A HIGHLY PROFITABLE INVESTMENT FOR CHIROPRACTORS

Dear Doctor:

Every progressive business man takes prompt advantage of opportunities to invest in his own business when 10 percent or more yearly dividends may be earned on his investment.

The new book, "Chiropractic Principles and Technic" should repay any chiropractor not just 10 percent but many times 1000 percent dividends on his investment of \$7.50 for the book.

Many chiropractors, doubtless, will profit to the extent of hundreds of dollars a year from just one section of the new book--from using the 80 technics for adjustment of feet, shoulders, ribs, etc., and soft tissues, described in Section Eight. Many other chiropractors will use the new and improved technics for cervicals, dorsals, lumbar and pelvis to build a larger, better-paying practice. To most chiropractors, the great personal satisfaction of getting more people well by using the right technic for every case will be worth the cost of the book many times over, aside from monetary profits.

In the enclosed folder are listed the 138 adjustment technics described in the new book. As you will see from the list, some of the technics may be used in more than one area of the spine.

Of the 189 illustrations, 147 ARE TECHNIC PHOTOGRAPHS. The complete descriptions of technics, plus these 147 entirely new technic photographs, make every point clear and easy to understand. Valuable, also, both in connection with the principles and technics of chiropractic, are the 25 FINE DRAWINGS, 9 of which are soft-tone drawings of various types of sublaxations, with detailed descriptions.

From the standpoint of intrinsic worth, the fine materials and workmanship used in production of the new book, as well as the value of the scientific material, the book is sure to please you. We believe, once you have the book, you wouldn't part with it for ten

(Over)

times the cost if you could not get another. However, if you want to return it within five days after receiving it, WE WILL REFUND THE PURCHASE PRICE IN FULL.

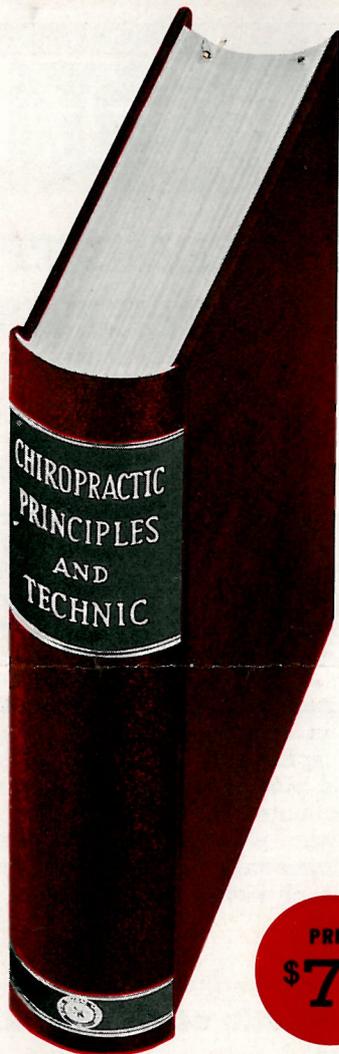

You can't lose, therefore, by ordering your book now, and think what you will gain. You will get 138 adjustment technics at a cost to you of less than 5½ cents each. Large sums were paid by chiropractors not long ago for just a few of these technics. Many technics in the book have never before appeared in published form. Such a comprehensive accumulation of adjustment technics were not available until now at any price. From the standpoint of technics alone, this book should be of priceless value to every chiropractor. Then, besides the technics, there are six other sections on PRINCIPLES OF CHIROPRACTIC, NEUROLOGY, INNERVATION, BODY MECHANICS, VERTEBRAL SUBLUXATIONS AND SPINAL ANALYSIS. These sections give the book much added value for chiropractors who want to keep in front with advances in both the principles and technics of chiropractic science.

The time to begin to profit from the advances made in chiropractic science, particularly in using the new and improved adjustment technics, is right now. Don't lose money and patients by waiting. Remember the most profitable investment you could possibly make is in advancing your own business and income. It is certain that many chiropractors are going to use the technics in this book to get more people well and attract more patients. You can, too, with increased satisfaction in your work and 1000 percent profit on your investment. We believe you could not invest \$7.50 in any other way and profit so greatly.

Don't delay, therefore, in getting your copy of this new technic book. Fill in the enclosed convenient order blank today and mail with \$7.50 in our return envelope. Do it now. In a very short time, when you have begun to reap rich dividends from using the many new and improved technics in the book, you will say ordering this book was the best thing you ever did.

ADJUSTMENT TECHNICS

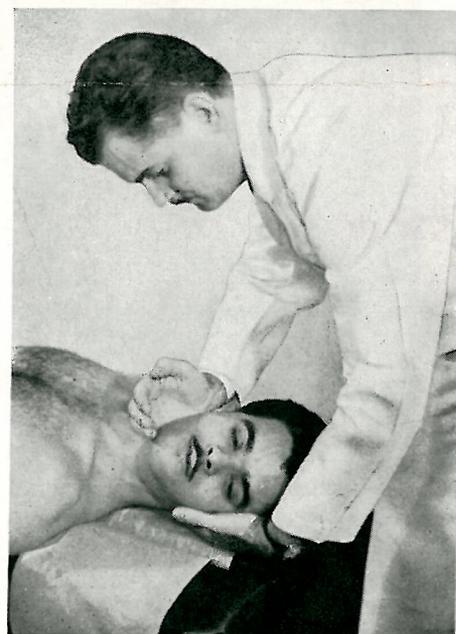

- 16.....CERVICAL TECHNIC
- 23.....DORSAL TECHNIC
- 7.....LUMBAR TECHNIC
- 12.....PELVIC TECHNIC
- 80..TECHNICS FOR OTHER STRUCTURES

“CHIROPRACTIC PRINCIPLES AND TECHNIC”

THE science of Chiropractic, especially as regards the technics of adjustment, has greatly advanced in recent years. “Chiropractic Principles and Technic,” now available, presents the science of Chiropractic as it is today. The principles of Chiropractic are fully explained. The technics of adjustment are completely described and illustrated. These technics include 58 spinal and pelvic technics, and 80 technics for adjustment of structures other than spinal—shoulders, elbows, wrists, hands, clavicles, ribs, femurs, knees, ankles, feet, and soft tissues. The complete list of technics is given elsewhere in this folder. More than anything else, it has been the perfecting and broadening of our adjustment technics—increasing the effectiveness of our treatment and enlarging our field of usefulness—that has marked Chiropractic progress.

This new book, therefore, is particularly important to every chiropractor. Not only does it bring him new and improved spinal and pelvic technics, representing the advances made in such technics in recent years, but also, it gives him a valuable adjustment service for other structures of the body. Many of the 80 technics for adjustment of “other structures” are published for the first time in this new book. Chiropractors who have used these technics, who have adjusted feet, shoulders, ribs and other structures, where needed, in addition to spine and pelvis, have found such adjusting providing an added source of income.

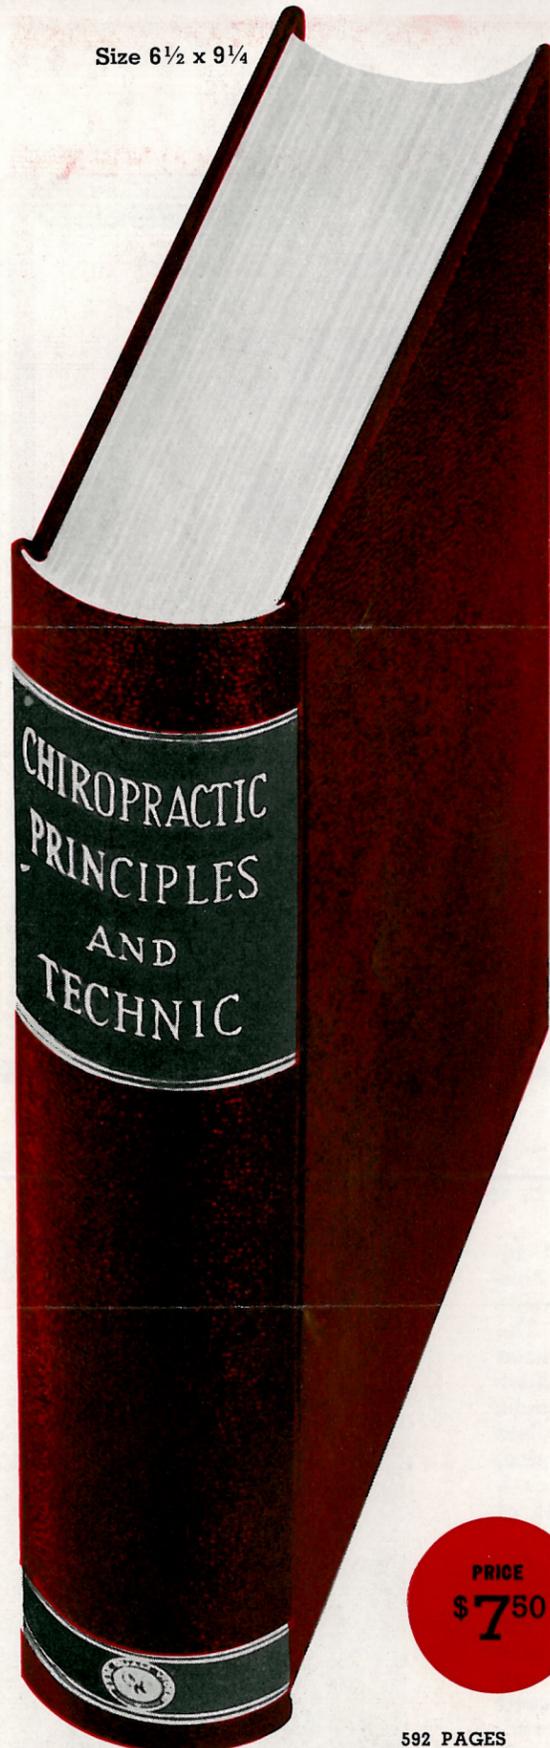

“Chiropractic Principles and Technic” is sent on 5 days’ approval.
Use the convenient approval form to order your copy now.

“CHIROPRACTIC PRINCIPLES AND TECHNIC”

A COMPLETE STATEMENT OF THE PRINCIPLES AND TECHNIC OF PRESENT-DAY CHIROPRACTIC

VALUABLE TECHNIC BOOK

Complete, Profitable Adjustment Service for Patients

A wide range of effective adjustment technics, for spine, pelvis, and other body structures, enables the chiropractor to use the technics best adapted to different types of patients and get the most successful results in all cases. Some patients are harder to adjust than others due to excess fat, sensitive spines, body build, nature of subluxations and other reasons. The chiropractor who knows the various effective technics for every subluxation of spine and pelvis finds his adjusting easier and more satisfying to himself as well as to his patients. The chiropractor also meets patients who would benefit from foot adjustments, or adjustments of ribs, shoulders, elbows, wrists, hands, clavicles, femurs, knees, ankles or soft tissues.

“Chiropractic Principles and Technic” describes and illustrates 138 specific and general technics for adjusting not only spine and pelvis, but also all other articulations of the body and for treating soft tissues. These many and varied technics provide a complete, valuable adjusting service for patients. They aid the chiropractor both in treating patients and in increasing his practice. Further, they require no equipment other than the chiropractor’s two hands and his adjusting table.

“Chiropractic Principles and Technic” will be sent ON 5-DAYS’ APPROVAL to chiropractors interested in new and improved adjustment technics, as a means of building practice and income. Order your copy now.

FULL STORY OF CHIROPRACTIC PRINCIPLES

Fascinating — Instructive — Inspiring

The theories or principles behind any action are always important. They supply the reasons for the action. Chiropractic adjustment is founded upon scientific principles. These principles involve the causes and effects of subluxations and the results of adjustments. They show how and why subluxations of vertebrae and of other articulations of the body cause malfunction and disease, and fascinating and inspiring is the story of how adjustments restore normal performance of body parts and good health. Both students and practitioners will be interested, in addition to the technics given, in reading and rereading the full discussion and detailed explanations of chiropractic principles in “Chiropractic Principles and Technic.”

City State

State of Nebraska

R. L. COCHRAN, GOVERNOR
LINCOLN

May 25, 1938.

Mr. C. A. Gaston, Secretary,
Fairhope Single Tax Corp.,
Fairhope, Alabama.

Dear Mr. Gaston:

Your letter of recent date, requesting tax information as it applies to Nebraska, was received in due time, and I regret it has been impossible for me to answer it sooner. Replying now, beg to say that under separate cover I am sending you a copy of the last annual report of this department, which shows property valuations and the amount of taxes levied thereon for state, county, city or village, school, township, and other miscellaneous purposes. We do not have the revenue laws in pamphlet form, but a copy of them may be obtained from any of the large printing houses, at an expense of \$1.50. The State Journal Company of Lincoln, the Augustine Company of Grand Island, or the Klopp Printing Company of Omaha are among those that can supply you a copy if you desire to order one.

It is true, as stated in your letter, that Nebraska as a state has no bonded indebtedness, and never has had, for that matter. A provision was written into the Constitution of 1871, limiting the bonded indebtedness to \$150,000.00, and the Constitution of 1875 reduced this limitation to \$100,000.00. As a result, no bonds have ever been issued, although efforts have been considered to modify the constitutional restriction or to get around it, but without results.

The present bonded indebtedness of sub-divisions of the state, which includes the counties, incorporated towns, school districts, and irrigation and drainage districts, is about \$77,000,000.00, this having been reduced from \$113,000,000.00 in 1928.

You ask if our schools, other public institutions, public roads, etc., are adequately maintained, and in answer I would say that from the viewpoint of the expending agencies, sufficient funds are seldom available to maintain them on the plane which those in charge of expenditures feel they should be maintained. But, insofar as the ability of those required to produce the revenue to finance public expenditures is concerned, it would perhaps be said that they are as adequately maintained as times and conditions will justify. In the

Gaston - #2

main, our schools, state institutions, such as the university and normal colleges, and institutions wherein are housed the wards of the state, are maintained from the proceeds of the property tax. Our roads are constructed and maintained from the proceeds of the gasoline tax plus the receipts from motor vehicle registration fees, 30% of the latter being remitted to the state, and 70% retained by the counties. The gas tax for highway purposes is four and one-half cents, while an extra one-half cent is set aside for state assistance.

You ask as to the general relative economic status of Nebraska business and commercial activities, and in reference thereto beg to say we have had four years of drouth, during which period very little if any crops were produced for the general market, and in most sections of the state insufficient in quantity to meet local needs. This condition followed three years of extremely low prices, so it is but natural that the finances of our people are considerably depleted, and the value of land and urban property has decreased accordingly. The remarkable part of the situation is that during all this time, the state has carried on its affairs on a strictly cash basis, without the registration of a state warrant, although at times the balance in our state operating fund has been pretty low.

I trust the foregoing, in connection with the report I am sending you, will supply you information desired.

Very truly yours,

Wm. H. Smith,
State Tax Commissioner.

WM. H. SMITH.....State Tax Commissioner

LEGAL ADVISER TO THE BOARD

RICHARD C. HUNTER.....Attorney General
EDWIN VAIL.....Assistant

TAX COMMISSIONERS OF NEBRASKA

The position of State Tax Commissioner was created by the Constitution of 1920. Prior thereto the work was performed by a secretary to the State Board of Equalization and Assessment, the Tax Commissioner being made a member of the board. Those who have served as Commissioner under the constitutional provision are:

NAME	COUNTY	SERVED
W. H. OSBORNE	Custer	April 25, 1921, to April 18, 1923
WM. H. SMITH	Seward	April 18, 1923, to January 12, 1925
T. E. WILLIAMS	Hamilton	January 12, 1925, to January 8, 1929
HARRY W. SCOTT	Lancaster	January 8, 1929, to December 1, 1930
WM. H. SMITH	Seward	January 8, 1931, to

LETTER OF TRANSMITTAL

OFFICE OF STATE TAX COMMISSIONER

LINCOLN, NEBRASKA

December 1, 1937.

Honorable R. L. Cochran,
Governor of Nebraska,
Lincoln, Nebraska.

Dear Governor:

The annual report of the State Board of Equalization and Assessment and the State Tax Commissioner for 1937 is transmitted herewith. The valuation of the state, as returned by the county assessors, is found to be \$2,058,224,967.00, a decrease of \$2,610,201.00 from the valuation returned by the assessors in 1936. While prices ranged higher in 1937 than in 1936, nevertheless the decreased supply on hand, due to the continued unfavorable weather conditions, resulted in a lower valuation for the state as a whole.

The 1937 General Fund Levy

The state tax levy for 1937 was fixed at 2.64 mills, an increase of .88 of one mill over the levy fixed in 1936, and is based upon the valuation indicated above. In 1935 the legislature, in enacting the liquor control act, provided that the tax on liquor as well as beer should go into the state general fund, and in 1936 the amount estimated by the State Accountant from this source for the fiscal year was \$1,138,007.87, which was taken into account when the 1936 general fund levy was made. In 1937 the legislature transferred the receipts from this liquor tax from the state general fund to the state assistance fund, and as a result, it was necessary to increase the state property tax levy sufficiently to take care of the loss of the liquor tax.

The proceeds of the state estate tax collected by this department were likewise transferred by the 1937 session of the legislature from the state general fund to the state assistance fund, the collections from this source in 1936 amounting to \$58,827.81.

The State Board of Equalization and Assessment is required by law to provide for meeting the emergency appropriations made by the legis-

laute, out of the first levy following the adjournment of the session. The emergency appropriation made by the 1937 session totaled \$255,923.23, which are covered by the 1937 levy.

Because of the decreased valuation of the state, there was a loss in tax revenue amounting to \$6,890.93, as compared to the amount that would have been raised had the valuation remained the same as in 1936.

In addition thereto, the appropriations from the general fund by the 1937 session of the legislature were \$813,556.75 in excess of the appropriations made by the 1935 regular session, and one-half this increase is covered by the levy of 1937.

The aggregate of these items is \$1,866,428.22, which it was necessary to provide for out of the state general fund levy in 1937, none of which was necessary to meet from the 1936 levy.

1937 Assessed Valuations

The following statement shows the assessed valuation of the various classes of tangible property in 1937, and the percentage of each:

Item	Valuation	Per Cent
1. Town Lots	\$ 443,792,168	.215,619
2. Farm Lands and Improvements	1,136,408,362	.552,130
3. Farm Lands Under Lease or Contract	6,751,645	.003,280
4. Live Stock	85,924,075	.041,747
5. Poultry	1,809,629	.000,879
6. Grains	4,785,258	.002,325
7. Farm Machinery	30,856,775	.014,992
8. Automobiles and Trucks	48,431,854	.023,531
9. Household Goods	16,636,151	.008,083
10. Industrial Machinery	6,496,818	.003,157
11. Goods and Merchandise	39,967,547	.019,419
12. Telegraph Companies	1,324,272	.000,643
13. Telephone Companies	17,217,003	.008,365
14. Pipe Line Companies	6,628,883	.003,221
15. Electric Lighting, Heating and Power Companies	20,673,309	.010,044
16. Fire Insurance Companies	5,004,134	.002,431
17. Franchise Valuation	4,383,750	.002,130
18. Railroad Property	160,087,615	.077,779
19. All Other Property (excluding Intangibles)	21,045,719	.010,225
20. TOTAL	\$2,058,224,967	1.000,000

The intangible property valuation totals were as follows:

Class "A" (Money or its equivalent taxed at 2½ mills on the dollar)-----\$46,384,681.00

Class "B" (which includes all other classes of intangible property, and taxed at 8 mills on the dollar)-----\$69,278,265.00

No assessment of real estate was made in 1937, since the present law provides that such assessments shall be made every two years, and as a result there was no material variation in real estate valuations. An assessment of real estate will be made in 1938.

Meetings of County Assessors

The annual meeting of county assessors was held in Lincoln March 9-10, 1937, with sixty-five counties represented. Six group meetings were held at convenient points throughout the state, and a total of forty-six counties were represented at these meetings. The places at which meetings were held, the date, and the attendance, was as follows:

Dakota City	April 14	10 counties
Tecumseh	April 16	5 counties
Hastings	April 23	12 counties
Bridgeport	April 24	7 counties
Valentine	April 26	3 counties
Albion	May 6	9 counties

A large number of local assessors usually attend these group meetings, and participate in the discussion of the various subjects considered.

Eleven bulletins were issued during the assessment period, in which information of interest to assessors was imparted.

Very truly yours,

Wm. H. Smith

State Tax Commissioner.

1937 TANGIBLE ASSESSMENT

Below is given the assessment of the tangible property for the year 1937 as returned by the several county assessors and equalized by the State Board of Equalization and Assessment.

STATEMENT NO. 4.

ROLLING STOCK ASSESSMENT

The rolling stock assessment of the various railroads is made by the State Board of Equalization and Assessment in accordance with Section 77-616, Compiled Statutes of Nebraska for 1929. The amount so found is divided by the total number of miles, giving the total valuation per mile, and this amount is multiplied by the number of miles in each city or village. This amount is then certified to the county clerk to be added to the assessment of terminal property which is made by the local assessor and then equalized by the State Board.

The Rolling Stock Assessment for the year 1937 is as follows:

Name of Railroad	Mileage	Value Per Mile	Total Valuation
CHICAGO, BURLINGTON & QUINCY RAILROAD COMPANY			
Ashland to Schuyler	50.24	\$ 4,196	\$ 210,807

FRANCHISE ASSESSMENT

Section 77-801 of the Compiled Statutes of Nebraska for 1929 requires every utility company doing business in Nebraska to report to the State Board of Equalization and Assessment, certain information pertaining to its franchise value.

For the year 1937 the Board fixed the franchise assessment on the companies listed below as follows:

Name	Assessment
Aksarben Natural Gas Co., Oxford	\$ 1,000.00
Alvo Telephone Co., Alvo	100.00
American Telephone & Telegraph Co., Omaha	60,000.00
Ames Creek Telephone Co., Obert	100.00
Arapahoe Telephone Co., Arapahoe	600.00
Arlington Telephone Co., Arlington	1,000.00
Bancroft Telephone Co., Bancroft	700.00
Bartley Mutual Telephone Co., Bartley	350.00
Bassett-Springview Telephone Co., Bassett	600.00
Beatrice Power Co., Barneston	30,000.00
Belden Telephone Co., Belden	200.00
Bertrand Telephone Co., Bertrand	700.00
Blair Telephone Co., Blair	3,000.00
Bree, M.M. Electric Co., Culbertson	1,500.00
Byron Telephone Co., Byron	250.00
Callaway Milling & Electric Co., Callaway	1,000.00
Cambridge Telephone Co., Cambridge	1,800.00
Campbell Telephone Co., Campbell	500.00
Cedar County Farmers Telephone Co., Hartington	1,000.00
Central Electric & Telephone Co., Sioux City, Ia.	22,000.00
Central Nebraska Telephone Co., Denver, Colo.	3,000.00
Central Power Co., Grand Island	390,000.00
Central States Electric Co. of Nebraska, Cedar Rapids, Ia.	7,000.00
Chapman Telephone Association, Chapman	300.00
Chester Telephone Co., Chester	300.00
Citizens Telephone Corporation of Blair, Blair	2,500.00
Cities Service Gas Co., Bartlesville, Okla.	1,000.00
Clarks Telephone Co., Clarks	300.00
Comstock Independent Telephone Co., Comstock	300.00
Coleridge Independent Telephone Co., Coleridge	450.00
Concord Farmers & Merchants Telephone Co., Concord	250.00
Cornhusker Electric Co., Fairbury	2,500.00
Cortland Telephone Co., Cortland	300.00
Citizens Telephone Co. of Paxton, Paxton	400.00
Cozad Mutual Telephone Co., Cozad	2,000.00
Craig Telephone Co., Craig	300.00
Crete Telephone Co., Crete	3,500.00
Crownover Telephone Co., Sargent	700.00
Cuming County Telephone Co., Wisner & Beemer	2,400.00

STATEMENT NO. 5—Continued

Name	Assessment
Curtis Telephone Co., Curtis	800.00
Deshler Telephone Co., Deshler	400.00
Diller Telephone Co., Diller	700.00
DuBois Telephone Co., DuBois	500.00
Dundy County Mutual Telephone Co., Benkelman	200.00
Eagle Telephone Co., Eagle	200.00
Elkhorn Valley Power Co., Scribner	5,000.00
Eustis Telephone Exchange, Eustis	400.00
Farmers Independent Telephone Co. of Red Cloud	2,500.00
Farmers Mutual Telephone Co. of Avoca	150.00
Farmers Telephone Co. of North Bend	1,500.00
Farmers Telephone Co. of Alexandria	400.00
Farmers Telephone Co. of Taylor	200.00
Firth Telephone Co., Firth	250.00
Fordyce Telephone Co., Fordyce	200.00
Frontier Telephone Co., Crete	350.00
Gage County Electric Co., Beatrice	17,500.00
Gas Service Co. of Kansas City, Mo.	5,000.00
Glenwood Telephone Co., Glenwood	2,000.00

STATEMENT NO. 6

BASIS FOR THE 1937 STATE TAX LEVY

The report of the State Auditor shows the appropriations from the state general fund for the biennial period of 1937-9 to be -----	\$12,373,837.99
One-half of which is to be raised from revenue for the general fund in 1937, and is -----	\$ 6,186,918.20
Plus emergency appropriations -----	255,923.23
	<hr/>
	\$ 6,442,841.43
Less estimated revenue from the intangible tax -----	\$ 111,698.00
	<hr/>
	\$ 6,331,143.42
Less miscellaneous collections for general fund, as per State Auditor's report -----	945,164.48
	<hr/>
	\$ 5,385,978.95
Less cash transferred to the general fund -----	115,000.00
	<hr/>
Leaving to be raised by levy -----	\$ 5,270,978.95
Which amount is increased 3 per cent in accordance with Sec. 77-1007, Compiled Statutes of Nebraska for 1929 --	158,129.37
	<hr/>
Total to be raised by 1937 general fund levy -----	\$5,429,108.32

The valuation of the state for taxation purposes has been found to be \$2,058,224,967.00, applied to which a levy of 2.64 mills will raise \$5,433,713.91, which levy is hereby approved by the State Board of Equalization and Assessment this 27th day of July, 1937.

GENERAL FUND RECEIPTS

The miscellaneous collections for the General fund, as set forth by the State Auditor, are as follows:

GENERAL FUND RECEIPTS—MISCELLANEOUS

July 1, 1936 to June 30, 1937

Supreme Court -----	\$ 7,617.02
Governor -----	270.67
Secretary of State -----	172,112.08
Estate Taxes -----	33,353.98

*This represents the State's share or 30% of the motor vehicle registration fees for road maintenance. No appropriation for Administrative expenses has been made since July 1, 1933 because of transfer of activities from State Treasurer to Department of Agriculture and Inspection. Administrative expenses from July 1, 1925 to June 30, 1933 totaled \$77,107.40.

STATEMENT NO. 14

Showing the assessed valuation of the state by years from 1867 to 1937 inclusive, and the total state taxes levied for the various years. For 1920 and prior years, property was assessed at one-fifth its actual value. For 1921 and the years following, property has been assessed at its actual value. The valuation shown is that reported by the county assessors, with the tax computed thereon.

Year—Governor	Total State Levy	Assessed Valuation	Total State Tax
1867—Butler		\$ 20,069,222	\$ 100,576.00

STATEMENT NO. 14a

Grand Total of All Taxes

Showing the grand total of all taxes levied for all purposes, including state, county, school, city and village, township, terminal, drainage, irrigation, poll and miscellaneous purposes, as determined by the county clerks from the footings of the tax lists for the various years, and certified to the tax commissioner:

Year	Grand Total
1918	\$32,950,800.73
1919	40,042,226.43
1920	51,600,457.36
1921	59,365,699.26
1922	53,457,481.56
1923	53,280,124.74
1924	53,447,380.50
1925	55,967,004.92
1926	54,970,346.96
1927	66,028,255.91
1928	58,273,807.24
1929	59,442,398.97
1930	58,485,076.39
1931	56,424,184.07
1932	49,588,994.64
1933	42,906,527.94
1934	42,068,482.03
1935	43,878,947.41
1936	44,113,357.43
1937	47,024,422.95

STATEMENT NO. 15.

Below is given the actual valuation of the various counties, and the total taxes levied for all purposes as determined by the county clerks from the footings of the tax lists for 1937.

PART 1.

GOVERNMENTAL SUBDIVISION LEVIES AND TAXES

COUNTY	Tangible Valuation of County	State Taxes Levy 2.64 Mills	State Intangible Tax (1/6)	Total State Taxes
Adams	\$ 32,311,490	\$ 85,302.33	\$ 2,259.90	\$ 87,562.23
Antelope	21,616,884	57,068.57	404.33	57,472.90

STATEMENT NO. 16.

HOW YOUR TAX DOLLAR IS DIVIDED

The following statement shows the amount of taxes levied in the state for the year 1937 as shown by the tax lists of the various counties for all general purposes excluding Specials. It also shows how the average tax dollar is divided among the different governmental subdivisions of the state.

STATE	LOCAL
12.3%	87.7%

From the above it will be noted that of every dollar paid in taxes by the average taxpayer TWELVE AND 3/10 Cents will be spent by the State and EIGHTY-SEVEN AND 7/10 Cents will be spent Locally.

The following chart will show the amount and percentage of tax levied for the various governmental subdivisions in 1937.

Total	\$44,989,731.35	100 %
School Taxes	19,754,022.21	43.9%
City & Village Taxes	9,475,012.07	21.1%
County Taxes	9,261,878.88	20.6%
State Taxes	5,536,161.02	12.3%
Township Taxes	962,657.17	2.1%

Special Taxes not included in the above are:

Drainage Taxes	\$ 150,153.54
Irrigation Taxes	300,838.65
Old Age Assistance Taxes	960,119.34
Poll Taxes	441,505.00
Miscellaneous Taxes	182,075.07
Total Specials	\$2,034,691.60

Daytona Beach, Fla.,

Jan. 28, 1940.

Dear Dr. Gaston,

You will remember me as the person who called so early on Christmas morning, to ask about the empty house next door to yours.

I've written twice to Mr. George Perkins, agent, but he doesn't reply. I asked him (1) if the house and lot were free of all claims, (2) if the lot measured 400 ft. in depth, (3) to send me a map of that district, showing the lot (such as you had told me was available). I also offered \$800 cash, if these points were satisfactory.

As I can learn nothing from Mr. Perkins, I decided to write to you.

(over)

Will you please send me a map showing this lot? Its measurements will probably be given on that map.

And will you please give me the address of the owner, Mrs. (or Miss?) De Wolf, so that I can write direct to her?

I'll be passing through Fairhope about March 8th; and if I conclude to buy this property, I'd like to conclude the matter in person then, and so wish to set things moving by correspondence now.

Thanking you very heartily for any help you can give me, I am,

Yours sincerely,

Mary K. Telf.

(Miss)

Jan 24, 1938

Mr. A. A. Nelson
Fairhope, Ala.

Dear Sir:

I have your lease ready for you. As calculated the annual rent on the 66 ft. lot is \$10.78.

The five dollars you paid with your application was applied to the payment of four months rent in 1937 and the balance credited on the first half of the 1938 rent leaving a balance due for the first half of \$3.98 as shown on the enclosed statement. To avoid penalty this must be paid before April first.

Very truly yours,

Secretary

CAG/mg
ENC.

April 1, 1937

Mr. B. E. Nelson, Pres.
Stowt Institute
Menoninee, Wis.

Dear Sir:

Mr. C. M. Bardwell has asked us to send you literature about Fairhope and explanatory matter concerning the land leasing plan of our Corporation.

Under separate cover I am sending such literature and a copy of our constitution, application for land and lease form, a close study of which will give you a clear idea of the plan.

We have many desirable building sites in various parts of the town. The annual rental varies as to location and conveniences, being as low as eleven cents a front foot on inside lots 132 feet deep to as high as one dollar a front foot. Corner lots and lots having alley frontage are slightly higher. Business sites run as high as \$2.75 per front foot one hundred feet deep.

Our corporation also has country lands with an annual rental varying from eighty cents to three dollars per acre.

I shall be glad to answer any specific questions you may care to ask and I hope you will visit Fairhope and see for yourself what we have to offer.

Very truly yours,

Secretary

CAG/mg

Dec. 28, 1937

Mr. Joseph Nelson
Fairhope, Ala.

Dear Mr. Nelson:

I enclose tax bill for your place.
You should pay this at once and send the bill in
with your payment.

The town tax is also due now and
amounts to \$2.50. You should go around to the town
hall and pay this during this week to avoid penalty.

Bring receipt to this office for
credit on your rent.

Very truly yours,

Secretary

CAG/mg
Enc.

Lorraine Nelson
Box 258
University, Alabama

Mr. C. A. Gaston
Fairhope, Alabama.

Dear Mr. Gaston:

Thank you very much
for the material. It is just
what I need. I am now
at work on the article, but
mid-quarter examinations
take their toll of my time
and at the moment, I
cannot say just when
I will complete it. When
I do, I shall certainly send
you a copy. I do not
expect it to be a piece
of "finished" writing. But

"rewriting" is the backbone
of an author's success.
On that I depend.

Again, may I thank
you for the material.

Sincerely yours,
Lorraine Nelson.

September 3, 1947

Mrs. D. W. Nelson
1006 E. Larua
Pensacola, Florida

Dear Mrs. Nelson:

What price would you want for your land (Lots 11 & 12) in Central Park?

Our Executive Council has authorized me to offer \$100.00 for this property. We appreciate the fact that this may seem a very small price, but because of inexact platting in that locality it is likely that a great deal of expense and effort will be necessary to establish the exact boundaries.

Thank you for informing us of the availability of this land, and we hope that we may reach a satisfactory agreement for its purchase.

Very truly yours,

Secretary

Oct. 13, 1942

Miss Lorraine Nelson
Box 258
University, Alabama

Dear Miss Nelson:

I was pleased to have your letter of the 8th handed to me by my sister, Mrs. Crawford and I want to give you all assistance possible in making available to you all the information you may need in preparing your article. I am sure that the story of Fairhope is of vital interest to the world and the person who presents that story to the world effectively will have performed an immeasurable service. May that person be you.

Certainly the great forward steps that the world has taken in the physical sciences have often resulted from the devoted studies and inspiration of isolated individuals, and I believe the same holds true in the social sciences. Certainly we would not have a republic in this country now had it not been for the inspiration of a few leaders who were in position to shape the new order.

The material available is not very great but perhaps use of it to fill in what you absorbed by contact may be adequate. I hope so. Of course there is adequate material here in preserved records but their bulk and variety make it impractical to make them available to you there. Should there develop specific detail of information I can get for you I shall be glad to do so.

Under separate cover I am sending you a brief history which my father prepared for an address some years ago, together with a copy of our application for land, lease contract and constitution; and I am also enclosing herewith a copy of an address I prepared for presentation at the Henry George Congress in Chicago last year.

As one explanation of the single tax theory I offer this: An axiom in political economy is that "the power to tax is the power to destroy", and government, being instituted as an agency of all the people to serve and assist them in their productive effort should be supported by a constructive rather than a destructive revenue system, one that will encourage rather than discourage production, an ethical rather than an unethical system. a system that will stimulate and accelerate the economics of the nation rather than one that will ~~depress~~ and retard the exchange of goods ~~with its~~ resultant distribution of wealth.

and the

All modern production is supported by a tri-partnership composed of labor, capital and government and an ethical distribution of the product demands that the share of each shall be in proportion to the contribution of each. In a free country, or rather a country where labor and capital are free the law of supply and demand and the resultant competition may be depended upon, we believe, to insure an equitable distribution between labor and capital. Government, being an essential monopoly, and clothed with the power to tax, is not subject to the same restrictions as are the other partners in industry. If labor or capital neglects to collect its share and allows another to appropriate it the loss is theirs, but government continually does this and repairs the loss by exercising its power to tax labor and capital. ~~to repair the loss.~~

The single tax theory is that the contribution of government as a partner in industrial production may be measured by the rental value or the selling price of land, the selling price being a capitalization of the rental value; that the collection by government ^{of} its share of the product from this source is constructive because it obviates ^{a part of} the necessity to levy taxes on labor and capital which destroys their purchasing power; production will be encouraged because the greater the production the greater will be the reward to labor and capital, unaccompanied by higher rates of taxation; ethical economic standards will prevail because each partner will share in the product in direct proportion to his productive effort.

The single tax should have a powerfully stabilizing influence on the economic structure of the nation. Inflation is rightfully recognized as the greatest unbalancing factor and taxes are the greatest single factor in the production of inflation since the most of them must be added to the selling price of goods. Labor, capital and government having received their full respective shares of the nation's production and inflation largely eliminated exchange should be a comparatively simple matter.

I had not intended writing so much but I hope what I have written may be helpful to you. I shall be glad to learn of the result and to be of any further service I may. With sincere best wishes for your success I am,

Very truly yours,

Secretary.

University, Alabama
October 8, 1942.

Mrs. Frances Crawford
Fairhope Courier
Fairhope, Alabama

Dear Mrs. Crawford:

No doubt my name is unfamiliar to you, but I have lived most of my life in and out of Fairhope. I graduated from Fairhope High School in 1940 and since then I have been a student at the University of Alabama.

As a student of journalism, I am attempting to write a non-fiction article on Fairhope's Single Tax Policies. I thought I had extensive first-hand knowledge on the colony, but now that I have begun my first draft I find that I know very little about it. You were the first one I considered as a possible source of information. Do you have any printed literature which you could send me? Mr. Ed. Kimbrough, my professor, thinks that ^{the} article might sell if I get it on the right market. It is, of course, necessary that I have accurate information and I do not feel that what I have remembered about ^{the} single-tax theory is all that it should be.

If you can give me some help on the matter, I will be most appreciative.

Respectfully,

Lorraine Nelson
Lorraine Nelson

Dr. W. Bruce Nelson,
Bay Minette, Ala.,

Dear Dr. Nelson:

Since its publication in the Fairhope Courier May 23, the County Health Department report that Fairhope has been rated 95% saitated while Bay Minette and Foley are rated 100%, has brought enquiries from as far away as New York City.

I regret to state that I am unfamiliar with the Kelly Act and do not know wherein Fairhope's shortcomings exist. I will greatly appreciate it if you can enlighten me on this matter. With appreciation for the good work you are doing and assurance that we want to see Fairhope cooperate in every reasonable way I am,

Very truly yours,

Secretary.

Feb. 28, 1946

Mr. William W. Newcomb
1351 West Sunnyside Ave.
Chicago 40, Ill.

Dear Mr. Newcomb:

Quite a number of letters came to me as a result of the article in March of Progress and unfortunately they came when I was overwhelmed with year-end business of considerable magnitude. I just had to lay them aside and am only now getting to make replies.

I feel it is too bad that economists and particularly single tax economists have not taken advantage of the opportunity Fairhope affords for a study of at least a partial application of the Henry George principles. The advantages have repaid us locally many fold, but it was our hope that our demonstration would give greater force to the broad dissemination of the doctrine. This we cannot do but it is our belief that those who are at work in the broader field might have been more forceful if they had used Fairhope as a model, imperfect only because of the restrictions that would be removed when the principle could be fully applied.

With reference to Enclaves of Economic Rent, I believe the last issue was published in 1933. Enclosed material will bring you up-to-date as to Fairhope with the exception of the 1945 reports which I shall be pleased to send you as soon as they are in print, shortly, I hope.

I do not feel competent to advise you concerning your proposed community of acre homesteads. In the beginning, each of the small number who started Fairhope, took for himself as much of the land as he desired and could afford to pay rent on. These first leaseholds, I believe, averaged three or four acres each. They constituted subsistence homesteads for the early colonists. Our family held a little over $2\frac{1}{2}$ acres in what is now the center of the retail business district. These small areas we developed intensively with large gardens and small orchards. The open range sufficed for pasture for live stock.

Such leaseholds in the center of town were tenable for only a few years. Our population increased from the beginning and with this increase came increased demand for land in the neighborhood center and increased rent made it necessary to

convert orchard and garden sites into residence and business sites and finally altogether to business. I judge (I was three when we came to found Fairhope) and it is my information, that the founders anticipated such a community as you propose. However there was no fixed pattern and no artificial rules or restrictions to insure the development of a pattern. Human desire and the law of rent have made the community what it is and these continue to be the governing factors.

Outside of the more densely populated sections there are now 1 acre to 5 acre and one 20 acre leasehold within the corporate limits of the municipality, while outside the corporate limits leaseholds range from 1 acre to several hundred acres. However pressure of demand is now exerting its influence, higher rent, already insured, extension of streets and other public services into these lands will result in a breaking down into smaller holdings of such tracts.

There is a possibility that your group might find it practical to locate here, either through the purchase of the improvements of some of our lessees to these larger tracts, or by securing title to some nearby land where you could work out your own plans. You might find, in Mobile County, a site more suited to the development of your plans. We would welcome a visit from you and assure you of our fullest cooperation. Mr. George Strachan, Chicago single taxer, of the electrical department of the City, owns some land in Mobile County, and I suggest you talk with him concerning your plans.

Of course values are inflated now, the market is a sellers' market, and it's not the best time to buy. However the disadvantage is offset some by the fact of the increased demand for services and goods and the better prices these will bring. I hope you will find it possible to pay us a visit and I assure you of our best wishes in your undertaking. I will be pleased to hear anything that may develop and we will all hope for the opportunity to meet you in Fairhope.

Very truly yours,

Secretary

December 28, 1945

Mr. C. A. Gaston, Secretary
Fairhope Corporation
Fairhope, Alabama

Dear Mr. Gaston:

From the time I organized classes for the Rochester Extension of the Henry George School of Social Science in 1937 I have heard about Fairhope. Later, when I went to New York, and devoted a considerable part of my time at the HGSSS headquarters, the Robert Schalkenbach Foundation, then a year of full-time work as Managing Editor of Land and Freedom, I had it in the back of my mind to learn more about the community.

Then last Spring, after I came to Chicago to serve as Economics Editor of MARCH OF PROGRESS (beginning in Jan., 1944) I was given a manuscript by James Cassels on Fairhope, and now shortly after my leave-taking of the magazine I see Mr. Cassels' article, much revised, is in the January, 1946 issue.

I feel now that it is high time that I fully acquaint myself with the city's activities. Yesterday I read through Fisk Warren's "Enclaves of Single Tax" -- a reading that I should have made years ago. I don't suppose anyone has brought out a recent book on Single Tax enclaves. The issue I read was published in 1922.

I represent a group of urbanists who wish to establish a community of acre-homesteads, deriving part of their sustenance from their crops, and part from cash employment and the development of small factories. According to the Cassels article, there is no agricultural land that is not under lease or enjoying full-time production. I would appreciate your setting me straight on this.

I have made my living for the last fifteen years as a free lance writer, magazine editor, script writer and editor for educational motion pictures, and producer of films. I should like to employ these skills in conjunction with homesteading in a southern area (such as I did in Florida 13 years ago). On behalf of this group I should appreciate any commendation you care to make with respect to our establishing ourselves at Fairhope.

Sincerely yours,

William W. Newcomb

William W. Newcomb

July 20, 1935.

R. C. Newman,
Fairhope.

Dear Mr. Newman:-

Consideration has been given by our Executive Council to your rent so far delinquent and I have been instructed to advise you that the situation cannot be allowed to exist.

Your indebtedness, inclusive of rent to the ^{end} of 1935 has grown to \$353, which amounts to nearly 7 years rent at present rating.

~~or~~ ^{to make} We will listen to any proposition you are able to materially reduce this adverse balance, but I am instructed to advise you that unless a very substantial payment is made within thirty days of this date, the Corporation will feel justified in putting the property up for sale for the delinquent rent, as by the lease provided, which requires only ten days notice, by one publication in the local paper.

Yours very truly,

FAIRHOPE SINGLE TAX CORPORATION,

By

E. J. S.

Secretary.

Newman called but gave no promise

R.C. Newman,
City.

mejevs

Dear Newman:-

According to Mr. Wolcott's books, the last tax receipt you turned in for credit on rent, was for 1932 taxes.

You should have paid 1933 taxes or been sold out by the tax collector. and 1934 taxes should have been paid.

You cannot get kas credit for tax receipts until turned in to Wolcott. Better look these up and get credit for them.

Sincerely,

C

P.S. You havent turned us in any bill against Cortes.

March 2, 1935.

R.C. Newman,
City.

Dear Newman:-

I note you getting some work on the sewer system. Do not forget your obligations to the ST. Corporation; but give us something as you go along.

Mr. Wolcott spoke to Julio Cortes about your claimed bill against the Cortes, but he did not admit ~~next~~ owing you anything. If you will make out a bill, showing particulars of what was done and when, we will try and collect for you.

Keep in touch with us.

Yours very truly,

Sec.

Last print 4/12/33 - '32 last receipt

Dec. 17, 1938.

Mr. George Nichol,
1014 20th St.,
Rock Island, Ill.,

Dear Sir:-

I was pleased to receive your letter concerning your prospective visit to this section of the south and hope that you will come to Fairhope and investigate conditions here before finally locating.

Under separate cover I am sending you some literature concerning our plan. You will note that our Corporation confines its activity to the leasing of the land. We do occasionally have some improved or partially improved lands secured in settlement of indebtedness of the lessee and if we have any at the time you are here we will be glad to show them to you. For these we ask only the reasonable value of the improvements. On unimproved land there is no purchase price to pay unless there be timber of value on the land and in this case the timber is appraised at its market value.

Lessees frequently have improved properties they will sell and these can frequently be purchased for less than replacement cost. The acreage of these improved properties varies but not infrequently additional land adjoining can be secured from the Corporation. Acreage rentals, at the present time are from 85¢ to \$2.75 per acre annually. Taxes levied by the State and County on the improvements and personal property of the lessee are deducted from the rental charge so the total expense is the rent except in ~~some cases~~ ~~where~~ ~~the~~ ~~taxes~~ ~~exceed~~ ~~the~~ ~~rent~~, in which ~~cases~~ ~~the~~ ~~total~~ ~~cost~~ ~~is~~ ~~the~~ ~~amount~~ ~~of~~ ~~the~~ ~~tax~~ ~~levied~~.

Should you desire any further information before you leave I shall be glad to have you write me further.

Very truly yours,

Secretary.

1014 20th St.

Phone 2546

Rock Island, Ill. Dec - 9 1938

Dear Sirs :-

Last year I wrote for + received
a copy of "The South Land."

I would like to know more
about the land + developed small
farms owned by the Association
of Single Taxers from Iowa, who
are located there in Fairhope.

I am a married man with a
family of three grown daughters
all through High School this year,
and now I would like to go
down in a warmer climate +
try farming again.

I was farming up until
the slump came + I lost pretty
heavily. Since then I have been
in Ice + Coal + Trucking Business
here in Rock Island.

But the Ice Business is

about finished now. with electric
refrigeration every where.

And I want to get away from
these bitter cold winters.

I shall try to make a trip
down this spring but in the
meantime I would like a
little literature & information
about these place that you
lease around Fairhope.

Not a large place. Something
around forty acres or a little
less to start with if you have
those kind.

Thanking you for your
time & trouble Dan

Sincerely yours

Geo. Nichol

March 15, 1940.

Mrs. Georgia Nichols,
Fairhope, Ala.,

Dear Mrs. Nichols:

This corporation, in platting its lands surrounding your holding, in 1911, took into consideration the possibility that it might at a later date be desirable to subdivide such lands by continuing Freedom Street across them.

As shown on the plat Freedom St. extends north from Fels Ave. and south from White Ave. but so that it might be later extended a 66 ft. gap was left between blocks 6 & 7 on Fels Ave. and between blocks 12 & 13 on White Avenue.

I do not know what your plans are at the present or if you have given the matter consideration. My reason for bringing the matter up at this time is that our lessee to the lot on the east end of block 13 desires to build a garage on the back of his lot and on the east side. It will be necessary for him to have access to such garage over the gap above mentioned. Of course if there is to be a street over the gap there will be no difficulty but if there is not it will be necessary for us to give him a lease to such gap. In the latter case the land might be further improved and would not be available for street except at the expense of condemnation.

It may be that you have plans for the subdivision of your lands that does not require the extension of Freedom St. and in this case we would like to be advised so we can open the lots involved to lease. If you do desire to have provision for the extension of Freedom St. across your lands I would suggest that the Town of Fairhope be given a deed to the right of way and in that case we would definitely designate the reserved gaps as streets and likewise convey title to the Town.

Our lessee is anxious for a decision in this matter so he can proceed with his plans and I will appreciate a reply as early as possible. I enclose a tracing from the Town plat.

Very truly yours,

Secretary.

Feb. 25, 1944

Mrs. R. L. Nichols
110 Florence Place
Mobile, Alabama

Dear Mrs. Nichols:

Please pardon my delay in replying to your letter of the 13th inst.

Our corporation does not deal in improved properties, if that is what you are interested in. We lease our land on 99 year lease contracts to those who want to make their own improvements. I am enclosing forms and information which may interest you.

Fairhope is rather compactly settled and it is not probable that you could get a tract of as much as ten acres nearer than a mile from the grammar school and we have no such acreage nearer than $3\frac{1}{2}$ miles and that is at least a mile from the school bus. In town, within a half mile from the school we could lease you a lot containing one to three acres.

For improved properties I would suggest you try some of our regular real estate dealers: J. E. Gooden, Carl L. Bloxham, G. E. Perkins, Capt. Jos. Pose, R. C. Keeney, etc. If I can be of further service please write me.

Very truly yours,

Secretary.

Mohale, Ala

Mohale,
Ala.

Mar. 10, 1953

Mr. Ross E. Nickey
General Delivery
Baton Rouge, La.

Dear Sir:

In reply to your letter of March 5, I must state that our lands are now largely under lease. All that may now be leased directly from our corporation are situated in the City of Fairhope and consist of lots that are suitable only for residence use. Our country lands where acreage was available are all leased.

From time to time both in the country and the city there are opportunities to purchase from present lessees the buildings and other improvements they have placed on the land and secure a transfer of their leasehold interest in the land. In such cases the purchaser receives a new lease and becomes the lessee.

We enclose herewith a copy of our lease and application for land so that you may be informed of the conditions under which we lease our lands. Also enclosed is a copy of our last annual report.

Very truly yours,

Secretary

MR. ROSS E. NICKEY

oblige

Yours truly
Ross E. Nickey

Feb. 29, 1940.

Mrs. C. B. Niemeyer,
Fairhope, Ala.,

Dear Mrs. Niemeyer:

I am returning herewith the receipt given you by Mr. Wolcott Dec. 31, 1938.

In checking over your account with Mr. Wolcott we find that the payment made at that time, \$26.97, lacked \$3.05 of paying the 1939 rent as the receipt shows, rather than being \$3.05 in excess of the 1939 rent as Mr. Wolcott calculated when he gave you a refund check for \$3.05.

It is apparent that this error resulted in your account being \$6.10 off balance at the end of the year as shown on the enclosed rent statement #4240. We, being responsible for this error, are making no penalty charge, but request that you bring in your 1939 tax receipts so that they may be credited to the account.

Very truly yours,

Secretary.

March 11, 1937

Mrs. Kathryn Bebe Miles
110 N. Franklin St.
Chicago, Ill.

Dear Madam:

I appreciate your enquiry about Fairhope and am pleased to report that there are adequate accommodations here ranging from a winter tourist hotel of considerable fame in Chicago, and other northern cities to furnished rooms in homes.

The swimming season does not open for a month or two yet for local residents but visitors may and do find it pleasant earlier than do residents. There is a small but interesting municipal golf course that is in much favor, also tennis and hiking.

Fairhope and the surrounding country is quite beautiful now with the new spring growth, the dogwoods in full bloom, some azaleas and Japonicas still blooming and rose gardens and other flowers coming on rapidly.

I enclose a small folder giving some brief detailed information which may interest you. They will show you that Fairhope has individuality and special attractions not found elsewhere. Should you decide to spend your vacation here I shall be glad to have you call on me for any service I can render.

Very truly yours,

Secretary

I shall appreciate an early reply. A self-addressed stamped envelope is inclosed.

Very truly yours
Kathryn B. Miles

Oct. 10, 1941.

Miss Vera Noltensmeier,
Elberta, Alabama,

Dear Miss Noltensmier:

The Bank of Fairhope President Mr. Wharton has notified me that you desired information about our Corporation and I assure you it is a pleasure to receive such requests.

While Fairhope was founded by people who had a need to find a better way of life for themselves it was their hope that they might be able to formulate a pattern that would be of value in bringing better conditions of living for all.

We believe it is this pattern that Fairhope has followed that makes it today the largest Town in the county and, we believe, one of the most pleasant in which to live.

I am enclosing a little folder that tells briefly the way the Fairhope Single Tax Corporation leases its lands to residents of Fairhope, and gives them opportunities and advantages that cannot be secured elsewhere.

Under separate cover I am sending you a copy of the Corporation's constitution and samples of its application for land and its lease contract. I hope you will find these of interest and that they will give you the information you desire, but should you desire special information on any particular thing please write me and I shall be glad to reply.

Very truly yours,

Secretary.

Attention Dr. C. A. Gaston:

Dear Cornie:

We have had an inquiry from Vera Noltensmeier, Ninth Grade, Elberta, Alabama, asking for information on the Fairhope Single Tax Corporation. We have told her that we would ask you to send any publication that you might have. We hope that you will find it convenient to do so.

Yours sincerely,

President.

KW:DP

Dec. 4, 1951

Mrs. Virginia Ruth Spiers Norris
114 Concord Place, Balcones Heights
San Antonio, Texas

Dear Mrs. Norris:

Your card was handed to me by Fairhope's city manager. Fairhope's city government is much the same as other city governments in Alabama, deriving its revenue from the sources provided by the statutes of the state. It is the program of our corporation that differentiates Fairhope from its sister communities in this and other areas.

We enclose herewith a copy of our constitution, application for land and lease contract, and also a copy of our 1950 annual report. These will give you an idea of our modus operandi. Under separate cover I am sending a copy of the June issue of The Alabama Local Government Journal and on pages 14 and 15 you will find an article "Fairhope's Single Tax Colony" setting forth our fundamental principles and their influence in Fairhope.

The failure of government to collect the full rental value of the land which is the common property of all mankind, makes it profitable to buy land for speculative gain. This interferes with the free enterprise of both individuals and corporations who must have land on which to carry on their productive enterprises. This interference with selfsustaining production has created all sorts of individual problems and deficiencies that governments have been pressurized to relieve with subsidies and unnatural controls. These are expensive and can only be supported with funds raised by government levies and on the productive enterprise of the people, levies that have no foundation in justice or equity.

Not only do we believe that our system would work satisfactorily for the United States as a whole with all its political subdivisions, but we believe that our continued failure to apply it must result in the continued extension of dictatorial powers of government. As we are seeing these dictatorial powers are invading the entire field of production and distribution. When government denies or participates in the denial of full free enterprise in the field of production an obligation devolves upon it to assume responsibility for the resultant wantx that results from such restriction.

Also as a result of government practice of deriving revenue from its levies on the products of labor and industry and its

direct and indirect restriction of free enterprise in the field of production there is a desire and a demand for favoritism both in the enactment of laws and in their enforcement. In large part the present widespread corruption prevalent in all departments of government may be attributed to those who seek favoritism from government in the field of legislation and in the field of enforcement. Nor can we blame the acts of individuals and corporations who seek favoritism wholly on greedy selfishness. In some instances the continued productive activity of the individual or corporation depends on securing such favoritism.

There may be good grounds for the belief of many public revenue students that taxation of land values would bring to government far less revenue than do the existing multiple revenue laws. However the cost of administering such a uniform and simplified revenue program would be far less. Also, if as we believe, the taxation of land values, would force all unused land upon the market at a price attractive to both labor and industrial capital demand for government funds would be cut to the minimum required to support the essential functions of government. We believe we would find that the essential functions of government would be found to be only the protection of life and property and the performance by government of such services as individuals cannot by themselves perform for themselves or secure from other individuals.

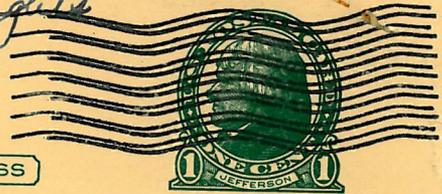

For a better understanding you should secure and read Henry George's books which I feel sure you may find in your public library. Our concept of a democratic government is that it should be dependent upon and directed by the people. How rapidly are the people becoming dependent upon and directed by the government?

Sincerely yours,

Secretary

P. S. We like to believe that the main reason for neglect of this sound principle is lack of knowledge. However there are many selfish interests, primarily those who are interested in maintaining for themselves monopoly privileges, secured from government, that would want no such reform.

May 19, 1944

Dear Mr. Magruder,

Thanks for your fine letter and the clippings inclosed. Henry Black may have read "Progress and Poverty" but he did not study it to understand it. I suspect that like so many others he read it to find errors in it. Mr. Black has managed to crowd more errors into this five inch clipping than all of George's opponents have found in all of George's ten volumes in sixty years.

Though I have never been to Fairhope I am one of the early members of the colony. Unless the war industries have boomed some other small towns in Alabama, Fairhope is the best and most prosperous town in the state. It cannot, however, demonstrate single tax, no town can with the federal tax bandits at large. These bandits are hell bent on destroying us all, fairhope included. Also like other towns Fairhope has been pestered more or less by the influence of the socialists.

Were not the paragraph you quote from David Starr Jordan revealing? What he really asked George was how to apply the single tax without applying it. Jordan does not want land values ~~destroyed~~ destroyed. But land values is the capitalized net rent, that is, the amount of public funds ~~the~~ the title holder to land can put in his pockets and keep. I suppose the questions Jordan raised have been answered ten thousand times. How to substitute single tax for the old system? Is there anything in the world that could be simpler? Just abolish all other taxes, or I should say, just abolish all taxes, and collect the rent. The rent sharks who enjoy living on public funds, raise an issue made to their order. Namely how the division should be made of the rent between the city or county, and state and the federal government. As to the state and its subdivisions that would soon be adjusted, that is a home problem that the people can see and handle. The federal government is an all-consuming monster and if left to Washington they would take all the rent and look for more. That is why the bill introduced by Eberharter to enact a constitutional amendment, is bad. The Cullman proposal for the division is sound.

The Democrats will have to nominate the spendthrift playboy again, since he has killed off all competitors in his own party. I think the Republicans will win in November no matter whom they nominate. I hope he will turn out to be so weak that the Congress will be supreme. Then the state and the people may check this crazy craving for world empire that animates the present chief and his war mongrels.

Yours ever,

A W Noren

May 16, 1944

Editor, The Post-Gazette,

Your paper on May 15, carried a news item quoting Mr. Wm. Green as wanting: "broad, comprehensive social security" legislation. He did not say who should pay for it, but since he also wants, "the exercise of good judgement and sound discretion in the imposition of taxes", we assume he would use the money the federal government levies on the earnings of labor. The federal government levies taxes from no other source though it collects it under various disguises.

Mr. Green says also: "The federal treasury would gain through the pursuit of such a policy and private industry would be accorded an opportunity to provide funds for the purpose of financing itself".

It appears to be up to Mr. Green to show how private industry can finance itself with the money the federal government takes away. And he hopes these policies will promote what he calls full employment, ignoring the fact that by as many dollars as the government takes in taxes, by that many it reduces employment by taking away labor's wages, its sole purchasing power.

Taxes buy only politicians, not food and clothes.

We are so used to hear labor leaders talk through their hats that we expect nothing else from them. They are the modern magicians. Why pay good money to see the Thurltons while the Greens are at large?

TOWN OF FAIRHOPE

PHONE 51-J

Fairhope, Alabama

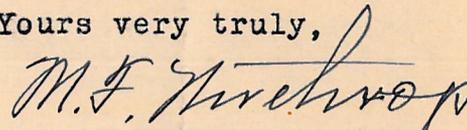

February 7, 1934

Fairhope Single Tax Corporation
Fairhope, Alabama

Gentlemen:

I have been authorized by the Town Council to make the following offer for approximately 100 acres of land necessary for a Landing Field on the 160 acre tract east of Fairhope which has been discussed for that purpose. The Town will pay you \$15.00 per acre for the land which they find necessary to use, giving you a warrant for same bearing 6% interest and to be retired within the five years, with the understanding that you are to have the option of repurchasing the land at the same price should it cease to be used for the purpose intended. This offer is made subject to the provision that we find your site acceptable and necessary.

Yours very truly,

M. F. Northrop, Mayor

February 21, 1934.

M. F. Northrop,
Mayor of Town of Fairhope.

Dear Sir:

The Executive Council of this Corporation had its first meeting since receipt of your communication of Feb. 7 making a tentative proposition for acquirement of land of this Corporation in Section 15, 6 S. 2 E., as a site for an aeroplane landing field.

Your proposition was not found acceptable by the Council, but the following was agreed upon to submit to you and your Council, as a counter proposition:

To lease the Town under its usual form of lease such portion of land in NW. $\frac{1}{4}$ of Sec. 15, as desired, with option of purchase within five years at \$25 an acre, provided that if any of the land desired is in possession of a lessee, any damages sustained by him, because of improvements taken shall be borne by the Town

If this proposition is interesting definite figures of rental would be furnished as soon as definite selection of land is made defects rate d, etc. The present rate in the locality for good land is approx. \$2 an acre, deduction of $\frac{1}{3}$ to $\frac{2}{3}$ for defects.

Respectfully yours,

THE FAIRHOPE SINGLE TAX CORPOR'N

By _____
President.

E. B. Gaston, Secretary.

Sept. 21, 1940

Mrs. Ivy Powell Norton,
Fairhope, Alabama,

Dear Mrs. Norton:

When the proposed transfer from Mrs. McArthur to you was brought before the Council it was suggested that I see what might be accomplished in working out a satisfactory agreement by way of a sublease instead of an outright transfer.

The reason for this is that the lot remaining to Mrs. McArthur will be of such shallow depth as to be unsatisfactory to the average lessee. While the present lessee is desirous of having just as little land as possible, making the arrangement altogether satisfactory to her such unusual division of its lands, has in the past, brought criticism on the Corporation.

Please let me know what you think of this. I am enclosing herewith a suggested form of lease for such subletting as is suggested and if something along that line is worked out I would suggest it be made in triplicate, copies being furnished to the lessee, the lessor and the Corporation.

Very truly yours,

Secretary.

Fairhope, Alabama
December 14, 1942

Regional OPA Director
Mobile, Alabama

Dear Sir:

When the price fixing bill was passed by Congress it is my recollection that it provided for national rent control and that pursuant thereto it was directed that rents in sections not previously under control could not be higher than that charged for the month of April, 1942. It is my recollection that it was ordered effective with November rent.

I have a rental cottage that I rented to a tenant in July 1941 at a monthly rental of \$17.50. I raised the rent for the month of August this year to \$22.50 a month without furnishing additional service. Must I reduce my rental charge as of November to \$17.50?

Very truly yours,

Dec. 11, 1939.

Mr. Al Oberg,
Fairhope, Ala.,

Dear Al:

I should have gotten word to you earlier but I had expected you in last Friday or Saturday. Mr. Smith made a report which was discussed by the Council who fixed the physical defect on the land at $2/3$ off on 11 acres and $1/3$ off on the balance of 29 acres. At the present rental rate of \$1.00 per acre this would make a total rent of \$21.00 on the forty, one half of which, \$10.50 should accompany your application.

It is estimated that the marketable timber on the forty has a present market value of \$127.50. The next meeting of the council will be on the 21st of this month at which time we shall be glad to consider your application.

Yours very truly,

Nov. 16, 1938.

Mr. And Mrs. C. A. Oberg,
Fairhope, Ala.,

Dear Mr. and Mrs. Oberg:-

I neglected to tell you yesterday that it would be necessary to appraise the value of the timber on the land applied for by you and to bill you for the same.

Agents of the Corporation went on the land yesterday afternoon and have estimated that the timber on the sixty acres you applied for has a value of \$100.00 and if that valuation is approved by the Council it will be necessary for you to pay that amount to secure you in possession of a lease to the land.

If it is not possible, or convenient to pay the full amount at this time I am sure we ~~can~~ can come to agreeable terms. It is certain that much of the timber can be sold for cash immediately or it will produce revenue sale of terperentine privileges. There is now a lease to Mr. Gooden which will take 30 days to terminate but which can be transferred to you should you so desire.

Very truly yours,

Secretary.

APPLICATION FOR LAND

—of—

Fairhope Single Tax Corporation

Fairhope, Ala., Nov. 15th, 1938

TO THE EXECUTIVE COUNCIL
FAIRHOPE SINGLE TAX CORPORATION

We the undersigned, hereby make application for lease of

South half of northwest quarter of South-
west Quarter and southwest quarter of South-
west Quarter of Sec. 22-6-2 for our joint
lives and to the survivor

upon the terms and conditions set forth in the leases given by you, and the further stipulations set forth in this application, which are hereby made a part of my lease contract as fully as if printed in the lease.

I make this application with the full knowledge that I will be required to pay your Corporation the full rental value of the land exclusive of my improvements thereon. I understand that the rental value will increase as demand for the land increases, whatever the cause; that said value will be determined by the Corporation in the manner set forth in its constitution and lease contracts; that the corporation will pay all taxes on the land, and will accept from lessees on rent, receipts for taxes paid to state, county, town, or school district, on improvements and personal property (moneys and credits excepted) held upon leaseholds, but not to an amount greater for any year than the rent for such year on the land on which such improvements and personal property are held; and that the balance will be spent for the public good as provided in its constitution.

I further particularly state that I understand the purpose of the Single Tax Corporation to be to prevent anyone profiting from the holding of its land, other than by the bona fide use of the same, and respecting this purpose, of which I am beneficiary, in the Corporation making land available to me without any purchase price and recognizing further that it is to my interest that what is commonly known as "land speculation" shall be kept out of the "Single Tax Colony" conducted by the Corporation, so that rents assessed against me shall not be affected by an artificial demand for land not for use, but for resale at a profit, I agree that I will neither ask nor accept a "bonus" for transfer of an unimproved leasehold and that the proved attempt to do so shall be cause for forfeiture of my lease to such unimproved land; nor will I charge an excessive price, out of any fair relation to the value of my improvements for transfer of an improved leasehold; and, recognizing that in the transfer of an improved leasehold there are necessarily two factors of value, one the improvements which are my property and the other the land upon which the same stand, which is not my property but the property of the Corporation, I agree to advise the Corporation, before a transfer of an improved leasehold shall be effective, of the exact consideration for the transaction and that the Corporation, if it believes the consideration to include in fact a profit for the transfer of the land which belongs to it, shall be entitled to examine me and the prospective purchaser as to the elements of value in the consideration and if satisfied that the consideration is in part for the possession of the land above the value of the improvements, may refuse approval of the transfer; in which event I shall be entitled to call for an appraisal of the value of my improvements by three disinterested persons, myself and the Corporation each choosing one out of three persons named by the other and the third being selected by the two; and the Corporation shall be required to approve the transfer at such consideration as the arbitrators shall find to be the real value of my property, if accepted by me; it being understood and agreed that every factor of value attaching to the premises proposed to be transferred due to my efforts or expenditures, or in any way to my initiative which is transferable, such as the good will of a going business, the exercise of taste in planning improvements or the making of grounds attractive, or the element of time and care in growing an orchard or shade trees, or making land more productive by improved methods of farming, or increment of value due to increasing cost of building, shall be held to inure to me as fully as tangible structures upon the land; the purpose being to protect the user and improver of land in the full ownership and right of transference of everything due to him, but to preserve to the Corporation all value due to demand for the land exclusive of improvements.

I have read your constitution and pledge myself that while I hold lease of Fairhope land I will not oppose the full application of the principles set forth therein.

Respectfully yours,

Mrs. C. A. Oberg
C. A. Oberg

Mrs. L. A. Oberg
L. A. Oberg

March 14, 1938.

Mrs. Albert Oberg,
Fairhope, Ala.

Dear Mrs. Oberg:

Due to my neglect your offer to settle for the trees cut on our lands by your boys at the rate of \$5 \$1.00 per tree for the five trees cut was not brought to the attention of the Council until its last meeting.

The council gave consideration to the fact reported by you that you had no knowledge that the trees were being cut from our lands without due authorization and agreed to accept your offer. However it is our intention to prosecute all future cases where the evidence secured is sufficient to bring conviction of any person guilty of trespass.

I shall expect to receive remittance from you at once and will issue a receipt for all charges in full.

Very truly yours,

Secretary.

CIRCUIT COURT OF MOBILE COUNTY

JAMES A. CRANE, REGISTER

MOBILE, ALA., July 24, 1936

Fairhope Single Tax Corp.
Fairhope, Alabama.

Gentlemen:

Enclosed is check for \$30.00 which I believe is the amount due on the lease to F.J. & Ethel M. O'Connor for Lot 5 in Blk 6 of Division 2 of Fairhope Single Tax corp.

Please send me a receipt for the above marked paid "for F.J. & Ethel M. O'Connor".

Yours truly,

James A. Crane
Register.

Recd # 3175 mailed July 27 '36

Mr. E. C. Walcott.

Fairhope, Single Tax, Corp.

Fairhope.
Ala.

Return to F. J. Connor.

1102 Choate St.

Winstell

Ala.

Mobile Ala.
April 8-36.

Mr. E C Walcott,

Dear Sir -

I am mailing you
the receipt for State & County
Taxes I payed and would you
please send me the Bill for
the last half of 1935. Land
Rent. I also would like to know
if you could tell me how
much I will owe Land rent
for this 1st half up to May 1st.
as we are about to close a deal

April 10, 1936.

Mrs. F. J. O'Connor
Mobile, Ala.

Dear Mrs. O'Connor:

In reply to yours of April 8, 1936, I enclose Treasurer's receipt for the county tax, together with a statement as requested and I hope the following will be sufficient answer to the balance of your communication.

To accomplish a transfer of your leasehold interest in lot 5, block 6, div 2 it will be necessary for you to send in your lease with the following statement over your signature, on the back of it.

Date _____

Executive Council,
Fairhope Single Tax Corp.,

I hereby transfer all my right, title and interest in the within lease to _____

Our records show a mortgage on this leasehold is held by Angela G. Norville and it will be necessary for you to show a mortgage release or consent of mortgagee to the transfer.

The purchaser will have to sign and return the application blank in duplicate inclosed herewith which should be returned with your copy of the lease.

If sale provides for deferred payments you may not desire to surrender your lease until the completion of such payments in which case you may send in a copy

of the contract for approval together with application signed by purchaser and we will issue lease on completion of purchase and surrender of your lease.

Very truly yours,

Secretary

Mr. C. A. Gaston
Fairhope, Alabama

Dear Mr. Gaston:

This will acknowledge receipt of your letter of December 14, 1942 addressed to the O. P. A. Director in Mobile, Alabama concerning rental conditions in Baldwin County which has been forwarded to us for our information and attention.

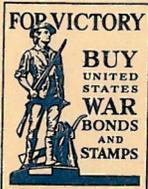

Baldwin County was designated as a Defense-Rental Area by the Administrator, Leon Henderson on October 5, 1942 at which time he recommended that rents be stabilized at the level of March 1, 1942, but he did not undertake actual Federal control of rents. Until Maximum Rent Regulations have been issued, or unless rents are otherwise controlled by some State or local action, the rent which is charged or paid is strictly a matter of agreement between the tenant and the landlord. The matter of evictions is also regulated by local law until Federal control is brought to your Area.

Attached you will find "Questions and Answers" set prepared for areas that have been designated Defense-Rental Areas, but in which actual Federal control of rents does not as yet exist.

Yours very truly,

Hal L. Smith,
Regional Rent Executive.

QUESTIONS AND ANSWERS ON
FEDERAL RENT CONTROL

Issued by
Office of Price Administration
Washington, D. C.

THIS FOLDER has been prepared for communities that have been designated Defense-Rental Areas, but in which actual Federal control of rents does not yet exist. After an Area has been designated, a 60-day waiting period is required by the Emergency Price Control Act before Federal rent control can be established.

- Q. Are any housing rents in my community now controlled by the Federal Government?
- A. No. The Administrator, on October 5, 1942, designated the Defense-Rental Area, which includes Baldwin County. He recommended that housing rents be stabilized at the level of March 1, 1942. He may later issue a Rent Regulation or order, freezing rents at this level, if his recommendations are not carried out within the 60-day waiting period required by law. Responsibility for reducing or stabilizing rents with the community itself, or with the State, during those 60 days. Federal control may become effective any time after the waiting period.
- Q. If my landlord increases my rent, must I pay the increase during the 60-day waiting period?
- A. Until the Administrator has issued a Maximum Rent Regulation, or unless rents are otherwise controlled by some State or local action, the rent which is charged or paid is a matter of agreement between the tenant and landlord. Many patriotic landlords, however, are already reducing rents without waiting for actual Federal control.
- Q. If Federal control comes, will I get any refund?
- A. No. In that event, you will thereafter pay no more than the legal rent, but you do not collect the difference between the legal rent and higher rents paid prior to the time Federal control is established.
- Q. What kind of rents is the Federal program designed to control?
- A. The Federal Government has authority to regulate rents for all housing accommodations in a Defense-Rental Area, whether for houses, flats, apartments, hotels, rooming and boarding houses, dormitories, auto camps or trailers. Any property used for dwelling purposes is subject to control.

- Q. Since the Defense-Rental Area in which I live was named, my landlord had reduced certain services he formerly supplied, such as heat and hot water, or has refused to fix the furnace, to repair holes in the roof, or to make other necessary repairs. What can I do about this?
- A. When Federal control of rents is actually effective in an Area, the landlords must furnish the same services, including ordinary repairs and maintenance, as he was furnishing on the Maximum Rent Date, unless he has permission from the proper Federal authorities to decrease services.
- Q. I am a landlord. I agree with the necessity for rent control as a war-time measure and want to help the program, but I feel that freezing rents as of the Maximum Rent Date recommended for this Area would work hardship on certain landlords. Why are different dates recommended for different Areas?
- A. In recommending Maximum Rent Date for each Area, the Office of Price Administration has proceeded on a purely objective basis. A wide variety of factors must be considered, such as the date defense activities began in an Area and the date when rent increases first became inconsistent with the purposes of the Emergency Price Control Act. Surveys of housing vacancies, migration of workers into an Area, questions of taxes and operating costs must all be carefully studied. Much time and thought have gone into each recommendation. In the judgment of the Administrator, the dates chosen are generally fair and equitable and will most effectively carry out the purposes of the Price Control Act during this war period.

REMEMBER**THERE IS AS YET NO FEDERAL CONTROL OF RENTS IN YOUR AREA. THE INFORMATION IN THIS FOLDER IS BASED ON REGULATIONS ISSUED FOR AREAS WHERE FEDERAL CONTROL IS NOW ESTABLISHED. IT DOES NOT ATTEMPT TO COVER ALL DETAILS. IF RENTS LATER BECOME REGULATED IN YOUR AREA, AFTER THE 60* DAY WAITING PERIOD, AN AREA RENT OFFICE WILL BE OPENED TO WHICH YOU MAY BRING FURTHER QUESTIONS.

WMB:ks

Mch. 23, 1949

Mr. Paul H. Oglivie
1348 24th Street
Des Moines 11, Iowa

Dear Mr. Oglivie:

Our librarian, Mrs. M. H. Lee, handed me your letter of March 17 for reply.

I am sure it will be interesting for you to know that, in large part, the Single Tax Colony here is a product of minds that received training at Drake University. My father Ernest B. Gaston attended the business school and my mother, then Clara L. Mershon attended the music school before they were married. The family bible reports they were married in November, 1887 when my father was twenty-six and my mother twenty-five so they must have graduated several years earlier. Neither are now living. We resided at University Place before coming to Alabama.

Early in the 1890s they and associates, in part brought together through their University association, formed a study group that took under consideration the prevailing economic structure. Spurred by the economic strain on their individual economic existence, as a result of the industrial depression that then existed, they decided to found and conduct an experimental solution.

I judge such information as you have concerning Colonies or Enclaves may be contained in the 1926 edition of Enclaves of Economic Rent, published by Fiske Warren, Harvard, Mass. The only Enclaves with which I have personal acquaintance and that I know to be still in existence are Fairhope and Arden, Delaware, though I believe it probable that Free Acres, Route 1, Scotch Plains N. J., is still in operation.

The Fairhope Colony is the largest and I believe it is continuing to grow more rapidly than any of the others. Fairhope is not a colony in the generally accepted application of the term. Our corporation exercises no influence on the social, commercial or industrial activities of the community. Such are altogether the accomplishment of the individual members of the community in the free exercise of their choice and self directed initiative. Our corporation depends wholly on its application of single tax principles to insure to all the opportunity for freedom of choice

and self directed initiative.

While Fairhope has no exclusive advantage as a result of its location it has grown to be the largest town in the county. Not only is it the largest but it is quite generally recognized as the most attractively developed, the most progressive and the most liberal. These results can in no degree be attributed to a community of superior beings. Only a very few can compare with the high degree of social responsibility ^{and} public welfare interest of the founders. The great majority were attracted by the availability of individual economic opportunity.

It is most encouraging to learn that you and many other students of today are devoting some attention to the single tax solution. I feel sure there is no other ^{known} means of correcting the economic inequalities that are so largely responsible for our present troubled times. Our national and international efforts to compensate for the legally supported unequal distribution of natural opportunity and government created privilege must lead to an ever increasing amount of government control and a corresponding loss of individual liberty and opportunity for self directed initiative. I cannot believe this to be the desired goal of civilized man.

I sincerely hope your study of the single tax may be satisfying to you and that you may be successful in preparing a paper that will bring credit both to you and the great cause you have chosen for a subject. I need not say I will be pleased to be of such further service as I may.

Sincerely yours,

Secretary

March 17, 1949

City Librarian
Fairhope, Alabama

Dear Sir:

I am a student at Drake University and am writing a term paper on the subject of "Single Tax".

I have been able to trace Single Tax Colonies or "Enclaves" only to the period of 1925.

I understand there was such a colony in your city and am interested to know if the plan is still in existence. If not, I would like to know if possible what year this type of economy was disbanded.

Would appreciate any information you can furnish on this subject. If there is any way I can reciprocate for your kind attention in this matter, please feel free to ask me. Thanking you in advance, I remain;

Sincerely
Paul H. Ogilvie

Miss Aline Ollinger,
1916 Gov't St.,
Mobile, Ala.,

Dear Miss Ollinger:-

Enclosed statement of your rent account showing record of transactions from Dec. 17, 1937 to the present date. I hope this will be clear to you but if it is not please write and we will try to clear it up.

I wish to call to your attention that the payments so far this year have not been sufficient to pay the current rent and I urge that you make considerable effort to get this account in better shape before the end of the year. I wish to call to your attention that the balance shown on the statement is some thirty dollars greater than it was Dec. 17.

We hope it is going to be possible for you to retain this property, at least until you can make a reasonable sale of it but we must insist that the indebtedness be reduced.

Very truly yours,

Secretary.

Mr. E. C. Wolcott Aug. 16, 1938
Dear Sir -

Find enclosed \$10⁰⁰ to apply
on rent of the Oelinger
property on Fels Ave.

Will you please send
me a statement of how
much we owe and
credit of how much we
have paid.

The last statement, as
I understood it - you
didn't give me credit
for the County and Town
taxes, which I thought
applied on the rent -

Thanking you very kindly
and will do better in the future
Miss/Uline Oelinger - 1916 - Court St.

Rec'd #6156 mailed Aug 19

August 4, 1937

Misses Ollinger
Mobile, Ala.

Dear Lessees:

Following the appearance of your brother-in-law, Mr. Frank Hatcher, before the Executive Council of our Corporation, July 23, seeking some adjustment of your large delinquent rent account, a committee was appointed to appraise the improvements on your lot 10 and to make recommendations.

The Committee reported to the council Monday night recommending such terms as are set forth in the enclosed contract which I herewith present to you in accordance with instructions from the Council so to do.

Neither the committee nor the Council considered the improvements on the lot proposed to be surrendered of any consequential value or they would be any asset to the Corporation in finding a new lessee for the lot, but were appreciative of the extremity of the circumstances in your case. Since it was necessary for the Council to deviate substantially from the usual rules in such matters you will please give no publicity to the terms of this agreement.

Very truly yours,

Secretary

CAG/mg

This agreement, made the _____ day of August 1937, between the FAIRHOPE SINGLE TAX CORPORATION, of Fairhope, Alabama, hereafter known as the Corporation and Misses Margaret, Aline, and Wilhelmina Ollinger of Mobile, Ala, hereafter known as the Lessees WITNESSETH, that the Corporation, in consideration of the agreement of the Lessees hereinafter contained, agrees to accept the surrender of lot ten (10) block four (4), division two (2), by the Lessees, such surrender to be finally effective December 31, 1937, and at which time the Treasurer of the Corporation shall furnish the Lessees with a receipt for One Hundred (\$100.00) dollars credit on Lessee's rent account, in full payment for a all improvements of whatsoever character, inclusive of shrubs, trees and ornamental growths, which are now or may be located on said lot at such date of final surrender, and the said Lessees in consideration of the foregoing agreement by the Corporation contract and agree with the said Corporation that they, the Lessees, will present to the Executive Council, for approval their lease to lots nine (9) and ten (10), block four (4), division two (2) with proper endorsement on the back thereof, providing for the above named surrender and further that with the acceptance of this agreement they will pay to the Corporation's Treasurer ten (\$10.00) dollars to be applied on the delinquent rent account of said Lessees and that a like payment of ten (\$10.00) dollars will be made each and every Month until such delinquent rent account is fully and completely paid and discharged. Lessees agree also to pay annually the State, County and Municipal taxes levied upon their improvements and to turn over the receipts therefor to the Corporation for credit on the rent account.

In case the Lessees fail to make the above named payments monthly, or allow the taxes to the State, County or Town of Fairhope to get in arrears, then, in that event, this agreement shall be null and void, and the Corporation shall be free to resort to the terms and provisions of the lease contract for the collection of rent in the full amount then owed and inclusive of the one hundred (\$100.00) dollars theretofore allowed as credit for improvements on lot ten (10) unless such amount shall have been secured from a subsequent lessee thereto.

In witness whereof, we have hereunto set our hands and seals, the day and year first above mentioned.

Mr. E. B. Gaston

Dear Sir -

Your letter of the
9th received and greatly regret
that we have been unable
to pay our rent on property -
we have been great sufferers
from the depression and
if you will give us a
little more time we will
try and send something
by the first of the month
and so on something
every month, even if only
a little.

Please write and tell

us you wont see
our property.

Respectfully

(Miss) Almie Allinger
1916 Govt. St.
Mobile Ala.

Feb . 19, 1935

Miss Aline Ollinger,
1916 Government St.,
Mobile, Ala.

Dear Miss Ollinger:-

We were glad to get your letter of yesterday and learn that you are anxious to hold on to your property here and will make an extra effort to have some money for us by the first of the month. We need it greatly and will appreciate it. I am sure we have all of us suffered by the dreadful times thro which we are passing. One disadvantage to you Mobile people is having to pay the year round to keep your property here, while you only occupy it less than half the time. Of course we think that it is worth it all to spend the summers here, but that does not help to get the money.

I have just been down by the property, and find some repairs, but looks like a nice, roomy comfortable summer place.

The street was in good condition in front.

One thing I suggested at one time, was to surrender one of the lots, which would cut the rent in two. I looked at it with that in mind today and find that the house would have good room on each side, with the west lot surrendered. We would accept a surrender, but under our usual rule, which requires six months notice, meaning that rent would have to be paid for six months, after acceptance by our Executive Council of the surrender.

A better thing would be to get some friend Mobile friend to go in with you, take the west lot and build on out it, in which case he, or she, would pay that six months rent instead of you. That would bring the cost of each lot, including possession of the ground without having to invest in it, plus absorption in the rent of the taxes on the house and personal in shape of furniture. Then with this year you will be through with the charges for curb and gutter, which amounts to \$30.36 on an two lots, \$15.18 on one.

This year however we are going to pave Fels Ave. along with other main streets, which will also be assessed in part against the benefited lots, but at very small comparative cost.

Come over and talks the situation over with us, but do not fail to get all the money you can within the next two or three weeks.

Yours very truly,

Secretary.

Mr. L.
dup. 2
his statement

Aug. 3, 1935

The Misses Aline, Margaret and
Wilhelmina Ollinger,
1916 Government St.,
Mobile, Ala.

Ladies:-

In reply to your favor of Aug. 1.

Our Treasurer did not think it necessary in the statement first sent you to go back of the preceding year, but to satisfy you he has made a statement going back to Jan. 1, 1930, which I enclose herewith and I hope is clear to you.

In regard to your complaint of the charge against you being too high, your attention is called to the fact that in addition to the charges against you, the S.T. Corporation pays a considerable sum in taxes on the land, which have to be paid, but do not appear on your account. That you have 132 ft. of frontage on one of the most desirable streets on the Eastern Shore, and that included in your rent is ~~an annual~~ annual sum sufficient to pay in ten years one-half of the cost ~~of the~~ half of the grading and curb and gutter in front of your lots (the other half being paid out of its general rent fund by the colony corporation) which was voted unanimously by a large meeting of lessees affected before being undertaken.

This years rent includes the last payment on account of the curb and gutter referred to; but there will be included with next year's rent, a considerably less charge for paving from curb to curb, approved by lessees affected and payments running over ten years, with interest 4% instead of 6% as with the curb and gutter.

I think I have called your attention to the fact that your improvement occupied but one of your two lots and that by surrendering one of the lots you could cut your cost in two. Six months notice is required of desire to surrender any portion of a leasehold and the Corporation is entitled to reject a partial surrender which leaves the remainder undesirable, but I do not think that would be true in your case. I would bring before the Council your request in writing for surrender of either lot but approval of the request would not affect the amount now due.

- 2 -

My attention has just been called to the fact that by your failure to meet your rents there has been thrown on the Corporation during the ten years over \$150 which it had to advance to meet the street improvements as they became due.

And I am obliged to renew the notice of my former letter that at least payment of a substantial portion of the amount due and arrangement for further payments will be necessary to prevent some drastic action in the near future.

Most sincerely yours,

Secretary.

July 29, 1935.

M.A. and W.Ollinger,
1916 Government St.
Mobile, Ala.

Friends:-

I regret to have to advise you that the very delinquent rent on your leasehold on Fels Avenue has been called to attention of the Executive Council of this Corporation, with result that I am directed to advise you, that this condition cannot be allowed to continue and that unless within the next 30 days satisfactory arrangements have been made, by payment of at least a substantial ~~payment~~ portion of the balance as shown by Treasurer's statement enclosed and provision for further payments, the improvements and leasehold interest will be advertised for sale, for the delinquent rent, as by your lease provided.

We note that the property is rented this summer but we have not been offered any share of same, nor has any tax receipt been turned in for credit on the rent.

Hoping it will not be necessary to take the summary proceedings of which you are advised I am,

Yours very truly,

Secretary.

Mobile Ala Aug. 1, 1935.

Mr. E. B. Gaston
Fairhope Ala.

Dear Sir -

Your letter of July 29th with
Treasurer's statement received -
This statement shows no credits either
for cash paid or deductions for State,
County and Town taxes and we
assure you that there has been
some cash paid on this rental and
our taxes have been paid to Tax Collector
at Bay Minette, each year since we
purchased this property up to present
date -

We wish to pay the proper and
reasonable rent on our property and
if you will send us an itemized
statement with full deductions we
will give the matter our further
attention -

The yearly rental of \$96⁰⁰ you charge
is four times the amount of all other
taxes on this property and instead of
a single tax as advocated by

Henry George and Fairhope Single Tax Corp.
it appears to be more like confiscation
of property -

We are not people of means and the loss
of this property in any way would
mean a severe loss and we do not
intend to lose it if by paying a
reasonable and just rental will save
it, nor will we be willing to lose
it in any event if the law of justice
can help us.

You state in your letter that no tax
receipt has been turned in for
credit on the rent - Wish to say
that we happen to have here
before us one receipt from your
Mr Wilcott for taxes, dated Apr. 4th 1935
for \$2480 however this amount has not
been deducted from statement you
enclosed in your letter -

Please be fair to us Mr Gaston and
look into every phrase of this matter
thoroughly and if you do you will
see that we have shown a disposition
to pay our taxes and that the rental
asked for is reasonable.

yours very truly

(Miss) Almie Ellinger - 1916 South

March 10, 1937

Miss Margaret Ollinger
Mobile, Ala.

Dear Miss Ollinger:

I enclose delinquent tax notice from the County tax Collector and urge your immediate attention to payment of same.

When you get a receipt for payment be sure and send it right in to us for credit on your rent account, which I am sorry to note remains in a bad condition.

We feel that the present increased demand for property here should make it possible to sell at a reasonable price and if nothing is done by you we feel that it will be necessary for us to take some action.

Very truly yours,

Secretary

CAG/mg

November 2, 1940.

Mrs. G. E. Olson,
Fairhope, Ala.,

Dear Mrs. Olson:

Our treasurer discovered that he gave credit on your 1939 tax for your payment of an assessors fee of 50¢ and this has been charged back to your account. He also found that you were not entitled to credit on your 1940 tax receipt for the \$1.05 tax paid on the \$50.00 assessment of personal property, since this property was not on or a part of the leasehold improvements. Your account has therefore been charged with an excess credit of \$1.05 additional.

I also enclose a statement of your indebtedness as it now stands. I am sure you will appreciate that the total value of your improvements is such that little leeway of protection is left the Corporation should you continue to increase this indebtedness as has been the rule for the past several years. With an additional year's rent to be added with a couple of months we feel that we must insist on a substantial payment now and definite plans for paying off the balance.

We understand that you have an offer of \$200.00 for the improvements and it is our opinion that should we have to take it over for collection of the delinquent rent we would have difficulty getting more than that and at the rate of increase of indebtedness it would soon require that we get at least that much if we are to be paid in full.

Please give this matter your immediate consideration and let us know what we can expect of you.

Very truly yours,

Secretary.

*Paid in full
Nov. 11, 1940
G. E. Olson*

Dec. 3, 1936

Mrs. G. E. Olson
Fairhope, Ala.

Dear Madam:

Mr. Peacock was in my office this morning reporting the proposed acquirement by you of the leasehold interest of Mrs. Peacock adjoining your leasehold in Section two. I have drawn up an instrument through which Mrs. Peacock can make satisfactory transfer.

It appears that this can be accomplished by Mrs. Peacock taking the instrument to her and it also appearing that Mrs. Peacock will require positive evidence of your consent to the terms I have suggested that you post with ~~my~~ Treasurer the amount of purchase, he to give you a receipt as follows: Received of Mrs. G. E. Olson \$ _____ in full payment for the improvements of Mrs. Chaffer Peacock located on The east half of west half of southeast quarter of Southeast Quarter of Section two (2) Twp Six (6) S. P. 2 E., Baldwin County, Ala., to be paid to Mrs. Peacock upon satisfactory transfer to me of the title to such improvements. Should Mrs. Peacock fail in effecting such transfer, the amount above receipted for shall be returned in full to the said Mrs. G. E. Olson.

I believe this to be the best way to handle this matter since Mrs. Peacock is not present nor her exact address known.

Very truly yours,

Oct. 20, 1937

Mr. L. Olsen
816 W. Madison St.
Milwaukee, Wis.

Dear Sir:

So that you may understand our plan of leasing land, I am sending you a copy of our constitution, application for land and lease contract. Under separate cover I am sending other literature that will give you information as to climate, soil, crops etc.

The Single Tax Colony has agricultural lands that may be leased, the annual rental ranging from 85¢ to \$2.00 per acre. There are some improved leaseholds that may be purchased from present owners. A sample copy of the Fairhope Courier is being sent to you in which you will find cards of some of the local real estate men who have improved properties listed for sale with them.

The matter of taxes does not concern the ordinary lessee of the Single Tax Corporation since he is allowed to turn in the receipts for such taxes paid to apply on his rent. The rate in Baldwin County, however, is \$1.45 per 100 on homesteads having an assessed valuation up to \$2000.00 and \$2.10 per 100 on taxable personal property.

I consider that it is very much the best plan for prospective settlers to pay a visit to the community before purchasing property and hope it will be possible for you to do so.

Very truly yours,

0

William A. O'Neill,
4101 18th Ave., S.
Minneapolis, Minn.

Dear Sir:

The Fairhope Courier wishes to acknowledge receipt of your summary of Highlights of Henry George's "Progress and Poverty." Your work is commendable but we regret to state that works of such type do not appear to be very effective with our readers, except those who are already converted to the Single Tax.

We have found that the current news article that can carry a presentation of correct social economy is read by the greatest number. Articles such as yours, it appears are read mainly by our Singletax subscribers who are already converted. While they may receive new incentive to work more diligently for the cause, more often some one of them finds some minor point of difference and we not infrequently find ourselves involved in endless controversy.

It seems strange that our leaders in state and nation should attempt so many impossible ways of correcting the economic ills of the nation. The framing of these measures must require a great amount of thought and study and it would appear that surely they would see this simple plan which would supply adequate public revenue and at the same time balance our economic system.

Fairhope has demonstrated that even a partial application of this law benefits proportionately. Unlike some of the local decrees that burden the localities with excessive competition from other sections, only advantages accrue to the locality where this law is put into operation.

We are sorry not to feel able to print your article but I am taking the liberty of filing it with my literature on Henry George and his works.

With sincere regards for your good work and the hope that you find a field in which it will be effective, I am

Very truly yours,

C. A. Gaston

Jan. 26, 1939.

Mr. Peter W. Oppenheimer,
% Albert Yancey, Jr.,
Rugby Place,
Charlottesville, Va.,

Dear Sir:-

In reply to your recent communication concerning the Single Tax at Fairhope I am, under separate cover sending you such printed material as we have in which you might find assistance. Additional material might be secured by writing to Town Clerk, Arden, Delaware and to Hamilton Warren, Takanto, Harvard, Mass. You might also write to the Secretary Free Acres Association, R. F. D., Route 1, Scotch Plains, N. J.

At Fairhope we feel that ample testimony has been given the efficacy of the Single Tax policy in deriving public revenue through the collection of the socially created rent value rather than levying taxes on the privately created wealth resulting from individual initiative.

Fairhope was founded in 1895 on the least desirable site on the eastern shore of Mobile Bay and it is now the largest and most progressive and most highly developed community in the entire county. Fairhope has no peculiar natural advantages not shared by other sections and has transportation facilities inferior to some of the others and the productivity of its lands ~~xxx~~ is also inferior to some other sections but these disadvantages are overcome by making the lands more available through the elimination of speculative values and the relief from a considerable portion of the tax burden.

There is clamor on all sides for "incentive taxation", but as I wrote another student recently: "There is no such thing as incentive taxation; taxes must always be burdensome while the collection of the full economic rent (see Webster's New International Dictionary) encourages the most productive use of every natural resource, resulting in the fullest employment of labor and of capital."

In addition to other material I am sending you a copy of the Fairhope Courier containing the minutes of the last annual meeting of the membership of the Corporation in which you may find some material of interest and I invite you to communicate further with me should there be any special information you may desire.

Very truly yours,

Dear Sir;

In conection with my course in Public Finance I am writting a paper on the single tax. I am trying to cover the subject fully from the time of the writting of ~~the~~/single "Progress and Poverty" to the present day, and wish to include the result of single tax experiments.

I would greatly appreciate it if you could send me some information about Fairhope, and the workings of the single tax there. Also there is no information in the University of Virginia Library of other single tax experiments. I should also appreciate anything you can send me on this line.

I have not suficent funds to purchase any books, but I will be glad to pay any mailing or printing charges for the material.

Thanking you very much, and hoping for a quick reply I remain,

yours truly

Peter Oppenheimer

Nov. 5, 1948

Mr. Malcolm C. Otten
46 Tunstall Road
Scarsdale, New York

Dear Mr. Otten:

Our postmaster handed me your letter of October 26 with request that I reply.

In 1894, a group of young people, victims of the economic depression that was prevailing in our country at that time, engaged in a study of the causes of their and the country's economic distress. In the course of their enquiry they came upon the economic solution proposed by Henry George.

The single tax appealed to them more than others studied because under it they believed they might preserve a greater degree of individual liberty. An association was formed and it was ~~next~~ named the Fairhope Industrial Association. Incorporation was at Des Moines, Iowa, in the Spring of 1894, Des Moines being the home of several of the incorporators, among them my parents, Ernest B. and Clara M. Gaston.

It being decided to found a colony in which their beliefs would be put to the test of practice a committee reported on the present location of Fairhope and the first party of colonists arrived in November, 1894, just 54 years ago. Responsible for the name of the community was their fair hope of success. While this hope was dimmed from time to time by hardships, common to all who attempt to establish themselves in a strange and undeveloped area, and particularly where the natural productive level is not high as well as the internal personal dissensions and conflict that are quite as common, perseverance has resulted in justification of the name of our town.

Under separate cover I am sending printed material I feel sure you will find of interest.

Very truly yours,

Secretary

Oct. 26,

Dear Postmaster,

Enclosed is a self-addressed,

SINCE NONE CAN BENEFIT FROM LAND EXCEPT THROUGH ITS USE ALL IDLE LAND IS AVAILABLE TO THE NEWCOMER AND THE GROWTH OF THE COMMUNITY IS NOT RESTRICTED BY SPECULATION IN LAND.

COLONY CITIZENS, HAVING NO INCENTIVE TO INVEST IN SITES FOR THE COLLECTION OF THE SOCIAL VALUES SURE TO RESULT FROM THE GROWTH OF THE COMMUNITY INVEST THEIR AVAILABLE CAPITAL IN BETTER IMPROVEMENTS REQUIRING GREATER EMPLOYMENT OF LABOR AND USE OF LABOR PRODUCED MATERIALS.

FAIRHOPE SINGLE TAX CORPORATION

Map. Springs 5/11/11

Dear Dr. Easton:

Here is the proof on your copy. What would you like them to do about capitalizing propositions, articles, etc? All initials caps, or all the minor words with lower case initials? Or do you want the entire copy (all letters) in caps as you types it? I won't ~~set~~ give any instructions until we hear from you.

Cordially yours,

Nathan Overton
Postoffice box 54
Magnolia Springs

May 19, 1938.

Dear Mr. Overton:

I am in receipt of the proof of the ad and wish to state that I do not like the use of Capital initials throughout.

I am sorry that the change will necessitate the resetting but I feel sure that it will look much better to follow the regular style of using capital initials only on proper names and at the beginning of sentences.

I presume I am somewhat at fault for having as written the copy in caps.

In every other respect the proof is all right except that I believe it would be best to give the address, Fairhope, Alabama, at the bottom.

Very truly yours,

Secretary.

Feb. 24, 1950

E. B. Overton Real Estate Office
Fairhope, Alabama

Gentlemen:

It has come to our attention that some lessees of unimproved lots have offered to transfer their leases in consideration of a bonus payment. As you know, the lessee, in making application for his lease, agrees that he will neither ask nor accept a bonus for the transfer of an unimproved leasehold and that his proved attempt to do so will be cause for the forfeiture of his lease to such unimproved leasehold.

At its meeting of February 16, the Council directed me to write to all lessees whose leases to unimproved lots had been in effect for more than two years and remind them of their agreement. This has been done and every such lessee has been furnished marked copies of the application, lease and constitution such as I am enclosing herewith.

The Council believes it is necessary to discourage every hope of profit through the transfer of unimproved leaseholds. It believes that Fairhope's phenomenal success, as compared with other shore communities, is due to the easier access to land here, made possible by the Single Tax Colony plan.

Fairhope is still growing and the demand for land increasing. If holders of unimproved lots are allowed to collect a bonus for the transfer of their leases, or even to require payment to them of the rent they paid while holding the land out of use, an unnatural limitation will be placed on Fairhope's opportunity for future growth and all business will suffer.

While all business will suffer because of the interference with a normal growth in population it will effect the real estate and insurance business most directly. It will mean fewer houses to rent and sell. It will mean the sale of less fire and property insurance. Vacant lots purchase no fire and property insurance.

We hope you will be convinced of the soundness of the foregoing conclusions and that we may have your cooperation in enforcing the terms of our lease agreements.

Very truly yours,

Secretary

Magnolia Springs
Alabama

January 2, 1938

Dear Cornie Gaston:

I can well imagine that you are being swamped there in Fairhope with advice and suggestions regarding the future of the Organic School, when of course what the school needs is not advice, but some good, fat cheques. May the gods grant that you will hear from people with fatter purses than mine, who will send their cheques along and keep their suggestions at home! But from me, alas, you will get only a suggestion.

This is it: If funds should not arise for continuance of the school full blast and full size, don't lose it altogether if you can help it, but (as a last measure) save the core of it so that Fairhope will still have an Organic School. If you can save only the kindergarten and a few life classes, with curtailed enrollment, why, you have still got an Organic School for Fairhope for the time being; and with that nucleus for future growth you have always the possibility of adding life classes as time goes by. No doubt two or three of your best and most devoted teachers would accept temporarily curtailed salaries as an emergency measure to help out. You could use any sizeable cottage or house for a temporary school if you lose the buildings now in use. Then, with low rent (or perhaps none at all?), with simple and inexpensive equipment, you could get your budget down where it would perhaps be in sight. Thus perhaps you could save the school for Fairhope and gain time for the emergence from your faculty, or elsewhere, of a new leader to carry on Mrs. Johnson's work.

Suppose the school were compelled to occupy other quarters under this plan, and you were able to keep several of the younger boarding pupils in the enrollment -- the ones young enough to fit into the salvaged life classes. Their enrollment and boarding fees are at once something to begin with, possibly a fair amount towards the entire maintenance of a modest plan. Suppose further your teachers would cooperate on a housekeeping plan in some suitable cottage, with classes downstairs and a ^{boarding school} dormitory upstairs. For day pupils you could undoubtedly count on a loyal group of Fairhope boys and girls. Their small fees as day pupils would help some. Perhaps you could count on a few small donated sums. And so you begin to get to a point where maybe (if your budget be not too large)

the Town, the Corporation, the Chamber of Commerce and other community organizations might feel they could join to make up the necessary balance by contributing, say, small monthly sums.

Mind, I'm not suggesting this compromise plan unless you come to the point where you have to adopt some emergency measure or lose the school. But temporary retrenchment to get on solid ground and avoid complete defeat is often a good tactical move; and if you should be still lacking a better plan, is perhaps at least an idea. In the meanwhile, it seems to me the main thing to bear in mind may be this,- A going thing has a certain momentum to it which one does well to take advantage of. By somehow keeping the ball rolling at this time, you best give opportunity for new momentum and new growth to gather behind the altered circumstances and new conditions.

Heaven forbid that I should seem to suggest that you might, now or later, find a Mrs. Johnson growing on every bush! Or that I should seem not to appreciate the fact that her matchless personality was the Organic School! But perhaps the school can still survive and carry on her work; and what fitter tribute to her memory could Fairhope offer than a re-vitalized, regenerated Organic School, keeping alive her memory and carrying on her work through future years? Surely nothing would have pleased her more than that.

I say nothing here about the publicity value and tourist value to Fairhope of keeping alive the name "Organic School". Surely any attempt at exhortation along that line would be carrying coals to Newcastle with a vengeance.

However, to resume,- my thought is this: If the school finds itself faced with a situation somewhat like Hamlet's, To be (-as it is) or not to be (-at all), then it must surely choose the former. But if that be impossible, what then? Why, to be (-as it once was) smaller; but compact, sound and solid; content to be small again for the time being, so that it can grow big again on a foundation that will be the gradual out-growth of the new circumstances as the circumstances themselves grow and expand in the years ahead. *but still to be*

Best of luck to you with these problems, and with hearty New Year's greetings to you and prosperity to all the optimistic and forward-looking ideas for which Fairhope stands,

Sincerely yours,

Walter Overton

Dear Mr. Gaston

I wish to thank you for your letter of March 16 and for the material sent with it, which is very full. It arrives in time for our real brass tacks meeting to be held on the 28th instant, and I hope my colleagues will feel that they can adapt the Fairhope principles to our proposition which is a summer colony and not an all-year round one like yours.

Congratulations are due you seeing that your enterprise has successfully rounded out fifty years.

If directed by the meeting, we may take advantage of your kind offer to furnish further information on any specific point.

Very sincerely,

Herbert J. Owens

Mr. C. A. Gaston

Mrs. Marie B. Owen, Director
Deapt. of Archives and History
Montgomery, Alabama

Dear Mrs. Owen:

Under separate cover I am addressing to Darrell Hollis, in your care, a copy of the constitution of the Fairhope Single Tax Corporation, our application for land and our lease contract; also a brief history written by my father to use in an address made by him on the Quarter Centennial Anniversary of the Colony but containing additional material carrying on to 1932.

I am enclosing herewith a copy of an address I made in Chicago the last of September and which I thought you might be interested to read before passing it on.

Should any of Fairhope material be used in the publication I would greatly appreciate information when it is available. If I can be of any service to the writer please tender my services.

Sincerely yours,

Secretary.

IN REPLY REFER TO FILE NO.

October 30, 1941.

Mr. C. D. Gaston, Secretary,
Fairhope Single Tax Corporation,
Fairhope, Alabama

My dear Mr. Gaston:

Upon the receipt of your letter I called the Fairhope Single Tax Colony to the attention of a friend of mine who is assembling material for a novelette or long short story. This party is very anxious to get a copy of your constitution and to have as full a report of the operations of the Fairhope Colony as you can furnish without too much trouble.

I suggest that you comply with this request as the party wants it for publication. The name, however, of Fairhope will not be used but only the philosophy of the colony.

The address of the party referred to is: Derrell Hollis, who can be reached in my care in this building.

Very respectfully,

Marie B. Owen

Director.

O/vs

Oct. 23, 1941

Mrs. Marie B. Owen, Director
Department of Archives and History
State of Alabama
Montgomery, Alabama

Dear Mrs. Owen:

Your cordial letter of June 25 was duly received and no reply was made at that time because I had already delivered to your department the first three volumes of the minutes of this corporation.

I note from previous correspondence that these were delivered in January 1927 and I have a letter from Mr. Darden stating that they are there and that he would assign a typist to the task of copying them, the copies to be delivered to us when completed.

Evidently these have not yet been completed since no copies have been received by us. I assure you we appreciate the interest your department has shown in Fairhope. And we feel confident that the preservation of the history of Fairhope's demonstration is of high social value.

It appears to be evident to us that the partial application of democracy in our nation cannot but be found wanting in adequacy to meet the social and economic needs of our people. Unlike others who have become convinced that the remedy is to discard democracy we are convinced that the only possible remedy for a free people is to make a further extension of democracy.

This is what has been done at Fairhope and if the economics departments of our state institutions earnestly studied the plan and its local effects and ably presented the conclusions to the students Alabama might lead this nation and the world out of the dilemma which threatens our civilization. We are confident that in Fairhope's demonstration can be found the answer to the riddle of which Henry George wrote: "It is the riddle which the Sphinx of Fate puts to our civilization, and which not to answer is to be destroyed."

If this civilization will not profit by our demonstration let's preserve it for posterity. We would be honored and pleased to have you visit Fairhope again.

Most sincerely yours,

Secretary

IN REPLY REFER TO FILE NO.

Dr. C. A. Gaston,
Fairhope, Ala.

Dear Dr. Gaston:

Mr. David Darden, a field representative of the Department of Archives and History, tells me that he had a very pleasant visit with you during his recent stay on the coast in the interest of our work.

In his written report to the Director after his return, he stated that the Fairhope Single Tax Association would be willing to turn over its original minutes to the Alabama State Department of Archives and History for permanent preservation in this fireproof building if we would furnish two copies for your permanent files and current use. We will be very happy to do this and I will look forward to the receipt of the minutes at your earliest convenience. It will be entirely satisfactory to us for you to send one volume at the time. As Mr. Darden explained to you, Dr. Charles Davis, of the A.P.I., is no longer collecting for the Department. Mr. Darden has written you that we have three volumes of Fairhope minutes.

I have a full appreciation of the fine type of your colonists and we will be very happy indeed to assist you in any way we can in preserving your history as we realize your colony had noble and economic purposes as its foundation impulse.

I trust that you and your family and friends will make a pilgrimage to Montgomery especially to see the Department of Archives and History. We are open every day during state business hours and on Saturday and Sunday afternoons.

With all good wishes and remembering meeting you when I was once in Fairhope, I am,

Most sincerely,

Marie B. Owen

Director.

Dr. C. A. Gaston, Secretary
Fairhope Single Tax Association
Fairhope, Alabama

Dear Dr. Gaston:

Upon returning to Montgomery I found Volumes I, II, and III of the minutes of the Fairhope Industrial Association. I have already assigned a typist the task of copying these volumes, and you will receive the requested two copies as soon as it is finished.

We are very much interested in obtaining any letters, personal or otherwise; diaries; scrap-books; old business ledgers and other records; minutes of organizations; maps; family histories; and any other materials pertaining to the history and people of and about Alabama.

I am looking forward to showing you our new fire-proof building on your first visit to Montgomery.

Cordially yours,

David L. Darden
Division of Maps and Manuscripts

DLD/f

Mch. 16, 1946

Mr. Herbert T. Owens
495 Metcalfe St.
Ottawa, Ontario, Can.

Dear Mr. Owens:

I very much regret my delay in replying to your letter of enquiry addressed to The Fairhope Courier Jan. 28. Urgent office detail at the time of receipt made it necessary.

I hope it will be possible for you to carry out your proposed plan for land management of your site. Fairhope had no problem similar to yours. The land was purchased by and for the corporation, with funds derived largely through the sale of membership certificates. Members retain no individual interest in the land nor is there any provision for repayment to them of the amount (\$100.00) contributed.

Fairhope differs from the community you propose in that there was no prearranged plan or purpose other than to make land freely available on equal terms, to individuals or corporations, on which they might develop their individual plans for the satisfaction of their needs and desires. The only restrictions on use are those stated in paragraph (2) of the lease (copy enclosed).

Rent and the natural ^{or}tendencies of individuals has tended to give satisfactory results. Those who intend more expensive and substantial improvements select sites in the higher rent sections while those ^{who} either do not desire or cannot afford such improvements select sites where the rent is low.

Enclosed and under separate cover I am sending material I am sure you will find of interest and I believe you will find all or most of your questions answered therein. I will be pleased to hear further from you and to furnish any other specific information you may desire.

Very truly yours,

Secretary

495 Metcalfe Street,
Ottawa, Ont., January 28, 1946.

The Manager,
The Fairhope Courier,
Fairhope, Ala.

Dear Sir:

The writer has been well known in Georgeist circles in Canada for some years, and has known of the Single Tax colony at Fairhope for a long time. A tract of land has been secured on the Rideau river, about forty miles south of Ottawa, which is to be developed for summer conference purposes primarily, but is also to serve as a camp site and as sites for cottages.

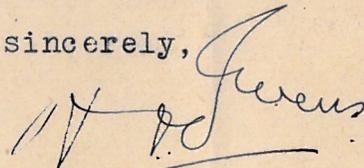

The idea held by most of my colleagues at first was to sell enough lots to pay for the land, but I have been trying to persuade them that it would be better to hold the tract intact, and lease sites or pitches. What they would pay for a site would be used to buy shares in the corporation instead, and the leases would be long enough to give security of tenure for improvers.

As I do not know whom to address, would you be good enough to ask the proper party to send us some information on the following lines:

1. a sample lease or contract with your site-holders;
2. in cases where an improver wishes to sell out, how do you dispose of his improvement, or produce the value at the time of selling out. Does the corporation buy it or finance it by its credit ?
3. a sample annual report of finances, say of your last annual meeting.
4. any printed historical account of the inception and development of the colony to date.
5. any advice, as to pitfalls to avoid, etc., arising out of the experience of the colony.
6. where a siteholder does not meet the annual levies of the corporation, what recourse have you -- breach of contract suit, seizure of his improvement ?
7. Some information about the community features, such as the golf course and club-house, rates of which are so low as compared with commercial ventures.

I shall greatly appreciate any information that you may be able to send me for the purposes stated.

Very sincerely,

Herbert T. Owens.

January 25, 1937

Mr. Charles S. Davis
Chief Accessions Division
Department of Archives and History
Montgomery, Ala.

Dear Sir:

I am sending you this day the first three minute books of the Fairhope Industrial Ass'n. This record does not appear to be altogether complete but covers the period from Jan 4, 1894 to Jan. 9, 1899.

I suggest that a receipt be given to the Corporation something as follows:

"Received of Fairhope Single Tax Corporation Volumes one (1), two (2) and three (3) of the Secretary's minutes of meetings of the Executive Council of the Fairhope Industrial Ass'n., for the purpose of preservation and safekeeping, it being fully understood that title to same remains in the Fairhope Single Tax Corp., of Fairhope, Alabama."

I suggest that above be notarized so that it can be recorded.

My understanding is that we are to have two copies, one for our record and one for our public library.

I hope that you will be able to come down here some time when you have time to see what other or our records you would like to have. I assure you that my neglect has not been due to any lack of appreciation of your interest and the service rendered by your department.

Very truly yours,

Secretary

TREASURER

ALAN C. THOMPSON

The Editor,
The Fairhope Courier,
Fairhope, Ala.

Dear Sir:

In your issue of May 12 there is a paragraph on page 4 "Penalties on Alabama Merchants Increase Except in Fairhope." There seems to be an error in the tenth line of the first paragraph. The first part of the paragraph states that "in 1931 the cities and towns of this state depended on the income of business licenses for 18% of their total revenue." In 1935 the paragraph states that "3% of the total revenue was derived from this source." It looks as though the Compositor must have dropped some figure to go with 3. Please let us know if we are correct in that assumption and if so what the 1935 percentage should be?

Of course the meat of the article is that "Fairhope is one town in this State that has not resorted to making a raid on the tills of its businessmen to make up the loss in ad valorem taxes," and for this situation, of course, you deserve every congratulation.

Yours very truly,

H. T. Owens, Secretary.
