# Public Service System

THE Public Service Trolley System embraces all of the traction lines in Northern and Central New Jersey, with two exceptions. It is the greatest Interurban system in the world under one management. Over a million people live in the territory reached by the lines of the Public Service. In addition to the interurban lines that stretch from Fort Lee and Paterson on the north, to New Brunswick, Somerville and the Amboys on the west and south, the Public Service operate the local lines in Newark, Paterson, Passaic, Jersey City, Hoboken, Elizabeth, Plainfield, and New Brunswick. Recently the Camden, Gloucester and Woodbury and the Camden and Suburban Railways were acquired. These lines run out of Camden.

Unbounded opportunities are offered the seeker after rest and recreation in the territory reached by the Public Service system. One can leave the skyscrapers and marts of commerce and industry in Manhattan, and, within an hour, be secluded in a primeval wilderness on the banks of the Hudson. In a little longer time the Orange Mountains can be reached, with their ever cooling breezes and wonderful views.

There are rides in modern trolley cars, past spots famed in history and story; places that teem with deeds of valor, where our forefathers fought for independence; rides along the historic Hudson on top of the Palisades; rides over the meadows and along beautiful rivers; rides to mountain tops; rides to the seashore and rides through pleasant farming country and beautiful villages and towns.

**Bayonne Line**

Pleasure seekers from New York or Brooklyn can reach all of the traction lines leading out of Jersey City by taking the Pennsylvania ferries at Cortlandt, Desbrosses or Twenty-third Streets or the Annex. All cars start from the street railway station adjoining the ferry house. Through Bayonne to Bergen Point is a popular trip during the summer months. From the car can be seen the Statue of Liberty, Ellis Island, and the crafts of all nations anchored in the roadstead. Bergen Point on the Kill von Kull, the terminus, is a favorite resort for trolley parties, and is famed for its shore dinners.
