U.S. FOREST SERVICE

Juneau, Alaska

March 10, 1967

A GOOD BUY HAS BECOME A BETTER BUY

The Washington Office informs us that the Service-wide participation in payroll deduction for U.S. Savings Bonds was 86.2% as of January 13. Our Regional participation was 77.2% at the end of the 1966 campaign. Our 1967 goal is to attain at least the 86% Service-wide average.

Help yourself and help our Region by enrolling NOW! In February, 1966, President Johnson raised the interest rate on U.S. Savings Bonds from 3.75% to 4.15%. Thus the purchase of bonds has now become more attractive. A GOOD BUY HAS BECOME A BETTER BUY. Saving through payroll deductions is effortless; and you can save part of your income automatically every pay day without fail. Check the table below and select the allotment best suited to your budget!

U.S. SAVINGS BONDS ALLOTMENT TABLE
(For additional allotments, see Treas. Dept. Circ. 677)

Allotments Amount	Number of Allotments Required to Purchase Bonds							
	\$25 Bond		\$50 Bond		\$75 Bond		\$100 Bond	
	Allt	Bd	Allt	Bd	Allt	Bd	Allt	Bd
\$ 3.75	5	1	10	1	15	1	20	1
6.25	3	1	6	1	9	1	12	1
7.50			5	1	15	2	10	1
9.38	2	1	4	1	6	1	8	1
11.25					5	1	20	3
12.50			3	1	9	2	6	1
15.00			5	2			5	1
18.75	1	1	2	1	3	1	4	1
25.00			3	2			3	1
37.50			1	1			2	1
50.00							3	2
56.25					1	1		
75.00							1	1

Bonds to be dated as of the 1st of the month in which one half of purchase price accumulates to the credit of the employee when \$50 or higher denomination Bonds are purchased.

the alaska region

Personnel Notes: Region 10 greets newcomer Grant G. Williams, forester in the Fishlake National Forest Supervisor's Office, Richfield, Utah who has been selected for promotion to the additional identical position established as Chief, Branch of Watershed and Multiple Use Management in the RO's Division of Recreation, Lands, Wildlife and Watershed Management. The promotion will be effective March 12. Grant will be accompanied to Juneau by his wife, Hope.

Grant was born in Utah, attended Spanish Fork High School and Utah State Agricultural College, attaining his degree in 1947. He has had continuous service with the Forest Service since 1948 when he was initially appointed as a Range Conservationist on the Uinta National Forest. Since that time he has been District Ranger for the Panguitch and Powell Ranger District on the Dixie National Forest and Assistant Supervisor on the Fishlake National Forest.

Promotions: Miss Joanne Ecklund, Clerk-typist on the Chatham Ranger District, was promoted in place on February 12.....Robert Fish, Forester on the Petersburg RD, received a promotion under the agency promotion plan to a newly established position in the RO's Division of Timber Management, Branch of Sale Administration. Bob's promotion was effective February 26.

Reassignments: Robert Lund, forester on the Cordova RD will be reassigned on March 12 to the position on the Petersburg RD vacated by Bob Fish. Bob plans to drive to his new duty station with his wife, Norma and daughter, Lara.

Upcoming Transfers: James Moore, Fire Control Officer in RO's Office of State and Private Forestry, has accepted a reassignment to the Southeastern Area, State and Private Forestry, in Atlanta, Georgia. Jim and family will be departing Juneau about the 5th of April.....Blaine Bowen, Regional Contracting and Office Services Officer, has accepted a promotion to an Office Services Manager position in the Washington Office starting March 26.

Other Actions: Miss Edith Westman, clerk-typist in the Division of Engineering resigned February 24. Edith will be married shortly and will accompany her husband to Florida.....Chad Converse and Robert Gerdes, foresters on the Petersburg RD, have both gone on military furlough....Robert J. Lang has been selected to fill the boat operator vacancy on the Sitka Ranger District effective February 26. Robert has been an employee of the Public Health Service and Bureau of Indian Affairs for the past 17 years. Roger was born in Metlakatla and is a graduate of Sheldon Jackson School at Sitka.

--0--

Forest Service to appear on NBC network in FBI television show. Watch for this one! SKY ON FIRE. This is the third FBI story produced cooperatively with the Forest Service. It shows the two agencies working together in trapping an incendiary-murderer.

--0--

The most dangerous thing in the world is to try to leap a chasm in two jumps.--

David Lloyd George. THE FOREST LOG 2/67

TOTEM TOPICS

From the Chugach--Gary McCoy ADR on the Kenai, and Dennis Kowalski, son of Kenai District Clerk, Donna Kowalski, were members of the Seward Basketball team which played in the Centennial Tournament in Anchorage during Fur Rendezvous week. Seward beat Nome in the first round of the tournament and then lost to Alaska Sales and Service in the second round. McCoy and Kowalski led the Seward team with 17 and 16 points respectively in the Alaska Sales game....Ann Bair, daughter of Kenai District Fire Guard, Jerry Bair, was a participant in the Miss Alaska contest held during Fur Rendezvous week in Anchorage. Ann was awarded a prize for the most improvement in poise and self confidence during the contest.....

Paul Beck, (South Tongass) RW&L staff, left on turn-around leave on March 3 for a month's vacation. Says he's going to do some farming--would you believe it, trees? Found in the Chatham RD garage, a pair of glasses. Call 6-3380 to identify..... A note from the Bill Bays says that they are now in their new home and enjoying life in North Haven, Conn. His address is 126 Bradley St., Zip Code 06473...Jean and Bob Hakala, (VIS), and children flew to Whitehorse, Yukon Territory, February 24 to attend the Sourdough Rendezvous in that city. Despite a delay in take-off due to weather, they report it was a wonderful experience for all.....The same weather fouled up Sig Olson, (RO), who was held over in Whitehorse waiting to come down to Juneau. When a second try failed, the plane returned directly to Fairbanks--so Sig was back where he started from. The mathematician in him calculated that at a cruising speed of 225 miles per hour, he traveled 3,350 miles from Fairbanks to Juneau. Anyone interested in learning how to get nowhere fast can contact Sig....Edward Kenneth Daniels, first grandson of Kenneth Daniels, (RO), arrived February 24 at Point Barrow hospital. He weighed 6 pounds and 7 ounces. His parents, Mike and Dora are stationed in Barrow where Mike is associated with Wein Airlines. Could be that south of the Arctic Circle he will be called Kenneth Edward.

There's a rumor on the Tongass of an incident in Ketchikan last month where Blaine Bowen (RO) took part in the Engineer training session. At the dinner held after the close of the meetings, Blaine was sipping his Shirley Temple when Richard Wilke said a funny. It caught Blaine in mid-sip and as a result a maraschino cherry became lodged in his windpipe. Not wishing to disrupt the proceedings, he left the dining room for some fresh air, gasping all the way. His friends followed him out and assured the inquisitive onlookers that Blaine was not "in his cups," so to speak, merely choking to death. There's something about a policeman too--but then you know how rumors go.

--0--

The South Tongass extends sympathy to Mrs. Evelyn Valentine, Resource clerk, upon the death of her step-mother, Mrs. Elizabeth Sampson who passed away in Seattle on March 2 at the age of 83 years.

--0--

REGION 10 WELCOMES ROSKIE

The Alaska Region welcomes George F. Roskie to its staff as Chief, Division of Recreation, Lands, Wildlife and Watershed Management. Mr. Roskie who holds a degree in Forestry from the University of Montana has been with the Forest Service since 1936 when he started as a junior forester at the Northern Rocky Mountain experiment Station in Missoula. Since 1960 he has been supervisor of the Lewis and Clark National Forest with Headquarters in Great Falls, Montana. As a staff officer in the Regional Office in Juneau, Roskie's responsibilities will cover both the Tongass and Chugach National Forests in such areas as protection of salmon spawning streams and wildlife habitat, soil surveys, campground planning, state selection of Forests lands and geologic analysis of watershed zones.

Active in civic affairs, Roskie has been a member of the North Central Council of Boy Scouts and a director of the Montana Conservation Council. He has been affiliated with the International Mountain Section of the American Society of Range Management and its National Advisory Council, the Montana Wilderness Association, and the Great Falls Nature and Wildlife Society. He recently won the Montana Forest Conservationist Award given by the National Wildlife Federation and the Sears Roebuck Foundation.

Mr. Roskie and his wife, Norma, have purchased a home in the Airport area. Their married daughter, Lynn, lives in Fort Collins, Colorado, and son Richard, attends Law school at Willamette University, Salem, Oregon.

--0--

The Office of State and Private Forestry held a Fire Overhead Workshop in the RO conference room, February 20 and 21. This is the first formal training session to be held in the Region and was programmed to fulfill a much needed fire training service in the Alaska area. Frank Bailey, Division head, coordinator, Jim Moore, and instructors, Dave Blackner, Blaine Bowen, Bob Janes, and Carl Swanson state that the enthusiastic response of the trainees helped make the two day session a stimulating and productive experience.

The list of trainees from the Region included, Mel Mitts, Chugach SO, Richard Davis, Sitka RD, Walt Peterson and Jim Crigwell from South Tongass, Ray McLaughlin, Jay Davis, Fred Nichols, Slim Schwartz and Lyle Jack from North Tongass. The RO was represented by Bob Smith, John Raynor, Bruce Baker, John Niebergall, Bob Matson, Ron Hayden, Weldon Cook, Terry Reetz, Ray Brown, and Ken Hanninen.

"One can accomplish much in this world if he doesn't care who gets the credit." Anon.

Institute of Northern Forestry Happenings: Dr. Neil W. Hosley has joined our staff as a collaborator during his sabbatical leave from Southern Illinois University. Dr. Hosley is primarily interested in investigating forest-wildlife relationships in Alaska's coastal forest region. The increasing interest in the utilization of the timber resources of the old-growth forest adds to the timeliness of such an investigation. Dr. Hosley will be with us until mid-May....Torolf (Torgie) Torgersen has just returned from Las Vegas where he attended the Western Forest Insect Work Conference during the week of February 28-March 3. He stopped in Portland on the return trip and spent a profitable week with the Station's entomologists there....Robert A. Gregory left Fairbanks March 4 to return to school at Corvallis, Oregon, where he will continue work on his PhD. during the spring and fall quarters. He will be away from the Forestry Sciences Laboratory until the end of the fall quarter....Dave Witt came from College, Alaska to participate in the annual Professional Indoctrination course provided by Region-10 the week of March 6-10.....Gary Carroll of the forest survey project has received orders to report for his six months of basic training with the National Guard. Gary will report on March 27 at Fort Leonard Wood, Missouri....Doris Howe has joined our clerical staff as assistant in the library two days a week--Tuesday and Wednesday--until the end of May. Doris is a professional librarian. Her husband, Robert E. Howe, is Superintendent, Sitka and Glacier Bay National Monuments.

--0--

Sick Bay: Barbara Cooper, (Robert, S&PF, husband), can't write yet after surgery on her shoulder but she sends her thanks from Seattle for the beautiful bouquet she received from the RO...Tom Brown (RLW&W) went home Monday with the flu. The same flu bug making the rounds in Juneau these days....Stacey McGee, 5 year old daughter of Pat, (I&E) is well on the mend now after surgery for a kidney ailment. Her sisters, Donna and Joy Lynn are happy to have her home again....Mae Femmer, (RLW&W) is back at her desk again after a week's recovery period. Mae received shoulder and back injured February 25 in an auto collision on Douglas Highway....Howard Sears, (wife Evelyn, RO) who tore the Achilles tendon in his right leg in a fall last November, is recovering from remedial surgery. Although still on crutches, he is able to drive his car at long last.

A Look In The Future:

Greenhouses on the Moon? It's not so wild a dream. The first U.S. space men on the moon are scheduled to bring back 50 pounds of rock and soil. If U.S. Department of Agriculture scientists find it will grow plants, they say there's no reason why greenhouses with artificial atmosphere cannot be used to grow food on the moon.

News Clip from WRANGELL SENTINEL:

"This is to give a pat on the back to one of our public servants. Four years ago Wally Watts (Wrangell RD), was handed a group of 5th and 6th grade boys to shape into a basketball team, which he did. Since then every year he has taught the rudiments of basketball and has taught good sportsmanship to countless boys....Wally has done a fine job with no fanfare and has turned out some good ball players. Wally is being transferred and I did not want him to get out of town not knowing his efforts were appreciated. Thank you Wally from an appreciative parent." /s/ Jim Jabusch.

--0--

Timber Management News:

Staffers in the Division of Timber Management have been busy lately attending conferences and workshops in the Lower 48. Chief Lockhart was in Berkeley, California, February 5 - 17 to participate in the Executive Seminar Center Program sponsored by the U.S. Civil Service Commission. As a member in the "Administration of Public Policy" seminar, Mr. Lockhart had an opportunity, in an academic setting to hear lectures by and to have discussions with knowledgeable visiting faculty from academic, business, and government life.

David Crosby, Section Head, Insect and Disease Control, returned March 4, from Las Vegas, Nevada where he attended the 18th Western Forest Insect Work Conference, from February 28 to March 3. Crosby's contribution to the session was as chairman and lecturer for the workshop entitled, "Evaluation of Defoliators."

U.S. FOREST SERVICE

Juneau, Alaska

March 24, 1967

1967 FOREST SUPERVISORS' MEETING

The Regional Office played host to the 1967 Forest Supervisors' meeting, March 20 to 23 in the RO conference room. Regional Forester, Howard Johnson opened the conference with a report of the Regional Foresters and Directors meeting held earlier this month in Washington, D. C. Kenneth Daniels, Assistant Regional Forester acted as General Chairman of the session.

Key reports were submitted by Forest Supervisors, John Crupper, Chugach; Gerry Van Gilst, South Tongass, and his staff officer, Arnold Johnson; Vince Olson, North Tongass and staff member, Jack Bennett.

Director Richard M. Hurd, Austin Helmers, William Meehan and Jim Patric were contributing representatives of the Institute of Northern Forestry.

Administrative Management was represented by Branch Chief, Bob Janes, and Section heads, Blaine Bowen, Howard Beaver and Max Hayes. Herman Baker and Bob Reynolds were spokesmen for Fiscal Control. Other participants from the RO included, Jack C. Culbreath, I&E; Frank Bailey, Jim Moore, Bob Cooper, S&PF; George Roskie, C. T. Brown, Dan Bishop, Sig Olson, Bill Sheridan, Freeman Stephens from Recreation, and Lands, Wildlife and Watershed Management; Russ Lockhart, Carl Swanson, Ben Carson, John Watson all from Timber Management; Dick Wilke, Harry Gillette, Cecil Stowell, and Bill Bayer, Engineering, and Roy Abel, John Niebergall from Personnel Management.

Buy U.S. Savings Bonds Regularly on the Payroll Savings Plan

the alaska region

WELCOME CHEECHAKOS: Region 10 welcomes these newcomers to Alaska--

Craig H. Lindh, forester on the Lochsa RD, Clearwater National Forest in Idaho has been selected for promotion to the forester position on the Chatham RD vacated by Royal Hansen. Effective date of his promotion was March 12. Craig was born in Missoula and received his degree in forestry from Montana State University in 1961. He is unmarried. He served with the armed forces in the Army during 1962 and '63.....Ronald C. Galdabini, forester on the Detroit RD, Willamette National Forest in Oregon, has been selected for reassignment to a new forester position in the Supervisor's Office, South Tongass NF, effective March 26. Ronald was born in Eugene and received his degree in forestry from Oregon State University in 1959. He then served in the U. S. Navy during 1960 and '61. His wife, Karin L., and daughters, Kristin I. and Korrine L. will arrive with him by ferry.....Due also on March 26, is Verner W. Clapp, Jr. forester in the Northeastern Area, Duluth, Minnesota. He has been reassigned to the forester position in the Office of State and Private Forestry, RO, vacated by Carl Swanson. Verner was born in Washington, D.C. and served with the U.S. Navy from 1955 to 1959. He is married to Jessie A., and has three sons and a daughter, Christopher, Timothy, Daniel and Nancy....James M. Ruppelt, forester in the SO of the Stanislaus National Forest in California will also join the Office of State and Private Forestry, when he is promoted to the forester position vacated by James Moore on April 9. James was born in Grundy Center, Iowa and received his degree in forestry from Iowa State College in 1951. He is single and plans to drive to Juneau....John W. Marceau who is currently on the Seeley Lake RD, Seeley Lake, Montana, has been selected for reassignment to a forestry technician position at Sitka on April 9. He has been with the Forest Service in Region 1 since 1959. He will drive to Sitka with his family, wife Janet, and sons Mike 11, Curtis 9, Scott 7, and Mark 5....Another new Forestry Technician from the "lower 48" is Fred A. Zeigler who will be reporting on April 9 at Ketchikan for duty on the Ketchikan RD. Keith is being reassigned from Region 6, Suislaw NF, Smith River RD where he has been employed since 1961. His wife Frankie, daughter, Bonnie, age 5, sons Keith 11, and Tracey 7 will join him in his drive to the First City....Dale J. Paulson, Cheechako from Soil Conservation Service at Ladysmith, Wisconsin will also arrive in Ketchikan for his April 9 appointment as Soil Scientist in the South Tongass SO. Dale was born in Wisconsin and received his Bachelor's degree from the University of Wisconsin in 1966. His wife, Elva will accompany him on the ferry trip north.

MORE PERSONNEL NOTES--Other Actions.....Kenneth E. Mitchel, Forester on the Ketchikan RD, South Tongass, has been promoted to the forester position on the Cordova RD on the Chugach. The effective date is March 12. Kenneth was first employed on the Kasaan RD in 1964 and transferred to the Ketchikan RD in February, 1966. He is married to Angela and has a son Sydney and a daughter Grey.....Mildred Lewis has entered on duty at the Petersburg RD as clerk-typist. Mildred was born in Petersburg, attended the Petersburg Schools and the University of Washington...Mrs. Flora Beierly was selected under the promotion plan to fill the clerk-typist position in Timber Management vacated by Barbara Britt. Flora has been working with Personnel.

Mrs. Lorraine Murrell reported for duty March 13 as clerk-typist in the Branch of Personnel Management. She is filling the position vacated by Flora Beierly. Lorraine has been in Juneau since 1965 and lives at 1744 Glacier Avenue with her Coast Guard husband Bob, and children, Carolyn, age 16, and Tommy age 15.

FOREST SERVICE LIBRARY - Juneau

For those who still don't know where we are or what we can do.

The library is in Room 655 of the Federal Building. Each month we issue an accession list of our new holdings and we also have on hand similar lists from other libraries; P.N.W., Auke Bay, Alaska Fish and Game, and others.

If we don't have what you need we can readily obtain it thru inter-library loans from any university in the U.S. or Canada or from Inservice libraries and the National Agricultural Library in Washington. We can also borrow books from some of the fine office collections here in the Federal Building. If necessary we might even consider purchasing the book. We're always ready to listen to your suggestions.

Although most of our holdings are strictly scientific we do have some "light reading"; forestry in other countries, biographies, etc., various state conservation magazines and even a few daily newspapers. Visitors from the Forests are especially invited to come in and browse when they are in the Juneau area.

WHY MUST WE TEACH CONSERVATION?

"Conservation means many things to many people, and something different to each. We might say on that basis that it is not possible to teach conservation. But we can agree that conservation involves man's attitudes and actions toward the world in which he lives. Hopefully, we can say that conservation involves man's attempts to use his world in such a way that he lives in harmony with it.

"Why is it important that we learn about the things that will enable us to use the world in an attitude of harmony with it? Man is a living thing. That is, he is aware of his environment--the things around him-- and reacts to it. "...Man is an animal, a special kind of living thing. He is dependent on his environment as the source of his energy, his food, his water, his air. If he does not have adequate amounts of each, he will die. Man is a special kind of animal, a thinking, reasoning, choice-making animal. He is capable of varying his reactions to his environment. As a result, man has the power to change his environment to suit himself, or to meet his needs for life. Of course, the beaver changes his environment when he dams a stream and floods a forest area. But the beaver does this by instinct, not by choice.

"Man is the only living thing that can consciously control its environment, his world. He can transform it. He can destroy it. He can preserve it. He can use it so that it will continue to produce the products he needs for his life. If he so wills, and if he knows how, man can live in harmony with his world. To do this, he must learn all he can about his environment, his own and other men's relations to it, and its relations to them. This is the task of teaching conservation. What will it involve?"

...Excerpts from article by Matthew J. Brennan, Director of Field Studies, Pinchot Institute, in Nature & Science 4/65 (copied from Northern Region News, 11/66)

CSC Announce Salary Rates Adjustment:

The Civil Service Commission has increased the minimum salary rates and rate ranges for positions in grades GS-9, 10, 11, and 12 for professional engineers, landscape architects and hydrologists. This pay adjustment became effective February 12. New schedule is:

Per annum rates										
Grade	1	2	3	4	5	6	7	8	9	10
GS-9	\$ 9,001	\$ 9,262	\$ 9,523	\$ 9,784	\$10,045	\$10,306	\$10,567	\$10,828	\$11,089	\$11,350
GS-10	9,573	9,861	10,149	10,437	10,725	11,013	11,301	11,589	11,877	12,165
GS-11	10,481	10,796	11,111	11,426	11,741	12,056	12,371	12,686	13,001	13,316
GS-12	11,306	11,685	12,064	12,443	12,822	13,201	13,580	13,959	14,338	14,717

THE SUPERVISOR'S PRAYER

"Dear Lord, help me to become the kind of supervisor my management would like me to be. Give me that mysterious something which will enable me at all times satisfactorily to explain policies, rules, regulations, and procedures to my workers even when they have never been explained to me.

"Help me to teach and to train the uninterested and dimwitted without ever losing my patience or my temper. Give me that love for my fellowmen which passes all understanding so that I may lead the recalcitrant, obstinate, no-good worker into the paths of righteousness by my own example and my soft persuading remonstrance, instead of busting him in the nose.

"Instill into my inner being tranquility and peace of mind that no longer will I wake from my restless sleep in the middle of the night crying out, 'What has the boss got that I haven't got and how did he get it.'

"Teach me to smile if it kills me.

"Make me a better leader of men by helping develop larger and greater qualities of understanding, tolerance, sympathy, wisdom, perspective, equanimity, mind-reading, and second sight.

"And when, Dear Lord, Thou has helped me to achieve the high pinnacle my management has prescribed for me, and when I shall become the paragon of all supervisory virtues in this earthly world, Dear Lord, MOVE OVER. Amen."

....The Alaska Inner Circle, U.S. Bureau of Sport Fisheries & Wildlife.

Answer the Phone!! The intercom system in the Timber, Soil and Water Lab (INF) offices have been inoperative since they moved in last year. The problem of calling someone to the phone entailed a dash down the hall, and in and out of several doors --time consuming and frustrating for a busy secretary. However, INF people, long noted for their ingenuity solved the problem by running a cord through the ceiling slots of the partitions, from the phone desk to the offices down the hall. Attached to the other end and suspended from an air vent, is a three pound coffee can containing bits of lead pipe. When the cord is tugged vigorously by the secretary, the can rattles loudly on the other end. Voila! and the affairs of the Lab proceed expeditiously. Upsetting though when an unsuspecting visitor happens to be in the vicinity when the electronic-free system sounds off.

--0--

FROM SOUTH TONGASS--The Ketchikan Bowling Association's annual tournament saw several ST men bowling "over their heads" this year. Paul Beck, Alan Aitken, Steve Taylor, and Harold Howard made up the team sponsored by Harry's Gateway Services. Paul and Howard won the doubles event with 1269 pins. In the singles, Harold Howard placed 12th with a 618 series. Both Harold and Paul Beck finished high in all events. Howard came in first with an 1899 total and Beck fourth with the 9-game score of 1821. Paul left on a vacation to Missouri just after bowling and it's rumored that the tournament secretary was informed that he didn't particularly care about a cash award but that he would sure like a big trophy to display in his house trailer.
