CARPOOLS

This yearbook is dedicated to the endless streams of cars which carry today's teachers from every surrounding community to the center of their working world, "Immokalee Middle School". Day in and day out teachers cram into their cars opening their red-eyes only long enough to view the spectacular red morning sky. The hum of the road is the music by which they support each other, give advice and brag about their students. It is not an unusual sight in Immokalee to see cars lined up at the drive thru, carrying teachers from all over waiting for their Pepsis "the taste of the new generation". Long live the carpool and may it keep all its teachers safe.
