Gentlemen -

Word of your anti-Jap-American actions has come overseas. We came overseas, I thirty months ago, to do what we could to combat such tactics.

I've heard a great deal of comment, particularly since this incident, as to why the Japs do definitely not want the American Legion to continue being the power it once was. Such incidents and such resulting comment are pleasant assurance that it will not be.

What war are you fighting?

Sincerely

T/Sgt Joseph B. Nash
