Deposits - - \$600,000.00

INSTRUCTIONS

The careful observance of the following will aid materially in securing good service:

ALWAYS CONSULT THE DIRECTORY BEFORE CALLING FOR A NUMBER.

Subscriber's Number:—Each subscriber's telephone is designated by the number to the left of his name. If a number is prefixed by a color, in calling for a subscriber it is necessary that both the color and number be given.

Telephone Directories:—Will be issued quarterly if the number of additions and changes warrant same. The Company assumes no liability for damage arising from errors or omissions in making up or printing of the directory. Subscribers are requested when they desire a change made in their insertion to notify the Company in writing at least one week in advance.

In talking, speak in a moderate tone and directly into the transmitter, with the lips as close as possible to the mouth-piece. To call central take the receiver from the hook, place it to your ear and the operator will say "Number?"

When operator receives number of subscriber wanted she will repeat them to you in order to avoid mistakes. Should the operator tell you "Line is busy, call again," it means that the desired subscriber's line is engaged.

When a conversation is finished, be sure to replace the receiver on the hook, otherwise your line tests busy.

Long Distance Calls:—To make connections with outside towns, remove the receiver from the hook and call Long Distance; when the operator says Long Distance, give your telephone number and name, and telephone number of party wanted and name of town.

Telephone 300:—In addition to the original use for which this department was established—that is, the reception of complaints—and for the general benefit of the service, more operators have been added, whose duties are to give the attention to subscribers asking for general information regarding change of subscribers' numbers, names, location, names not in directory, etc., etc.

This Company sincerely desires to give the best service possible, and to that end will spare no expense, and will thankfully receive any suggestion calculated to give any more satisfactory results.

Uniform courtesy and politeness is an imperative rule of this Company, and any infraction thereof will receive prompt attention if reported by letter or telephone to the Manager's Office.
