Monrovia Telephone & Telegraph Co.

Ross Radio Store

1015

How many times have you heard this, whenever you have called for service or information on Radios?

Though we may never have met in person, your business is appreciated. The oft-repeated statement, "We are as near to you as your 'phone," is no empty remark with us. May we continue our past relations and prove our statements to be true.

We handle the General Electric, Crosley, Zenith, and Grunow line of Radios; also well known makes of Midget Radios.

Grunow and Crosley Refrigerators and the General Electric and Westinghouse line of washers are carried in stock.

Hot Point Irons and other electrical appliances.

Purchases made at our store and bought on contract are also handled by us, under the care of Ralph L. Woehl, so that contracts do not need to be made to an outside finance firm.

If in need of any of the above we are still in business at the same old stand.

ROSS RADIO STORE

Phone 1015 118 W. Lemon Ave. Monrovia

GENERAL INFORMATION

Telephone Directories

Directories will be issued and distributed once each year. Notices will appear in the local newspapers announcing the closing date of each issue. All changes or additions to the directory must be filed with the Monrovia Telephone and Telegraph Co., prior to this time.

Number Changes

The Company may change the number of a subscriber's telephone at any time that the requirements of service demand it.

Long Distance Calls

Number Service

Station to Station calls to certain points may be obtained by giving the desired town and number to the operator. A partial list of these stations may be found on another page.

Long Distance

Station to Station calls to points not reached by number service, and all person to person calls may be obtained by calling Long Distance.

Trouble Reports

Reports in regard to trouble with the equipment—lines out of order, telephone broken, poor ringing—should be given to the Trouble Department. Reports as to general service should be made to the Chief Operator.

Information Calls

Always consult your directory before calling a number. If the desired party's number is not listed, the number may be obtained from the Information Operator. Numbers listed in the directory are not given out.

Advertising

Advertising—information as to Rate, etc.—Call the Monrovia Telephone Office, 1000.

Buyers' Guide

The Buyers' Guide in the back of this directory is a complete alphabetical index of buying information. Turn to the yellow section for what you want.

This Company sincerely desires to give the best service possible, and to that end will spare no expense. We are glad to receive any suggestions that may in any way aid in giving more satisfactory results. Uniform courtesy and politeness is an imperative rule of this Company. Any infraction thereof will receive prompt attention if reported by letter or telephone to the manager's office.

MONROVIA TELEPHONE & TELEGRAPH CO.

O. A. PREST, District Manager

INTER-CITY CALLS

Determine whether STATION-TO-STATION SERVICE or PERSON-TO-PERSON SERVICE is desired. To assist you in deciding, these two types of service are explained below.

STATION-TO-STATION SERVICE

A Station-to-Station call is one on which you talk with ANYONE WHO ANSWERS at the called telephone.

FEATURES OF STATION-TO-STATION CALLS

1. They are completed more quickly.
2. The rates are less than on Person-to-Person calls.
3. There are no report charges. (An exception is a Collect Call on which the party at the called telephone refuses to pay the charges.)
4. Rates are reduced during the evening and night hours if the initial period Station-to-Station day rate exceeds 25 cents.
5. Charges begin when called telephone is answered.
6. Charges may be made collect without any change in rate when the initial period rate is 25c or more; when the initial period rate is 20c, a collect Station-to-Station rate of 25c applies, and when less than 20c the corresponding Person-to-Person classification and rate applies, provided this service is available.

REQUESTS FOR CHARGES

If a person desires to be advised at the conclusion of his conversation of the amount of the charge on his call, time will be saved by so notifying the long distance operator at the time the call is placed. If the request for such information is not made until the completion of conversation, unavoidable delay may result while the operator ascertains the rate and computes the charge.

PERSON-TO-PERSON SERVICE

A Person-to-Person call is one on which you talk with a PARTICULAR PERSON (or Private Branch Exchange Station) SPECIFIED BY YOU.

FEATURES OF PERSON-TO-PERSON CALLS

1. A 3-minute period from start of conversation is allowed before overtime charges begin.
2. If the called telephone is reached by the operator but the call cannot be completed because the person desired is not available a nominal report charge is made.
3. Charges may be made collect at no additional cost.
4. An APPOINTMENT CALL to be completed at a specified time, may be arranged for at a small additional charge to points in the states of California, Nevada, Oregon and Washington.
5. A call requiring the use of Messenger service may be arranged for at a small additional cost to points in the states of California, Nevada, Oregon and Washington, plus the charges for Messenger Service.

COMPLAINTS

The company appreciates prompt reports of specific instances of unsatisfactory service. Such reports should be made promptly by telephone so that they may receive immediate attention. Call "Repair Service" when it is necessary to report telephone out-of-order or other unsatisfactory service. Operators are required to be courteous in their dealings with subscribers, but are not permitted to engage in conversation beyond that necessary to complete connections.

Business Allies

IN this era of competitive distribution problems, rapidly changing market conditions and price fluctuations, successful salesmen increasingly depend upon their proven business ally—the telephone.

Physical limitations prevent calling frequently in person upon widely scattered customers, but the *personal touch* in business is easily maintained by consistent use of the telephone.

Speed, economy and dependability have made this personal means of communication with customers or prospects nearby and in distant places an important factor in successful sales programs everywhere.

From your telephone, you can now talk with over 70,000 cities and towns in the United States, to any telephone in Great Britain and many points in Canada, Mexico and Belgium, Holland and Germany.

Your voice to millions—by telephone

In Harmony With The Finest Appointments
