Sir:

Enclosed is an "introduction card" to
you and other American Legion posts.
My principals and yours do not agree,
and I could not conscientiously use it.

It is possible your action in the case
of the American-Japanese is justified.
An honest effort on my part fails to
show that to be the case. But if you care
to make an effort toward salvaging a
member I would be very glad to hear it.
Heretofore I've admired the Legion.

As things stand now I am not, as
the card expresses it, a "Legionnaire in
the making".
