HISTORY OF FAIRHOPE THE SINGLE TAX COLONY

In Des Moines, Iowa, February 7, 1894, papers of incorporation were filed for the Fairhope Industrial Association, the forerunner of the Fairhope Single Tax Corporation. The purpose -- "to establish and conduct a model community free of all forms of private monopoly". Several sites were investigated and the location on the eastern shore of Mobile Bay between Montrose and Battles Wharf was chosen because of its climate, its beauty, and the cheapness of the land. It is reported that as plans and preparations were being discussed, a member made the remark, "There is a fair hope that we shall succeed". As a result of this statement, the name Fairhope was chosen for the proposed new community.

In November, 1894, 25 men, women and children under the leadership of Mr. E. B. Gaston came to the present site of what is now Fairhope. Most of them came by boat, landing at Battles Wharf. Two families came by covered wagon. The first purchase of land consisted of 132 acres with 2,800 feet of bay front and cost \$6.00 per acre. The seller remarked, "I now put you in peaceable possession of this land; see that you maintain it". Shortly thereafter, and additional 200 acres inland was purchased for \$1.25 per acre.

A series of obstacles confronted the early colonists: The land was submarginal; they were, for the most part, strangers to one another; they were "yankees" whose culture and social outlooks were different from those of their neighbors; all were poor and not accustomed to the type of agriculture prevalent in the new location; the slender purse of the corporation made impossible the purchase of the large tract of land that was needed to make a convincing demonstration of the Single Tax principles; early attracted to the community was a band of Socialists whose ideals were, for the most part, completely antagonistic to the economic ideals of the founders.

Gloomy were the forecasts. Prophets stated, "It couldn't be done, other colonies had failed, so Fairhope must fail". Fairhopians, however, were convinced that they had the only sound base on which to found a colony, and that on this base, they would found and build, and successfully. By 1907 the land holdings consisted of 4,000 acres. There were 125 homes, housing a population of 500. There were public bathhouses on the beach. A school and library were in operation. The community had the only public waterworks in Baldwin County. The business district had grown to contain a dozen stores, three hotels, a sawmill, brickyard, blacksmith shop, and a printing shop.

Public services are an essential part of any community and the Colonists began early to establish some of the most desired. In 1895 a public well and pump were in operation. The only feasible transportation to Mobile was by water and in 1896 the first wharf was built, Colony owned and operated. The wharf was a financial success until the causeway was built. In the same year a public school was opened and operated by the Colony. For many years no state aid was forthcoming. When the State finally appropriated funds for the Fairhope school it was enough for only 4 months. The Colony contributed enough funds to run the school for the full school year. By the time the City of Fairhope was incorporated, the school had grown to three rooms and was serving all the children in the community.

In 1898 Mrs. Marie Howland arrived in Fairhope with 1,200 books. So began the Fairhope Library in a room in her residence. The library grew under the sponsorship and aid of the Colony. Today it has its own building and is financed entirely by the donations of the Fairhope Single Tax Corporation and modest individual gifts given through the Library Association. The only public aid received is free utilities from the City of Fairhope.

During the first year the need for a cemetery arose. A choice site was chosen and for more than 60 years the Corporation has administered and maintained the cemetery, providing for members and resident lessees free burial space. Until the commercial cemetery was established, the cemetery was open to all others for a modest cost.

The need for public water grew and with it the system. The original well and pump services were extended by the Colony and when the City of Fairhope decided to assume the responsibility of public utilities, the Colony got it off to a fine start with the gift of a well, tank, pump, tower, two miles of water mains, and several paying customers.

When a municipal government was set up in 1908, the influence of the Colony in public affairs declined. Administrative duties shifted to the City government and the Fairhope Single Tax Corporation was able to devote its efforts more and more exclusively to the administration of its lands and the demonstration of "The Single Tax" within the confines of its land holdings.

In 1931 and 1932 the Town of Fairhope receives its most valuable asset: the beach park, the parklands on the bluff above the beach, Knoll Park, and the municipal pier. It is inconceivable that the Town would ever have been able to purchase this vast acreage of shaded and waterfront property for public use which, with other lands, was an outright gift for the Fairhope Single Tax Corporation. With wisdom and foresight the officers of the Corporation stipulated in the deed that the lands so donated would forever be used as public parks and not for the private use or gain of any individual or organization.

Battles Wharf, Montrose, and Daphne were established communities when Fairhope was founded. Daphne had a normal school and was the county seat. All were more favorably located when one regards the topography, terrain, and fertility of the soil. Yet, Fairhope forged ahead and outgrew all of its sister communities of the bayshore. The evidence upholds the convictions of the early settlers that the base upon which it was founded was, and is, a sound one. The only satisfactory explanation regarding the growth of Fairhope is the land policy of its founders. The availability of free land attracted people to come. The advantages accruing from Colony administration of its lands encouraged them to stay. The beach, a free gift of the Colony to the community, enhanced the charm. The fair hope of the success of the Colony has become a reality.

HISTORY OF DAPHNE

Daphne was the name given the post office prior to 1880, but long before that this section was known as Howard's Landing. Captain Billy Howard from Maine had come here before 1836 and built a resort hotel now occupied by a Scholastical School operated by the Catholic Brothers.

About 1840 Captain Billy Howard deeded land back of the resort hotel for a Methodist Church and graveyard. A slave gallery was built in the church that has been continuously used for worship by the Methodist. The slave gallery and original chandelier is still maintained in the church.

In 1907 was established in the Courthouse and Jail buildings, a State Normal School which lasted until around 1940. The buildings were razed recently and the site now belongs to the Town of Daphne and now used for recreation purposes. The bayfront is the site for an annual May Day celebration in which citizens of all the County participate.

Also around 1890 Maestro Valerio headed an Italian colony which settled in and around Daphne. Leading names were Mancini, Trione followed by Guarisco, Lazarri, Predazzi, DePhillipi, Pintarelli, Bertagnolli, Berge, Boni, Marco, Corte, Bartolli and others who made fine farmers and business men. A few years later the Greek Colony under Jason Malbis settled northeast and have built a remarkable community. Settlers of this Greek Colony in addition to Malbis were Pappas, Papageorge and Lambrakis.

In 1924 Roy L. Hammett occupied the Brownlow place which was part of the Starke settlement. Hammett was president of the Daphne Bank. Captain Joe Pose lived in the Yuille Place; Dr. Murphy and of Normal School was at the Thompson place. Rev. and Mrs. Walker of the Episcopal Church occupied a rectory that had been bought from B. N. VanNette of Ohio. He had moved his family down about 1915. Mr. VanNette's neighbors were the Nelsons, Lemoes, Smiths on what is now Van Ave. Farther toward Red Gully, south of Daphne were the Schweitzers also from Ohio.

After the severe hurricane in 1916 destroyed the Shell Banks in the south of the County, Charles and Ras Hanson came to north Daphne by boat and later settled on Randall Avenue where many of their descendants still live. The home of the Hanson's Danish grandfather, who was a Baptist Minister was brought up by boat from the Shell Banks community and rebuilt in 1926.

Many steamers, bayboats, have crossed the Bay from Mobile to stop twice daily at the old Daphne Wharf. A few, The Silver Star, Heroine, Annie, Jas. A. Carney, Louis D'Olive, The Eastern Shore, The New Daphne and the Joie. Some of the boat Captains were Bill O'Neal, Tony Ressijac, Frank Lumsden, Joe and Charles Harrub, Joe Pose and Frank Phillips.

A Mr. Davis was Postmaster in 1926 and was followed by Judge Voltz, Angle Trione, Gordon Stimpson, S. D. Lindsey, Alfred Guarisco and now Loyd McMillian.

Three words come to mind at mentioning the Protestant Churches in Daphne. Artistic for the Episcopal Church. Hospitable for the Baptist and Venerable for the Old Methodist Church where Captain Billy Howard lies in the cemetery with his two wives. Also Judge Gasour, Grace Annie Durant and many other of the old timers who loved Daphne are buried.

The small Catholic Church has been superseded by a handsome brick building on Main Street with a large membership.

The public school, which for a long time was housed in the old jail, has enjoyed occupancy of its new building of Williamsburg architecture.

World War II brought many new comers to Mobile and housing became a great problem. The Eastern Shore was the answer to this problem and ever since that time people have continued to come over the Bay to find homes. In 1940, the Federal census gave the population of Daphne as 600, in 1950 it had grown to 1,000 and the 1960 census showed another growth to 1,500. With recent additions to the Town Limits, it is now estimated that the population of the Town is over 1,800. A water supply system replacing the many wells was completed in 1952 and a sewage disposal system is now under study that will eliminate the many septic tank systems. Hard surface streets have replaced the small dirt trails about the town and future town improvements will expand and increase the growth of the community.

About a century ago, Mr. Lewis Starke deeded a parcel of land to Sandy Stirling and three others for a negro church site. The Church stands on the corner of Main and Magnolia, a landmark for the passing throng.

On south Main Street there was begun a private school for Negroes about fifty years ago. This school received endowments from friends but finally merging with County and State funds there has evolved The Baldwin County Training School that is remarkable. Professor W. J. Carroll and his staff have the commendation of the community, and as highly commendable are the parents and pupils for their decorum and industry.

Back in 1924 the then two Daphne physicians had offices in their homes. Dr. Reginald Van Iderstine maintained a home on the Bay and his widow, Mrs. Elodia Hall Van Iderstine at over ninety still lives in the house. Dr. H. J. Sims owned a home on what is now the Main Street of town.

Near the School are modern homes and nearby is Dauphmont Subdivision. Old time names in this area are Thomas, Johnson, McConico, Jones, Snowden, Pickett, Bill Bailey and Percy Morris.

FUTURE OF DAPHNE

Be that as it may we must affirm that a Town that is good to live in during the lean years is truly good for good times. Daphne in late years has become known as the Jubilee Town; due to the fact that ever so often during the summer there comes a time when the Bay seems to belch forth all its fishes on to the sandy beaches; and when this becomes known there is a cry of JUBILEE that carries throughout the Town and down come the inhabitants to grab, grasp, gig and gouge until they have great amounts to carry home. Whether you are there does not matter; your neighbor will divide his catch with you and will give you corn, tomatoes, okra and bay-leaf for gumbo and in season there are pears, plums, persimmons, grapes, figs, oranges, pecans, and also coon, muskrat or possum--your neighbor will divide. Viva Daphne!

Come along and sing Mrs. Mary Owen Carney's song written in 1926. It is still prophetic.

DOWN IN DAPHNE BY THE SEA

FIRST VERSE

Down in Daphne by the sea
Where the breezes blow so free
You will find full many a maid
Who is not so strict and staid
As her grandma of long ago
But she's just as good and that I know
And I bet you'd say so too
If you only knew.

CHORUS

You'd come to Daphne down on Mobile Bay
And there you'd stay with us alway
We'd fish and hunt and row and swim all day
Singing this rollicking song.

SECOND VERSE

The moon comes out most every night
Makes the beach so silvery white
That maids a strolling on the sands
Look like nymphs from mythical lands
They are flappers, God bless my hat
We all love 'em though and that's that
And I bet you'd do so too
If you only knew.

(CHORUS...)

THIRD VERSE

When that bridge comes over the Bay
We'll have a boom like Florida
And every flapper lest she beware
Will be the bride of a millionaire.
All the tourists will flock around
And just beg for a plot of ground
And I bet you'd do so too
If you only knew.

(CHORUS...)

A BRIEF HISTORY OF MALBIS PLANTATION

Malbis Plantation was founded by MR. JASON MALBIS, who was born in Doumena, Greece, and came to the United States in the year 1906, resolving to remain here and make his way among the opportunities this land offered to all immigrants.

Mr. Malbis introduced the idea of forming a Greek Settlement to his countrymen, to organize various businesses so as to employ as many as would come. In an effort to find a proper location for the settlement Mr. Malbis traveled some 36 states. Among them being the State of Alabama. Here he later purchased a tract of land located in Baldwin, County, near Daphne, Alabama. On which site the Plantation is now located. Many friends and countrymen came and became associates, sharing Mr. Malbis's enthusiasm for this new project. Under the direction of Mr. Malbis they extended into the field of agriculture, livestock raising, banking, lumber, turpentine manufacturing, electric and light manufacturing, canning, land development, bakery manufacturing, restaurants, motel and nursery business. It was often remarked by Mr. Malbis to his associates that his requirements for anyone working on the plantation were, "That he must be a help and a credit to the United States, to the County and to improve and advance at every opportunity, so as to prove what a wonderful land we were living in". Much experimentation was made through the years, among these the culture of silk worms and raising olive trees, which were most successful in this area. Experiment and progress were his way of life and he was a true citizen to the country to which he came and where his hopes became reality.

Mr. Malbis is now deceased and his co-workers of many years have erected a church in his memory, which is nearing completion. The Malbis Memorial Church is located on the Plantation and has many interesting facts, in its unusual beautiful construction, the marble and painted icons which have been imported from Greece. This will be open to the public at all times (See cover)

The associates of the Malbis Plantation will endeavor to continue the program of Mr. Malbis, which was progress in developing the plantation to greater capacities in the years to come. And with great confidence in the growth of the County, which Mr. Malbis so loved.
