## PRESIDENT'S MESSAGE

A site in Naples that gives extraordinary delight is the one created on the Depot grounds by the two old and enormous Ficus trees that dominate the west garden along Tenth Street. Trees of this genus, *Ficus nitida*, are notable for their shade and their abundant generation of oxygen. This latter characteristic is especially important in an area that has so many light oxygen producing trees, Naples' graceful palms and evergreens. It is good that there are many Ficus trees in Naples.

Our Ficus trees were planted 55 years ago at the time of the completion of the new Depot. They were among the first signs seen by tourists arriving by train.

At the time of the initiation of the movement to "Save the Depot" the Collier County Commission was prompted to note these remarkable trees and as a consequence they were officially declared by the Commission to be "Specimen Trees" under an ordinance designed to protect trees of particular environmental or historical value. The giant trees at the Depot were the first to be so designated.

Southwest Heritage has committed itself to the care and preservation of these remarkable examples of the beauty and beneficence of nature for all to enjoy. The Board has placed benches in the shade of the trees. From time to time townspeople, visitors and nearby office workers on their lunch hour will rest for awhile in respite from the sun. On a hot day it is always a few degrees cooler under the generous umbrella of the Ficus and, invariably, there is a breeze.

If you haven't done so, I urge you to come and savor this spot and rest for awhile. One might contemplate on the ways of God and man under these trees. Legend has it that Gautama Buddha contemplated under a Ficus tree and received Enlightenment. Who knows, it could happen again.

Howard L. Rubendall, President

## UPTON TO BE VISITING SCHOLAR

Visiting scholars are essentially free to follow their own line of research, and while in Naples use much of their time compiling data and writing scientific papers of research already accomplished. Small symposia are held at the Scholar House of a scientific nature dealing with the visiting Scholar's discipline. The Membership Committee of Southwest Heritage is soliciting new members and requesting our Regular, Family and Sustaining Members to renew their 1982 memberships at this time. The coupon below can be used for this purpose.

## END OF THE LINE STORE

Volunteers from the Store will have tables for selling the NEW, NEARLY NEW, ANTIQUES AND COLLECTIBLES outside the baggage car on the day of the February RAMBLE — the 14th. Several stores in other years have contributed to the RAMBLE and Southwest Heritage members are asked to learn if their favorite merchants have goods they want us to have, in exchange for a tax deduction. Thank you — call 262-1167 if there are questions.
