

Dixie National Forest Supervisor Roll Call

The **Dixie National Forest** (est. 1904) today is comprised of the acreage of three original National Forests-the **Dixie**, the **Aquarius (later Powell)**, and the **Sevier**. Very early in its existence, the Dixie National Forest also included acreage in Nevada and Arizona until new National Forests in those states absorbed those acreages.

1904-1922

Sevier National Forest (before combination with Dixie and Powell NFs)

Beaugard Kenner	1905-1906
