1993.3.148 – Church Family cemetery chart.

The date of creation and author of this chart is unknown. The following list is compiled from the chart and other sources.

Notes on this list:

- Chh refers to the Church Family.
- South Family is also known as the Second Family.
- The number column relates to the number in red pencil on each entry. They are faint, but still visible on the higher resolution image linked to the online collections record for the cemetery chart. They are numbered on the chart left to right by row on the left side of the chart, then begin at #161 on the right side of the chart and continue left to right by row on the right side.
- A list of the burials at the Second Family Cemetery is included at the end for reference. This cemetery is about a mile south of the Church Family cemetery, and the names are not included on the Church Family cemetery chart (193.3.148).
- This list is arranged corresponding to the rows on the chart.
- This pdf document is searchable. Use your pdf reader search function to find a name on the list and use the number to quickly find that entry on the chart. The reverse can be useful as well, if you have a number or name from the chart, search the list document to quickly find it. The data on the list is exportable to a spreadsheet if you need to sort on a specific column.
