

**"TED" KOERNER  
DESERTS MELODY  
FOR THE ABODE  
OF THE MUSKIES.**

**Well Known Milwaukee Salesman  
of Pianos Buys Summer Resort.**

These are Koerner, of the Koerner Bros. Musical Instrument house, Milwaukee, the senior member of which is Alderman John Koerner, of Milwaukee, has purchased the property known as "Spider Lake Resort," located at Manitowish, Iron county, Wis., and is now on the premises engaged in righting up things for the coming season's business. "Ted" Koerner has sold musical instruments in Wisconsin cities for many years past, and his wide acquaintanceship is on a level with his personal popularity, which coupled with the fact that the resort is one of the ideal spots for an outing in the state, is indicative that his venture will prove a success.

Spider Lake Resort is located on a chain of 12 lakes, generally known as the Manitowish Waters and which are noted for their fine fishing. The fact that the resort is located between Spider and Manitowish Lakes and directly in the center of this chain, renders it possible for sportsmen to make a trip to any one of these lakes and return the same day. Pike and bass are caught in great abundance and more large muskellunge are turned out of these waters than at any other known to sportsmen in the North-west.

The summer resort consists of one main building and twelve cottages, the latter giving accommodations for from one to ten people and furnished with stoves, tables, single and double beds, screen doors and windows. The main building is composed of concrete, is newly built, and consists of a large spacious sitting room, dining room and kitchen, with a large veranda reaching almost around the building. A double fire place opens into both sitting room and dining room, and here guests may sit, enjoying the cheerful blaze, and tell about the big musky that they didn't catch.

With the improvements contemplated and completed, the hotel and cottages will be able to accommodate about a hundred guests.

THE TIMES wishes "Ted" his full measure of success which is certain to materialize with such a genial, gentlemanly boniface in charge of "Spider Lake Resort."
