# The History Of the Skeeters

Welcome to the beautiful Northwoods of Wisconsin and the Manitowish Waters Skiing Skeeters Water Ski Show. The Skiing Skeeters are one of the oldest amateur water ski clubs in the United States today. The Skiing Skeeters is a non profit club performing for your entertainment and for the thrill of the sport.

Originating from their predecessors, the Manitowish Waters Boat Club, the Skeeters preserve a long tradition of heritage and innovation. The Manitowish Waters Club was made up of year round and summer residents and established itself in the late 1950's. Skiers in the Boat Club presented ski shows on Manitowish and Rest Lakes and even at community celebrations elsewhere. Using skier owned boats and equipment the Boat Club became organized, saving donations collected during their shows.

In 1961 the Boat Club formally took the name Skiing Skeeters and established a permanent show site on Rest Lake. 1961 also saw the Skeeters acquire their first tow boat. Custom designed and built to Skeeter specifications by Lyons Industries. Powering the boat were two 75-hp Evinrude engines donated courtesy of Ray Smeeth Sporting Goods.

By 1962 the Skeeters had built their own jump and acquired lighting and public address equipment. These young talented water skiers were providing thrilling professional level entertainment for many summer guests and visitors. Along with top level ski shows, the club also concentrated on promoting water safety.

The first statewide barefoot tournament held in the U.S. was sponsored by the Skeeters in 1964. The Skeeters won the team event and kept that title for the following five years. The Nationwide publicity of this event established Manitowish Waters as "The Barefoot Capitol of the Midwest". In 1967 at the first ever State Water Ski Show Tournament, the Skeeters emerged as State Champions. In addition, the Skeeters produced a National Barefoot Champion named Caleb Feiereisen who was later inducted into the Wisconsin Water Ski Hall of Fame in the late 1990's.

Through the 70's and early 80's the Skeeters continued to provide entertaining shows. However, in 1987 the Skeeters were confronted with moving to a new site. With assistance from alumni members and town support the club was able to complete the transition to its present site. The relocation has provided the club with a beautiful natural amphitheater for its shows.

The success of the Skiing Skeeters is a fine tribute to the business acumen and imagination of it's executive group, aggressive members and to the generous cooperation of local individuals and business owners who have contributed their advice, time, services, products, and money.

Please express your appreciation by donating and patronizing our worthy sponsors. The money collected today will be used for operating costs, equipment replacement costs, new equipment, gasoline, boat maintenance etc.. Without your support the show would not be possible.

**THANK YOU FOR YOUR DONATION AND FOR KEEPING A TRADITION ALIVE!!!**

# SKI ACTS

Performed by the Manitowish Waters Skiing Skeeters.

## **Opening One Foot**

Often the opening act of the show, 2 very skilled skiers step out of their slalom ski onto their bare feet at speeds of 50mph. Once on their feet they lift up their one foot and wave it in the air to all of you on the shore.

## **Boat Into**

Our skilled boat drivers put their driving skills to the test, by showing you how they can whip around our high powered boats at high rates of speed.

## **Ballet**

Ballet is one of the most graceful acts in our show. This act consists of the lovely Skeeterettes performing a series of synchronized dance and ballet moves while on the water.

## **Slalom 360**

This act combines skill and grace as the skier cuts back and forth across the wake on a single ski. Making this task even more difficult, the boat driver will attempt to whip the skier 360 degrees around the boat.

## **Barefoot Cut Under**

This act is performed at 40 mph. One of our finest jumpers hits the ramp and pops off attempting to attain maximum height and distance while in the air. At the same time, a barefooter will cut underneath the jumper before the airborne jumper lands.

## **Pyramid**

A classic ski act, in which some of the bravest skiers climb on top of their fellow skeeters to form a pyramid. The pyramid act exhibits the beauty and brawn of skiing.

## **Mixed Doubles**

Mixed Doubles originated from Ice Skating and is one of our most graceful acts. This performance combines the strength and action of gymnastics with the grace and beauty of ballet.

## **Back Deep Barefoot**

A barefoot starting position, which, without the aid of skis, enables the barefooter to assume the backward barefooting position. This is one hard act!

### **Saucer**

Many beginners use the saucer as a learning tool for skiing. Based on the skill of the skier, variations of difficulty can be demonstrated when using the saucer. Our act involves a stool and saucer. The stool is placed upon the saucer and is climbed upon to complete various turns.

### **Rope Braid**

One of the many dangerous acts performed in the show involves several skiers with different length ropes weaving back and forth across the wake. The trick is to avoid the other skiers ropes and spray. Watch out for the rope!

### **Backward Slalom 360**

On a slalom ski that has the binding reversed, a veteran member of the club, "The Professor of the Slalom Ski" performs a 360-degree turn around the boat while skiing backwards. Now that's skill!

### **Two Ski Jump out**

As many as seven barefooters will crouch down and at the count of 1,2,3 jump out of their skis while going more than 45 mph. Watch out for the flying skis.

### **Wakeboarding**

Wakeboarding has quickly become one of the most exciting water sports of our time. Wakeboarding is an exciting and skillful act in which the performer attempts to exhibit several maneuvers.

### **Trick Skiing**

Trick Skis, which are small in size, and have no stabilizing fin which allows the skier to perform many different tricks. Think it looks easy? Guess again!

### **Human Skis**

Not only do we ski on skis, but also on humans. Our two bravest people provide the skis, while our smallest skier stands on their backs. Don't try this at home!

### **Canoe Paddle**

This is a very difficult act where we take an ordinary canoe paddle and ski on it. This paddle has no bindings to put your foot in, therefore it is very difficult to stand up on it. It's all about balance and skill!

### **Clown Act**

Our show often includes off the wall misfits who try to out ski and out jump the Skeeters. Although the clowns are good for a laugh, they haven't succeeded yet. Keep on trying guys!
